Former Shows Just Where He Stands on the "Mormon" Question.

MAKES A FAIR PROPOSITION.

Says He is Ready to Accept Latter's Challenge if He Will Withdraw His Senatorial Candidacy.

The following interview with Hon. W. 6. Borah of Boise, Idahy, appeared in a recent issue of the Spokane Spokesman Review:

When asked about the challenges to Senator Dubois Mr. Borah said: "The papers have not gotten exactly the nature of my statements in public in regard to these matters, although they have been practically correct.

"Senator Dubois has stated as different times that he realized that the raising of this 'Mormon' question would retire him from politics, in other words that the 'Mormons' would defeat him, leaving the inference that he is actualed by the spirit of martyrdom in this fight and not from any selfish purpose. Upon the other hand he charged pose. Upon the other hand he charged publicly, so I am told and if was prac-table or printed, that I was a moral coward and was bartering with the 'Mornon' people for political support in my candidacy for the United States senate. Hence to test his sincerity and possibly throw some light upon my motives, I said: First, if Senator Du-bols will enter into a solemn agree-ment not to be a candidate for or to accept the office of United States sen-ater, or any other political office apaccept the office of United States sen-ater, or any other political office ap-pointive or otherwise for the next five years, I would join with him in that sgreement and we would then be pre-pared to go before the people and pre-sent this matter and discuss these questions relieved of any charge of sitish motives. I never supposed for a moment but what the senator would accept the challenge and I was fully prepared, as I am now, to fulfill my part.

Secondly, Senator Dubols has declared, as I understand, that there are pariles living in polygamy in the state of Idaho by virtue of plural marriagea of Idaho by virtue of plural marriagea contracted since October 6, 1890, the date of the manifesto upon the part of the 'Mormon' church renouncing rolygamy. It is my deliberate and con-did opinion, after a most thorough in-vertigation, that this is not true; that the only cases of plural marriages are done which took place, prior to the the oily cases of plural marriages are those which took place prior to the manifesto. Those cases are aside from this controversy and can throw no light upon the situation. They have been known to exist, and by no one better than the senator himself. Not colly this but they were forgiven by common sent by all who had to do with the matter, from President Harri-te forgeter. Wholes himself, who with the matter Dubols himself, who son to Senator Dubols himself, who sonking in regard to this particular matter said in the senate February 5, 192. I with others who had made the thought we were justified in mak mise to the We had no authority of law, but the took it upon outselves to assure them that those older men who were tering in a polygomous relation, who manifesto was issued and at a time when they thought they had a right under the Constitution to enter the po-lygamous relation-that those older men and women and their children esuid not be disturbed. He has also stated in this campaign that there are nalaws by which this offense which ha targes to exist can be punished, hence I said if Senator Dubols will file a com paint against any one or more living to polygamy in the state of Idaho by vason of marriages contracted sinc the manifesto, in a court of competent jurisdiction and furnish me the evi-deare that I would agree to find the coirt in which to try the case, the law der which punishment could be had and assist in the prosecution without charge or cost to any one. New, I mean precisely what I say. These were not impulsive challenges in the heat of campaign. I told my friends founy weeks upo what I was willing to do and am ceady. I assume that Senone Duboia will accept As to the Owens telegram, the first I saw or heard of it was in your vid-mible paper this morning. I do not have Mr. Owens, I never heard of him before, but it is clear from his own other Importation. He may be respon-sible or he may not be, but I konw that Senator Dubots is and my chal-The was to him and not to Stalker or out one cles. Like our illustrious bader, Mr. Roosevelt, I am after big more or none, and when the semator binself files the complaint and takes wish himself the responsibility and furnishes the evidence, then my work bains. Besides Mr. Owens could not comply with the first challenge, which next be accepted in connection with the second. This importation and odging behind other people is a little Now in 1892 I affered the resolution is the Republican convention at Moscow piedging the Republican party to the estimatisement of the 'Mormon' people I did so on the ground, as I then stated, that I believed that they were intere in the matter of the issuance of the manifesto, and I still believe they vere and are. I believe as Senator Du-tos said in the United States senate a Life over a year ago that 'Polygamy is deal and cannot be made more dead,' but when I have the evidence that they are not sincere and are living in pogamous relation contracted since that beginning relation contracted since that manifesto, then I am willing to assist in upholding the laws of the state re-sardless of whom it touches. But so ichg as I believe that the manifesto is being complied with in the spirit in which it was interpreted by all I pro-pose to stand firmily by the position thich I then took and have ever since which I then took and have ever since which I then took and have ever since held regardless of what the political results may be to me. These people are part of our citizens, they make up the part of our citizens, they make up the wealth of the state, and while they must obey the law they shall also be protected under the law. "As to the names of the parties mentioned in Owens' telegram, it is the sid list which they have been hawking thout for months. There is not a single ibout for months. There is not a single tew name in it. I presume every rading Republican has seen that list nany times and knows where it came from. All of the parties therein named to far as I have been able to investirate, are instances of marriage prior to

ANOTHER LIE NAILED.

Borah Says He Was Not Asked To Support Smoot.

The Boise Capital News has the following special from Lewiston, Ida. under date of Oct. 26:

'The man who circulates the statement that members of the Mormon Church asked me to pledge myself upon the Smoot matter and when I refused voted for Heyburn for senator, is a wilful, delibeate and industrious liar,' was the statement of W. E. Borah be-

fore a large and attentive audience here Continuing Mr. Borah said. ast night While Mormon members of the legis lature did speak to me about the Smoot affair they asked no promise nor pledge and these Mormons did not vote for Heyburn, but for me at all times." The distinguished speaker made an exhaustive address upon the national issues arousing much enthusiasm and being constantly cheered. Speaking of state issues, Mr. Borah took up the Mormon" question which he charac terized as not an issue for reason that all good people of the state, no mat-ter of what party, were opposed to polygamy and said if there were any

violations of law it was a simple ques-tion of putting the courts in action. Mr. Borah, in discussing the question of laws stopped in his speech and
