SALT LAKE CITY, UTAH TERRITORY, FRIDAY EVENING, JANUARY 11, 1884.

BY TELEGRAPH. PER WESTERN UNION TELEGRAPH LINE. XLVIII CONGRESS.

SENATE. Washington, 10.—Dawes introduced a bill providing for the creation of a United States Postal Telegraph Company, under the direction of the Postoffice Department, and for the creation of the office of Fourth Assistant Postmaster General, this officer to be president of the board of directors of the company, and for the establishment of postal telegraph offices at postoffices throughout the United States, and the transmission of correspondence from such offices.

The chair laid before the Senate a communication from the Secretary of the Interior, transmitting correspondence concerning matters in the Yeldeace concerning matters in the Yellowstone park. It shows the only authority to hotels granted since the last session is contained in the lease executed to Hobart Douglas and Rufus Hatch. There had been trespassing and depredations in the Park, game killed, timber cut and violation of rules. The superintendent was powerless to prevent such violations of law, and a great deal of bad feeling exists between the improvement companies and the superinprovement companies and the super-

ntendent. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitudes of low test, short weight, alum or

Improvement companies and the superintendent.

Petitions presented: Sherman, from
cx-soldiers and saliors, asking grants
of land.

Voorhees from posts of the Grand
Army of the Republic, praying for the
passage of a bill now pending repealing
the statutory limitation in regard to
arrears of pensions.

Plumb, from 1,500 citizens of Kansas
and Missouri, praying that the land
known as Oklahoma land, Indian Territory, be opened to settlements.

Logan, from many ex-soldiers, asking for the opening of the Sioux reservation. Also, asking the passage of the
equalization bounty bill.

Miller of New York Presented a
joint resolution of the Legislature of
New York, relating to the lung plague
among cattle, requesting Representatives and Senators of the State in Congress to urge the enactment of a law to
carry out the recommendations made
in the cattle commission report, transnited to Congress in February, 1862,
for the extinction of the lung plague.

carry out the recommendations made in the cattle commission report, transmitted to Congress in February, 1882, for the extinction of the lung plague.

Bliss introduced: Sawyer, amending the revised statutes relating to the delivery of letter and money orders to persons engaged in fraudulent lottery schemes, by striking out the word "fraudulent," thereby making the statute apply to all lotteries.

Voorhees introduced a bill to equalize the bounties of soldiers. This bill, Voorhees said, is a copy of the bill passed by Congress nine years ago, but vetoed by President Grant, on the ground that it would take more money out of the Treasury than the public interests warranted; but there is so much now said about the transmission report, transmission report, transmisted to have my letters paraded before Congress."

Sec'y. Teller replies to Conger, blaming him for not conveying the information sooner. He refuses to receive a private communication on public business, and says he has placed Conger's letter on file. He instructs him to notify Hobart he must comply strictly with the conditions of the lease.

WHIIME TWO MINIMES.

NEW YORK, 10.—The will of the millionaire broker and banker, Jullus Hullgarten, who died recently in Switzerland, is filed for probate. His estate is valued at over \$2,000,000, the bulk of which goes to the testator's soon, Albert, now an infant, when he COTTON CANVASS of all numbers—14 to 150 inches wide, for Deck, Car, Trunk and Wagon Coverings, Machine Aprons and for other purposes, constantly in store and Agents for U. pared a substitute for the preamble his resolution. his resolution.

The new preamble and resolution were agreed to, as follows:

Whereas, It is claimed by the New Orleans Pacific Railroad Company, inasmuch as the Attorney-General decided in favor of the company as to lands demanded by them, that the Secretary of the Interior is constrained to act upon, and accept said opinion, and the company also claim that Congress has no further control or authority over said lands, or demand on said company; therefore,

Resolved, That the Secretary of the Interior be requested to suspend action in issning certificates or patents on said lands to said corporation until Congress, at this session, acts on the questions involved in the claim of said corporation. Voorhees offered the following;

Resolved, That the Secretary of the Treasury be directed to inform the Senate whether since January 1st, 1883, duties on tonnage have been collected at any ports of the United States from foreign ships in contravention of treaty provisions or unauthorized by law; if so, the date of such action, the name of the vessel or vessels on which such unauthorized duties were imposed.

Voorhees also offered the following, agreed to.
Resolved, That the Secretary of War

inform the Senate of the number of soldiers in the late war for the Union, who served one year, two years and three years, and the amount of bounty paid each class respectively; also, to inform the Senate of the amount of money that would be required to equalize the bounties of those who served in said war.

said war.

The Senate resumed consideration of the new rules, the pending question being on the motion of Vest to strike from rule 26 the clause providing for a committee on internal improvements, to which should be referred all subjects relating to the improvement of rivers and harbors; also, the bill known as the river and harbor bill.

After debate, the motion of Vest was agreed to. Without reaching a vote on the rule, the Senate went into executive session, and soon adjourned. tive session, and soon adjourned.

AMERICAN.

Criscago, 10.—At a meeting of passenger agents of the East bound trunklines to-day, it was discovered that tickets from St. Paul to New Torkover all the trunk lines are being sold at St. Paul at a cut of \$3. Coupons from St. Paul to Chicago are detached, and the remainder of she ticket sent to

Washington, 10.—Lieut. Kingman in his report to the Secretary of War concerning improvements in Yellowstone Park, estimates that \$110,000 can be spent profitably next season in improvements on old roads, laying out new ones, and building bridges. He does not favorably regard the proposition to build a railroad through the Park, and considers the apparent necessity for a railroad will disappear upon the completion of a system of good wagon roads.

In the Yellowstone correspondence transmitted to the Senate to-day, there appears a letter from Supt. Conger to Secretary Teller, which he asks the latter to consider private. In it he says the hotel company's people help themselves to whatever they want inside or outside government enclosures; cut timber; allow their herds to over-

In case he dies before he attains that age, his portion is to be divided equally among twelve charitable, educational or public insticharitable, educational or public insti-tutions, among which are Yale, Har-vard, Columbia, Williams, and Cornell colleges. Over \$150,000 is given to churches. Among the beneficiaries are Dartmouth College, \$50,000; Nursery of the City of New York, \$50,000; Mt. Sinai Hospital, \$10,000.

DEPRAVITY AND DISASTER. Failures.

Boston, 10.—John W. Lower, dry goods, has failed.

Montreal, 10.—La Compagnie de Prets et Credit Foncier, established here some years ago, will go into liquidation. A statement of its affairs as they stood one year ago, shows a deficit of \$189,740.

New, York, 10.—Johnson & Austin, dealers in wool, have failed; liabilities \$3,000.

San Francisco, 10.—The Waterman failure is due to a decine in charters and a fall in prices of wheat in Eng-land. He had under charter some thirty thousand tons at an average of 55 land. He had under charter some thirty thousand tons at an average of 55 shillings; the larger portion of the tonnage is already here, with average rates of 27s. 5d., making a loss on charters of about \$200,000. He had also purchased grain on his own account to an extent involving the loss of another \$150,000. It has been known for some time that the firm was in difficulties, but it was believed they could tide over. An assignment was made for the benefit of creditors, Isaac Wormer, assignee. When it was announced it was stated the liabilities were a million and a haif. The statement made to the Associated Press representative is, they would not exceed a million; with \$500,000 available assets. Principal creditors, First National Bank, \$340,000 against which they hold grain receipts and other collateral; \$250,000 to the Nevada bank; \$40,000 to the Anglo-California bank. Alfred Borel & Co. and other small amounts mostly secured. The preliminary examination shows unsecured debts not to exceed \$150,000. They will probably pay dollar for dollar. The firm is composed of M. Waterman, Adolph Pfeister, H. E. Truenbach, H. Waterman. It was one of the oldest and most respected houses in the city, established for 30 years. J. D. Speckles Bros. are reported to be heavy losers through Waterman. They desy this, and say they lose nothing. There are good grounds for the belief that the failure will bring down some smaller houses, but nothing definite is known, as money is plenty, and the banks are disposed to render every assistance.

Shot Dead.

GALVESTON, 10.—News Buffalo special: A sheriff's posse searching for a desperate negro, Sandy Robinson, surrounded a cabin en Dannerman plantation last night. Joseph Lathrop, one of the posse, opened the door and was shot dead by Robinson, who seizep Lathrop's gun and escaped. Parties are pursuing. Lynching is anticipated.

Child Murder.

RIVER HEAD, L. I., 10—George Jeffery, indicted with his wife, for the marder of a child of the latter by a former husband, makes a statement that he killed the child by holding its body between his kness and twisting the child's body one way until he thought he had broken its neck, and twisted the head the other way to make sure he had killed it. Jeffrey contemplated killing the child for a long time, and thought he could do so by continual cruelties and not be held for the crime which he contemplated. He hated the child because he was not its father, and its existence interfered more or less with his wife's earning money for him. He had no other motive for the crime.

In abort, they believe college sports should be conducted as amusements of amateurs and not as business of professional players. The treasurer's report shows general investments of \$48,000. Subscriptions to found new funds or increase old ones made during the year, nearly 100,000, while gifts for immediate use amount to \$630,000.
