

in front of his residence and, while using a grass cutter between the trees, assumed a kneeling posture, when the blade of the knife made a sudden turn, causing the point to penetrate the cap of the left knee, inflicting a painful wound. Surgical aid was procured and he will probably soon be able to be about again.

Base Ball.—Yesterday a match game was played between the Deserets of this city and the Tooele nine, the former playing the latter with odds of one to three. The following was the score:

1 2 3 4 5 6 7 8 9

Deserets.....1 1 0 0 0 1 0 0 0—3
Tooele.....0 0 0 0 5 2 0 0—7

Base hits—Deserets 4, Tooele 7.
Errors—Deserets 18, Tooele 5.

The Deserets evidently over-estimated their strength in giving such heavy odds.

Excursion Party.—The Scandinavians of this county purpose having an excursion on the 24th inst. Their objective point is Bishop Madsen's farm, near Provo, on the shore of Lake Utah. Brother A. W. Winberg has been south to make the necessary arrangements. A large bowery will be erected upon the Madsen farm, and the excursionists from this Stake expect to there meet a large turnout of the Scandinavian brethren and sisters who reside in Utah County, and all to have a good time together.

Fruit Destroyed, Etc.—Parowan, Iron County, was recently visited by a severe frost, which almost destroyed the fruit crop. A few apples will probably be raised, that is all. Some damage has also been done, by "cut worms," to young grain crops.

Bishop and Sister Hickenlooper, on their way home from a visit to St. George, stopped over at Parowan, on June 1st and 2d. Our correspondent states that each of them addressed society and other meetings in an interesting manner.

Serious Fire.—Just as we go to press we learn that Dr. E. L. Plant's house, near Kaysville, was burned to the ground, last evening, and before one of his children could be rescued, it was seriously if not fatally burned. The child was nine months old, and was saved by its mother. The house was fired by a child playing with matches, and some powder in the house exploded just after the babe's rescue. Dr. Plant has our sympathies in his great misfortune.

Presentations.—The following additions have been made to the collections at the Museum:

A fine lithographic view of Nauvoo Temple and a copy of the proclamation of the late Governor Brigham Young, issued in 1857. These interesting relics were presented by Hon. John W. Young.

Specimens of Kanarra coal, presented by Mr. C. R. Savage.

Fossils, characteristic of those found in the coal beds discovered in Provo Valley, by Mr. S. J. Sudbury; presented by that gentleman.

An extraordinary fine specimen of Indian pottery, neatly ornamented, in colors, found in Arizona, by Mr. O. W. Shaw, and presented to the Museum by Mr. O. B. Shaw.

Utah County Fair.—The awarding committees for the proposed Utah County Fair, to be held at Provo, are as follows:

On Stock.—W. Bringham, John Morgan, J. W. Loveless, Washburn Chipman and H. F. Cook (Cedar Valley.)

On Produce.—S. Wagstaff, Wm. Mendenhall, Richard Brereton, Harvey Moore and Wm. Bone.

On Fruit and Flowers.—B. F. Johnson, Joseph Robinson, Edward Whiting, John Hacking, Alonzo Winters.

On Vegetables.—Charles Twelves, Parley P. Loveless, David Adams, James Gardner, Rufus Snell.

On Machinery.—Walter H. Huish, L. P. Lund, Henry Carroll, Geo. Wilson, Thos. R. Jones (Lehi.)

On Home Manufacture.—John Devey, James Dunn, W. W. Jackson, Isaiah M. Coombs, Thos. Besinger.

On Poultry.—N. P. Beebe, H. A. Dixon, Jacob Houtz.

Ladies' Shooting Match.—Forty contestants entered for the ladies' shooting match at Lake Point yesterday. Herewith we give the score made by the half of the competitors, who did the best shooting:

Miss Childs.....4 4 4 5 4—21
Mrs. Jno. Sharp, Jr.....3 5 4 5 4—21
Mrs. W. F. James.....5 4 5 3 4—21
Miss C. Young.....3 5 4 4 4—20
Mrs. Lawson.....5 3 4 4 4—20
Miss Chambers.....5 4 5 4 2—20
Mrs. Mearns.....5 4 3 3 4—19
Mrs. Wilson.....4 4 3 4 3—18
Miss Musser.....3 5 3 3 4—18
Mrs. Lindsey.....2 4 4 5 2—17
Mrs. Durant.....3 4 2 3 5—17
Mrs. W. F. Raybould.....3 4 2 3 4—16
Mrs. Slater.....2 4 4 3 3—16
Mrs. Marden.....4 0 4 4 4—16
Miss Z. Cohn.....3 3 3 3 3—15
Mrs. Popper.....2 3 4 4 2—15
Mrs. Reese.....3 4 0 3 4—14
Mrs. Thompson.....0 4 4 3 8—14
Mrs. Cummings.....4 2 4 0 4—14
Mrs. Strickland.....4 4 0 3 2—13

Going Away.—We understand that Mr. Hemingray, the recent anti-"Mormon" lobby delegate to Washington, feels greatly chaffed over the signal and complete defeat he sustained in that capacity. The result to him personally is that he is out of pocket, out of spirits and out of business. This is a sorry plight, certainly, and the party who used him as a tool for the accomplishment of their purposes now slightly throw him into the figurative waste-basket, with as much indifference as an editor would a piece of rejected manuscript. Under the circumstances Mr. H. has concluded that Salt Lake City is no place for him, has, we are informed, made up his mind to leave for other pastures, and with that view is selling out his goods and chattels. We have no word of reproach for Mr. Hemingray, further than that, in undertaking to do the base work of an unscrupulous clique he made a grave mistake. As he is about to leave we say to him, "go in peace and sin no more."

FROM SATURDAY'S DAILY, JUNE 8.

From Ogden.—This morning we had the pleasure of meeting our friend Mr. Joseph Parry, of Ogden, who is on a visit to the city.

In Hosts.—The grasshoppers are absolutely in hosts in Parley's Park, being as numerous there as at any previous time in the history of the Territory.

Killing Them.—The grasshoppers in this city have been doing an active business in tar. The demand has been caused by a number of farmers using it in the Cottonwood wards, in destroying grasshoppers.

Escaped and Captured.—The other day a penitentiary prisoner, named Jones, who was convicted for committing an outrage upon an aged woman, took "French leave" of his prison quarters. He was subsequently captured by the guards.

Removing It.—The rails, ties, etc., which composed the American Fork Cañon Railroad are being removed to the vicinity of Sandy. The proprietors have not yet come to a definite decision as to what use will be made of the material. The advisability of laying it from Sandy to the vicinity of a point called the Stairs, in Big Cottonwood Cañon, is under consideration.

Grasshoppers, Coal, Etc.—Brothers C. H. Wilcken and S. J. Sudbury have been on a visit to Provo Valley. They report that the grasshoppers, being in immense numbers, are doing great damage to crops in that part of the Territory. Notwithstanding this, the people feel cheerful, and are making many improvements, in the erection of new buildings, &c. The new County Court House, at Heber is progressing finely.

The coal claims, eight miles from Heber, in Centre Cañon, are being developed, and the parties interested expect to have an excellent market for the product in Park City, from which point the mines are distant only about fourteen miles.

Lyman's Historical Chart.—On Monday, Mr. Powers goes north to deliver Lyman's Historical Chart to subscribers, and also to do some canvassing by the way. He will visit Coriune, Brigham City and Logan. The following is an endorsement of the work by a gentleman well qualified to judge of its merits:

BRIGHAM YOUNG ACADEMY,
Provo, April 27, 1878.

By request of Mr. R. M. Powers, agent for Lyman's Historical Chart, I state that I have perused carefully said chart, and am using it for reference in my historical lessons in this Academy. I can conscientiously

recommend this historical chart, especially to teachers, as it is one of the best works of comparative history I have seen.

KARL G. MAESER,
Principal B. Y. A.

New Meeting House.—We learn from Bishop Scheinfeld, of Brighton Ward, that an effort will be made to erect, as soon as possible, a new meeting house there, the foundation of which is already constructed. The present actual residents of Brighton are comparatively few, but there is quite a large number of persons who own land in the Ward and who purpose some time making it their home. From the latter class of people, as well as those living in Brighton, the Bishop would be pleased to receive such donations as they may feel like tendering for the purpose indicated. Brick, lumber, shingles, and other building materials will come handy as donations. The Bishop can be found at H. Dinwoodey's furniture store.

Greatly Improved.—The *Amateur*, a semi-monthly paper published at Ogden, by the Mutual Improvement Association, has undergone a complete change in appearance and make up. It is now a four-page journal 16½ by 11½ inches. It is well edited, printed on good paper and in clear type. It has a scientific department, treats on topics of special interest, gives the general and local news and has a good show of advertisements. The improvement takes place with the first issue of volume two. A feature of this creditable little journal is a neat and tasteful ornamental heading, bearing the title of the paper.

Mr. Joseph A. West is managing editor and Mr. Richard Ballantyne, business manager. Success to the *Amateur*.

From South.—This morning we had the pleasure of meeting Elder Henry Lunt, of the Presidency of the Iron County Stake of Zion. He states that the crops at Cedar City, where his home is, were never more promising. Besides field vegetation there will probably be an unprecedentedly large yield of fruit, such as apples and peaches but no apricots.

Sheep shearing has commenced and it is expected that the yield of wool from the co-operative herd will reach 40,000 pounds for the season.

The people are preparing in parties, to conduct the dairy business, in the mountains, and the steam saw mill is being got ready to start up for the season. It is situated in the cañon about 16 miles from Cedar.

Owing to the freight travel to and from Silver Reef mining district the roads are very badly cut in places, rendering traveling somewhat tedious and difficult.

Brother Lunt passed over the road from this city in 1851-2, in company with the late President George A. Smith, and he thinks that, comparing the state of the country as it was then, and is now, all must admit that the manner in which the Lord has blessed the Latter-day Saints is visible and truly remarkable. In spots where there was scarcely sufficient water for half a dozen places, there are large and flourishing towns, with an abundance of the aqueous fluid for all.

For the information of the many friends and acquaintances of Bro. Lunt, we are pleased to be able to state that the affection in his eyes, with which he has been troubled for several years, is gradually though slowly removing.

Deseret University.—The academic year of the University closed yesterday. The exercises were pleasing, interesting, and of such a character as to show the system of training pursued by the institution, its flourishing condition, and the favorable progress made by its students. Besides the good attendance of pupils, a large number of visitors were present, among whom were President John Taylor, Superintendent of District Schools, Prof. Lewis, Salt Lake County Superintendent, Messrs. Joseph F. Smith, O. H. Riggs, David McKenzie, Wm. Jennings, Geo. Reynolds, James Dwyer, C. W. Stayner and the president and faculty of the University.

The names of those who passed examination and were awarded certificates in the normal course, as well as the graduates in the academic course were read to the school by Dr. Park, as follows:

NORMAL GRADUATES.

B. H. Roberts, Archibald Geddis,
Sarah Teasdel, Henry J. Wallace,
Mary Teasdel, Wealthy Richards,
Ella Mitchell, W. M. Egan,
Thos C. Higham, A. H. Snow,
Hyrum Barton, Vinnie Clayton,
Clara Gleason, James M. Barlow,
Cecelia Sharp, Jno. W. Gibson,
C. T. Stewart, Geo. M. Cannon,
Alma Smith, Maria Luke,
Emily Stayner, Plinia Ming,
Eva H. Marten-son, Petria Attley,
son, Ed. B. Thornton, James H. Moyle,
Sarah Ellerbeck, David L. Evans,
Lucy Evans, Deenie Christen-son,
Sarah A. Taylor, son.

GRADUATES IN ENGLISH LANGUAGE AND LITERATURE.

Frank J. Cannon, D. C. Dunbar,
Geo. M. Cannon, J. H. Moyle.

GRADUATES IN CHEMISTRY.

J. R. Cook, Martha H. Paul

After this an appropriate address was made by Mr. Roberts, one of the graduates, in which he expressed the good feelings of the pupils toward the teachers, and evidenced in his own language and sentiment the excellence of the training received at their hands.

This was followed by remarks from President Taylor, Prof. Lewis, Regent Geo. Reynolds, and Professors Toronto and Kingsbury.

At the close of the day's exercises a committee of the students, of which Mr. Frank Cannon was spokesman, presented to Professors Park and Toronto an agreeable surprise in the shape of two pairs of beautiful engravings, and in a neat and happy speech, portrayed the appreciation of himself and fellow students of the efforts and fidelity of the recipients, who responded in language equally feeling and appropriate.

After dismissing a large majority of the pupils with their professor, repaired, in a body, to Lindsay's Gardens, where, until shortly past 8 in the evening, the time was pleasantly spent in the various amusements which the place affords and which were thrown open free to the party, by the proprietor.

FROM MONDAY'S DAILY, JUNE 10.

First Company.—The first company of emigrants, from Europe, left Omaha, westward bound, last evening.

Appointments.—J. J. Jensen has been appointed postmaster at Elsmore, Sevier County; also A. F. Barrow, of Washington, Washington County.

A Murderous Attack.—On Saturday evening a man named Augusta A. Fisher was attacked by another person, who struck him upon the lower part of the face with a large boulder.

A Rough Customer.—On Saturday evening a party giving the name of John Cruthers obtained a meal at the restaurant of Mr. Morris, Commercial Street. Instead of paying for what he got he made a terrible row in the place, cursing and swearing, smashing dishes and winding up by drawing a pistol upon the proprietor.

He was arrested and, this morning, for his proceedings in the restaurant, fined \$20, and an additional \$10 for using profane and abusive language.

A Surprise Party.—It was a surprise party of the right kind. Mother Eunice Neslen, wife of father Samuel Neslen, of the 18th Ward, reached the 70th anniversary of her natal day on Saturday. In the evening she was called upon by her two sons, six daughters, some of her grandchildren and great grandchildren. The visitors presented the aged lady, who is still hale, hearty and active, with a number of handsome presents, accompanying the gifts with best wishes for continued life and plenty of happiness. The merry party spent a most agreeable time together till eleven o'clock, when the company separated. We join our congratulations with those of the relatives of the venerable lady.

An Old Citizen Departed.—At six o'clock yesterday evening O. P. Rockwell, a pioneer citizen of this Territory, departed this life, at the office of the Colorado Stable, which he had been using for some time past, while selling stock. He was at the Theatre on Saturday night and went to the office above mentioned about midnight. Yesterday morning he vomited a large quantity of offensive matter. A few moments before his death he vomited again, was seized with a spec-

ies of congestive chill and suddenly expired.

We understand that his family, who reside on the Rockwell ranche, in Rush Valley, were at once sent for. The remains were taken charge of by the city sexton.

We are informed that deceased was about 76 years of age, and, from the hardships through which he passed in his eventful life, must have had a very powerful constitution.

From Manti.—This morning we had the pleasure of meeting with our friend, Elder W. H. Folsom, who came up from Manti on Saturday evening.

Regarding the progress of the Temple we learn from him that the hands were somewhat reduced in number on account of the men having to leave to water their crops. They are now beginning to return again, and, when he left seventy men and several teams were at work.

The third terrace wall is nearly completed and the fourth is about half done. It is expected that the ground will be all prepared for the laying of the corner stones and for proceeding with the construction of the foundation by the time of holding the next Stake conference, about the middle of August.

A good feeling prevails among the people, a strong disposition being manifested by them to push the work on the temple to the extent of their ability.

The Children.—Yesterday morning, by invitation of Superintendent James Dwyer, the Sabbath school of the 18th Ward had a joint session with that of the 17th Ward, in the handsome hall of the latter. The room was filled with a large and fine looking assemblage, the countenances of those composing it beaming with intelligence, beauty and happiness. A number of exercises were gone through by both schools, separately and jointly, showing a great degree of proficiency. Brother Dwyer exhibited the picture recently painted by Mr. Ottiger, illustrating the receiving of the plates of the Book of Mormon at the hands of the Angel, Moroni. Several of the brethren present delivered short addresses, and a very good spirit pervaded during the whole proceedings.

The 17th Ward school is in splendid working order, great interest being taken in its welfare by Bro. Dwyer and his assistants, and the same can be said of that of the 18th Ward, under the superintendency of Brother Horace G. Whitney, ably assisted by others.

Last evening the usual preaching services were dispensed with and instead there was a jubilee of the Sunday school, the hall being crowded on the occasion by the children and their parents and others. The time was both pleasantly and profitably spent.

Returned.—Elder Christopher Merkley was called to go on a mission to Canada, and left for that part on the 1st of last November. He reached the city, having returned, on Saturday evening. He visited a gentleman in Kingston, who had been formerly in the church and who gathered a number of friends together to whom Elder Merkley preached the gospel. The gentleman referred to, James Scott by name, a builder, concluded to wind up his business and start for Utah as early as practicable.

Elder Merkley next visited Morrisburg, where he spent some time calling upon and conversing with his relatives, by whom he was received with marked kindness, but they did not seem to take much interest in the gospel. He preached occasionally in public but more in private. The school and meeting houses are closed against the Elders. The clergymen refuse to converse with them on religious topics. A sister of Brother Merkley desired baptism at his hands, but was prevented by the determined opposition of her family.

On enquiry as to the reason of the objection of the clergymen to converse with the Elders, Elder Merkley was informed that it was because they had been so frequently and signally defeated on previous occasions, on biblical grounds, by "Mormon" missionaries, rendering them very cautious.

Elder Merkley returns greatly improved in health.

BORN.

To Eliza, the wife of Richard Smyth, on the morning of the 8th of June, a daughter.
