On the completion of this spur material will be rushed to the smelter site and the statement has been made that the work of con-Bell.

The contract for the sampling mill equipment was let some time ago and this plant will be ready for delivery by April 1. by April 1.

### OFF FOR BALAKLALLA.

#### R. C. Gemmell Will Examine California Copper Mine.

Robert C. Gemmell, general superintendent of the Utah Copper company, departed this afternoon for Shasta county, California, the object of his trip being for the purpose of conducting an examination of the Balakialla copper mine, the control of which has passed into the hands of the American Smeiters Securities company. Mr. Genmell will probably consume two weeks in making the investigation.

### ON MINING EXCHANGE.

#### Stock Displayed Weakness and Sales Were Light Today.

was weakness displayed in the There was weakness displayed in the market for mining stocks today, nearly all the stocks called on the floor of the Salt Lake Stock and Mining exchange showing shrinkages. May Day man-aged to hold out fairly firm, closing with 24½ cents bid. There was some edmand for Hutler-Liberal. This stock is being picked up gradually by the Utah Apex interests, who are the owa-ers of a control of the stock. OLD COPPER PLANT.

#### Col. Wall Has Purchased One of the Steel Buildings.

The fact that experts in the employ of the Lewisohn brothers of New York have been engaged in the examination of several Utah mining propositions has revived the story that the well known mining magnates may conclude to go into the smelting business here and utilize in some way the old copper plant buildings in north Salt Lake. This is not likely to be the case, how-ver. If the Lewisohns get a foot-hold ever. in this state the chances are they will be associated with Thomas F. Cole and his formidable crowd of financiers. It is very evident that it is not the

purpose to use the copper plant built-ings for ore reduction, as Col. E. A. Wall, one of the directors of the Salt Lake Engineering works, has purchased one of the large steel buildings, 65x199 feet in dimensions, and the same is to be torn down and moved to the plant of the engineering company near the Rio Grande shops, where it will be re-erected as an addition to one of the existing structures.

### SURVEY RECORDS.

### In Great Danger.

In Great Danger. Washington, March 18.-Director Wal-cott of the geological survey has recom-mended to Congress that, a new building be erected for the use of that branch of the government service at an esti-mated cost of \$1.200,000. The director says the government prop-erty and records in the rented buildings now occupied by the survey, the value of which amounts to about \$6,000,000, are in constant danger of loss by fire as the buildings contain over 100,000 square feet of vernished and inflamable wooden par-titions. Many of the records could not be replaced.

# COLORADO SNOWSLIDES.

#### Ouray Durango, Silverton, Leadville, and Other Places Visited by Them.

and Other Places Visited by Them. Denver, March E.-Ouray, Durango, Sil-vertion, Leadville, Aspen and other small-er mining camps have been visited with snowslides during the past two days. Hair breadith escapes from the snow which thunders down the steep tides of the mountains, are reported from every mining camp, and grave fears are enter-tained for scores of daring prospectors and miners who are cut off from the out-side world in their lonely cablins far up in the hills. One sile at Silverton struck the edge of the town, doing considerable domage. The railronds in the San Juan region are blocked. The South Park road is blocked by a slide near Leadville. The mines around Crested Butte are complete-by cut off from transportation. Late reports last night, told of a general storm of unprecedented severity for this season throughout the castern and cen-tral portions of Colorado, but clearing weather is locked for today.

thousand men are needed in the north-western, and southwestern states to build the roads that are already an-der way, and it is estimated that be-fore the first of June more than twice that number will be required. There have has been such great activity in railroad building in the west as at present, and the visible supply of labor in that near of the country has been in that part of the country has been exhausted. Railroad contractors have been able Utah Commercial & Savings Bank.

to resume work earlier than usual on account of the early spring, and they are making strenuous efforts to get men to go west for this work. Ten thousand men are needed by the Western Pacific, the new Gould line to Cali-fornia, and they are offering from \$2 to WM. F. ARMSTRONG.......President BYRON GROO.....Cashier \$2.25 a day for unskilled labor, with the chance of steady work until the cold weather sets in again next fall. Commercial Banking in all its Branches, Four per cent interest paid

### SPIKE AND RAIL.

H. H. Clements of the Pullman company at Chicago was here yesterday. Wires on the Rio Grande are all down the exception of the Western

Union line. H. C. Bush, traffic manager of the Colorado Midland at Denver, is in Salt Lake today.

C. H. Wright of the ticket office at Butte is in Salt Lake today on his way through to the east.

The Salt Lake & Mercur is to im-R. G. Dun & Co. rove its grade between Mercur and Manning this spring.

City Ticket Agent L. J. Keyes of the Harriman lines is at his home suffering from a bad case of tonsilitis.

The special car carrying Adolphus Busch and party, scheduled to arrive here from the coast yesterday, via Og-den, did not come in until this after-

Despite the bad wrecks on the Denver & Rio Grande, the Rio Grande Western stills holds the record of never killing a passenger on one of its passenger

S. M. Adsit, general freight and pas-senger agent of the St. Joseph & Grand Island at St. Joe, Mo., accompanied by C. Nessly of the same road at Portland, Or., is here,

Walter Sebree of Caldwell, Ida., where regotisting with the Salt Lake & orden people for the purchase of set-ond-hand rails, and a dummy engin-for a six-mile road he is projecting from Coldwell to the big reservoir site.

PIONEER UNDERTAKER. Of Utah. Open day and night. Factory and Warercome No. 258 E. First South 1% blocks east of Theater.
