LOCAL AND OTHER MATTERS.

TALK OF THE TOWN.

Dark overhead. Wet and slippery
 under foot.

Nothing doing in the Police Court
 to-day.

This causes our scarcity of dis-
 patches.

The city has a crossing sweeper at
 work on the busiest thoroughfares.

The damp weather holds on and
 pedestrians with difficulty do like-
 wise.

The Supreme Court resumed this
 morning. Nothing of importance
 doing.

A rumor is floating that the
 "Banker's Daughter" is to be re-
 peated shortly.

Examination at the Deseret Uni-
 versity closed to-day. The new
 (third) term begins Monday.

Last evening the District Court
 adjourned over till next week, Wed-
 nesday, the 19th, it will resume.

An exchange says: "Good wives
 are wanted in the northwest." Sure-
 ly this is not strange. Is there any
 place where they are not wanted?

The telegraph wires are down
 along the line of the U. P. between
 Hatch and Aspen. The weight
 of snow and ice has broken poles,
 cross bars and wires.

Mr. William Hill, of the popular
 Philadelphia Coffee House, has
 moved into new quarters, the store
 formerly occupied by H. E. Phelps,
 about the last of the month.

A young man was handling a
 pistol in a somewhat reckless man-
 ner on second South Street, last
 night, when the weapon was dis-
 charged and the ball grazed his
 thigh.

We extend sympathy to Officer
 Andrew Smith and his wife, Mrs.
 Annie Smith, of the Second Ward,
 in the loss of their infant daughter
 Margaret, from inflammation of the
 lungs.

Elsewhere will be found a notice
 of the death of the little daughter
 of Brother George R. Emery. We
 deeply condole with the bereaved
 parents. Friends of the family are
 invited to the funeral to-morrow at
 11 a.m.

Our Beaver correspondent (D. T.)
 writes that on the night of the 10th
 inst. a number of "liberals" got
 together and fired off a volley in
 honor of A. G. Campbell. The dig-
 nity of the demonstration fully
 equals that of the one for whom it
 was made. The best of liberal
 breezes from the south will no doubt
 give particulars of the "brilliant af-
 fair."

Relief Society Party.—The ball ar-
 ranged last evening by the 14th Ward
 Relief Society in the Ward Hall, was
 a most enjoyable affair. The new
 floor put down but a short time ago,
 was just as smooth as glass, a
 splendid and nicely subdued light
 was shed from a number of many
 globed chandeliers, and to the in-
 spiriting strains of music from Ol-
 sen's band and the efficient prompt-
 ings of Mr. James Currie, a select
 and congenial company of guests en-
 joyed the pleasures of the dance un-
 til a seasonable hour of dismissal.

Among those present were President
 John Taylor, Apostle Wilford Wood-
 ruff, President A. M. Cannon and
 Counselor Jos. E. Taylor. The west
 wing of the building was nicely sit-
 ted up as a sitting room, and the east
 wing was a reception room. The party
 was peaceable, quiet and orderly,
 and all there had an excellent time.

Steinauer's Condition.—The condi-
 tion of Leo Steinauer, the young man
 who shot himself yesterday after-
 noon, is worse than when last re-
 ported. In fact he is dying by inches.
 The doctors have given him up, and
 very likely before another issue of
 this paper, the sufferer will have
 breathed his last. He is still
 conscious, can speak, and makes
 known his wants with readiness, but
 is gradually growing fainter.

A French artist gave his last work
 to a porter to convey to a mission-
 ary. The artist, he said, had been
 "the picture is scarcely dry." "Oh!
 never mind," said the porter, "my
 clothes are old."

"Take the elevator," is inscribed
 on the fence of a Iowa meadow. A
 curious traveler who climbed into
 the elevator in about ten seconds
 found the elevator is of a dark brittle
 color, with a curl in the middle of
 his forehead.

A Galveston woman, just married,
 wishing to impress her husband
 with her ability as a housekeeper,
 turned out to the street as she
 closed the door, "You will have to
 settle that for yourself," said the
 clerkman.

A good story comes from Madison,
 Wis. A young man of that city
 who, either through snobbish or
 business, will never carry a package
 through the streets, made up his
 mind the other day to carry one
 and a package, and as usual, ordered
 them to be delivered at his resi-
 dence. Soon afterwards a two-horse
 freight wagon was passing, and the
 man, who was sitting in the driver's
 seat, saw the package and, without
 an instant's delay, he stepped out
 and asked the driver to stop. The
 driver, who was a witness of the
 scene, is likely to be a witness of
 the same scene again.

SEVENTIES ORGANIZATIONS.

There will be a Conference of the
 Seventies of Davis County, held in
 the Farmington Meeting-house, on
 Sunday, January 23rd, at 10 a.m.,
 and 2 p.m. One or more of the
 First Presidents of Seventies will
 be in attendance, and it is desired
 that as many as possible of the bishops
 and members of Farmington and
 surrounding settlements be present,
 as it is designed to effect Ward and
 Stake Organizations of the Seven-
 ties in the Davis Stake during these
 meetings. Any of the Saints who
 may desire to attend are cordially
 invited.

ROBERT CAMPBELL, Clerk.
 In behalf of the First Council of
 Seventies.

SALT LAKE CITY,
 January 14th, 1881.

A Snow-Ball.—A snow-ball is a
 little thing and harmless in itself,
 but with the muscular arm of a
 mischievous boy as a power of propul-
 sion, it is often transformed into
 a projectile of a dangerous and dam-
 aging character. Mr. C. J. Lam-
 bert, superintendent of the Deseret
 Paper Mills, was led into this train
 of reflection by an incident that
 came under his personal observation
 yesterday afternoon. He was pass-
 ing along in the vicinity of the
 Third Ward school house, in a buggy
 drawn by a spy horse, when an urchin
 at the roadside, without a word
 of warning, as is usual in such
 cases, "blazed away" at him with
 snowball. The icy missile struck
 the animal under the ear. Quick as
 thought, the horse wheeled to one
 side and the next moment the driver
 found himself lying in the muddy
 road with the broken back of the
 buggy seat, and the horse and vehi-
 cle becoming gradually and beauti-
 fully less against the far off horizon.
 To cut short the story and the
 animal's flight, it was brought to a stand a few
 blocks away by a couple of
 young men, and Mr. Lambert, after
 looking around in vain for the cause
 of his accident, which had also
 grown somewhat scarce in that im-
 mediate neighborhood, resumed his
 seat with a muddy coat and a solemn
 countenance, and struck off for town.

He had not gone far before he met
 a man who informed him where the
 boy had been hiding, after throwing
 the snowball. Mr. L. proceeded to
 the place, a coal house near by, and
 found the alighting urchin cuddled
 up in one corner, endeavoring, de-
 spite of his shabby features, to look
 as much like a lump of coal as was pos-
 sible, and after standing for some
 moments talking sarcastically to
 him, his pursuer, with a magnani-
 mity fully as large as the patch of mud
 on his coat, shouldered the now
 screeching youngster and carried him
 home to his mother, where after de-
 positing his charge and warning the
 parents that he should expect ample
 reparation for his wounded feelings
 and broken buggy seat, he left them
 in a brown study and sought the
 nearest way to a pool, where he could
 "wash and be clean."

Fatal Snowdrifts in Little Cot-
 tonwood.—The following special
 to the News was received at 2 p.m.:

SANDY, Utah,
 January 14, 1881.

In Little Cottonwood, at 12.30
 a.m., January 13th, a "white" came
 down, taking the Grizzly mine board-
 ing-house, in which were Mrs. John-
 son, her husband and daughter, Evan
 Morris and John Howarth, who
 were all killed except two children.
 Their bodies have been recovered.
 The children are slightly injured.

On the morning of January
 13th, at 1.30 p.m., which carried
 away the Toledo compressor and
 killed Charles Borbridge and Frank
 Saporte. Their bodies have not as
 yet been found.

The citizens are very much fright-
 ened in Alta.

Mutual Improvement Association.

Remember the Y. M. M. T. A.
 Conference in the Assembly
 Hall next Sunday at 10 a.m. It is
 requested that a representative of
 each association, and as many more
 as can be spared from other duties,
 be present, to discuss the subject
 of the Young Ladies and Prim-
 ary Associations are invited, as
 well as all others who are interested
 in the welfare of the youth of Zion.
 It is expected that President Joseph
 F. Smith, the presidency of this
 Stake, and others will be present.

SHORT AND SHARP.

A very disagreeable old gentle-
 man dies. His nephew, charged
 with the duty of preparing his epi-
 taph, suggests: "Deeply regretted by
 all who never knew him."

 may be the means of bringing
 both them and me to a knowledge
 of the truth.—Macaulay.

AN ORDINANCE.

AMENDING "AN ORDINANCE IN RE-
 LATION TO THE SALT LAKE CITY
 WATER WORKS, AND THE SUPPLY
 OF WATER FROM THE SALT LAKE
 AND FOR OTHER PURPOSES," PASSED
 BY THE CITY COUNCIL, JANUARY
 1877.

Section 1.—Be it enacted by the City
 Council of Salt Lake City: That
 Section Twenty-five of "An Ordinance
 relating to the SALT LAKE CITY
 WATER WORKS, and the supply
 of water from the main pipes, and
 for other purposes," passed July 31,
 1877, be and the same is hereby
 amended by adding to the said
 said section the following:

"To run a motor or turbine of any
 description, not exceeding one horse
 power, fifty dollars; and for each ad-
 ditional horse power, ten dollars;
 and for each additional horse power,
 ten dollars; and for each additional
 part thereof, forty dollars." To run
 hydraulic engine for elevators, for
 each elevator, three hundred dollars.
 Provided that on proclamation of the
 Mayor to that effect, no such motor,
 turbine or hydraulic engine shall be
 supplied with water from the Salt
 Lake City Water Works during the
 month of July, August or September
 in each year, any license there-
 for notwithstanding. Any person
 applying for a license to run a motor,
 turbine or hydraulic engine, may be
 required by the Assessor of Water
 Rates to make affidavit of the full
 power of the motor or turbine for
 which the license is asked.

Passed January 14th, 1881.

FERAMORZ LITTLE,
 Mayor.

Hale's Honey of Horsebrand and
 Tar.

For the cure of Coughs, Colds, In-
 fluenza, Hoarseness, Difficult breath-
 ing and all Affections of the Throat,
 Bronchitis, Tuberculosis, leading
 to Consumption. This sovereign
 remedy is compounded from the fa-
 vorite receipt of an illustrious phy-
 sician and chemist, who for many
 years used it with the most suc-
 cessful results in his extensive pri-
 vate practice. He had long been
 profoundly impressed with the won-
 derful efficacy of the plant, and he
 found, in union with the cleaning
 and healing properties of Tar, ex-
 tracted from the life principle of the
 forest tree Abies Balsamea, or Balm
 of Gilead. For years he was baffled
 in his attempts to blend these
 great medicinal forces into such a
 union that the original power
 of each would be preserved, the
 disagreeable qualities of common Tar
 removed, and the price of the com-
 pound be within reach of all. At
 last, after a long course of difficult
 and expensive experiments, he found
 that, by adding to these five other
 ingredients, each one valuable by it-
 self, he not only obtained the desired
 results, but greatly increased the
 curative power of the compound.
 This, having been thoroughly tested
 by practice, is now offered to the
 general public as a safe, pleasant and
 infallible remedy. Price, 50 cents
 and \$1 per bottle. For sale by all
 druggists. Depot, Crittenton's, 2
 Sixth Avenue, New York City. Great
 saving by buying large lots.
