Unless the amendments it had made to the bill, now before it, were expunged, he would withdraw the measure and let the Emperor appoint a responsible minister in his place. A vote was taken and the bill sent back to the committee.

The British Consul declares that the arrest is unwarranted by any acts committed by the prisoner.

## LOCAL AND OTHER MATTERS.

**TERRITORIAL ITEMS.**—Received by Deseret Telegraph:

**BEAVER, May 25.**—Forty miners are now at work in the Lincoln District, which is four miles from Minersville, Beaver county. From five to seven ledges in this district produce free gold by washing the dirt and ochre from them. Some of these ledges are traceable from three to five thousand feet, yielding rich mineral, and from three to five feet in width, having a continuation of rich mineral the entire width, assaying from 1,200 to 1,800 dollars in gold, and 400 in silver per ton. These lodes contain gold, silver, lead and copper, very little iron ore being found in the district. The formation of the mines is granite, quartzite, and slate.

**NEPHI, 25.**—We have to announce the death of one of our much respected citizens, Isaac Grace, after an illness of nine weeks. He got wet in a rain storm and took cold, which brought on chronic diarrhea, which terminated his life this morning at eight o'clock. Brother Grace was born in Liverpool, England, April 27th, 1820. He settled in Nephi in the fall of 1851. He was a thorough young man and filled many responsible positions here. He was a great support to our Nephi choir, from its organization. He leaves a wife and seven children and many friends to mourn his loss.

**THAT CAMP MEETING.**—It has been announced that it is the intention of certain persons to bring a mammoth tent here not long hence, in which to hold a regular old-fashioned Camp Meeting. There is a tent of this kind which is doing business at the present in this line in California with variable success; we presume it is the same one that has been said would be pitched here. The performances in the tent closed on Monday night on the Alameda, across the Bay from San Francisco, and from there it was moved to the latter city, with the intention of opening on yesterday. Its managers ought to have a successful run at that place, for there is an ample field for the exercise of their talent.

**WEBER COUNTY.**—Henry Stones, writing from Hooperville, on the 26th inst., says: Our crops all look well and will soon

be ready for harvesting. They have not been injured by grasshoppers, none of those insects having appeared here. Good feelings and health prevail among the people.

**ACCIDENT.**—About noon on Wednesday, a little four-year old boy, son of Mr. Joseph J. Taylor, met with a severe accident by falling from a mule. Doctors Anderson and Richards were called in to attend him, and who extracted some pebbles which were embedded in the poor little fellow's skull. It was feared at first that his injuries were of a fatal character, but we are pleased to be able to state that he is recovering.

**HYRUM.**—O. N. Liljenquest, of Hyrum, Cache County, who is now in town, informs us that the people, men, women and children, of that place and the grasshoppers are contending vigorously, the former in saving, the latter in destroying the crops. The insects have probably taken about one-tenth of the grain. A machine for killing them, the invention of Mr. A. Winberg, will be shipped from here for that place in a few days, with the aid of which the people will probably be able to more successfully resist their ravages.

**SEVERE ACCIDENT.**—This forenoon, while Brother J. H. Rumell was at work on the new church, immediately east of his residence, he met with an accident by which one of his legs was broken in two places a short distance above the ankle. It appears he was getting down from a building scaffold to the sill of a large back window, when he lost his balance and fell to the ground, a distance of over twenty feet upon some rough rocks. Drs. Anderson and Richards were in attendance shortly after the accident and set the injured limb, and Brother Rumell, this afternoon, was feeling as easy as could be expected under the circumstances.

**PAYSON.**—Elder I. M. Coombs, writing from that place, under date of the 27th inst., says: "Payson is thriving pretty well, considering the general hard times. Breadstuffs are scarce and hard to get. Flour has run up to \$5 and wheat to 1.75. We have, however, good prospects for an abundant harvest. The season, thus far, has been very favorable for all kinds of small grain. Our fruit crop looks promising and will, undoubtedly, be very large. No grasshoppers, of any consequence, have appeared here yet. Caterpillars were very numerous a short time since, but they are disappearing very fast. We hope to have our new meeting house finished by next Christmas. A great many strangers have passed through here during the past few weeks, anxiously enquiring their way to the rich hills of Tintic."

More than 500,000 people bear testimony to the wonderful curative effects of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. For palpitation or irregular action of the heart, all severe, acute or lingering Coughs, and for "Liver Complaint" or "Biliousness" it is unequalled. Sold by all druggists.

## 7-30 GOLD LOAN OF THE NORTHERN PACIFIC RAILROAD.

**RAPID PROGRESS OF THE WORK.**

The building of the Northern Pacific Railroad, (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific Coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and tracklaying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.

**A GOOD INVESTMENT.** Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on

**23,000 ACRES OF LAND** to every mile of track, or 500 Acres for each \$1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold. Denominations: Coupons, \$100 to \$1,000; Registered, \$100 to \$10,000.

**LANDS FOR BONDS.** Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

**SINKING FUND.** The proceeds of all sales of Lands are required to be devoted to the purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people, which is more PROFITABLE OR SAFE.

**EXCHANGING U. S. FIFTY-TWENTIES.** The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit and greatly increasing their yearly income.

**OTHER SECURITIES.** All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.
