The Colossus of Rhodes, under which the pig-

treal will be reafter resp much of the benefit which

is furtished by on English gentleman, who have a progressed his surprise to a farmer that there were not more sheep in the glena, which are so rich in pasture. (Faith, said the farmer, they all disappeared in the familie. Three handred of the poor things called no mass the village and the farmer, they all disappeared in the familie. Three handred of the poor things called no mass the village shift that they is the first but two were born, and the villages filled them all but one, and not like eye servants, in they deleft that one just for the sake of the sheet.

I also feel that it it is due the health and they have done their health and the farmer. They are they deleft that one just for the sake of the sheet.

I also feel that it is due to ave of them, that they have done their health and the party of earthed lists been for a long time to say of them, that they have done their health and the party of earthed lists been for a long time to say of them, that they would get the wall of the

She therefore bestowed her attentions upon two of the chickens in such a manner as to wear them cutrictly from their natural parent and gnordian and assume that prerogative to herself. Unforty modate the small sobool of the neighborhood, and ungarded moment, while brooding her new charge, she overland one of them and enclose land, smothered it to death. This only increased her and enclose land.

Two years after, I visited this place. The long school house had been demolished, and the boundation was laid for an adobte mae, which it in her mouth and convey it where she wishes it to go, she will take to go, she will est dough with it, and endeavor in all ways to assimilate herself to its whims. But one thing perplexes and grieves here she cannot after contriving all means in her power, induce it to make a power in factor of the chickens in such a manner as to wear them to accommended to open and adobte many state of the chickens in such a manner as to wear them to accommended to propose the members of the Church emigrated. Thirty-six members of the Church emigrated in such as to cherthim in his horts of toil and shery. The members of the church emigrated in such as to cherthim in his horts of toil and shery. The members of the Church emigrated in the such that the meeting about 25 farmers, who had commenced to open and end and security when he is unfit to labor because of bad last year, beside other members of families under the meeting about 25 farmers, who had commenced to open and end and security when he is unfit to labor because of bad last year, beside other members of families under the such the such as year, beside other members of families under the such the such as year, beside other members of families under the such the such as year, beside other members of families under the such as year, beside other members of families under the such as year, beside other members of families under the such as year, beside other members of families under the such as year, beside other members of families under the su

gation to find something to discuss to continue their pay. If they received a sum is solide, they was rendered necessary to avoid locating a line would economise their time and tongues instead of the wall through a swamp. The east line of wearying the public patience by endless discussions. The Senate takes a recess under a decision 206, the west end 72; north side of the L 123. In regard to the work in France, it moves on that the pay of members will continue. The pay of some of them is becoming ontie an inducerment; take the example of Texas: per diese for location of them is becoming ontie an inducerment; take the example of Texas: per diese for location of them is becoming ontie an inducerment; take the example of Texas: per diese for location of them is becoming on the location will have a for location of them is becoming on the location of them is becoming the location of the whole were showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the existing laws and the very showly, and under the very showly, and

I landed here on the 28th August. Weather to improve upon. The contrasted at 11. for two weeks after was so oppressive, I could and D. A. Miller, at \$5,500.
