Miss Lizzie Carlson, a domestic em-

The family had gone to the Theater and left the little boy home charge of Alias Carlson, About ca sae went to her room and a litlater the neighbors heard two pisol shots apparently emanating from the Markland home. This morning when Miss Carison's room was entered she was found lying on the bed with a pistol tightly gripped in her right hand, which lay across her breast, nd save a ghastly wound over her ight temple it would have been thought she was asleep. The doctor and coroner were summoned and an examination developed the fact that she had been dead several hours and had shot herself twice. The first bullet took effect in her left side and passed out without inflicting a serious wound. The second bullet entered her head above the right temple. The first bullet buried itself in the wall after passing through her body.

Save for the condition of the occupant and the hole in the wall the room ap-peared as usual. Miss Carlson had dis-robed and her clothes were tying in a chair, but everything else in the room was arranged in order.

#### AMUSEMENTS. ·

The strange uncertainty of everything in the theatrical business was again well illustrated last night. About a year ago "The Belle of New York" came to Salt Lake for a three night's engagement, but the total receipts did not approach what those of last night's single performance of the same work amount to. The house was packed as it has not been for many a night, and the manager, who left Salt Lake before feeling very glum over the story told by the box office, simply rubbed his eyes in amazement last night when he aw every inch of standing space occu-

There were also many who wondered what per cent of the values of certain mining stocks could be borrowed upon them from the banks. ## AMERICAN BANKERS' ASSOCIATION

Last Day of Session Devoted to Discussion of Currency of Country-Abolition of Sub Treasury Advocated by Ex-Comptroller of Currency Eckels.

Milwaukee, Wis., Oct. 17 .- The closing ! day's session of the American Bankers' association convention was devoted to a continuation of the discussion of practical banking questions. P. C. Kaufman of Tacoma, Washington, spoke on the "Financial and Commercial Future of the Pacific Coast."

Mr. Walter D. Coles, of St. Louis, spoke on "The Federal Bankrup Law," saying in part:

"The present bankrupt law unquesionably embodies many of the essen-tial provisions necessary to a sound and efficient insolvency system. It would be far better, however, to consider it as free from defects.' A bill reported favorably to Congress at the last session, he said, would, if

enacted, give relief against the present unjust provisions of the act concerning the surrender of partial payments and would also throw additional safeguards around the granting of discharges. This bill would be pressed for consideration at the comming session of Congress.

James Eckels, of Chicago, former comptroller of the currency, spoke on "Assets Currency." He said he had read the papers delivered by A. B. Stickeny and Mr. Gage yesterday. Both vere thoughtful in suggestion and may well be considered by the association. He agreed with Secy. Gage that the financial system had not reached that point of development where a people of so much progress, so much energy and force as the people of the United States trade and commerce of the country be-cause it locks up the money. The subtreasury should be conducted as is the business of a private individual or large corporation. He would restrict revenue where the credit of the country could be maintained. TRIAL OF DISS DEBAR. Courtroom Was Crowded to Hear

the Noisome Testimony. London, Oct. 17.—The hearing of the charges against Theodore and Laura Jackson, (Ann Odelia Diss De Bar), was continued today. The police court was crowded, a number of women be-ing among those present, while the police found it necessary to clear the sidewalk of those who were anxious to obtain admission and hear the most noisome testimony ever given publicity in a London court. The witness examined today was Daisy Adams, a mere child, wearing a red Tam-O'Shanter cap, and with her hair in curls hang-ing days her shoulders. She testified ing down her shoulders. She testifled that she was enticed to London under the promise of being taught music. Laura Jackson continued to conduct the case for the defense. She was clothed in a soiled, draggled white silk oga. The woman evidently had a owerful influence over the girl, Adams and leaned over the dock and gazen fixedly at the witness, evidently the hope of intimidating her, or of re-establishing her hypnotic influence. But the girl frustrated the effort by turning her back to the female prisoner and looking at the judge. Then, tiring of her effort, Mrs. Jackson demanded a chair, and, seating herself in a corner of the dock, interrupted the witness with irrevelant questions and objec-tions until the court ordered her to de-

The testimony, which was of the vilest character, related to the indignities which the witness suffered at the hands of the male prisoner, while she was a neophyte of the Theocratic Unity, unneophyte of the Theocratic Unity, under the promise that she would become a reincarnation of the Virgin Mary.

The witness testified that she was so fully under the prisoner's influence at the time that she believed his claims of divine parentage. Revolting practices were exercised both when they were alone and in the presence of Mrs.

At the close of the morning session Mrs. Jackson demanded of the court the return of the money taken from the prisoners by the authorities when they were arrested, but the court refused to grant her request.

Mrs. Jackson also referred to Wm. T. Stead's recent repudiation of any knowledge of the prisoners, called him "that redoubtable pro-Boer," and said Detective Inspector Kane possessed
