

AMERICANS ARE GOOD MARKSMEN

At Most Important of Olympic Rifle Contests at Bisley Come Off Victors.

FIVE MADE SEVENTY CLASS.

Capt. Casey of Delaware Topped List—Winans Got Gold Medal—L. Semon Did Great Work.

Bisley, Eng., July 10.—The Americans made a splendid start this morning in the most important match of the Olympic rifle contests, the international team competition. At the 200 yard range the Americans made the high score with 428. Sweden was second with 425, followed by other teams with scores as follows:

England, 419; Canada, 412; France, 397; Norway, 396; Greece, 384; Denmark, 375.

The conditions for the match were far from ideal with the sky being overcast and rain threatening. A breeze of 20 miles an hour was blowing. At the shorter ranges this was not serious, but when they came to the longer ranges the marksmen anticipate some difficulty, as puffs of wind are blowing constantly across the line of fire.

The first five men of the American team got into the 70 class. Capt. Casey of Delaware topped the list with 74, the best individual score at the distance. Capt. Benedict was only one behind Casey with 73, dropping only two points with a couple of misses. Martin and Luescher scored 71 each, while Eastman got 70. Winder has the unenviable distinction of being the only American to score less than 70; he making 63.

In the shoot off for the double shot competition, at running deer, Walter Winans, American, won the gold medal with a score of 44 against Rankin's 41. Rankin is an Englishman. In the shoot off for second place in the single shot competition at a running deer, Rankin won with 30, Rogers making 20.

America did even better at 500 yards in the international match contest, scoring 438 out of a possible 450. England also did better at the greater distance and replaced Sweden in second place by scoring 430. The aggregated for the two ranges now are: America, 866; England, 853; Sweden, 848; Canada, 830; and France, 814. The other teams all scored under 800. Luescher contributed a usual 75, the highest score possible, to the American tally, while Martin was close up to him with 74.

Winder and Eastman also scored 74 each. Under the wretched weather conditions this score is remarkable. The wind blew diagonally across the range, clouds of mist drifted continually between the marksmen and their targets and a drenching drizzle drove mercilessly into the faces of the contestants.

Simultaneously with the team shooting the individual 300-meter contest was under way. In this competition Capt. Semon of Ohio did brilliant work and there is every prospect that he will carry off the gold medal, with a score, standing 231, kneeling 281, and prone 290. He had still 16 shots in his rifle.

Major Wallingford of the Helth school of marksmanship finished with a total of 828. Semon went back to the butts and finished with a total of 880.

In the individual competition, R. H. Sayre, an American, was in the lead at half past 3 with a score of 430.

In the individual revolver competition, Stomus of Belgium scored 487 and Newton, England 440. Both these scores are better than that of Sayre.

Semon of Ohio won the gold medal in the individual 300-meter contest held here today as part of the Olympic contests.

Wallington and Blood, Englishmen, won respectively the silver and bronze medals with scores of 828 and 823.

ZEPPELIN'S FLIGHT.

Arrangements for Twenty-Four Hour Trial Nearly Completed.

Berlin, July 10.—Arrangements are being completed for Count Zeppelin's 24-hour flight in his new giant airship to take place July 14. There are to be 22 relays of automobiles carrying army officers who will follow the Dreadnaught of the air along the roads from Friedrichshafen to Mayence. The occupants of the motor cars will communicate by telegraph with headquarters on the Lake of Constance, reporting incidents and the progress of the flight. Each motor car will carry a large white flag in the day in order to be recognized by men in the airship, while by night they will make their presence known by means of a searchlight. Should the airship require assistance, Count Zeppelin will fly a red flag during the day or show a red searchlight at night. All the military posts and police stations along the route as well as the Rhine river police have been ordered to hold themselves in readiness, night and day, to give assistance.

BREAKS ALL FORMER RECORDS

Turbine Lusitania Makes Long Distance Course Across Atlantic in Short Time.

AVERAGE 25.01 KNOTS HOUR

New Four Bladed Propellers Justified Themselves by Doing All Expected of Them.

New York, July 10.—Breaking all previous records over the long distance course across the Atlantic of 2,891 miles, the swift turbine Lusitania arrived at Sandy Hook lightship today at 2:11 a. m., the time of passage being 4 days 19 hours and 26 minutes.

The Lusitania left Daunt's Rock July 5 at 11:35 a. m., her average speed throughout the trip being 25.01 knots an hour, which eclipsed her previous days' average of 24.88 for the trip. The daily runs were: 21; 643; 625; 622; 611 and 369 to Sandy Hook lightship. The Lusitania on this trip also distanced her sister ship's record, the Mauretania, by 39 minutes, the latter steamer's record over the long course being 4 days, 20 hours and 15 minutes.

The Lusitania left Liverpool July 4 and Queenstown the 5th, after a period of cleaning and overhauling in the dock. The new propellers of four blades each were shipped with the expectation of improving the speed. These propellers, the forward one on each side, proved their value, four records being captured, the Lusitania beating her own previous record by 32 minutes. The best days' run on Monday, July 6, was 643 knots, beating the previous record two knots. The speed average for the hour of 25.01 was 15 of a knot better than the record.

Thus far the Lusitania becomes the only 25 knot steamer. Moderate weather prevailed during the trip with a slight mist and light winds, ideal conditions for fast steaming. On May 22 the Lusitania made a record for the voyage from Daunt's Rock to the Hook, of 4 days, 20 hours and 22 minutes, making an average for the voyage of 24.88 knots. Last month the Lusitania broke this record and made the trip in 4 days 20 hours and 8 minutes, with an average of 24.88 knots, which was her best record until the present trip.

HONDURAN REBELS CAPTURE CHOLUTUCA

Managua, Nicaragua, July 10.—News has been received here that the rebels who are fighting against President Davila of Honduras have captured the town of Cholotuca, a town of 1,000 inhabitants, and are threatening Santa Barbara. It is persistently reported here that the movement in Honduras is being aided in a guarded manner by the government officers of Salvador and Guatemala, and certain information was received here last night which tends strongly to confirm these rumors.

Cholutuca is one of the most strongly fortified posts in Honduras. The insurgents already are in possession of the town of Gracias and their position will be much strengthened by the capture of Cholotuca.

A CRAZY MOTHER.

Said Her Child Was the Messiah and Branded Him With Hot Iron.

New York, July 10.—Asserting that her 6-year-old son, Charles Goodall, was the Messiah, his mother, Mrs. Grace Goodall, branded him for life on the forehead and throat with a red hot iron. The child was rescued early today from the religious crazed woman and both were taken to the Bellevue hospital, where the mother told the police and hospital authorities that she had branded the boy whom she believed to be the long looked for Messiah, so that he would be known, marked and distinct from others for life. The police charge that the woman also tried to kill her mother, with whom she lived, and herself. The little boy, though terribly burned, will recover. The two women were placed in the psychopathic ward for observation.

LEEDS LEFT \$200,000.00.

Newport, R. I., July 10.—Although the will of the late William B. Leeds who died abroad has not yet been offered for probate it is stated on apparently good authority here that he has left a fortune of about \$200,000.00. The executors of the will are said to be Commodore Lewis Cass Ledyard, the United States Trust company of New York, and Mrs. Leeds but as Commodore Ledyard is abroad and will not be home until next month, it is thought that the document will not be offered for probate until that time. It is said in Newport that Mrs. Leeds, her son and step-son are the chief beneficiaries.

DR. WILSON CASE.

Today All Interest in It Centered in The Inquest.

Philadelphia, Pa., July 10.—Interest in the case of Dr. Wm. H. Wilson, who died on June 26 after drinking a bottle of poisoned ale that had been sent him by express, centered today in the inquest. While the police and the county detective say they have no tangible clues, it is believed that they are working along certain lines that will soon bring results.

Twenty-one witnesses have been summoned to appear at the inquest. The chief of these witnesses are Mrs. Wilson and George Satter, a friend of the family. There are many points which have still to be explained and Satter and Satter will be able to throw some light.

DEATH FOR A KIDNAPPER.

City of Mexico, July 10.—Antonio Felix, a detective from Los Angeles, is under sentence of death on the charge of kidnapping.

CAPT. WALLACE BROATCH COMMITS SUICIDE

New Haven, Conn., July 10.—A cablegram received here brings word of the suicide in the Philippines of Capt. Wallace Broatch, U. S. M. C., and a Yale graduate, class of 1901. No particulars have been received, but acquaintances here say that Capt. Broatch had long brooded over differences with brother officers growing out of his efforts to put the Philippines on the West Point, together with the solitude and monotony of service in the Philippines. Capt. Broatch was considered to have

been one of the most brilliant men in his class. He accepted a West Point appointment during his junior year, and as a "pieb" there he was severely hazed.

BALL CONFESSES TO PART IN N. P. ROBBERY

Des Moines, Ia., July 10.—Owen Ball, arrested at Marshalltown Wednesday evening in company with Mrs. Frank Shercliff, yesterday made a confession of his alleged participation with Shercliff, the husband of the woman, in the robbing of a Northern Pacific train in the city limits of Minneapolis on the night of April 15.

When Shercliff, who is in prison at Leadville, Colo., was shown the dispatch concerning Ball's arrest, he denied knowing Ball or having any knowledge of the Northern Pacific robbery.

Special Agent McPetridge of the Northern Pacific will leave for Des Moines with his prisoner for St. Paul and Minneapolis today. Ball has promised the officers he will conduct them to the spot where he says Shercliff and he hid a number of watches stolen from the passengers on the night of the hold-up.

Get away from the heat by bathing at Saltair.

A BOY'S FUN.

A Nine-Year-Old Kid Put Obstruction On Track to Derail Engine.

Pottsville, Pa., July 10.—To have the engine jump the track and see the fun was the explanation of 9-year-old John Sovick of Morea, near this place, today, when arrested for placing a piece of iron pipe and stones on the track just before the Pennsylvania railroad flyer was due. He was caught in the act and brought to Pottsville, where he was committed to prison. He made no attempt to deny his guilt and not comprehending the serious character of the offense, explained that he was only playing.

He gave the officers information of several other attempts at train wrecking in that section and several more arrests will be made.

GRAU'S DAUGHTER MARRIED.

Paris, July 10.—Miss Louise Grau, daughter of the late Maurice Grau, the impresario, was married last evening to Maurice Ganno, an engineer and professor in the school of arts and manufacturers, at Crossy church. A large number of musical and dramatic celebrities, including Mme. Sarah Bernhardt, were present.

PRESIDENT OF NEWTON SCHOOL.

Boston, July 10.—Rev. George Horr of Newton, a prominent Baptist clergyman, has been elected president of Newton theological school to succeed Rev. N. E. Wood, whose term will expire on June 1, 1909. Rev. Mr. Horr will also become professor of history in the institution.

INDIANS WITHDRAW GUARDS.

Washington, July 10.—Reporting on an investigation by himself and Mr. Wright, the commissioner to the Five Civilized Tribes, Agent Kelsey at Muskogee, Okla., today advised the Indian bureau that the Crazy Snake Indians, near Muskogee, have withdrawn their armed guards. The Indians say they had the armed guards as a protection against the presence of the armed Indians and threats of camp followers caused much excitement among the white people. The report says the Indians have an entirely peaceful gathering with many women and children present. The two government emissaries advised the Indians to obey the local laws. The fullbloods and the negro followers of the camp number about 300.

POPE WILL HAVE OLD LATERAN PALACE REBUILT

Rome, July 10.—The pope has announced his intention of having the old Lateran palace, the residence of the papacy from the time of Constantine to the migration of a crossign, built over for the purpose of housing the rota and segnatura courts, while the penitentiary tribunal will be housed at the holy office near St. Peter's. The Lateran palace is now uninhabited. All the valuable pictures there will be transferred to the new vatican gallery which is to be opened next September. With the exception of the rooms devoted to sculpture and the museum the entire Lateran palace will thus be available for the uses of the courts.

FIVE MEN KILLED IN HEAD-ON COLLISION

Medicine Hat, Sask., July 10.—Five men were killed and three injured in a head-on collision at a crossing, half way of this city yesterday between a Spokane flyer engine on its way to Medicine Hat and Crow's Nest passenger train.

The dead: Engineer, James Nicholson; fireman, Harry Gray; baggage man, W. J. Archambault; and messenger, J. Shaw and D. McEchen.

Sixty passengers and three trainmen were injured.

BODIES FOUND.

Washington, July 10.—A cablegram was received today at the war department from Gov. Gen. Smith at Manila reporting the finding of the bodies of Everett and Wakeley. Everett's home was in Malone, N. Y., and Wakeley's in Chicago.

FIRE OUR WAY!

This firm fired our way and got their money. The following is the letter they wrote us:

The Advertiser Co., Printers and Publishers, Karl Kowallis, Manager, Logan, Utah, July 3, 1908.

Mr. Luke, Salt Lake City.

Dear Sir:—Yesterday I sent to you a bill to be collected. I am glad to state that it was paid this morning, so kindly drop the matter. In future whenever we have bills to collect we will fire them your way inasmuch as even mentioning your name to debtors bears lots of weight towards settling bills. Respectfully,
KARL KOWALLIS, Manager.
