

THE SUN SHINES FOR MONTANA.

Mines and Smelters Are to Resume Work Without Further Delay.

LEGISLATURE TO MEET DEC. 1.

Governor Calls an Extra Session—Will Enact Laws to Prevent a Recurrence Of the Present Trouble.

Helena, Mont., Nov. 10.—The governor of Montana, Joseph K. Toole, late this afternoon called a special session of the state legislature to meet on Dec. 1, at Helena. The purpose of the session is to pass laws that will relieve the industrial condition in Montana, where, by the shutdown of the Amalgamated company's properties, 15,000 men are directly thrown out of work, 15,000 more are affected and the whole state suffering from the suspension of work.

Recently in Butte Judge William Clancy of the district court, gave a decision in which he said that he might appoint a receiver at any time for the Boston & Montana company, one of the largest constituent companies of the Amalgamated. The decision was made on the application of John Macmillan, a prominent holder of stock in the properties controlled by Augustus Heinze, and the Montana Ore Purchasing company, which has been at war with the Amalgamated for years.

Upon this announcement by Judge Clancy, President William Scollon of the Anaconda Copper Mining company, and general manager of the Amalgamated issued orders to shut down all the Amalgamated properties in Montana and elsewhere, saying that the company could not continue to do business when his company could get no judicial fairness in the courts.

Thereupon the suspension came. Since that time the governor has been preoccupied with petitions signed by thousands upon thousands of citizens of Montana asking him to call a special session to pass laws to relieve the conditions. The governor today complied with the almost unanimous request. The aim of the session is to pass a law whereby mining cases may be taken from one court to another when the judge in the initial court is shown to be prejudiced. Other legislation of like character may also be passed. A so-called fair trial bill, of the character now proposed, was passed by the last legislature, but was decided by the supreme court to be unconstitutional on technical grounds.

The works of the Amalgamated company will at once resume in various parts of the state. This includes the great mines in Butte, the smelters of the Washoe company in Anaconda, the largest in the world, the smelters of the Boston & Montana company in Great Falls, also vast in their capacity; the coal mines at Storrs, Belt, Okauchee, and in Wyoming; the great quarries in northern Montana and the immense lumbering industries in western and northwestern Montana. As soon as the fires can be started and the conditions made possible for a resumption of work the Amalgamated properties will again be running in full blast, the serious crisis that has been imminent in this state will have been safely passed and a winter of suffering and hardship will have been averted. Probably more than 15,000 men will be employed directly in the properties of the Amalgamated, and many more will be directly given employment in

Homely people never use Ayer's Hair Vigor. Ever think of that?

J. C. Ayer & Co., Lowell, Mass.

the way of furnishing supplies and the like.

GREAT REJOICING IN BUTTE.

Butte, Mont., Nov. 10.—The news that Gov. Toole had called an extra session for Dec. 1 was received at 2:59 and at 3 o'clock whistles were blowing at several of the mines and flags were hoisted. In accordance with the promise of William Scollon, president of the Anaconda company, all the Amalgamated properties will resume tomorrow and several thousand men will go to work.

Gov. Toole, in his proclamation, disclaims any reflection upon the integrity of the judiciary of the state and says his call for an extra session is solely in response to the formidable requests presented to him by the people of Montana, and the fact that thousands of idle men will be permitted to return to work.

Mr. Scollon, in an interview with the Associated Press representative, declared he had ordered Supt. Gillie to resume operations in all the mines of the Amalgamated company, work commencing with the morning shifts, which go on at 4 o'clock.

"The Amalgamated company is willing to trust its case with the legislators of the state," he said, "and there is not the slightest desire on the part of the company to see anyone suffer. Therefore we will open up at once without waiting until Dec. 1, after to see what the legislators will do. All we ask is fair play."

PROTEST FROM MANILA.

Filipinos Want the Dingley Tariff Abolished.

Washington, Nov. 10.—The following cablegrams were received today at the bureau of consular affairs from the Philippine chamber of commerce at Manila, addressed to the secretary of war:

"Philippine chamber of commerce, in the name of the Agricultural association of Panay, prays for the abolition of the Dingley tariff on Philippine products."

"Philippine chamber of commerce, in the name of 14,000 tobacco workmen, prays for abolition of Dingley tariff on Philippine products."

Germans Awaiting Attack.

Cape Town, Cape Colony, Nov. 10.—The Germans at Seuydrift, 55 miles east of Warmbad, German Southwest Africa, are anxiously expecting an attack from the rebels. Their Hottentot servants have fled.

To Reorganize Committees.

Washington, Nov. 10.—The caucus of Republican senators authorized Chairman Allison to appoint a committee to reorganize the committees. A resolution declaring that the committee on inter-oceanic canals should be a majority committee with a Republican as chairman was not adopted, but the whole matter was left with the committee on committees, with the understanding that such action should be taken. This will displace Senator Morgan as chairman of the committee.

The committee on committees will

consist of nine members, to be announced by Senator Allison tomorrow. Senator Hale, it is expected, will be named as chairman. It is likely a week will be consumed by the committee in deliberations. The chairman in the meantime will meet with the chairman of the Democratic steering committee with a view to diplomatically disposing of the question of making the change in the committee on inter-oceanic canals, so that it will be presided over by a Republican. The Democratic steering committee, it is said, recognizes the propriety of making the change and will aid in bringing it about by select. Senator Morgan for the chairmanship of one of the minority committees.

LOLITA ARMOUR DANCES.

Two Years Ago She Was Operated on by Dr. Lorenz.

Chicago, Nov. 10.—Lolita Armour, whom Dr. Lorenz of Vienna treated for her disease, is so far recovered that she is able to dance. She has given a private dancing academy and will soon be able to move with all the freedom of other children.

Dismissed Middles Can't Get Back

Washington, Nov. 10.—Representative Lacey of Iowa called at the navy department today in behalf of one of the midshipmen recently dismissed from the naval academy for having been a member of the disbanded navy. Lacey was informed that there was no chance for the reinstatement of any of the dismissed men except by special act of Congress, as neither the president nor the secretary of the navy has the power to reinstate them.

REAR ADMIRAL BEARDSLEY.

Stricken with Apoplexy He Dies Very Suddenly.

Augusta, Ga., Nov. 10.—Rear Admiral Leslie Anthony Beardsley, U. S. N., retired, died suddenly tonight of apoplexy at Chatsworth, the country home of Col. D. L. Dyer. The admiral was in the city most of the day attending the street fair, and until 11 o'clock tonight there was no sign of illness. The body will leave Augusta for Washington tomorrow, where it will be cremated.

O. W. HALLER DEAD.

Carried Mail from Independence To Salt Lake in the '50's.

Kansas City, Mo., Nov. 10.—G. W. Haller who, in 1850, carried mail from Independence, Mo., to Utah, died at his home here today, aged 67 years. He had lived near Kansas City for half a century.

German Socialists Arrested.

Berlin, Nov. 10.—Five Socialists have been arrested at Koenigsberg and Meinel, Prussia, on the charge of belonging to forbidden societies. The police seized revolutionary papers and also an extensive correspondence with Russians.

Cartoonist Davenport Resigns.

New York, Nov. 10.—It was announced today that Homer Davenport, the cartoonist, had resigned from the Journal and American, and that his resignation had been accepted.

Cashier Placed Under Arrest.

Newark, N. J., Nov. 10.—Harry J. Hoover, former cashier of the People's National bank of this city, was placed under arrest tonight by a United States deputy marshal on a warrant charging him with having made a false entry in the books of the bank. Hoover was confined to his home, and a justice of the peace was called and the accused was permitted to waive examination and give bond of \$10,000 for his appearance pending action by the United States grand jury.

Hoover has been prominent in business, political and social circles. He was a member of the last electoral college and served on the governor's staff. Hoover is alleged to have been short in his accounts with the People's National bank about \$25,000, which he covered with funds taken from the

Dr. Deigned Underwear

The "draft delusion"—the constant fear of a current of air—is quickly dispelled by wearing this Underclothing. It allows the air to circulate freely around the body, keeping the skin in a condition of health and activity, that enjoys drafts and resists disease.

Booklet telling all about it and the garments may be had.

Brown, Terry, Woodruff Co.

Licking County Bank, of which he became cashier.

It is on the payment of one of these certificates for \$1,000 that the prosecution is based. The Licking County bank today brought suit against the People's National bank to recover \$34,539 on certificates of deposit.

Dewey Given Admiral's Salute.

Norfolk, Va., Nov. 10.—Admiral Dewey arrived at the Norfolk navy yard today on the dispatch boat *Ophion*. He was greeted by an admiral's salute from the United States receiving ship, *Franklin*. Admiral Dewey celebrated his coming on board the cruiser *Olympia* as commander-in-chief of the Asiatic squadron prior to the Spanish war by an official inspection this morning of the ship's complement, including repairs here after the damages to her bottom received during the late summer maneuvers off the New England coast.

COLOMBIA'S PROTEST.

No Further Action Against United States Will be Taken.

Paris, Nov. 10.—"Beyond making protests to the governments of Europe and to the republics of South America, Colombia," said Senor Pasado, the Colombian consul here, to the correspondent of the Associated Press, "we do not believe our government will take action against the United States. I do not believe the protests will be effective here, but the republics of South America may well ask themselves the question: 'What will the United States do when her interests demand, take possession of them or encourage revolutions in their territory. Anyone can see that the interest of Panama is a long way toward American annexation.'"

VENEZUELAN CASE.

Judge Penfield Argues Strongly Against Preferential Treatment.

The Hague, Nov. 10.—Judge Penfield, solicitor of the United States department of state, continuing his argument today before the Venezuelan arbitration tribunal, declared the blockading powers of the United States under the provisions of Feb. 13 and the compromise of May 7, in which there was no stipulation of preference. The guarantee of 30 per cent of the customs duties will be sufficient to satisfy all, as the mixed commission only allowed a small proportion of the various claims brought before them. The United States would never consent to the action of the blockaders in seeking preferential treatment at the expense of the other creditors.

From the beginning of the controversy the president of the United States favored submitting the dispute to the Hague tribunal, and the American government was confident that the decision of the tribunal would be in accordance with the clearest principles of justice and right.

Dr. Jose Paul, one of the Venezuelan representatives on the mixed commission and representative and counsel for Venezuela before the tribunal, said Venezuela accepted responsibility for all of Minister Bowen's acts in behalf of Venezuela from December, 1902, to the present. He reviewed the awards of the mixed commission, and said the admitted claims would be paid in three years. Dr. Paul said that the mixed commission had examined a majority of the claims and had made the following awards:

To France, \$50,000, as against a claim of \$3,600,000; to Germany, \$348,000, as against a claim of \$1,300,000; to Great Britain, \$125,000, as against a claim of \$225,000, while the claims of Great Britain for compensation, amounting to \$1,500,000 in respect of railways, were still under examination. The mixed commission awarded Spain \$250,000, though that country claimed \$2,500,000.

The claims of the United States amounted to \$3,300,000 and but \$151,000 was awarded, while the amount of a portion of these claims, amounting to \$6,270,000, has not been completed. Dr. Paul said that Venezuela opposed the payment of the claims of the United States and of the Belgian claim of \$2,577,500 in regard to the Caracas waterworks, out of the assigned 30 per cent of the customs duties, these being part of Venezuela's public debt.

Placing the annual yield of 30 per cent of the customs at \$1,600,000, the claims would be paid within three years. M. Woeate, for Belgium, commenced his reply to the points raised in the opening speeches. He protested against the attitude of Venezuela in refusing to recognize the authority and decisions of the mixed commission.

Dowitties Go to Paris.

London, Nov. 10.—The followers of John Alexander Dowd, members of the organization known as the Catholic Church in Christ, finding no support for their mission here, have gone to Paris.

ROSANO'S FUNERAL.

Suicide Minister's Body Buried in Consecrated Ground.

Naples, Nov. 10.—Before commencing suicide yesterday, Finance Minister Rosano wrote to Premier Giolitti, tendering his resignation. In another letter to the premier he proclaimed his innocence of the charges brought against him, which charges, he said, he had no longer the courage to resist.

The funeral of Signor Rosano today was a most impressive one. All the civil and military authorities and troops rendered military honors to the deceased. The streets along the route to the burial place were densely crowded. At the grave the body of Foreign Affairs Tittoni said that the sudden end to the brilliant career of Signor Rosano had deeply affected the ministers of the king who reverently bowed before the lamented remains and deposited a last kiss on the forehead of one who had always been their friend. Cardinal Prisco, who knew how religious Signor Rosano had always been, gave permission that his body should be buried in consecrated ground, heretofore forbidden to those who commit suicide. There was, however, no religious cere-

OLD FOLKS TESTIFY.

VINOL WORTH \$1000 TO A. J. BAKER.

The Aged, and All Sons and Daughters of Aged People in Salt Lake City Should Be Interested.

Mr. A. J. Baker of 713 Locust street, Evansville, Ind., writes: "I believe there is no other medicine equal to Vinol for elderly people. I would not take \$1,000 for the good it has done me. It makes strength for the aged as no other medicine seems to do, and invigorates the whole system. Vinol was first recommended to me for a bad cough, which I could not seem to get rid of. Vinol not only cured my cough, but it made me strong and well, and I enthusiastically endorse Vinol."

Mr. Drushel of Druehl & Frankel, when interviewed in regard to this matter said: "We have never sold in our store such a wonderful revitalizer and strength maker for the aged as Vinol. It is nature's remedy for the sick, the weak and the aged."

"Vinol owes its virtue and great medicinal power to the fact that it contains in a highly concentrated form all the active curative properties of cod liver oil, without a drop of the nause-

A. J. BAKER.

ating grease which characterizes old-fashioned cod liver oil and emulsions. "Vinol acts first upon the stomach, toning it up, and enabling it to obtain from the food eaten the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this way it repairs worn tissues, checks the natural decay of the aged and never fails to replace weakness with strength."

"In the strongest manner we unhesitatingly endorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, build up the weak, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or we will return to the purchaser every dollar paid for it." Drushel & Frankel and The Smith Drug Co.

BEFORE THE DOCTOR COMES

Much good may be done if there is in the household a little supply of prepared Bandages, Adhesive Plaster, Liniment, Gauze, Absorbent cotton, a Hot Water Bottle, Syringe, etc. We have everything needed by Surgeons, Physicians and Nurses.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

Liquezone—liquid oxygen—is the only product that can kill germs in the body without killing you. So man knows any other way to destroy the cause of any germ disease.

It is new to America, and millions who need it don't know of it. For that reason we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do it willingly, gladly, to convince you at once and forever that Liquezone does kill germs.

We Paid \$100,000

for the rights to Liquezone for the United States. We tested this product for years in the most difficult germ diseases; then we bought these rights for the highest price ever paid for a scientific discovery.

We paid that price because Liquezone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison to you and it cannot be taken internally. The best physicians of the world over employ Liquezone alone for germ troubles; and any physician who doesn't is almost helpless in any germ disease.

Just Oxygen.

Liquezone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Paul, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple

form into the blood that no germ could live in any membrane or tissue.

Liquezone does that. The results are so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill. Yet oxygen is Nature's greatest tonic—the very source of your vitality. Its effects are exhilarating, purifying, vitalizing. But germs are vegetables; and this excess of oxygen—the very life of an animal—is deadly to vegetable matter.

We spend 14 days in making each bottle of Liquezone, and the result is liquid oxygen—the best thing in the world for you, yet certain destruction to disease germs, wherever the Liquezone-laden blood goes.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Any fever—Influenza, Kidney Diseases, La Grippe, Leucorrhea, Liver Troubles, Malaria—Neuritis, Many Heart Troubles, Consumption, Croup, Catarrh—Cancer.

Scrofula—Syphilis, Dropsy, Throat Trouble, Tuberculosis, Tumors, Ulcers, Varicose, Gonorrhea—Gleet, Women's Diseases, All diseases that begin at the blood—All ailments—all earthly—all contagious diseases—all the results of impure or poisoned blood.
