

DESERT EVENING NEWS

TODAY'S WEATHER REPORT.

(Observations taken at 6 a. m. Mountain time.)
Salt Lake City—Barometer, 25.35; current temperature, 23; maximum temperature, 46; minimum temperature, 20; mean temperature, 24, which is 3 degrees above normal.
Accumulated excess of temperature since first of month, 14 inches.
Accumulated excess of precipitation since January 1st, 1.14 inches.
FORECASTS TILL 6 P. M. THURSDAY.
Local forecast for Salt Lake City and vicinity:
Fair tonight and Thursday; colder tonight.
For Utah: Observations taken at San Francisco:
Probably snow tonight; Thursday, fair and colder.
WEATHER CONDITIONS.
A trough of quite low pressure extends from southern Arizona northeastward to the upper lake region. The crest of an area of high pressure lies over British Columbia. Precipitation has been quite general over the western half of the country. It is colder over the western half of the country. It is colder over Idaho, Montana, Wyoming, Nevada, Utah, and the western portions of South Dakota and Nebraska, and warmer over the upper Mississippi valley, Kansas and Oklahoma. At 5:06 p. m. yesterday the wind at Salt Lake City reached a velocity of sixty miles per hour from the north.
L. H. MURDOCH,
Section Director.

LOCAL BRIEFS.

Alfred A. Pritchard has been appointed clerk in the postoffice, a position for which he is qualified and was examined some time ago.

The funeral of Timothy Murphy was held from St. Mary's cathedral at 2 o'clock this afternoon. The remains were interred in Calvary cemetery.

The pioneer news boy is probably J. M. Westwood former agent for this paper at Springville. Mr. Westwood writes that he sold the Desert News on the streets of Salt Lake in the winter of 1888-9, when the price used to be 25 cents per copy, he received half the proceeds for selling.

Ezra M. Cornell, solitary and alone, is taking the civil service examination for computer in the supervising architect's office at Washington, which is now in progress in the Dooly block. The examinations are being held by Messrs. Williams, Naylor and Scoville, the local civil service board.

Secretary Axton of the Y. M. C. A., left his desk for a few moments yesterday, and when he returned he found that 25 cents had been taken from the money drawer. The most astonishing feature of the theft is that there was over a dollar left. Mr. Axton can't see why all the money was not taken.

A large pole of over 100 wires capacity is being prepared by the telephone company, to be set up at the intersection of Third South and First East streets. The First East cable will be attached to this pole. The Fourth South street wires will be transferred to Third South street leaving the Fourth South street poles solely to the electric light company.

At the meeting of the Country club yesterday afternoon the following directors were elected for the coming year: W. G. Sharp, J. A. Pollock, E. H. Wick, J. Walcott Thompson, G. J. Gibson, W. C. Shoup. The report of the treasurer showed a membership of sixty-two and cash on hand to the amount of \$41.10. The directors will meet next Tuesday at the office of J. Walcott Thompson for the object of electing officers.

On Friday evening next a free public lecture will be delivered in the University Laboratory building, No. 225 west First North, under the auspices of the Microscopical Society of Utah. The lecturer is Prof. McCoy of the University faculty, and the subject is "Color Photography," which is to be illustrated by stereoscopic pictures and experimental demonstrations. A fine collection of photographs in natural colors will be exhibited by the aid of the electric stereoscope. A general invitation is extended to the public. The lecture will begin promptly at 8 o'clock.

The culvert on Eighth West street has become a great source of annoyance. Deputy Watermaster Parker of the Second precinct, has been working with it, but it is not yet fixed. The culvert was placed there to carry off the drainage water from the western part of the city, but the fall is so slight that the water accumulates and checks the water. Mr. Parker has opened up parts of the culvert in an attempt to clear the channel, but he thinks it will be necessary to put in an open drain before the surplus water can be disposed of.

We pay 4 per cent interest per annum on \$1 or thousands. Zion's Savings Bank and Trust Company. Lorenzo Snow, president; George M. Cannon, cashier.

UTAH COMMERCIAL AND SUGAR BANK

RAILWAY OFFICIALS AT OGDEN TODAY

Conference There With the Southern Pacific People.

"VIMOTION" A NEW ONE OUT

Is to be Applied to Street Car Locomotion - Talk of Putting Three Systems Under One Manager.

Most of the general officials of the Union Pacific, Oregon Short Line and Oregon Railway and Navigation companies were in Ogden today consulting with officials of the Southern Pacific. The conference had reference to the re-adjustment of the passenger schedules and the improvement of the transcontinental passenger service. They returned to Salt Lake this evening and will hold a conference here tomorrow morning, when some matters of great importance will be taken up.

OUT FOR BOISE.
C. J. Bassett, State immigration commissioner, has gone to Salt Lake where he will consult with the traffic managers of the Union Pacific, Oregon Short Line and the Oregon Railroad and Navigation company, to be held there today. He will make arrangements for fares and other matters connected with immigration while there.—Idaho Statesman, Boise, of Yesterday.

"VIMOTION" LOCOMOTION.

Whatever That May be, It is About to be Put Into Operation.

Arthur E. Stillwell, builder of the Kansas City, Pittsburg & Gulf railroad, and until last year its president, is organizing the American Vimotion Car Company, which owns patents for a gasoline engine, which, it is claimed, will minimize the expense of operating street cars. Mr. Stillwell will be president of the company and have associated with him Jesse M. Thompson, of California, said to be the inventor of the cable car system, and George J. Atkins, of Chicago, owners of the patent to be used by the new concern. The company will, Mr. Stillwell says, have a capital of \$5,000,000, will construct a manufacturing plant at Indianapolis and have a factory at Kansas City, and have offices in New York, Chicago and Kansas City.

More Objections.

Fifty or more men representing the shipping and manufacturing interests in various parts of the country, appeared before the western classification committee at Chicago yesterday and protested against many of the charges in freight classification that became effective January 1st. They presented lengthy arguments in support of their contention that present rates discriminated against the small shippers in favor of the larger ones, and that the tariff sheets should be changed as soon as possible.

The meeting was continued today and the classification committee has assured the shippers that if they are convincing enough in their arguments it will recommend to the proper authorities that the classification be changed.

Will They Consolidate?

There is a revival of talk around the Union Pacific headquarters at Omaha that the consolidation of freight and passenger agencies of the Union Pacific, Oregon Short Line and Oregon Railway & Navigation Company is preliminary to the consolidation of the operating departments of the three roads, and that in a short time they will all be under the jurisdiction of one general manager, and that the general manager of the Union Pacific will be operated in this manner under the receivership. Men well up in the railroad world express the opinion that the change is sure to come, as it is expected to bring so many high salaries into one.

Yukon Line Reopened.

The White Pass & Yukon railway resumed through train service yesterday, after a blockade of more than two weeks. The train that left Seattle for the Bennett train, with Klondikers aboard, rolled into Skagway. Five hours later the Rosalie, whose officers brought the news of the end of the snow blockade, sailed for Seattle. The officials of the railroad expressed the belief that the snow would cause them no more serious trouble.

RAILROAD NOTES.

Members of the Alta club are doing their visiting in the matter of entertaining their railroad officials. The officials of the club will bear in mind the fact that the Rio Grande's new time card will go into effect on February 25th.

It is said that work on the Southern Pacific's lake cutoff from Lucin to Ogden will be commenced as soon as spring opens.

The Short Line has let to the McGuire Manufacturing Company of Chicago a contract to supply all box cars with its equipment with the patent inside door made by the firm.

Ice is beginning to come in from the railroad ponds. Considerable uneasiness has been felt on account of so little frost, but since last night the change in the weather there is no further apprehension.

PROPERTY TRANSFERS.

Abstract of file, county recorder's office, Salt Lake City, Feb. 6, 1900.
Pacific Investment company to Stewart McLeslie, warranty deed, 145 feet by 25 rods northeast from southwest corner lot 8, block 65, plat A, etc., etc., \$700.

Total, \$1,000.00.

If the reader of this should chance to know of any one who is subject to attacks of biliousness he can do him no greater favor than to tell him of "Chamberlain's Colic, Cholera and Diarrhoea Remedy." It always gives prompt relief.

WATER QUESTION TALKED OVER.

Reports of Waterworks Committee Go Over for One Week.

SUPPLY TO BE INCREASED.

City Engineer Kelsey Authorized to Make Contracts with Farmers for Exchange of Water.

The members of the City Council were in a sort of contemplative mood last evening, and for upwards of two hours talked on the subject of water. The question was discussed from various standpoints, and it was predicted there would be a water famine, unless steps were immediately taken to improve the pipe distributing system. Reference was made to the recommendations and suggestions of the past administration on the question, and a number of the speeches sounded quite familiar to those who have been in the habit of attending Council meetings. The result of the discussion was a practical declaration on the part of the members to increase the supply of water and to greatly improve the city's waterworks system.

The subject was introduced by the reading of the report of the waterworks committee recommending that the board of public works be authorized to advertise for bids for the completion of the Thirteenth East street reservoir and the laying of a 16-inch main from Parley's canyon down Fifth South street and other work suggested by Engineer Kelsey in his report.

Both Canning and Cottrell opposed the adoption of the reports and urged that the city engineer be authorized to decide by their votes. Others advocated proceeding with the obtaining of bids so that the proposition could be placed intelligently before the people. As the matter now stood no one could tell what the cost would be and it was argued that to get the figures and explain to the people what they were going to get would be the proper course to pursue and besides would be a saving of time. Finally, after the report of Canning and Cottrell, the reports went over for one week.

THESE PLANS APPROVED.

The recommendation of Engineer Kelsey and approved by the waterworks committee, authorizing the mayor and finance committee to acquire all lands in Parley's canyon watershed by purchase or by condemnation, was approved. The mayor and finance committee were also given authority to memorialize Congress, through Senator Rawlins, for a session of all government lands in Emigration, City Creek and Parley's canyon watersheds.

The report of the waterworks committee recommending that the boards of public works be authorized to advertise for bids looking to the enlarging of the main pipe from City Creek, was adopted. An amendment was offered by Chairman Gennett, and incorporated in the committee's report, which provided for either taking up the old pipe and substituting a thirty-two inch main, or for a smaller main alongside the old one, according to the plans and specifications of Engineer Kelsey.

TO EXCHANGE WATER.

The irrigation committee recommended that the city engineer be authorized to close contracts with the Big Cottonwood farmers for exchange of city canal water for equal shares of canyon creek water, to be piped to the city. The report was adopted. It will be remembered that the farmers' agreements last year to enter into contracts with the city. The options expire on Saturday.

TRIP TO UTAH LAKE.

Mayor Thompson sent the following communication to the Council from City Engineer Kelsey:

"In accordance with our understanding, I have purchased a tract of land at the outlet of Utah Lake containing about ten acres for the purpose of straightening the river channel, constructing the dam, etc., in accordance with the notices of water appropriation posted and received by Salt Lake City. The price paid upon is \$3,025. The total cost, including attorney's fees, stamps, etc., amounts to \$3,600. The deed has been placed in escrow with the understanding that the money is to be paid by the city before the 13th of this month. The city engineer, attorneys, work has been commenced near the outlet of Utah Lake, and will be continued until further orders."

The Mayor approved the action of the engineer, and asked that the Council take immediate action on the matter. In his communication the Mayor said that "on Friday next the attorneys specially employed by the city, the city engineer, and I will visit Utah Lake for the purpose of examining the outlet of the city's water reservoir site for Salt Lake as a reservoir for the city's water. The Mayor specifically invite all members of the City Council to accompany us on this trip."

The action was approved, and the amount of the purchase price of the land placed to the credit of the Mayor's contingent fund. The invitation of the Mayor to go to Utah Lake was accepted.

MAYOR IS SUSTAINED.

Mayor Thompson reported the action which had been taken on Saturday last in tearing out the dump pile in the Salt Lake City Water and Electrical Power company, repairing the canal bank and turning back the city's water into its original channel. The suit entered by the city against the Power company was also referred to by his honor, as well as the injunction issued February 10th. The Mayor also suggested that prompt action be taken to defend the suit for right of way brought by the Power company against the city.

In this connection Robertson offered the following resolution:
Be it resolved, That the action of the Mayor in repairing the banks of the Power company, repairing the canal bank and turning back the city's water into its original channel, be sustained. The Mayor is authorized to take such action from time to time as he may deem necessary and proper to protect and maintain the rights of the city in the water of Jordan river and Utah lake and to employ such legal counsel as may be deemed necessary to assist the city attorney in the prosecution or defense of any suit or suits that have been or may be hereafter instituted for or against the city on account thereof. Adopted.

Clear H. Hardy offered to sell the 160 acres of land in Parley's canyon for \$3,000. Mr. Parley's canyon for \$3,000. 160 acres of the land is under cultivation.

tion; it has three large springs on it, and is well fenced, etc. Referred to committee on waterworks.
On motion of Thomas Superintendent Hines was given authority to purchase a fifteen ton car load of pig lead.

A COMPETENT MAN.

Superintendent Hines, in a communication addressed to the Council, recommended that the salary of his clerk be increased from \$60 to \$80 per month. Superintendent Hines said the present salary was entirely too low, as the position was a responsible one, calling for the services of a "competent man."

Robertson moved the communication be referred to the finance committee. Cottrell wanted incorporated in the motion "that the committee be required to report next Tuesday evening." It was ordered.

Before putting the motion President Buckle shortly announced: "I suppose Superintendent Hines intends to convey the idea that the former clerk of the waterworks department was not a competent official."
Leland and Water Commissioner Westfield suggested that George W. Gibbs, who patrols Parley's canyon, be clothed with authority to make arrests whenever he deemed such a course necessary. Mr. Westfield was given authority to confer with Sheriff Howells with the view of getting Mr. Gibbs appointed a deputy sheriff.

Mr. Westfield, in another communication, called attention to the Rio Grande Western Railway company's bridge across the Jordan & Salt Lake canal, at a point about three-fourths of a mile north of Oliver station, and said the piles driven in the canal obstructed the flow of water, and he recommended their removal. Mr. Westfield said the canal should have a width of twenty feet in the clear, unobstructed. Referred to committee on irrigation.

The committee on control of the city and county building was authorized to advertise for bids for calculating and that the city engineer be authorized in the city's half of the building to correspond with similar improvements made by the county on its half.

AMUSEMENTS.

The fierce blizzard which raged last night had a devastating effect on the attendance at the Theater. There was little more than half a house to see Mr. Cahn's New York company in the celebrated play "Sowing the Wind." It is so well known here on account of the great impression originally left by Henry Miller, Viola Allen and W. H. Thompson that it hardly needs a word of description. Later, it was done by a second company who also left a good impression and how still another second company, the last one we understand, as the play is to be shelved after this season, has it out on the road. Too much praise cannot be uttered for the play itself. It is one of the strongest of the year, and ever written, and even when rendered by a company of only medium grade, it exercises a strong spell on the auditor. The present company can be classed as good, without at all rising to the startling, it plays evenly and well throughout, dresses handsomely in the costumes of the period and presents some charming scenic effects. The principal members are Miss Hall, who played Rosamond earnestly, although plucking it in rather a high key. Mr. Collins' Bradshaw was well conceived and Mr. Turner's Watkin was excellent. The others can be classed as fair. "Sowing the Wind" goes for the last time tonight.

The sale of seats is now on for Frederick Ward's opening on Friday night. A big house is looked for.

At the Grand there will be silence until Thursday evening when Morrison's "Faust" Company hold the boards.

HOTEL AND PERSONAL.

C. R. Curtis left for New York today.

W. P. Read has returned from Juab county.

Mayor Taylor of Provo stopped at the Kenyon last night.

Peter Sonna and John W. Caze of Boise are at the Knutsford.

Alfred A. Pritchard is now a clerk in the Salt Lake postoffice.

Apostle M. F. Cowley has gone to visit the Northwestern States mission.

Messrs. Hugh J. and John M. Cannon returned from New York this morning.

Mr. and Mrs. C. R. Savage have gone to California for a stay of several weeks.

President W. J. Kerr of the Brigham Young College at Logan is here on a short visit.

John Dubel has returned from a business trip in the East. He has been absent three weeks.

Warren Foster has gone to Kansas City on business. He expects to be away about a month.

Boise Statesman: Peter Sonna and John Caze have gone to Salt Lake on business matters.

W. W. Chapman, Montpelier; B. F. Luke, Orangeville; F. L. Quainland and wife, Grand Junction, are at the White House.

Captain Charles W. Penrose of the Eleventh United States Infantry has been assigned to Fort Douglas for recruiting work.

Dr. J. J. McCachran has entirely recovered from the attack of illness that kept him in St. Mark's hospital for some weeks.

Charles W. Sherman, who represents the National Blank Book company of Holyoke, Mass., was a guest of the Knutsford last night.

W. C. Vint and Lee Glocker of Cripple Creek are at the Kenyon, en route to Seattle, where they will take the steamer for Skaguay.

At the Walker today are the following guests: M. J. Salsbury, Marysville, Ida.; Wm. W. Manning, Dallas; H. W. Miller and wife, Portland, Oregon.

Acting Assistant Surgeon Hugh F. Taylor, of the United States Army, has been awaiting orders from Washington, left for San Francisco last night.

At the Cullen today were registered W. M. Mangum, Memphis; S. M. Shattuck,

Denver; F. J. Allister and wife, Tonawanda, N. Y.; John Hendrickson, Neph; J. D. Murphy, Cripple Creek.

Registered at the Kenyon today are: F. C. Bailey, Omaha; A. McPherson, Boise; H. H. Park, Lincoln; F. H. Mulford, Everett; L. C. Duffies, Ogden; N. H. Cohn, Denver; Wm. Elliott, Chicago Heights; L. M. Olson, Price; T. B. Smith, Chas. R. Sparks, Spokane.

Solomonville, Ariz., Bulletin: Rudolph J. Young, farmer of Utah, who recently returned from a two-years' sojourn in the frozen regions of the Klondike, has been appointed a mineral deputy surveyor of Arizona, with headquarters at Clifton. Mr. Young is a very competent man and will aid the office with credit to himself and the appointing power.

A COWARDLY ASSAULT.

Thomas Ferguson Attacked While Returning from a Meeting at Richfield.

While returning to his hotel from a meeting in Richfield last Monday night, Thomas Ferguson, the prominent mining man of Salt Lake City, was assaulted by an unknown man and quite painfully, though not dangerously injured. No clue as to the identity of the cowardly assailant has been obtained.

Mr. Ferguson was found by the manager of the Richfield house and a physician was called to attend to his injuries.

"PREACHING AND PUBLIC SPEAKING."

Of the 5,000 copies of this popular book published last year only three or four hundred remain and the author has decided to sell these through the ordinary agencies for Church publications. Your local agent will order the book for you or it will be sent postpaid from the Desert News Office. Cloth, \$1.50; Half Morocco, \$2.00.

THE "NOBLE COMPANY."

A Card of Denial.

We the undersigned, having reason to believe that our names have been used in connection with a corporation known as "The Noble Company," representing the Noble family of Salt Lake City, hereby declare that such use of our names has been and is entirely without our authority or permission. We have never purchased stock in the said company, nor are we in any way connected therewith.

BISHOPS

Should procure from this office, without delay, a supply of blanks that have been prepared, and duly approved, for block teachers to compile the information required in yearly statistical reports. They are simple in form, and their use insures an accurate census of Latter-day Saint Church members. They sell for 25c per doz., post paid.

DO YOU WANT A CALENDAR?

The biggest and best—calendar ever issued by any American railroad is now being distributed by the Burlington Route.

It has twelve sheets, one for each month of the year. On each sheet is a striking illustration of some feature of the Burlington's service or of the territory reached by its lines—the government fast mail running at full speed; a tourist car on its way to California; engine 1551, the largest passenger engine in the world; a library car; a compartment sleeper; the Burlington station at Omaha; a dining car; a monster freight train; Estes Park, Colo.; plunging south at Hot Springs, B. D., Yellowstone Falls, etc.

The drawings from which the pictures were made are by Louis Braunholtz, of Chicago, and cost several hundred dollars.

The size of the calendar is 22x35. The dates are in big type which can be read at a distance of 50 feet. For business offices the Burlington calendar is simply invaluable.

Purchased in large quantities, the calendars cost the Burlington Route 27 cents apiece. With postage, packing, etc., they represent an investment of about 35 cents. Our price is 25 cents per copy less than cost. Write for one; stamps will do. If it is not satisfactory, send it back and your money will be promptly refunded.

J. FRANCIS,
General Passenger Agent, Omaha, Neb.

FOR OVER FIFTY YEARS

Mrs. Winslow's Soothing Syrup has been used for children's teething, it soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25 cents a bottle.

French Fruits at Kolitz Stores.

Notice is hereby given to business men and residents in the garbage district, that all garbage shall be placed in barrels or cans and the weight must not exceed seventy-five pounds. All ashes, glass, crockery, etc., must be kept separate from other garbage. Any persons found not complying with this ordinance in this respect, will be forced to cart the same to the dumping ground at their own expense.

JOSIAH LEES,
Sanitary Inspector.

DO YOU WANT AN ENGINE OR MOTOR?

The Desert News has on hand a number of new steam engines, dynamos and electric motors, which can be bought cheap if taken AT ONCE. Write for particulars.

NOTICE.

WHILE WE ARE NOT RESPONSIBLE for tickets sold by certain agents, purporting to be on our behalf, we will not issue tickets that we do not issue. Photocopies at reduced prices this week. Please, 25c, 50c, 75c.
