

had with Ryland in regard to the Turkish convention, but he pointed out that it was a different matter to condemn a treaty, and to use force and violently upset the convention might endanger the peace of the east. He therefore, the House would press any such course on government. He argued that there was analogy between the acquisition of Cyprus and Tunis, although our people had a bad effect. He warmly commended Goschen's services at Constantinople, and stated that Dufferin, the newly appointed ambassador to that court, carried him instructions to put forward the settlement of the Armenian question.

Madison violently attacked the intricacy of the late government regard to the conversations of Salisbury and Waddington, and said the French policy in Tunis had been dangerous to public peace, and had involved a breach of public faith, England, by the evil example she set, would have weakened her right to protest against it. It is a departure from European conduct which the late government had thereby destroyed, and which the present government had labored and sold labor to rebuild.

DENVER, 26.—Dalores news of the 22nd, corroborates the previous accounts of the Indian fight, except as follows: It places the number of whites engaged in the Indian fight in Grand valley at 18. It says: The first day J. H. Eskridge, James Hall and David Willis were cut off and surrounded by Indians, when they fought hand to hand although outnumbered ten to one, and Willis was killed, Hall seriously wounded and Eskridge had his hat riddled with bullets and his scalp covered with wounds caused by the grazing bullets, and received a wound in the ankle, which will have to be amputated. Eight of the 18 whites were missing on the evening of the first day, one of them, John Bean, was found, fatally wounded. The other seven were probably killed although they may have escaped to the Mormon fort in Grand Valley. He is missing are Jack Galloway, H. Melvin, Thomas Click, T. C. Taylor, two Talar brothers and an unknown young man. D. G. Taylor, our informant, started for Rico. The Indians had received reinforcements and have several hundred warriors on the field of battle. A hundred men leave Rico, to-day, with the avowed determination to rescue the survivors and avenge the death of those killed or fall where they fell. Lieutenant Wm. Day, displeased with the action taken, left the main party with his squad. Their whereabouts are unknown. Horses, guns and ammunition are scarce but the neighboring towns will aid Rico. No need of blue clothes. The party has gone to fight and not to subdue.

SAN FRANCISCO, 26.—The ship *Franconia* ran ashore on South Farallone's Island, near the entrance of San Francisco harbor, will prove a total loss. A dense fog prevented the island being seen. The *Franconia* is from New York with a cargo of general merchandise. The crew are safe on the island, saving what they can from the wreck. Several boats went out to their aid, but could do nothing and returned.

WASHINGTON, 27.—The following circular was to-day forwarded by Comptroller of the Currency Knox, to the cashiers of national banks: I am desirous of obtaining as accurate an estimate as possible of the respective proportions of business done through national banks by the use of actual money and by the use of checks, drafts and certificates, and in order to do so I have to request that you will keep an accurate account of the receipts and payments of your bank of the 4th day of June and the 4th day of October, '81, and report the same to this office immediately after the dates named, specifying the amounts of the several items named. As it will probably be impossible for you to give the information asked for after the dates named, you will have to be careful to note down the amounts of items indicated, it is particularly requested that you will take suitable precautions to guard against overlooking the matter. If there are any times of receipts or payments other than those mentioned in the accompanying form, I will take it as a favor if you will designate their character and insert their amounts in your report. The circular is accompanied by a blank form, which under the heading of "receipts" calls for the amount of gold coin, silver coin, currency, viz: legal tender notes, na-

tional bank notes and silver certificates, and the whole number of checks, drafts, etc., received and credited, and under the head of payments. Calls for checks, drafts and certificates of deposit on the respective banks paid in coin and currency, the number of checks, drafts and certificates of deposit on other banks and bankers paid in coin and in currency, the checks and drafts on the respective banks credited to depositors, and the checks and drafts drawn by the respective banks on other banks and bankers.

NEW YORK, 27.—An Albany special says of the decision made by the chair on Saturday, that a quorum was present in joint convention, was a general surprise to the democrats, and they showed it was. Evidently they had been calculating upon having less than a quorum present and meant to use the fact for the purpose of raising the question as to whether without a quorum there could be a ballot, and if any day passed without a ballot, whether that fact did not disqualify the present legislation from electing senators and throw the question over to the legislature to be elected next fall, thus taking the question to the polls, under the United States statute, which ordains that the legislature shall take at least one ballot every day in its session.

The *Graphic*, referring to the above, says: The act of Congress regulating the election of United States senators, specifies that a quorum of each house shall be necessary to form a legal joint convention. The incident of Saturday furnishes an excuse for the democratic majority of the federal senate to reject any one who may hereafter be re-elected as senator by the present legislature.

At nearly all the Trade Union meetings yesterday it was stated that the demands of members have been granted by employers. Since January workmen have demanded concessions of time, in more instances than one, an increase of wages. The idea that workmen should have a half holiday on Saturday, is now being prominently pushed to a practical solution here. Men who are managing the movement are sanguine of success, and even say if the New York manufacturers will not concede this demand, mechanics who are anxious for the success of the Saturday half holiday will follow the movement to other places. Those employers who refuse to give their men a half holiday, claim the concession would often place their business in jeopardy. One large manufacturer said to a *Tribune* reporter that a large contract had been lost by him because his men were taking a half holiday on Saturday. This prevented him from completing the work as soon as a rival firm whose men are working 60 hours a week. Other firms engaged in the iron business say where the men stop work at 12 o'clock on Saturday, the expense of running the shop is nearly the same as if the full day was used. The half holiday men say in answer to this that in the shops where the concession has been granted, the employers are fully satisfied with the amount of work done and believe it is even greater.

An inconsequential newspaper of this city had advertised extensively lately, that it would have the whole and true story of the stealing of Stewart's body. This morning it says: "The narrative of facts in connection with the search for the stolen body of Stewart, the first chapter of which is given below, is so voluminous, that in order to admit of the publication of the current news of the day, we are compelled to give only a portion of it this morning. The entire story would fill very nearly three pages. The remaining chapters will occupy a large amount of our space during the next four or five days, each installment increasing in interest as the story develops."

**TERRITORIAL FAIR, 1881.**

List of premiums to be awarded to competitors at the Territorial Fair, to be held in this City in October next.

**CLASS H.—POULTRY FISH, AND BEES.**  
A. H. RALEIGH, SUPERVISOR.

- Best trio Light Brahmas, 1.00
- " Dark Brahmas, 1.00
- " Brown Leghorns, 1.00
- " White Leghorns, 1.00
- " Black Spanish, 1.00
- " Black Java, 1.00
- " Plymouth Rock, 1.00
- " Houdans, 1.00
- " Hamburg, 1.00
- " Dorkins, 1.00

- " Polish, 1.00
- " Dominique, 1.00
- " Game, 1.00
- " Bantams, 1.00
- Best Pair of any variety with six of their progeny, Bronze Medal
- Trio Ducks, 1.00
- " Geese, 1.00
- trio Turkeys, 1.00
- " Guinea fowls, 1.00
- " Pea fowls, 1.00
- collection of fowls, not less than twelve, Poultry Book
- and largest collection of pigeons, Diploma

- collection cage birds, 1.00
- six native live fish, 2.00
- collection gold fish in aquarium, Bronze Medal
- swarm Italian bees, with reference to quantity, quality and condition, bees and honey, Utah raised, Diploma
- 20 pounds extracted honey, home production, 3.00
- 10 pounds comb honey, home production, 2.00
- 10 pounds beeswax, home production, 2.00
- Beehive, with reference to improvements and advantages in apiculture, Diploma
- and largest collection of tame rabbits, Diploma

**CLASS K.—CARRIAGES, FARMING IMPLEMENTS, ETC.**

H. DINWOODEY, SUPERVISOR.

- Best carriage buggy wagon, Gold Medal
- plow, Silver Medal
- harrow, Bronze Medal
- field roller, " "
- drill and irrigator, " "
- horse cultivator, " "
- potato digger, " "
- horse rake, " "
- hay fork, 1.00
- manure fork, 1.00
- set of garden tools, 3.00
- ox yoke, 1.00
- ladder, 1.00
- cheese press, 3.00
- churn, 1.00
- washing machine, 3.00
- wheelbarrow, 2.00
- six pieces cooperware, Silver Medal

**CLASS I.—CIVIL AND MECHANICAL ENGINEERING.**

Wm. J. SILVER, SUPERVISOR.

- Best executed plans, sections, etc., of mine, Diploma
- topographical map, with profile of railroad, Diploma
- design of wooden bridge, 100 feet span or over, Diploma
- design of cast iron bridge, 100 feet span or over, Diploma
- design of wrought iron bridge, riveted, 100 feet span or over, Diploma
- design of wrought iron bridge, pin connected, 100 feet span or over, Diploma
- executed drawing of civil engineering work, Silver Medal
- executed drawing of machinery, Silver Medal
- executed drawing of buildings, Silver Medal
- line shaded drawing of machinery, Silver Medal
- isometrical projection, " "
- construction drawing for ship or boat, " "
- set working drawings for shop use, " "
- sectional model of mine workings, " "
- stationary steam engine, not less than five-horse power, gold medal.
- portable engine and boiler, diploma.
- saw mill, diploma.
- turning lathe (hand), silver medal.
- turning lathe, slide and screw cutting, diploma.
- planer (iron), silver medal.
- drilling machine, diploma.
- line shafting, diploma.
- pulleys for shaft, silver medal.
- hangers, bronze medal.
- couplings, silver medal.
- spur and bevel gear, \$3.00.
- run of mill stones, with iron work, diploma.
- fire engine, " "
- molasses mill, " "
- threshing machine, " "
- mill for grinding ores, " "
- ore pulverizer or disintegrator, " "
- ore sampling machine, " "
- mining car, \$3.00.
- set cast-iron water jackets, silver medal.
- slag pot, \$2.00.
- surface plate, \$3.00.
- hoisting works, diploma.
- set of grate bars, \$3.00.
- fan blower, silver medal.
- steam general service pump, diploma.
- " tank pump, " "
- " fire pump, " "
- " milking pump, " "
- " feed pump, " "
- hand pump, \$2.00.
- hydraulic ram, 3.00.
- Water wheel for irrigation, 5.00.
- railroad switch, silver medal.
- " turntable, " "
- " traverser, " "
- shoes and dies, " "
- general display of machinery, gold medal.
- stone dressing machine, diploma.
- stone sawing machine, diploma.
- vertical boiler, " "
- locomotive boiler, " "
- return tubular boiler, " "
- flue boiler, " "
- specimen of boiler flue aging, silver medal.
- " of tube welding, " "
- " of angle iron work, " "
- wrought iron water jackets, diploma.
- best specimen of pig iron, silver medal.
- assortment of files, 5.00.
- " re-cut, 2.00.
- " of pump leathers, 2.00.
- drawing instruments, 2.00.
- spectacles, 2.00.
- assortment of chains, 3.00.
- artificial limb, 5.00.
- feed cutter, 2.00.
- silk reel, 2.00.
- wine or cider press, 3.00.
- hay press, 3.00.
- cheese press, 3.00.
- sail boat, " "
- row, 5.00.
- punt boat, 3.00.
- model of ship or boat, 3.00.
- mangle, bronze medal.
- rolle's for leather, " "
- mortise machine, silver medal.
- slotting machine, diploma.
- traveling crane, " "
- traversing crane, " "

- flue sheet cutter, bronze medal.
- brick making machine, silver medal.
- plate bending rollers, " "
- screw jack, bronze medal.
- Oliver, " "
- speed indicator, " "
- steam gauge, " "
- set of indicator diagrams, with calculation of horse power, " "
- roller for crushing grain and feed, " "

Machinery must be so arranged as to be taken apart and critically examined by the judges; and boilers must be subjected for one hour to a hydraulic test of 50 per cent. above the proposed working pressure. Test pump and gauge will be supplied by the Society. Steam boilers intended for use during the Fair must be on the ground the day previous, and will be subjected to the above test by, and to the satisfaction of, the Supervisory Committee, before being allowed to fire up. In deciding on the merits of two similar machines, the Awarding Committee will be required, in making their report, to give the points of superiority in the machine to which the Premium may be awarded.

**KANAB STAKE CONFERENCE.**

Minutes of Kanab Stake quarterly conference, held at Mount Carmel, June 4th and 5th, 1881.

President H. O. Spencer, presiding, in the absence of President L. John Nuttall.

Present on the stand, Presidents H. O. Spencer and James L. Bunting; Bishops H. B. M. Jolley, Thos. Chamberlain, Royal J. Cutler, W. D. Johnson, jr., and others of the Priesthood of the Stake.

After the usual opening exercises, Bishop I. B. M. Jolley gave a report of Mount Carmel Ward. Did not think the Saints were living up to all their privileges, but thought they were on the improve and trying to do right, with few exceptions. All associations and societies in very good condition.

Bishop R. J. Cutler, of Glendale, reported the people of his Ward steadily improving in their faith and good works; also reported a prospect of a bountiful harvest.

Bishop W. D. Johnson, jr., of Kanab Ward, reported an excellent spirit prevailing and meetings well attended, stated that his Ward had made improvements in putting out shade trees, fencing and building, amounting to \$4,000 during the last quarter. Commenced to build a Social Hall, 35 x 70 feet in size.

Bishop Thos. Chamberlain, of Orderville Ward, said the people of Orderville have made some improvements and were striving to carry out counsel given them. Have built a good tannery, 25 x 56, two stories high. Reported other improvements.

Elder Richard Robinson reported a very scattered condition; but strived to keep up meetings and do right.

After the Bishops had reported their several wards, President Jas. L. Bunting addressed the congregation a short time; said he felt a complaint was due Bishop Jolley and the people of Mt. Carmel for their kindness in making everything so comfortable for the Saints from other places. Stated that some do not attach as much importance to the principle of tithing, although there had been more tithing paid this past quarter than ever before. Gave other good counsel and advice.

Benediction by Brigham Baird.

**Afternoon.**

Singing, prayer, etc. After which Elder Goudie Hogan gave a description of his mission to Norway, after an absence of two years. Also a statement of his visit to Carthage jail. They have converted it into a dwelling house; the man of the house showed him aillet hole which was made when Joseph Smith was killed. The jail is fitted up in modern style. The jailer said she had tried for ten years to wash the stains of blood from the floor, (the stains made by the blood of Joseph and Hyrum and John Taylor); a carpet now covers the stains. Visited Jackson Co., Mo., where David Whitmer who bore the testimony regarding the Book of Mormon, that he did years ago; he is now about 77 years old; had the privilege of looking at the manuscript of the Book of Mormon, and also the characters of the original plates. The balance of the time was occupied in making short but interesting reports of the different quorums in the Stake.

Brother Bunting gave notice of a Monday School conference shortly after the general conference, in the evening. Orderville choir sang "The Lord Will Comfort Zion. Benediction by R. N. Englestadt.

**Morning.**

Singing by Kanab choir. Prayer by Bro. Elijah Averette.

Singing by Orderville choir. Bro. James L. Bunting read telegrams of instruction received from President Nuttall, and spoke at length upon the items they contained.

Elder James A. Little next addressed the meeting upon the fulfillment of prophecy. Spoke upon the necessity of paying tithing. Also spoke at length of the benefits of the Primary Associations, and of the healing of his little six-year old boy by being prayed for in the little folks' meeting. Remarked upon the great amount of faith manifest among the children.

The meeting was next addressed by Elder John R. Young. Subject, his experience in England and Wales while on a mission. Appealed to the Saints to try and help the poor in the "Old Countries" out of Babylon.

Bro. Bunting followed in the same strain. Spoke with great force and much power upon the condition of the poor in England. Exhorted the Saints to gather them out. Kanab choir sang an anthem. Benediction by Bishop W. D. Johnson, Jr.

**Afternoon.**

The usual opening exercises. Sacrament administered, etc. Bishop W. D. Johnson, Jr., read the statistical report of Kanab Stake of Zion, for the quarter ending May 31st, 1881; also presented the General Authorities of the Church and Stake, who were unanimously sustained.

President H. O. Spencer, in behalf of the Conference, felt to thank Bishop H. B. M. Jolley and the Saints of Mt. Carmel for all their kindness to the Saints of the Stake and for preparing so comfortable and cool a bowery to meet in. Gave good counsel and advice; gave a general invitation to the people to attend the St. George Stake Conference on the 11th and 12th of June.

The after part of the afternoon was taken up with a Young Men's and Young Ladies' conference, which was very interesting on account of the improvement of the young gentlemen and ladies in speaking and also of the good spirit manifested. Reports were given from the several Wards, which showed the associations in good condition.

Bishop W. D. Johnson, Jr., President of the associations, gave very good counsel and advice, and exhorted the young men and ladies to renewed efforts to do good. Presented the Home Missionaries who were unanimously sustained. Orderville choir sang the anthem, "We are watching, we are waiting," etc.

Conference adjourned until 3d and 4th of September, 1881, to meet at Kanab. Benediction by Wm. Black. JOS. W. MCALLISTER, Clerk.

Some tribes near Sfax, Africa, have cut the telegraph and assumed a defiant attitude against the Bey. Europeans are panic stricken. The French minister of commerce says England cannot prevent the decision of France to substitute a specific for ad valorem duties.

A fire in the docks at Hull, England, caused a loss of £30,000. The steamer *Othello* loading for New York was extensively damaged. The Christiansa workmen on strike have attacked the Town Hall at Drammer to release two arrested comrades. They were fired upon by troops. One was killed and several wounded.

The Russian special commission is appointed to draw an exceptional law, to be applied in cases where it is necessary to strengthen the power and legal jurisdiction of the administration. In Louisville, Ky., Saturday, a base ball match between the Eclipse, of Louisville, and the Akrons, of Ohio, 19 innings was played. On the eighth the score stood two to two and the clubs played 11 more innings without either making a run.

**CAN'T PREACH GOOD.**

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient, or write a good article when he feels miserable and dull, with sluggish brain and unsteady nerves, and none should make the attempt in such a condition when it can be so easily and cheaply removed by a little Hop Bitters. See "Truths" and "Proverbs," other column.
