PRICE OF GOLD.
(Corrected Daily by BANK OF DESERET.)
SALT LAKE CITY, July 12 1872.
Gold at \$1.13 1/2 selling at \$1.14

LOCAL AND OTHER MATTERS.

GHEELEY AND BROWN.

Have Ratification Meeting

A mass meeting of the friends of that grand national movement which has culminated in the nomination of Greeley and Brown, for the next President and Vice-President of the United States, will be held at the City Hall, in Salt Lake City, on Saturday the 13th instant, at 7 o'clock p.m.

Seats for ladies will be provided in the hall.

Speaking from balcony at front of building.

The city bands are requested to participate.

MANY CITIZENS.

The above has been handed to us for publication. We have no doubt the meeting will be numerously attended and will be very enthusiastic, as the Greeley and Brown ticket has quite a large number of endorsers in this city.

U. S. GEOLOGICAL SURVEY.—Lieut. G. M. Wheeler's party, of the U. S. Geological Survey, numbering seventeen gentlemen, will be in town this evening. The party is expected to remain here for some time, as we understand, they come for the purpose of exploring this entire region for scientific purposes.

NEVER SIGNED IT.—S. S. Tucker, who has resided for some time at Evanston, has written to his father-in-law, Brother Sam'l Neslen, of this city, and requested him to let his friends know that although his name is signed to the anti-State petition he never signed it or any other document of similar import. He says he never even knew of the existence of the memorial until it appeared in the News. Brother Tucker wishes it to be clearly understood that he is not an anti-State man, neither is he in any way in sympathy with the petitioners.

ILL.—We regretted to learn, yesterday, from Brother Alvin Crockett, of Logan, of the continued illness of Bishop Wm. B. Preston, of Cache Valley. It will be remembered that while on a visit to Soda Springs, last year, the Bishop was accidentally shot in one of his arms, near the shoulder, by which about two inches of the main bone were blown to pieces. Notwithstanding the very severe nature of the injury, he partially recovered the use of his arm, and not long after the accident was around attending to business with his usual activity. It appears, however, that his naturally energetic temperament caused him to use the injured limb too freely, having, a few days previous to his present attack of illness, engaged in working in his garden, which, combined with a cold which he took a short time since, caused the injured arm to become more swollen and inflamed, and to be exceedingly painful, confining the Bishop to his bed. We trust his illness will be of short duration, and that he will soon be around again in his usual health and spirits.

UTAH IS STILL on the highway of prosperity, with her untold elements of wealth yet in their infancy, and just coming to light to the outside world. Her railroads, her mines, her agricultural and manufacturing interests, are all represented in a highly favorable condition. Many of her towns are growing rapidly; particularly her emporium, Salt Lake City, is improving and increasing in population beyond all precedent. The Mormon settlement, which took a quietus just before we went to press in June, remains unchanged. Every thing is quiet, peace and plenty prevail.—The West.

FUNERAL SERVICES.—The funeral services of Loren Farr, son of John Henry and Sarah Farr Smith, who died on the evening of the 6th, after a short illness, of inflammation of the bowels, aged two months and six days, took place yesterday at 10 a. m., at the house of Pres. Geo. A. Smith, in the 17th Ward. Elder Joseph F. Smith delivered an appropriate and instructive address to friends of the family.

MINER JUMPERS.—There is trouble among miners at Lewiston, Camp Floyd. Mr. L. Pike has sent information to Mr. Byron Gros, deputy Territorial marshal of this city, that a band of armed jumpers drove his (Pike's) men from the Ruby cut-and-shaft on Monday morning. The Justice of the Peace in that locality gave his officer a warrant for the arrest of the besetting party, but the latter were armed with fiery rifles, and could not be dislodged. An order has been obtained from the District Court here for a warrant for the arrest of the jumpers. The necessary papers will be made out to-day, and we understand deputy Marshal B. Gros will start for the scene of the difficulty tomorrow morning, and will be accompanied by a couple of officers from here. Byron, an efficient officer, and if the belligerents hold out long and hard, it will be something which we do not expect.

We are not acquainted with the merits of the case in question, but we do not believe in people asserting what they may term their rights of possession by brute force, and parties pursuing such a course show pretty conclusively that they have not a very clear case from a legal point of view.

POSTPONED.—The juvenile theatrical entertainment, advertised to be held at the School Hall, on Saturday 13th inst., is indefinitely postponed. We understand President Young intended giving the juvenile the use of the Theatre for the occasion, but as that building is now undergoing repairs and gas is being introduced into it, it is not now in a fit condition. Due notice will be given the public when the juvenile entertainment is to come off.

THE BIGGEST YET.—A mining discovery has been made in Parley's Park recently by a gentleman named McHenry and another whose name we have not learned, both of whom are recently from Illinois, who is said to be the richest of any that has yet come to light in this region. It is from mining ore, there being no lead in it, and is said to assay from \$400 to \$500 to the ton. A claim of 600 feet in width and 1,600 in length, the extent allowed by law, has been located. The lead is said to extend the entire length of the claim, but its exact width has not yet been ascertained. The discovery is about eight miles from the residence of Mr. William Kimball. We were informed to-day that the discoverers had sold out their claim to Aspinwall & Co., of New York, for \$200,000, after expending about ten days work on it.

DISORDERLY.—The party who keeps the beer saloon on First South Street under the National Hotel, was before Justice Clinton this morning, charged with keeping a disorderly establishment. The evidence showed that there was a general uproar—boasting, yelling, stamping of feet, &c. in the house on Wednesday night.

yesterday afternoon, cooling the air to a most enjoyable temperature, washing the foliage and vegetation by the dust and pleasing every body.

THE WHITE HATS are increasing in numbers, and the Greeley stock is evidently not to be despised. Grant is a weak, general and a cautious and determined President, but the coalition of Liberal Republicans, Democrats and malcontents will pick many flaws in his record, and manipulate them so as to cause them to "go sign him," and if his solidity can be shaken there can be no doubt that it will be shaken. Any way the Greeley men are very sanguine they consider they have not only a big thing, but a sure thing.

SANPETER COUNTY.—Bishop Andrew Moffat, of Maun, stepped into our office this morning, looking healthy and hearty, and on pretty good terms with his friends. He reports Maun going along quietly and prosperously, not creating much noise, but making substantial improvements, as indeed is the case throughout the whole county. Health prevails, there are no Indians to annoy, and everything is prospering. The appearance of that section is different to what it has been for years, much more promising than ever. A very large breadth of grain was put in, and the Bishop says he never saw such crops—they look magnificent. It is grain, grain, grain, from Dan to Beersheba in that country, and all of the finest grain there is about. The abundance and the cattle are doing better and looking better than they have done for a long time. Andrew considers the U. S. R. R. one of the greatest accommodations for travelers and business men and one of the greatest blessings ever introduced in the territory. He hopes soon to hear the iron horse snorting in Sanpeter valley.

Provo City, July 8th, 1872.

Editor Deseret News.
Some time ago I signed a petition without reading it, believing it to be, as represented, a petition for the enactment of a new mining law, which, you will see, is a petition against the admission of Utah as a State. I wish to say that I do not endorse the sentiments expressed in that petition, and have no sympathy with that party, and in the future shall know what I sign my name to before doing so.

Respectfully,
ADELBERT ROBERTS.

THAT EXCURSION.—The notice in yesterday's local, of the excursion to-morrow on the City of Corinne, through misinformation or misunderstanding, conveyed a wrong impression. It is a special affair, and all notices respecting preparations therefor specially concern only persons invited to participate in the excursion.

JOHN CHINAMAN.—As the "celestial" are getting quite numerous in this city, and are likely to continue increasing, the following extract from an article in the Atlantic Monthly may be somewhat interesting to our readers.

"John began as a house-servant, and still finds most of his employment in that capacity. As a natural cook he has no equal, except in the Frenchman. His person he religiously keeps clean, and is ready to sweep, to make beds, and to wait of errands—for John is a deliberate, and seldom runs. Entrusted children to his care, and he will dandle them in his arms, or trundle them in their carriages, or amuse them with playthings, with the same calmness, sobriety, and patience which he shows in the kitchen. He is a great talker, and he will talk of his native country, that he has been taught to do everything with the most carefulness, with the most absolute thoroughness. He is mighty in the laundry. He does up the shirt like an artist, and never forgets to sew on the buttons. In Sacramento, night after night, I heard at short intervals, from my hotel windows, a peculiar 'whirr-whirr' in the street below. At first I fancied that it must be 'de chine michi' wacher' of Hans Breitmann, giving the 'all-well' signal to his comrades. But finally I discovered that the sound came from a Chinese laundry just across the street, where John was sprinkling clothes by blowing water upon them with a hollow reed. Usually he sprinkles them directly from his mouth—a process better adapted to linen than to broad."
