THE EVENING NEWS.

GEORGE Q. CANNON
EDITOR AND PUBLISHER.

Friday, - - November 8, 1872.

WOOL producers, dealers and manufacturers in the Eastern States are dispirited over the slackness of the business, owing to over-production. A few months ago wool was in great demand at high figures, and much was purchased in this Territory at enticing prices for consumption outside, so that our own mills found it dimecult to secure sufficient to keep them going. Now that it is generally felt that the business has been overdone, the prices have fallen to an unusually low point. They have been gradually sinking all summer, says the *Financial Chronicle*, the market is sluggish, manufacturers are waiting for lower prices, producers are hoping for higher, too much wool has been demanded, too many woollen goods produced, they were never so unprofitable to the manufacturer as now, the Washington Mills, Lawrence, Mass., recently was necessitated to sell its production by auction at an estimated loss of not less than 25 per cent., wool is cheaper in New York than in London, wool purchased in that city by American buyers at auction in the middle of summer and left in bond, has been resold there at auction in the fall, and wool received thence in New York has been returned to be re-offered for sale.

Many of our wool producers a time back sold their wool crop to be sent out of the Territory, because high cash prices were offered. This was considered not a very prudent proceeding. Still, if they can send their wool east at high figures and purchase it back at low figures, the overruling of Providence is undoubtedly in their favor, though such a contingency cannot be depended upon, nor is it taken into much account by the sellers, when selling.

For the public at large this is an excellent time for the purchase of woollen goods, and as they are going at unusually low prices in the Eastern States, it would be a boon to the public here if they could participate in such reduced figures.

However, we would not by any means discourage the wool grower in Utah because of these fluctuations in the market. They are caused largely by speculation, and not by regular, steady production, which, taking one year with another, shares with other well conducted business a reasonable remuneration. Speculation is a thing of extremes, fitfully stimulating production at one time, to leave it unprofitably if not ruinously flat at another.

THE Monthly Report of the Department of Agriculture for October states of the wheat crop that New England, Maine excepted, fails to report an increase of the wheat crop; in the Middle States the falling off has been quite marked; in the South the product is larger and better than usual; in the West scarcely so good as last year. In the corn crops the average for all the States is 108, and, when fully reported, the crop promises to be one of the largest ever produced. The general average of cotton has been reduced from 91 in September to 81 in October, against 76 in October last year. The product of oats about 3 per cent over that of last year, present calculated aggregate 365,000,000 bushels. Barley scarcely as large a total aggregate as last year. Rye smaller by 2 per cent than last year. Potatoes comparatively a short crop.

The Report also contains the usual variety of articles of interest to agriculturists, one particularly so, as it relates to co-operative dairies, and another upon "*Systematic Crop Reports.*"

GREELEY retires from Presidential candidature to his editorial tripod once more. The country has not chosen him for President, but it has long and emphatically acknowledged him to be one of its best editors. In that sphere he has worked effectively and he still can do so. That is the work to which he proposes to devote his energies henceforth, eschewing partizanship and concentrating his labors upon things affecting the welfare of the whole public rather than any particular class or section of it, large or small. If the editor of the *Tribune* does this, he will make his paper, still more than it has been, conspicuously one of the very best in the country, worthy of the support of every family in the land. So many of the public journals are filled with partizan and sensational matters, almost always of grossly exaggerated character, that it is a weariness to look over their columns, there is such a large amount of chaff to so few grains of wheat, and that frequently is very light and poor stuff. We extend to Mr. Greeley our condolence upon his recent domestic affliction, with best wishes for his success in the department of intelligence to which he proposes to devote himself in the future. The *Tribune* is a welcome visitor because it is a useful paper, although we do not forget that it has said some hard things of our citizens at times.

THERE are two capital pieces of news in the dispatches which we publish today—one that Mexico has a new President in the person of Tejeda and that the country is at peace, and the other that Colfax declines to be a candidate for any office, "senatorial or editorial, State or national." After two novel and refreshing items like these, "let us have peace."

[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

PER WESTERN UNION TELEGRAPH LINE.

TO-DAY'S DISPATCHES.

EASTERN DISPATCHES.

PHILADELPHIA, 8.—At the funeral of General Meade on Monday, the City Council will attend in a body. Independence Hall will be draped in mourning for thirty days.

Not more then one team in a hundred on the Delaware and Lackwana canal is free from epizootic.

OSWEGO, 8.—The horse disease is unabated here, notwithstanding the favorable weather.

NEW YORK, 8.—The trial trip of the Japanese government steamer *Kuroda* took place in New York harbor yesterday. She will be officered by Americans, and will probably sail for Japan within three weeks, in view of the impending war between Japan and Corea, and receive her armament after her arrival in Japan.

CHICAGO, 8.—The epizootic continues unabated. A less number of horses are on the street to-day than yesterday, though the weather is fine. It is quite evident that the worst part of horses before they have entirely recovered from the disease is dangerous and not unfrequently fatal. It is estimated that one hundred horses have died the past two days.

Oglesby, Republican, for governor, has only 4,700, and Black, Liberal, for lieut.-governor has 1,300 majority in the city, the German vote being cast nearly solid for him.

In speaking of speculations in regard to cabinet changes that a representative of the colored men, headed by Fred. Douglass and John M. Langston, the colored lawyer, are bringing a pressure to bear to secure a cabinet appointment for one of their race, and the Washington *Star* last evening says a movement is already on foot to have Langston appointed attorney general.

WASHINGTON, 8.—Special reports give the following as President Grant's views on his re-election. His first election he considers as an honor paid for his military services, his second as the nation's approval of his political administration and a popular vindication of his personal character. Long before the Philadelphia convention he foresaw his success. The nomination by the coalitionists gratified him, inasmuch as it narrowed the contest to two candidates, besides the character of the opposition gave him complete assurance of the result. He was surprised at the affright received by some Republicans at the Baltimore nomination, and he was thereafter urged by political giants to make various changes in his Cabinet. Many of his friends had wondered at his indifference, but one helping cause of that indifference, which was known to but few, was his knowledge of the fact that during the campaign the Republican National committee had a picket in every Greeley camp of any consequence, from one end of the country to the other, and knew day by day every phase of the coalition situation as well as the coalition managers themselves.

WESTERN DISPATCHES.

SAN FRANCISCO, 7.—An investigation into the escape of the Brothertons was held at the jail this evening. It is not yet concluded. The matter looks still worse for the officers of the jail.

James Cunningham, who shot himself last night, was found to be not insane.

LOS ANGELES, 7. — The Prescott *Miner*, dated Oct. 29, says the military party which started on the 21st, under command of General Crook, have returned, having killed nine Apaches and Mohaves and captured and destroyed considerable Apache provender and arms.

MEXICAN.

CITY OF MEXICO, Nov. 1.—The election for President of Mexico resulted in the almost unanimous choice of Lerdo de Tejada, the votes against him being few and scattering. The programme of the course the President proposes for himself, as made public, may be condensed into this phrase—"Let politics and party administration." Since a few days ago Gen. Negrete declared Juarez has ceased to exercise any of the extraordinary powers with which he is invested. Porfiero Diaz has sent in his own submission to the government and surrenders his command. The paper is dated October 23d, near Durango, and the General promised to present himself at the capital. This has made a complete pacification of the country.

EUROPEAN.

The London *Telegraph* says that no one deserves better of his country than General Grant, or is more worthy of a place among the second term men; that England has had many causes of complaint, but he has not been to her wilfully petulant or hostile; and that it hopes the U. S. will now take care of Mexico and Cuba, as the East and not the West demands her attention.

PARIS, 7.—There is great enthusiasm in Rheims over the evacuation of that city by the Germans. The buildings were decorated yesterday with the French colors and flowers, and at night there was a general illumination.

LONDON, 7.—The Presidential election of America is the principal topic of the morning papers. The prevailing sentiment is favorable to the administration.

Drindas, Liberal, has been elected to Parliament from Richmond.

Cardinal Cullen has returned to Dublin from a visit to Rome.

The Irish government has prohibited the importation of horses from the United States.

LIST OF LETTERS

W. W. FETTERMAN, M. D.,
Graduate of the Hahnemann Medical College of Philadelphia, and the Electrical Institute of Pittsburg, Pa.
ELECTRICITY.
Great Discoveries. All Chronic Diseases treated with unprecedented success by the various modifications of Magneto-Electricity and Electricity.
Office at Mr. Mumford's, 3rd South St.
Cure of Cataract and Blindness of Long Standing.
This is to certify that Dr. W. W. Fetterman, Electropathist, has cured me of cataract of one year's standing. I am now restored by the agency of electricity. THOS. SUFFOOT,
First South-st, 13th Ward, between 1st and 2nd East Temple-st., at Mrs. E. J. Ferrish's.

Cure of Cross Eyes of long standing.
Dr. W. W. Fetterman:—My Dear Sir:—It is my desire to make known in any way best satisfactory to your own purpose, the fact of the cure of cross-eyes performed upon me. I now certify that electricity, in your hands, has cured me of cross-eyes of 16 years standing and I most cheerfully authorize the use of my name and sincerely hope for your encouragement and success. Yours very truly,
GILBERT WEBB, 9th Ward.

Cure of Deafness of long standing.
From feelings of gratitude to the healer and in interest of suffering humanity, I hereby affirm that I have been cured of deafness of nine years' standing. I have tried every known remedy as administered by the first and best physicians, but without avail. A short course of electrical treatment under Dr. W. W. Fetterman's supervision has fully restored me. I do most cheerfully recommend electricity as a curative agency. MISS JESSICA E. STILES,
1st North-st, 17th Ward, 2 doors east of the Academy.

Cure of Catarrh of long standing.
This is to certify that Dr. W. W. Fetterman, at Mr. Mumford's, 3rd South-st, has cured me of catarrh of three years' standing. I am now restored by the agency of electricity.
MRS. P. PHILLIPS, 7th Ward.

Cure of Catarrh of long standing.
This is to certify that Dr. Fetterman, Electropathist, has cured me of catarrh of over 4 years' standing. I am now restored by the agency of electricity.
MRS. STAPLES, 15th Ward.

THE ELECTRICAL HAIR RESTORER.
Among the great discoveries of modern science, few are of more value to mankind than this effectual remedy for all diseases of the scalp, and it is the only reliable and perfect preparative for restoring the hair of youngor old, making it soft, lustrous and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor and will create a new growth in a short time. It is the most economical preparation ever used, as it requires but a few applications and gives the hair a splendid glossy appearance.
Price One Dollar.
Prepared and sold by
DR. W. W. FETTERMAN,
Practical Medical Electrician.
Office at Mr. Mumford's, 3rd South-st.

THE VICTOR
SEWING MACHINE!
WHICH IS
RUNNING THE MARKET
ALL OVER THE UNITED STATES,
Is now Introduced for
THE APPROVAL OF THE SALT LAKE PUBLIC!
THE QUESTION WILL ARISE WHY IS THE VICTOR SO POPULAR?
BECAUSE It is the only Self-Setting, Straight Needle, Lock-Stitch Machine.
BECAUSE It has the simplest and most easily threaded shuttle, requiring no lacing.
BECAUSE It has the Positive Tension and Thread Controller.
BECAUSE It has no cogs nor springs, its motion being certain and rapid.
BECAUSE It is adjustable in all the wearing parts.
BECAUSE It is the easiest running Machine made.
BECAUSE It is so correctly fitted that it makes less noise than any other Shuttle Machine.
BECAUSE It does all the varieties of work from the finest cambric to the heaviest texture.
BECAUSE It has all the latest improvements and all the choice attachments, including the beautiful
French Trimmer, the Celebrated Magic Ruffler, the Elegant Broidery Attachment.
BECAUSE It took the FIRST PREMIUM at the Cincinnati Exposition, Oct. 22, 1870.
ALSO FIRST PREMIUM at the Kansas City Industrial Exposition, Oct. 23, '72.
ALSO THREE AWARDS at the New York State Fair, viz: Best Double-Threaded Sewing Machine, Best Manufacturing Machine and Best Sample of Machine Work.
ALSO THE HIGHEST PREMIUM at the New Jersey State Fair.
ALSO HIGHEST PREMIUMS and Silver Medal at the Minnesota State Fairs in 1869, 1870 and 1871.
ALSO HIGHEST MEDAL and Premium at the American Institute, N. York
ALSO Both of the Highest Premiums at the Mechanics' State Fair, Utica, N.Y.
AND THE SILVER MEDAL at the Middlesex Mechanics' Association of Lowell.
In a word, the merits of the Machine speak for it Universal Patronage, especially when it is considered that it costs no more than any other
FIRST-CLASS MACHINE.
LADIES, please call and Examine all other Machines, but don't buy till you have seen the
VICTOR!
