TRANSPORT LENA.

Russian War Vessel Suddenly Appears in San Francisco Harbor.

San Francisco, Sept. 11.—The Russian transport Lena, Capt. Berilbsky, put into this port today for repairs. The Lena is thirty-one days from Vladivostok via Bayaniwa, Sakhalin islands. She made the run from Bayaniwa in nineteen days, which is considered fast time, showing that the Lena possesses speed qualities. The Lena has a crew of 497 men and twenty-one officers and

carries twenty-three guns.

Capt. Berlinsky, who officially de-clares the Lenn to be a transport, says that her engines and boilers are in need of repairs. After the control of the cont repairs. After passing quarantine, E. Leng anchored off the Union Iron

THE LENA'S HISTORY.

According to Brassey's naval annual, the Lena was formerly the Kherson, of the Russian valunteer fleet. Brassey refers to her as a "volunteer cruiser"

and also as a "transport vessel."
Immediately after the Lena dropped anchor in the bay Capt: Berlinsky left the warship, but the object of his visit ashore was not announced. An officer of the crulser said that the Lena left Vladivostok on a cruising expedition hoping to capture some of the tran-Pacific vessels carrying contraband of war. It was idmitted that what the vessel most easerly sought for was the steamship America of the Toyo Kisen Kaisha, which company sent her from this port sevial weeks ago for the orient. The America arrived safely at Hongkong Sept. 2.

CAME ON ORDERS. Commander Ryteshagoff, when seen tonight, said that the Lena came here on informattion received from the local Russian consul, but he declined to dis-close the nature of the information. It is presumed, however, that it was in relation to the shipments from this port to Japan. The Lena came by way of the Aleutian islands.

Commander Ryeshagoff further said that the Lena expected to remain here for a month. In the meantime she would be disarmed and go to the Union iron works to have her boilers repaired. When fitted up again the Lena would be rearmed and ready to go to any destination to which she was ordered.

CAPT. BERLINSKY VISITS. Late this afternoon Capt. Berlinsky visited the United States war vessels in the harbor and then reported to the Russian consul. No statement regarding the Lena could be obtained from the Russian consul. The United States war vessels now in port are the cruisers New York, Boston and Marblehead, the gunboat Bennington and the torpedoboat destroyer Paul Jones, a sufficient-ly strong enough force to prevent any breach of neutrality.

AT JAPANESE CONSULATE. At the Japanese consulate it was announced to light that no statement would be given out, the representative of the Japanese government not having been officially notified of the arrival of the Lena. It has developed later that two different interpretations had been placed on the remarks of Commander Ryteshagoff of the Russian cruiser. The syteshagor of the Russian cruiser. The gentieman does not talk English fluently, and one of his interpreters believed him to say that the Lena expected to remain in this port for a month, while apother version was that the commander said "we would like to stay here a month."

The statement that the Lena left Viadivostok 31 days ago and arrived here with foul boilers has aroused considerable speculation and discussion The average time of a fairly fast steamship from the Russian port to San Francisco is from 28 to 30 days, and it is pointed out that the Lena would not have been permitted to leave Vladivostok in such condition that a month's voyage would virtually disable

FORCED TO PUT IN.

Local shipping men incline to the belief that the Lena has been out from Viadivostok longer than a month and has been so long patrolling the high seas in search of Japanese merchantmen and other vessels carrying contra-band that she was forced to put in hore for renovation. SURMISES,

Another surmise is that the Lena was so long out without getting sight of a prize that she put in here for informa-tion concerning the movements of the enemy's vessels and for further instruc-This step, it is claimed, she was clearly entitled to take under the neutrality laws, affording her 24 hours' stay and that the move was considered safe may be judged from the known absence of Japanese warships in this vicinity.

QUEST OF THE LENA.

It is conceded in shipping circles that the main quest of the Lena was the steamship America, which flies the Japanese flag, and which would be open to capture at any place on the sigh seas. The America left Hongkong for San

The America left Hongkong for San Francisco three days ago, and, being richly laden, would make a handsome prize for the Lena.

The Russian vessel is said to have a speed of 19½ knots, while the America has but 18, so that in a long chase the Japanese would be overhauled. But it is a question now whether the America will arross the Basida, as the problem. ca will cross the Pacific, as she prob-ably will call at Guam for cable ad-vices and be informed of the danger awaiting her.

Honolulu is another port of where the America could find shelter. The Pacific Mail Steamship company's steamship Korea, from Hongkong, via Yokohama, is due here tomorrow, and possibly escaped search by the earlier arrival of the Lena.

The presence of the Lena doubtless will have an influence for a time on the character of the cargoes sent from

here to Japanese points.

Admiral Whiting has notified the Washington authorities of the arrival

of the Lena and asked for instructions.

TRAIN ROBBERS' TRAIL, Bandits Believed to be Hiding in

Woods Near Lynden. Bellingham, Washington, Sept. 12 .-Detectives have trailed three of the six men who held up the Canadian Pa. cific train near Mission last night, to the town of Lynden, about 12 miles from Bellingham, and it is believed the bandits are biding in the woods near that place. Canadian Pacific detec-tives in numbers are in Bellingham, for to the general opinion that the train robbers are headed this way and hope to make their escape by boat or train from here. The three men on horseback crossed the river near Mission and hade their way down the guide meri-lian line to Lynlen, where they arrived sarly this morning, their horses plainly showing the hard travel.

KUROPATKIN IS STILL "RETIRING."

His Army Northward From Mukden.

HOW HIS STRATEGY WAS UPSET.

Maj. Gen. Ortoff Failed to Hold Kurokl's Extreme Left-Reports of Intervention.

St. Petersburg, Sept. 12, 3:40 p: m:-No fresh light has been thrown on the situation at the front. Unofficial information tends to confirm the reports that Gen. Kuropatkin is withdrawing the bulk of his army northward from Mukden. The rain continues at the front. The three armies of Field Marshal Oyama are reported to have united north of the Taitse river, but there is nothing yet to indicate that they are sufficiently recuperated to resume the advance. The best unofficial opinion is that Kuropatkin does not contemplate making a serious stand at Muk-

The spirit animating the Japanese troops is shown by the translation of a letter written by a Spartan Japanese mother to her son which has reached the war office. The letter was found on the body of her son. It adjured him to fight nobly for the mikado and his country and informed him that his capure would be considered an everlasting disgrace upon the family ancestors and that if he died on the battlefield it would be an honor which his family would celebrate for a week.

WHY STRATEGY FAILED.

A Russian correspondent says Kurnpatkin's strategy was upset by the failure of Maj. Gen. Orioff to hold Gen. Kuroki's extreme right. According to this correspondent Kuropatkin's plan was to catch Kuroki after he had crossed the Taitse river by a quick and clever movement. Orloff's mission was to attack desperately Sept. 2 the front of Kuroki's army which had marched northwest to hold him and, if possible, to drive him back towards Kuropatkin, while the latter, severing Kuroki's communication, struck with all his might at his flank and rear, But Orloff was unequal to the task as-signed to him. His division had just arrived from Russia and its fighting efficiency was not known. When he struck Kuroki, Orioff was wounded early in the fight and was compelled to hand over his command. To make the matter worse the horse of his chief of staff boiled. The division could not resist the ensiaught of Japanese troops and gave way and retreated. In the meanwhile Kuropatkin was just launching his attack, but when he found the Japanese were turning his left, he was compelled to abandon the same with the way and colored to the compelled to abandon the same with the way and colored to the colo Stakelberg had come to Orloff's rescue and checked the Japanese flanking movement just before they reached Yen Fal. Had Kuropatkin held on a little longer the fate of the day might have been different, as this was the critical moment for Kuroki referred to in the dispatches from the Japanese side.

REPORTS OF INTERVENTION

St. Petersburg, Sept. 12, 7:30 a. m. Reports of impending intervention by the powers to end the war are considered today by the Novoe Vremya, which says there is no prospect of such action by France, which country would sin-cerely like to see peace. The paper says it rather that Germany should undertake the task of separating the com-batants, while Germany has not the same material interests to be affected as France and the United States.

On the other hand, the Novoe Vremya continues. America is entirely too busy with the national election to undertake such a daring task, so that Russia may as well look forward to the conclusion of the war without pros-pect that any world power will even attempt to interfere.

RUSSIANS RETIRING.

Mukden, Saturday, Sept. 10, via Pe-kin, Sept. 12.—The Russlans are continuing their retirement to Tie pass. The Japanese advance is slow, though the nilitary situation is not unfavorable to them. Many Russian companies now consist of only 30 men. Notwithstanding the Russian reverse the retreating troops are cheerful.

LOSSES MAY REACH \$300,000.

Consolidated Wagon & Machine Company Bears the Brunt of the Damage-Others Hit Hard,

(Special to the "News.") Idaho Falls, Ida., Sept. 12 .- The fire which broke out last night at 9 o'clock and burned through the main business blocks of this city, was finally brought under control at 3 o'clock this morning. A flerce wind from the west fanned the flames all night, and drove them from block to block until seven square blocks in the heart of the city

are now in rains. CITIZENS POWERLESS.

It seemed to be a foregone conclusion that the city was doomed when the lames took hold of the glarge retail stores of the Consolidated Wagon & Machine company, as the citizens were powerless to prevent the spread of the flames in any way. The water from the canal, which was the only available supply, is turned off, and the helpless crowds could do nothing but watch the flames lick up building afer building while they made desperate efforts to remove what property could be easily carried. The loss will, it is estimated here, reach at least \$300,000, with but a small percentage insured, although no definite figures have yet been compiled. Practically every building between the railroad depot on the south to the river on the north was destroyed. The principal loss was suffeced by the Consolidated Wagon and Machine company. Their retail store and lumber yard was completely destroyed, only the office records being saved. These were rescued by employes before the flames struck the building.

THAMPS STARTED BLAZE.

The fire started in the Butte cafe, a small restaurant and bakery a block below the Consolidated Wagon stores. It is supposed to have been caused by tramps, smoking in a pile of shavings behind the bakery. After consuming the cafe, the fire spread from store to store until it reached the Consolidated Wegon buildings. The small frame buildings which comprised the burning district up to this point were separated from the buildings which comprised the burning district up to this point were separated from the business of the burning district up to this point were separated. rem this big structure by a brick store, but the flerce wind drove the flames cround this building and over it, to the

The insurance on the lumber yard was be-tween \$6,000 and \$6,500. The company carried a total of \$50,000 insurance on the two other places, but how it is di-vided between that which is burned and that which is saved it is impossible as yet to say. It seems certain, however, that the value of the goods actually destroyed was from \$75,000 to although the exact amoun will not be known for some time yet. General Manager Geo. T. SAW THE FIRE.

Seymour B. Young Returns from the Scene of Blaze.

Seymour B. Young arrived in Salt Lake this morning, and at that time, he says, the fire was still flercely burning, and there was no hope of con-trolling except by allowing it to burn itself out. Soon after the fire started the electric wires were destroyed, and there was no light in the town except that from the fire. It grew into immense proportions within an hour after it started, and drew a crowd from every part of town. Mr. Young was surprised that the fire was under control at so cally an hour as 3 o'clock, trol at so early an hour as 3 o'clock, considering the power of the wind which was blowing a gale, when he left on the southbound train.

HOME COMPANY ESCAPES LIGHTLY,

A great part of the insurance carried on the burnt property in Idaho Falis was placed by local agencies in that town, all of whom report direct to their principals in San Francisco, or in the east. The only exception is in the case of the Home Fire Insurance company of Utah, whose general agents are Heber J. Grant & Company. At their office today, it was stated that their line in Idaho Falls had always been kept low because of the many frame buildings in the business district, and there had been fears of a conflagration for years. While they had quite a number of small lines, their best estimate from present advices was that their loss would not exceed \$1,000 to \$1,500, with a chance of that amount being jessened, if the brick buildings which were singed by the fire should turn out to be only slightly damaged.

AN ABUNDANCE OF SPEAKERS.

Some of National Prominence Will Be Brought Here-New Repub-1 lican Organs.

In all probability the Republican state. ampaign will open in this city about he 20th. Chairman Spry is now busily engaged arranging itineraries and in a few days he will be able to make announcements of a definite character. The speakers will be chosen from among the very best campaigners in the state, and that there is plenty of them is a fact readily attrated by the state; chafring, Mr. Spry states that he has an abuildance of good speakers for the campaign, and that most of them are

life-long Republicans, well able to ad-yance Republican principles. This work will also be taken up by sreakers of national renown, whose names, however, are not forthcoming at this time. Among those to volunteer their services to this state is Hon. Ward B. Sherman of Chicago, who states that his 30 years experience as a campaign-er makes him better able to undertake the work this year than ever before. Mr. Sherman was here some years ago and says he likes both the climate and the people. He says there is inspira-tion in the grand old mountains of Utah, and that he is at the service of the state committee whenever want-

Gov. Wers will also take active part in the campaign, and it is stated that on his return from Idaho he will tour the state with Hon. John C. Cutler, the

party's nominee for governor.

The state committee has arranged with Truth and Goodwin's Weekly, the two sprightly weeklies of this city, to advance the cause of Republicanism from now till the close of the campaign. Beginning tomorrow these papers will issue each alternate day, thus giving issue each alternate day, thus giving continuous service to the party and acting as a very good substitute to the Salt Lake Tribune, the erstwhile party organ, now repudiated. That these papers will do good service and make in-roads on the subscription list of the de-ceased Republican sheet, all true-blue Republicans confidently believe.
