

Lake City, at the April Conference in 1883. Work on the building soon began and has been continued with perseverance and regularity, and now the walls of the

GRAND STRUCTURE
tower aloft to the sky, a monument of the skill, industry, ambition, and lofty and noble purposes of the Saints.

This building as it now stands is a monument of architectural skill and beauty and the admiration of travelers. Hundreds of thousands of dollars have been expended in carrying the work on to its present condition, and it will take a vast amount of labor to complete it. But when finished it will be an object of constant joy to the Latter-day Saints.

At the time the foundation of this magnificent structure was laid it required more than man's wisdom to foresee the growth and progress that would be made by the people in this region. President Young displayed a wisdom in laying the plans for the Salt Lake Temple which is remarkable. The rapid development of the valleys of these mountains and the numerous settlements which have been established, demonstrate the great breadth of that wisdom.

This grand temple is nearing completion at a time when such a building is suitable to the wants of the people, and a fitting ornament of their

CHIEF CITY

The exodus from Illinois proved in a short time the wisdom of this utterance of the Apostles at the memorable conference held in the Nauvoo Temple in October, 1845. In this then desolate country the Saints had peace, time and room to establish settlements. They had to endure many privations in the pioneer work, but were greatly blessed of the Lord. Settlements in a few years dotted the land in many places, in various directions from Salt Lake City. This rapid growth of the people demanded the erection of temples in other places than Salt Lake in order to meet the requirements of the Saints in filling their great mission upon the earth.

On March 10, 1873, the foundation rock for a temple 141 feet 8 inches by 93 feet 4 inches was laid in St. George, a settlement in southern Utah, located in an extremely rocky, barren region, sparsely settled. Certain portions of this temple were dedicated on the 1st of January, 1877, and at the April conference of the Church, held that year at St. George, the temple proper was dedicated. The temple stands in that land a marvel, a wonder to all who see it. It comes upon the view like an

OASIS IN THE DESERT

and conspicuously marks an era of prosperity in the history of the Church. It is estimated to have cost \$800,000. On the 25th day of the same month that recorded the completion of the St. George Temple, the site for the Manti Temple was dedicated and the ground broken. The Manti Temple is 172x95 feet. It is located on a hill, and terrace work leads to it. Thousands of dollars were spent in preparing the foundation of this structure. The Manti Temple is of unique architecture and is nearing completion. The people in the district where it is located are generous in their donations, earnest in their labors and therefore look forward with anticipation of great joy at its dedication.

The year that recorded the dedication of the St. George Temple and of the Manti Temple ground, also witnessed the dedication of the ground upon which the Logan Temple stands. The ground was dedicated May 17th, 1877, and the corner stones were laid September 17th of the same year. The building, which is 171 by 95 feet, was dedicated on the 17th of May, 1884.

ITS ESTIMATED COST
is \$550,000. This Temple is located on a bench in the eastern part of Logan City and commands a fine view of most of the settlements of Cache Valley.

But it is not necessary to enter into details regarding this temple. The members of this school have the privilege of assembling within its solid walls, and their eyes from time to time dwell upon the architectural beauty of its exterior, and the artistic, neat embellishments of its interior. We have the privilege of striving for that knowledge which is to be gained here. The fruits of the great labor put forth in rearing this splendid structure are being realized. We are commencing a work which will grow and expand to the benefit of man and glory of God.

The sites of the Independence, Kirtland, Far West and Nauvoo temples were selected during the lifetime of the Prophet Joseph, and those of the Salt Lake, St. George, Manti and Logan temples were chosen under the presidency of Brigham Young. Drivings, mobblings and extreme trials through persecution marked the era of the first four. Comparative peace and prosperity have marked the era of the latter. The spirit of hatred toward the Saints continued but it was manifested in a different way.

ONE IS STRUCK WITH ADMIRATION

and wonder in studying the labors of this people in erecting magnificent and costly temples. He can consistently credit them with a high degree of the temple building spirit. It is a remarkable feature of the great latter day work. It is shown conspicuously in a period of the Church's history when the members were few and measurably poor. It is safe to predict that it will manifest itself to a great degree in the future.

more temples will be built. This land of Zion is undoubtedly destined to be a land of temples. We look for the time to come when costly and magnificent temples, built by the people of the Lord, will dot this continent in many places. Then will religion, the sciences, arts and literature flourish in the zenith of their glory. The hearts of the children of men will be filled with love and union, and peace, charity, knowledge, faith and virtue will reign supreme.

Ely's Cream Balm was recommended to me by my druggist as a preventive of Hay Fever. Have been using it as directed since the 9th of August and have found it a specific for that much dreaded and loathsome disease. For ten years or more I have been a great sufferer each year, from August 1st till frost, and have tried many alleged remedies for its cure, but Ely's Cream Balm is the only preventive I have ever found. Hay Fever sufferers ought to know of its efficacy. —F. B. AINSWORTH, Publisher, Indianapolis, Ind.

BILIOUSNESS

is an affection of the Liver, and can be thoroughly cured by that Grand Regulator of the Liver and Biliary Organs,

SIMMONS' LIVER REGULATOR

MANUFACTURED BY
J. H. ZEILIN & CO., PHILADELPHIA, PA.

I was afflicted for several years with disordered liver, which resulted in a severe attack of jaundice. I had as good medical attendance as our section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; whereupon I was induced to try Simmons' Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.

BABY HUMORS

And all Skin and Scalp Diseases Speedily Cured by Cuticura.

Our little son will be four years of age on the 25th inst. In May, 1883, he was attacked with a very painful breaking out of the skin. We called in a physician who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, supposed by the physician to be hives in an aggravated form, became larger in blotches, and more and more distressing. We were frequently obliged to get up in the night and rub him with soda in water, strong liniments, etc. Finally, we called other physicians, until no less than six had attempted to cure him. All alike failing and the child steadily getting worse and worse, until about the 20th of last July, when we began to give him CUTICURA RESOLVENT internally, and the CUTICURA, and CUTICURA SOAP externally, and by the last of August he was so nearly well that we gave him only one dose of the RESOLVENT about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one-half of a bottle of CUTICURA RESOLVENT, a little less than one box of CUTICURA, and only one cake of CUTICURA SOAP.
