

PRISON CONGRESS FOR INDIANA PLAN

Discussion Developed Fact That Sentiment of Delegates Was Almost Unanimous for It.

MET WITH SOME OPPOSITION.

Was Based on Biblical Grounds—Mrs. Eastwood's Advocacy of Chloroforming Idiots Caused Laughter.

Seattle, Aug. 16.—The debate in the American Prison association congress today on the "Indiana plan" for preventing the propagation of criminals and idiots, developed an almost unanimous sentiment in favor of the plan and was, according to President J. T. Gilmore, of Toronto, Canada, the most profitable discussion the association has held in years.

The feature of tonight's session was the report of the committee on prevention and probation, presented by Judge Ben Lindsey of the Denver juvenile court, who said in part:

JUDGE LINDSEY'S ADDRESS.

"Our criminal law, as it came down to us through feudalism, tainted with its extreme respect for property that it equally qualified its corresponding respect for human life and feeling, was an instrumentality of government far from perfect even for the purposes for which it was intended. Admitting that it was necessary and justifiable as a system in that period of social development—as we must—yet we must equally admit it must do more harm than good as long as it rests alone on force, violence, vengeance and punishment."

"The time may come, however, far in the future it may be, or how unprepared we may be for it now, when the state will come to deal with a criminal much as we now do with the insane. But this treatment of the criminal will be as unlike the extreme methods in vogue, of stripes, iron collars and other reminders of degradation as it is in the treatment of the insane, within a century who were as completely brutalized and degraded as convicts are now."

Mrs. J. Ellen Foster of Washington, spoke on "The Harmony of Progress" and Eli Brown of Frankfort, Ky., on "Probation in the South." One delegate objected to the debate being continued before women, who composed at least one-third of the audience. Thereupon the women delegates at once took the lead in the controversy led by Mrs. Deborah C. Weeks, president of the Philadelphia Social purity league.

Other speakers for the Indiana plan were Mrs. C. B. Hoffman of Kansas, Mrs. L. R. Eastwood of South Dakota and Mrs. J. G. Wood of Topeka, Kan. Mrs. Eastwood's advocacy of chloroforming idiots elicited laughter. The principal speaker in opposition was Varden P. Helstrom of North Dakota. He argued the debate it was announced that Connecticut and California had followed Indiana. The motion to suppress was not put to a vote. President Gilmore said it would not have received three votes.

As one grows old the bowels grow less active. Some then take harsh cathartics, and their bowels harden. Then they multiply the dose. Some take candy Cascarets. They act in natural ways, and one tablet a day is sufficient.

Vest-pocket box, 10 cents—at drug-stores. People now use a million boxes monthly. 851

forming idiots elicited laughter. The principal speaker in opposition was Varden P. Helstrom of North Dakota. He argued the debate it was announced that Connecticut and California had followed Indiana. The motion to suppress was not put to a vote. President Gilmore said it would not have received three votes.

At the afternoon session there was a discussion on "Discharged Prisoners." The discussion was opened by Rev. F. E. Finner, superintendent of the Central Howard association, Chicago, and Rev. E. A. Frodenhagen, superintendent of the society of the Penitentiaries, Kansas City. Gen. Carlos Velez, Cuban minister to the United States was to have spoken on prison and reformatory work in Cuba, but sent his regrets. He will visit Seattle later. W. A. Gates, secretary of the California board of charities spoke on "County Jails." He said in part:

THE COUNTY JAIL.

"The county jail has been charged, indicted, tried and convicted time and time again for ruining the bodies and souls of its victims, but each time the execution has been stayed and it is still unwhipped of justice," said W. A. Gates, secretary of the California board of charities, in an address at the convention of the American Prison association today.

"To reform the county jail and make it an instrument of good instead of evil, the following steps are necessary: "District workhouses for all prisoners sentenced to terms in jail and a proper labor system installed therein."

"A separate cell for each prisoner, well lighted and ventilated, and supplied with sanitary plumbing. "Sufficient rooms or departments, so that prisoners may be classified according to sex, age and apparent criminality, and each class be completely separated from the others."

"Trained jailers with humane instincts and high character, who appreciate the opportunity of making better the persons placed in their charge."

"The improvement of our county jail system, however, depends upon a general improvement of social order. No material advance will be made until man puts a higher value upon his fellow man. Society must feel that men are worth saving before it will do so until we forsake the worship of the golden calf, and give obedience to the golden rule."

Mr. Gates criticized the handling and treatment of female prisoners in several counties of California and recommended the enactment of a law compelling the appointment of a matron in every county jail.

SAMUEL SALANT, RABBI OF JERUSALEM, DEAD

New York, Aug. 17.—A cable message received here announces the death in Jerusalem of Samuel Salant, rabbi of Jerusalem.

Samuel Salant was chief rabbi of Ashkenazie congregation. He was born on Jan. 2, 1816, at Bialystok, Russia. He married the daughter of Sundi of Salant and assumed the name "Salant."

At an early age his lungs became affected and he was advised to seek a warm climate. This induced him in 1840, to go with his wife and son, Benjamin Benish to Jerusalem. Salant was an eminent Talmudist.

SENSATIONAL ALLEGATIONS

Made in Motion to Quash Indictments Against Gov. Haskell et al in Town Lot Cases.

IMPROPER CONDUCT CHARGED

Against Five Grand Jurors—Alleged They Sought to be Drawn As Members.

Muskogee, Okla., Aug. 16.—Attorneys for Gov. Charles N. Haskell and the five other defendants, indicted in connection with the alleged Muskogee town-lot frauds, today filed motions in the federal court here to quash the indictments, setting forth a number of sensational allegations.

Aside from charges against five grand jurors and the allegations of improper conduct on the part of the United States attorney and United States Marshal Grant Victor, the allegations deal largely with the grand jury's selection, with especial objection to the exclusion of Muskogee county, the home of the defendants, from the territory from which the jury was drawn.

It is alleged that George W. Strawn, J. H. Dixon, J. C. Burgess, A. G. Dumas and W. T. Bailey, members of the grand jury which indicted the defendants, deliberately sought to be drawn with a view to returning indictments; that Strawn, as foreman, conspired to intimidate the other jurors into voting indictments after they had refused to do so. The motion insists that Foreman Strawn repeatedly told the jurors that they would probably be charged with perjury if they failed to indict and at one time, when the ballot stood eight to eight, he called for an open vote so he would know who should be prosecuted.

It is alleged that out of eight talesmen selected, seven of the parties to the case, the eighth being a bitter personal enemy of Gov. Haskell, Gov. Haskell is a Democrat.

After pointing out numerous technical errors in the manner and time of the grand jury's selection the motion declares there was no evidence presented to show a conspiracy to defraud and that the secretary of the interior and all of its deputies were in the Indian Territory were fully aware of how the lots were scheduled and that no objection was raised.

The six defendants were indicted by the federal grand jury at Tulsa, Oklahoma, on May 27, charged with obtaining titles from the government to town lots to Muskogee by illegal methods.

The five defendants of Gov. Haskell, all wealthy and prominent citizens of Oklahoma, are: C. W. Turner, A. C. English, W. R. Eaton, W. T. Hutchins and F. B. Severs. Gov. Haskell and six other defendants had previously been indicted on the same charge, but on April 10 last Federal Judge John A. Marshall of Utah upheld a motion of the defendants to quash the indictments. The indictments were quashed on technical grounds.

X RAY CURE FOR SOME CASES OF LEPROSY

Washington, Aug. 16.—The X-ray as a cure for some cases of leprosy has been demonstrated by the Philippine health authorities in the Philippines according to Dr. Victor G. Heiser, chief quarantine officer in the islands. Dr. Heiser in a report to Surgeon General Wyman of the public health and marine hospital service, says the X-ray is suitable only for specially selected cases and is valuable apparently only in the early stages of the disease. In the Philippines, segregation having reduced by more than 1,000 the number of cases during the last two years. At the beginning of the last year, there were 11 years ago, there were nearly 4,000 lepers.

Americans perfected the establishment for lepers on the island of Culebra in 1906. It is estimated that under the Spanish regime, 700 new cases developed every year. At present the number of new cases averages 200 annually.

BAND OF CHINESE SMUGGLERS BROKEN UP

Detroit, Mich., Aug. 17.—A band of Chinese smugglers, using Fighting Island, a deserted bit of land 10 miles down the river, inside the Canadian border, as the base of their operations, is believed to have been broken up by the capture of three young Detroit men and two Chinese in Lansing. It is the belief of the authorities that the gang, checkmated at the turn hit upon the deserted island as headquarters and that Chinese to be smuggled were taken in hand and upon their arrival in Windsor and Detroit, on the island until the opportunity offered to take them across the line in a launch, they were to be taken away in automobiles.

JUDGE ELLIOTT ARRIVES.

Manila, Aug. 17.—Federal Supreme Justice Charles D. Elliott, who was appointed by President Taft last May arrived today on the liner Mongolia and assumed the duties of his position at once. Justice Elliott came to the Philippines after years of service on the bench in Minnesota.

OVERCOME BY FUMES FELL INTO WINE VAT, DROWNED

Cucamonga, Cal., Aug. 17.—Overcome by the fumes, F. Fernandez, a laborer in a winery, fell into a big wine vat yesterday and was asphyxiated. A companion who was to have helped him in the task of cleaning the vat, rescued the body.

ADVISER TO PUBLIC OFFICIALS.

Cleveland, O., Aug. 17.—The Rev. Dr. Harris R. Cooley, yesterday became advisory head of the police, public safety, fire and building inspection departments. He also will have charge of the charities and correction work he has built up, which has attracted national attention.

FAMOUS GAMBLING HOUSE TURNED INTO RESTAURANT

New York, Aug. 17.—The famous gambling house of Gottfried Walbaum, in West Thirty-third street, the most gorgeously furnished place of chance in this country, is about to be thrown open to the public as a restaurant. Until Dist. Atty. Jerome had a memorable interview with Walbaum, the house

DIABETES

We have the following unsolicited letter from James T. Douglas, Harrisburg, Oregon:

Harrisburg, Oregon, June 25, 1908. Gentlemen: I have had Diabetes for over two years and was almost in. Was very weak and could hardly walk. I tried many treatments, when medical books admit they have nothing for it. Let us say in reply, that when the Late John J. Fulton discovered he had Bright's Disease, and that the disease had no specific for inflammation of the kidneys, which was the real difficulty, he set out in a new direction to evolve an emollient that would reduce inflammation in the kidney tissues. He worked it out and inflammation of the kidneys all along the line from kidney trouble to Bright's Disease, even the most chronic form, is now curable in about eighty-seven per cent of all cases.

Diabetes took it upon the theory that an inflammation of the functions that are closely related to the urinary processes, it ought to get results in that trouble, too.

It did, but much more slowly than in distinct kidney trouble. This led to a modification of the treatment for Diabetes, with the result that Diabetes is also curable in nearly nine-tenths of all cases in people of middle age and upward. (Kidney disease commonly responds in all ages.)

For Kidney Disease, ask for Fulton's Remedy Compound.

For Diabetes, ask for Fulton's Diabetic Compound.

Patients whose cases do not respond are requested to write John J. Fulton Co., 212 First St., San Francisco.

F. J. Hill Drug Co., are our sole local agents.

was the resort of many millionaires and the games played there were for enormous stakes.

The place was decorated and furnished after designs supplied by Stanford White, who was killed by Harry K. Thaw, at a cost of more than \$250,000. A magnificent carved bronze door, set in a heavy frame brought from Italy at a cost of \$28,000, to serve as the main portal. The carving on the stair case cost \$11,000. Canvas ceilings by famous artists cost upward of \$50,000. Hand carved tables and chairs throughout the house cost from \$500 to \$1,000 each. Every room is hung with rich portieres and tapestries. The man who was killed by Thaw will retain the building just as it is and will operate it as another of New York's many all-night restaurants.

TAKE NOTICE.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, urinary troubles, etc. It will quickly correct urinary irregularities, which if neglected, may develop into a serious illness. It will restore vitality, and prevent the onset of signs of kidney or bladder trouble and risk Bright's disease or diabetes. F. J. Hill Drug Co., ("The Never Substitutors.")

CITIZENS ORGANIZE TO FIGHT INCORPORATION

St. Louis, Mo., Aug. 17.—Two hundred citizens of Wellston, a newly incorporated city in St. Louis county, last night pledged themselves to a program of defiance against the authorities of the municipality and the ordinances which the latter have enacted or may pass. Plans for a defense in the courts of such of the city's inhabitants as may be arrested were adopted and attorneys retained to look after the interests of those who may find themselves engulfed in the sea of legal complications which is being complicated by the launching of the new ship of state.

The 200 "anarchists," as the constituted authorities of Wellston dubbed them, are charter members of the "anarchist league."

Without exception they contested the formation of the city, asserting that annexation to St. Louis was preferable. This struggle was carried into the courts and lost to the organizers of the city, but since then quo warranto proceedings have been instituted in the Missouri supreme court and are expected to be heard in October.

Meanwhile the "antis" will refuse to pay licenses or taxes, will resist the enforcement of ordinances and defy the officers of the city's police force, its mayor, board of aldermen and prosecuting attorney. Arrests will be welcomed and in all cases a change of venue will be asked from the St. Louis county court. The tribunal which decided that the incorporation of the city was legal.

SOUTH AFRICAN CONSTITUTION BILL

London, Aug. 16.—The house of commons unanimously passed the second reading of the South African constitution bill tonight. In the course of the debate former Premier Balfour said that the house in dealing with the question of a constitution for the federation of South African colonies—the Transvaal, Cape Colony, the Orange River State and Natal—was discussing one of the most important events in the history of the British empire. The bill, he declared, was a most wonderful issue from all the controversies, battles bloodshed and difficulties to peace and he believed the world could not show anything like it.

The race question, Mr. Balfour said, was but a fractional part of the great questions parliament was now deciding. He strongly denied that it was intended to give the colored races equality with Europeans.

He declared it would be impossible to give equal rights to the colored races without threatening the whole fabric of civilization.

In the opinion of Mr. Balfour, the best hope for the solution of this great problem was to place absolute and implicit confidence in the representative institutions the South Africans are now creating and for the home government not to meddle with it.

CURED HAY FEVER AND SUMMER COLIC.

A. S. Nusham, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate my condition. I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success."

A-Y-P EXPOSITION RATES.

Via Oregon Short Line R. R.

\$30.00 from Salt Lake to Seattle and return; on sale daily commencing June 1st. Ask agents for further particulars.

Ask for 503—it's government inspected.

CERTAIN RESULTS

Many a Salt Lake City Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Salt Lake City. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical sufferer. Read the following statement:

A. Reynolds, living at 379 west First North street, Salt Lake City, Utah, says: "Before I procured Doan's Kidney Pills at the F. J. Hill Drug Co., I had been troubled for a long time from kidney complaint and backache. I was restless at night and as a consequence would arise in the morning feeling tired and worn out. Doan's Kidney Pills helped me in every way and I have not had any trouble since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for United States.

Remember the name—Doan's—and take no other.

FINE PUBLICITY STAMP IS NOW BEING ISSUED
In this age of progress and development the publicity stamp has taken its place as an important advertising medium. When placed upon outgoing letters the suggestion which the stamp conveys reaches people in all parts of the world.
Seattle has sent out 5,000,000 of these little messengers telling about the exposition, while San Francisco is sending them by the thousands, inviting people to go to the Portoro festival next October. Portland, Or., also uses a publicity stamp with wonderful success.
The Salt Lake City publicity stamp which has just been issued, is designed on broader lines than any other stamp at present in use. It not only advertises Salt Lake City as the nucleus of the greatest agricultural and mineral section in the world, with its ever increasing population, but has launched a slogan, "Best Place on Earth." It also calls attention to the wonderful resources of Utah as the place for investment and development. The stamp is a beautiful design in brown and blue, the cut in the center representing two of Salt Lake City's sky-scrapers. It is proposed to make Sunday, Aug. 29, Salt Lake City's publicity day. Stamps may be procured exclusively at

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands, and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe, they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.
