Fear Discrimination.

Chicago, March 19 .- Attorneys repre senting the Kansas City-Chicago rali-road and W. A. Day, representing the covernment, will hold a conference here tomorrow or Friday with a view to reaching an understanding regarding certain phases of the proposed litiga-tion seeking to secure an observance of the provisions of the interstate commerce act. By agreement next Tuesday has been

et as the day for hearing the petition at Kansas City before Judge John Phillips and it is expected that before that time an understanding will be reached whereby the railroads will not actively oppose the granting of the injunctions sought.

Mr. Day is on his way to Chicago from Kansas City and it is understood that he has consented to the c ence. Oilicials say that provided the restraining orders shall be drawn in a manner acceptable to the railroads and provided all lines both east and west of Kansas are included, no opposition will be made to the litigation After further considering the situa-

tion the general counselors of the roads involved decided that injunctions involved against the eight railroads named in the bills would bring about a situation greatly to be deplored by the railroads. The Santa Fe and Rock Island, for ex

mple, extend west of Kansas City, the former controlling its rails to the Paci-fic coast. Should injunctions issue against them and not against the Union Pacific and other lines that extend west from Kansas City and southwest also the result, so far as the lines enjoined concerned, would be disastrous,

It is asserted that such a condition uld work an injustice against these oads, as it would preclude their meetng competition. Lines which do not extend to the Missouri river have de-cided to indorse this view of the case and join in insisting upon the govern-
