

two of them can boast of American parentage. The Array is certainly very strong in all respects, and there is evidently about to open a theatrical boom of dimensions far beyond the ordinary run. Nearly all the theatres are now ready to begin, and one or two of them have already opened their doors. In all cases the policy to be pursued during the coming season has been thoroughly matured, and there is little left now to do beyond merely the mechanical work of the season. Two or three new theatres have been added to the list of New York play houses, and several old ones have been largely altered and made over.

### UNBELIEF.

There is no unbelief;  
Whoever plants a seed beneath the sod  
And waits to see it push away the clod—  
He trusts in God.

Whoever says, when clouds are in the sky,  
"Be patient, heart; light breaketh by and by,"  
Trusts the Most High.

Whoever sees, 'neath winter's bed of snow,  
The silent harvest of the future grow—  
God's power must know.

Whoever lies down on his couch to sleep,  
Content to look each sense in slumber deep,  
Knows God will keep.

Whoever says, "To-morrow," "The Unknown,"  
"The Future," trusts that power alone  
He dares disown.

The heart that looks on when the eyelids close,  
And dares to live when life has only woe,  
God's comfort knows.

There is no unbelief;  
And day by day, and night, unconsciously,  
The heart lives by that faith the lips deny—  
God knoweth why!

### A MODEL WOMAN.

I know a woman wondrous fair,  
A model woman etc—  
Who never runs her neighbors down  
When she goes out to sea.

She never gossips after church  
Of dresses or of hats;  
She never meets the sewing school  
And joins them in their spate.

She never talks of woman's rights;  
Nor is she so unkind,  
Whenever her husband stays out late,  
To talk him deaf and blind.

She never beats a salesman down,  
Nor asks for pretty plaques;  
She never asks the thousand things  
Which do his patience tax.

These statements may seem very strange—  
At least they may to some;  
But just remember this my friends,  
The woman's deaf and dumb.

### MIXED SPICE.

A man at a hotel fell the whole length of a flight of stairs. Servants rushed to pick him up. They asked him if he was hurt. "No," he replied, "not at all. I am used to coming down this way. I'm a life insurance agent."

It takes twenty blows of a hammer in the hands of a woman to drive a ten-penny nail three inches. She misses the nail twice where she hits it once. How many blows does she strike in all, and how far can her voice be heard when she strikes her thumb?

The year 1883 is an eventful one in cyclones, floods, explosions, collisions, earthquakes and other disasters. The list of casualties which is already quite lengthy, is constantly receiving additions. According to the list of accidents recently published in a northern journal, which list included only those in which at least three persons were killed, 3,000 lives were lost between January 1st and July 1st by accidents. Since then a large number of catastrophes have taken place, of which the earthquake horror on the island of Iceland was the most serious. By this disaster 8,000 lives were lost and a large amount of property destroyed. The cholera is devastating Egypt, the deaths being numbered by thousands, and the dread disease now threatens Europe. In referring to the disasters of the year, an esteemed contemporary remarks: "It would seem as if the wrath of God has been raised against this wicked and sinful world, and that man was to be called upon to suffer a heavy punishment and affliction for his sins."

### Rescued from Drowning.

NEW YORK.—Mr. James White, 1552 Broadway, formerly chief instructor in Dickel's Riding School, in this city, said to a newspaper reporter: "I broke my shoulder, arm and elbow, splitting the socket in four parts. Rheumatism set in and I employ the best physician. He tried everything, but I grew worse, and at last he said: 'I have one more thing to try, and if that fails nothing can give you relief; and that is St. Jacobs Oil.' I used this great pain reliever, and am able to use my arm free from all rheumatic trouble. I have also recommended the remedy to a number of people, and in every case they have been speedily and effectually cured."

### HOME COMFORT.

After a Rainy Ride a Country Physician Tells What He Thinks of Some People.

"I wish to gracious some people would learn when they need a doctor and when they don't," exclaimed Doctor E., as he entered his house in a cosy little village in the interior of the State of New York, after a tedious night ride of many miles. "I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live 'till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no; they must remain ignorant as pigs, and when the least ache or pain takes them, send for a doctor, whether they ever pay him or not."

"Why, Doctor, what kind of simple remedies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot tea.

"In this case," answered the Doctor, "if they had only put a BENSON'S CAPSINE POROUS PLASTER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."

In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called expulsion or extraction, or by a union of the two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing, soothing influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for to-morrow. Benson's plaster gives him help to-day. Which is better, do you think? Buy the CAPSINE and keep it in the house. Price 25 cents.

### Read What the Farmers of Utah Say of the Osborne No. 11 Twine Binder

Messrs. D. M. Osborne & Co., SANDY, Utah, July 31st, 1883.

Gentlemen:—Last year I bought a Marsh-Whitney Low Down Binder and fooled away the entire season trying to harvest my crop. This year the agent gave me their improved Binder, but like the first, it was a failure and I, together with all my neighboring farmers have become disgusted with the kind of work it does.

Knowing that the Osborne No. 11 Twine Binder was running all around me and doing good work, I went to town yesterday and purchased one. To-day it was set in motion and after thoroughly testing it in short and tall grain alike, I feel like recommending the Osborne to the farmers of Utah, as a machine that will give entire satisfaction.

Mr. Hardcastle is my neighbor, and after witnessing the working of both Binders above referred to, I heartily endorse all he has said,  
JAMES C. BROWN.

WALE, Utah, August 1st, 1883,  
We, the undersigned, farmers of Sanpete County, this day witnessed the cutting and binding of an Osborne No. 11 Twine Binder, and hereby certify that it did excellent work—the best we ever saw.  
We would confidently recommend it to any farmer wishing a Binder and say, buy no other.

D. M. Osborne & Co., Salt Lake City,  
Gentlemen:—My No. 11 Osborne Twine Binder was started to-day, and it gives me pleasure to state that it works to my entire satisfaction. Consider it the best Binder in market.  
Yours truly  
WM. O. CLARK.

KAY'S CREEK, Utah, July 7th, 1883.  
We, the undersigned, farmers of Kayaville, Davis County, Utah, present at an exhibition of the Osborne No. 11 Twine Binder, on the farm of Thomas Sandall, Jr., Esq., of this place, do hereby certify that the machine exceeded our expectations in every respect, binding a good sized bundle, trim and tight; we consider it a grain and labor-saving machine, in short it works to perfection and we recommend it to our farmer friends.
