DESERET EVENING NEWS SATURDAY MAY 4 1907

inineral belt as Seven Troughs and Rosebud. Rosebud continues to grow in favor among mining men, and the presence of the Chas M. Schwab conlingent there is taken as a harbinger of great wealth. Thus far the Schwab engineers have been unfailing in the acuracy of their opinions regarding ore deposits. The Round mountain district seems destined to furnish positive refutation of the opinion of mining men a year ago. Fabulously rich ore has been found there, with minature nuggots, averaging about the size of wheat grains, bristling in the rock, whereas the mining opinion was that too much free gold existed near the surface to insure permanency. The Sphinx pro-perty. In the district, has opened in a surface cut an immense ledge, which discloses are of high value. grass roots. There are something like 2,000 people in the district already, and everything points to Seven Troughs as the coming mining district of Ne-DOUBLE COMPARTMENT SHAFT.

One Being Installed in Beck Tunnel

a solution of all mineral ledge, which discloses are of high value. The Round Mountain Combination property has been "proven" by the operations of one Wilson a leaser, who is making a fortune out of dry wash-ing process in placer work, as well

CONCENTRATES.

C. N. Sampson has returned from a trip to Pioche where he went to make an inspection of a promising mining propositions' recently brought to his attention. Mr. Sampson says Pioche is moving forward at a rapid pace, and that the completion of the rail-road into camp is awaited with in-terest. terest

The officers of the Jennie Gold Mining company and others interested in the Gold Springs mining district are interested in a movement to get up an excursion to Gold Springs and Stateline during the latter part of the month. It is likely that a good many local mining men will take advantage of this opportunity to visit this southera region, which is commanding so much attention at the present time. erai memoers of the exchange who were purported to have "split" commissions. No one has been caught as anyone has heard of; but considerable criticism is made of those responsible for the employment of this method of pro-cedure. However, it is safe to say that "split" commissions are a thing of the past.

One carless of 4 Columbus Electric Stanhopes to arrive at the premises of the C. W. & M. Co. the ensuing week: three are already sold.

Nearly Completed. orrespondence Eureka, May 4.—It will not be very long before the Beck Tunnel will be worked through the new double compartment shaft which has been located near the center of the property. Mr. Roundy, the superintendent, says that the work of sinking the shaft started the work of sinking the shaft started this week and no time will be lost in putting it down to the 300 mark and possibly a great deal deeper. Two new boilers and an en-gine have recently been added to the machinery of the Beck Tunnel, or at least have been ordered. With this new machinery installed and the dou-ble compartment shaft in working or-der at this mine it is safe to say that Supt. Roundy's forces will have a snap in increasing the output of ore, which has been from 12 to 15 carloads weekly the past winter, and which has weekly the past winter, and which has enabled the owners to receive the reg-ular dividend of \$40,000 every month. Preparations are being made to sink a shaft upon the property re-cently acquired in East Tintic by C. E. Looss, George Havercamp and other people of Provo. This ground takes in some valuable claims near and includes the old Noon Iron mine from which a great deal of ore has been shipped in years past. The rail-road which will be built to the Colo-rado and Beek Tunnel mines will go near this property and could easily be extended to Mr. Loose's ground. It is almost sure that when the work does start that it will be with equip-ment sufficient to sink to a depth of Looo feet. weekly the past winter, and which has

1,000 feet. It is reported that Josse Knight will seen have things in shape for the starting of development work upon Iron Blossom property south of

the Iron Biossom property south of the Colorado. J. B. Caldwell of Salt Lake. Geo. Havercamp of Provo and M. W. Bird of Eureka made a trip out to the Wicklow property in East Thite Sun-day last, for the purpose, it is under-slood of planning to begin work on this ground this month. The Wicklow los in good lerritory and has a bright future of becoming a mine. A carload of ore worth over \$7,000 was sent out from the Brinton-Chris-topherson-Sullivan lease in the Eure-ka Hill mine Monday and a carload from the name lease upon which set-tlement was made last Friday brought better than \$7,000, net. It is stated by parties in a position to know that this lease has produced over \$40,-00 worth of are the past five months, which is certaiony good for these gen-tlemen. There are other leasers workling in the Eureka Hill who are setting well fixed by their lucky hold-ings. John Boyle has been exhibiting this

ings. John Boyle has been exhibiting this week some samples of copper taken from the property of the Cypress Min-ing company near Santaquin, which shows native leaf copper. Several Eureka people are interested in the property besides Mr. Boyle.

as in a lode lease, wherefrom he has taken \$100,000 worth of ore during the past 30 days. The Walker Lake Indian reserva-

The Walker Lake Indian reserva-tion, which was opened by the gov-ernment, Oct. 29, is now being worked and experts have it that old deserted mines, now submitted to modern methods, are yielding good values. Continuous work in the Ely, Yer-ington, Cuprite and Fitting districts show the state to be rich in copper as well as in gold and silver, and the discovery of Petroleum in the Bull-frog district. Alum in the Walker Lake district and zinc in the Silver Peak district, with gold in evidence practically throughout the state, and the settlement of the labor difficulties, have caused a rush of visitors com-ports to capitalists. It is estimated that the state now has a population of 500,000, as against 40,000 seven years ago.

500,000, as against 40,000 seven years ago. Lively interest is being taken in the Gold Butte district in southeastern Nevada and there is a likelihood of doubling the stage service between Moapa and Gold Butte. Several Gold-field mining men have been in the distirct during the past two weeks looking for ming ground and indice.

looking for mining ground and indica-tions are favorable for consummation of a deal which will involve some of the best known properties in the vicinity of Gold Butte and Cedar Ba-

FUTURE OF BOSTON CON. Figures Showing What May be Ex-

pected of Big Bonanza.

George L. Walker, in the Boston Commercial has the following to say about Boston Consolidated: about Boston Consolidated: "The future outlook for Boston Con-solidated is most encouraging. The company promises to close this year with its production up to an avorage of 4,540,000 pounds of fine copper-menthly or at the rate of 56,000,000 pounds annually. Such an output will give it net earnings of \$8 per share annually on a 20-cent copper market, provided present expectations are realized. enllzed.

realized, "I have frequently advised the pur-chase of Boston Consolidated, both at lower and higher prices. I feel satis-fied that it will make a big and very profitable mins. If the engineers who have opened up, sampled and meas-ured its ore deposits and experiment-ally developed the system of milling and concentration it is to use, have not made some inexcusable blunders, Boston Consolidated stock will be worth \$100 per share within a few years.
