SALT LAKE CITY, UTAH. FIFTY-THIRD YEAR. United States Interests At Panama Are Paramount. R. Bradford, chief of the bureau of equip-ment of the navy department, in his an nual report to Secy. Moody, draws atten-tion to the inefficiency of the coal de-ports in foreign waters for naval use, but because of the publicity given to the res-port the matter is not discussed owing to diplomatic considerations. It is stated, however, that no progress has been made during the last year toward increasing the number of stations. In connection with the subject of naval coal depots two maps of the world are submitted, the first showing the coal depots built, building or projected by the United States and the second giving similar information con-cerning Great Britain. Rear Admiral Bradford directs attention to the maps and concludes: — "A comparison of the two is instruc-tive." . . It is also conceiv-able here that the German naval com-mander might land marines, in combin-ation with the United States and Great ation with the United states and Great Britain if such action seemed desira-ble. Emphasis, however, is placed on Germany's general aloofness. The United States is recognized as the power having dominant interest on the isthmus. Germany has no inclination or object for the least interforence and certainly would not do anything with-out knowing in advance that it would be agreeable to the United States. GREAT BRITAIN IS NEUTRAL. London, Nov. 5 .- The British officials

London, Nov. 5.—The British officials attitude towards the evening at Panama is that it is entirely the United States' affair. This, with the consequent com-parative apathy, appears to be shared in all diplomatic quarters in London. Except in the unlikely possibility of some outside interference no action is contemplated by the British or, so far as the Associated Press is able to as-certain, at the various embassies here, by any other government. Upon re-quest of the British diplomatic or conby any other government. Upon re-quest of the British diplomatic or con-sular representative in the disturbed region a war vessel would be sent to protect the rights of subjects of Great Britain, but such a request would not be encouraged, as Downing street is of the opinion that the force the United States is sending to the isthmus is more than sufficient to maintain the safety of the foreign residents. The question of the recognition of Panama's independence entirely depends on the

independence entirely depends on the action of the United States. If Wash-ington communicates to the powers Ington communicates to the powers that it intends to recognize the inde-pendence of Panama it is not likely that there will be the slightest objec-tion on the part of Great Britain, while, according to the views of the diplomats here, the other European powers prob-ably will quickly follow suit. There has long been a strong feeling in Brit-ish official circles that it would be an excellent arrangement if the United States would undertake the preserva-tion of good order and the stability of all the Central American states. This feeling is well known to the American fund?'

by the newspapers here as being a fresh pledge of the preservation of general peace The Novosti's remarks attract special attention, as they reiterate the suggestion of an Anglo-Russian rapprochement, which has been recently mooted by some Russian publicists. The Novosti contests the idea that Russia and Great Eritain must remain rivals, and says the clearest proof of this is found in Britain's absolutely peaceful policy and the influence she has exercised on Japan in the present Rus-sian-Japanese differences. The paper seeks for reasons why a more frequent exchange of views, giving more intim-ate knowledge of each other, should not lead to a similar entente as effected be tween Great Britain and France.

He positively denied Mr. Lee's statement of yesterday that he had given Farris \$7,000 for himself and the other members of the criminal jurisprudence committee to influence their votes on the anti-alum bill. On leaving the car at the Deseret News, corner they gave young Mariger, the man behind the young Mariger, the man behind the megaphone, three hearty cheers, and a warm shaking of the hand, and also presented him with their cards and promised him transportation over the Pacific systems any time he wanted to go out to the coast. Prejudices of the Gentiles of the City-A Debasing Work.

Former Congressman George Sutherland, being asked by the Deseret News for a statement of his opinion of the causes that led to the overthrow of the Republican party in this city on Tuesday last, prepared the following:

"Salt Lake City has, today, in my judgment, under ordinary conditions, an overwhelming Republican majority. The result of Tuesday's election cannot justly be construed as a rebuke to the Republican party. It is a rebuke to certain sinister influences in that party. The fight was not one against Mr. Knox personally-it was against the machine and the immediate followers of the machine which loomed threatening. ly behind him.

DISTINCT REPUDIATION.

"It was a distinct repudiation of bossism, at once significant in its character and overwhelming in its consequences. The Salt Lake Tribune and the Salt Lake Telegram may argue and denounce until doomsday, but they will never convince anybody who is willing to know the truth that the contest was Mormon and anti-Mormon. It was machine and anti-machine, and no one knows the fact better than the men who control and publish those two papers.

### REAL ISSUE HIDDEN.

His information regdaring the exact condition of affairs on the isthmus is still too meager to warrant mus is still too meager to warrant a statement outlining the policy the ad-ministration is to pursue toward the separatists. In view of this fact the president refers all inquiriers for news on the subject to the state department. While undoubtedly optimistic as to canal prospects. Admiral Walker, chairman of the isthmian canal commission declines to express his views for publication.

After seeing the president, Secy. Moody said there was no lack of Amer-ican naval vessels in the vicinity of the isthmus to protect American interests. The naval cablegrams were declared to be the only ones from the isthmus and sent soon, showing the attitude of the French government. There is that had reached either the state or navy departments over night or in the forenoon today. The withdrawal of the strong indication that its attitude will not be materially different from that not be materially different from that of the United States and probably will forenoon today. The withdrawal of the marines from Colon leaves the town technically in the possession of the Co-lombian government, thus maintaining a condition as to ownership of either end of the line which may lead to a take the same general lines. The consul says the revolutionists control the situation and confirms the

clash at any moment. It was pointed out in one of the departments that the speedy departure yesterday from Colon of the Colombian gunboat Cartagena for Savnilla, pre-sumably for reinforcements, would be f little avail if the revolutionists are the force described on the isthmus, because the ship would consume fully a week in making the trip, inside of which time Colon doubtless would pass which time could oblight would prove into the hands of the revolutionists. If the Cartagena returns with Colombian troops finding Colon in this condition, the United States warship certainly would not allow the Colombian contingent to land if the landing involved a conflict with the revolutionists, thus opardizing free transit across the isthmus.

The secretary of state has been ad-vised formally of the action of the funta at Panama in seizing the reins of junta at Panama in seizing the reins of government and separating from Co-lombia, but the department has not taken any steps yet toward recognizing the new order of things, though the United States consuls have large dis-cretion in this matter and may already have recognized the defacto power of the junta at Panama. It is pointed out, however, that no such action on their part would affect the political relations of the new government with the United States. In due course of time if it shalt appear that that government is able to of the new government of time if it shall states. In due course of time if it shall appear that that government is able to maintain itself and preserve order, the state department would extend a formal recognition, but there is no particular reason for haste, it is said. It is as-sumed that there will be no disposition on the part of the new government to repudiate the concessions heretofore ranted to individuals or corporations

by the government at Bogota. The Atlanta, which has sailed from Kingston for Colon should arrive there Saturday at the latest and the training thip Dixie which left Kingston, Jamai-ca Tuesday night for Colon is expected to arrive today. She carries a battalfon of 450 marines and will prove a powerful factor in maintaining the po-sition of the United States for the free

# The Fighteenth Ward.

At the meeting of the board of education Tuesday evening an attempt was made to reconsider the action of the board in regard to naming the new schoolhouse on north State street. The motion to reconsider was made by Prof. Cummings but it was voted down by a vote of 3 to 5. So the school will be named the Lafayette school as herea sentiment among the residents in the neighborhood of the new building for some time that the school should be named the Park school in memory of the late Dr. John R. throughout the city, of whom there are hundreds, that one of the city's school buildings should bear his name It was thought that this building should have been named after him for the particular reason that it is located near residence and right in Park's heart of the property belonging to his estate

The Lafayette school was named by Mr. Young and Mr. Geoghegan, in whose district it is located, but upon the motion to reconsider the matter both of them voted against a reconsidration. The others who voted against t were Messrs. Nelden, Henderson and eration. Cheesman. The members of the board who voted in favor of a reconsideration vere Messrs. Cummings, Branting and Newman. So in all probability the name will remain unchanged.

The Rocky Mountain Bell Telephone company submitted a proposition to furnish the board 29 telephones for the various school buildings of the city and also two trunk line instruments for \$590 per year. It was urged by the ompany that the telephones would be great deal cheaper than to pay for messenger service and postage stamps as has been done for years past. SUSPENSION BETTER.

"The truth about it is that it would have been far better for the Republican ticket if both the Tribune and Telegram had suspended publication eight weeks ago. The course pursued by both papers before as well as after the convention was not only idiotic, but politically dishonest. Before the convention the former paper, instead of saying 'the Tribune is a Republican paper and stands for a fair field and no favor, in a Republican convention as between Republican candidates of equal honesty and integrity, assailed by speers and inuendo every aspirant for the mayor. alty except the one it believed would aid the personal ambitions of its owner; and the Telegram was filled with false tofore decided upon. There has been and malicious slanders against every Republican-Gentile and Mormon-who would not subscribe to its policy of falsehood and abuse.

DROVE VOTES AWAY.

"It is safe to say that each paper lost the party hundreds of votes. The claim now made by both papers that the defection in the Republican vote was wholly or principally from among the members of the Mormon Church is not true. The Gentile Republican defection was quite as great, if not greater, Both classes of citizens were actuated by precisely the same feeling, not of opposition to Republican policies nor of opposition to the personnel of the ticket, but of opposition to influences and personal aspirations which were regarded as threatening the best interests of Republicanism in this state."

# AFTER POLITICAL PLUMS.

Mayor-elect Morris is Receiving Many Appointment Requests.

Now that the smoke of Tuesday's battle has cleared away and those who participated in it have had time to rest up a liftle Mayor-sleet Morris is beginning to receive numerous appliare pouring in at a rate that is giv-ing him something to think about. But he declares that as he will not assume the refers of guarantees to a source the refers of he declares that as he will not assume the reigns of government for hearly two months he has plenty of time to consider and investigate; also that he proposes to take all the time he needs. Among the more important appoint-

ments are the following: Chief of police, chief of the fire de-partment, superintendent of watervorks, city engineer, superintendent of treets, and water commissioner, streets, sexton, parkkeeper and others, it is understood that nothing will be But it is understood that nothing will be done in this direction, even in the way of
