

FROM SEVIER, THE LAND OF WONDERS

Martin Jensen, Representative,
Tells of Resources of
His Section.

GREAT MINES OF ROCK SALT.

First Reservoirs in Utah Built to Control Sevier River, Which Runs Sixty Miles Through Valley.

Martin Jensen of Richmond, Sevier county, represents the Eighteenth legislative district in the state legislature. Mr. Jensen's home town lies about 30 miles north from Richfield, the county seat. Both towns are situated in the Sevier valley, which runs north and south a distance of 60 miles, by about 10 miles in width east and west. The Sevier river runs through the entire length of the valley, entering at the southern end and following down the center and draining the land on both sides and furnishing the water for irrigation purposes all the way along.

A WONDERFUL STREAM.
"The Sevier river is peculiar," said Mr. Jensen today "in that its water is used over and over again for the purpose of irrigation. At the head of the river, there are five reservoirs, from which the water is taken out, from time to time, and returned to the river half a mile or so further down, making the same water do service several times in irrigating the crops. There is a great abundance of water in the valley, the chief difficulty being to properly control it."

BUILT FIRST RESERVOIRS.

To the fact that reservoirs have been constructed at different points, and Sevier claims the distinction of having built the first reservoir for irrigation purposes in the state. There are five reservoirs now in operation, and another large one is projected. These are owned by the county, and the farmers owning property under them pay taxes levied for that purpose. There is no litigation for water rights in Sevier, as the ownership is vested in the county and the water rights are distributed in proportion to the amount of land owned, and on the basis each farmer gets his equitable proportion without any trouble whatever. It is hoped that the construction of the next large reservoir, which if built according to plans now being worked out, will bring many hundreds of acres of good land under cultivation.

The people are chiefly engaged in farming and stockraising. All kinds of cereals and vegetable crops, as well as fruit and hay, are produced in their fields, and the people are prosperous. They also raise a profitable sugar beet industry, although it is necessary to ship the tubers a distance of more than 100 miles to the Utah factory. Considerable work is also taken in the raising of blooded stock, and a great many short horns and Hereford cattle are in evidence, as well as pedigreed horses.

GREAT SALT MINES.

A growing industry of the valley is that of salt mining. Extensive rock salt deposits are found in the north from the town of Richfield and stretch out in a long strip clear across the valley in several places, being traceable for a distance of six miles or more. The salt deposits lie from 10 to 20 feet below the surface, but the layers are large and the quantity of salt seems to be practically inexhaustible. On the west side of the valley the salt is found in a more crystalline form, and often great chunks weighing several hundred pounds are taken out, almost as transparent as glass. The salt is already extensively mined, and the product is shipped last season. The raw product is refined at a large plant on the ground. Another refinery is in course of construction, and the operation of the industry will be greatly extended the coming season.

PLENTY OF COAL.

"There is any amount of coal 30 miles to the south canyon," said Mr. Jensen, "and the fact that this fuel is so easily had in that country, which the people here in Salt Lake must suffer from a coal famine seems too bad. The coal is of first-class quality, and there is no end to the quantity. It is extensively mined, and the product is shipped last season. The raw product is refined at a large plant on the ground. Another refinery is in course of construction, and the operation of the industry will be greatly extended the coming season."

MARBLE QUARRIES, TOO.

There are three large knolls lying but a mile west of Richfield, and each of these knolls contains a quarry of fine white marble. And while the lack of capital not much has been done in the way of developing these quarries, yet samples of the marble taken out and used have yielded as beautiful a polish as any stone, and it is proposed to find means to properly develop the marble industry in the near future, for there is money in it.

HERE'S SOMETHING NEW.

"At a certain place in the Sevier valley there are a number of small mounds, having the appearance of ordinary graves. These mounds are of different colors, and from a distance look like red and pink blankets laid upon the earth. On composing the mounds is of a heavy, sticky nature, and the people use it instead of lime for mixing with sand in masonry, and it is proposed to find means to properly develop the mounds industry in the near future, for there is money in it."

FROM THE NORTHWEST.

Conditions in Canada Described By a Former Utah Resident.

Ed Cazier, a member of the first Utah state legislature, but now a resident of Saskatchewan, Canada, is in the city from his northwest home. Mr. Cazier is on his way to Nephi, where his son is buried today, making his trip at the time a very sad one. Mr. Cazier, in speaking of the northwestern conditions, and the inhospitable future in store for them, said:

FROM THE NORTHWEST.

Conditions in Canada Described By a Former Utah Resident.

The Label on this Can Says PURE CREAM OF TARTAR

The New Pure Food Law protects you—
if you protect yourself—
by examining the label to see that it says

PURE CREAM OF TARTAR
For Pure Food—
DR. PRICE'S
Cream Baking Powder

A PURE, CREAM OF TARTAR POWDER MADE FROM GRAPES

With his brother he has been engaged in contract work on some of the large canals being constructed in that province, and they are also figuring on building some of the new road for the Canadian Pacific, as well as doing betterment work. Englishmen, he said, are the only kind of workmen to be had in Canada, as the Chinese and Japanese have not as yet invaded the country.

Many people from the United States are flocking into the northwest provinces and Mr. Cazier says he expects to see 100,000 of them cross the line this coming season. The Canadian government is very liberal in its terms to settlers, and offers every inducement to people coming in to make homes. The soil is exceedingly fertile, and for stockraising there is no better country on earth.

ONLY ONE "BROMO QUININE" THAT IS LAXATIVE BROMO QUININE. Similarly named remedies sometimes deceive. The first and original Cold Tablets is a WHITE PACKAGE with black and red lettering, and bears the signature of E. W. GROVE, 25c.

ALL QUIET AT BINGHAM.

No Trouble Occurred Among the Evicted Austrians Yesterday.

There was no trouble among the Austrians at Bingham yesterday, when they were ejected from the property of the Bingham Central Mining company. The orders from Judge Lewis who had rendered decrees in favor of the company for the possession of the land in controversy. Deputy Sheriffs Steele, Smith and Slater, went to Bingham to carry out the order of the court and to be on hand should the Austrians make any resistance. By considerable coaxing the men were finally induced to peacefully move their belongings off of the property and by 4 o'clock yesterday most of them had departed.

ODD FELLOWS BANQUET.

Salt Lake Veterans of the Three Links Gather at Annual Dinner.

The annual dinner of the Veteran Odd Fellows' association was given last evening. The affair was an exclusive one, even for Odd Fellows, only those having worn the three links for more than 25 years being allowed to attend. Mr. E. D. Hoge and Rev. P. A. Simpkin were the guests of honor. The banquet was given by Edward Pearce, P. G. M. "The Old Boys," by Rev. P. A. Simpkin. Brief addresses were given by George Arbogast, H. L. Stein, W. P. Rowe, Harry F. Evans, M. Stockman, B. D. Blackman, Schell, Watters and Louis Strasburg. The banquet was brought to a close by singing "Auld Lang Syne." Those present were Alex. Rogers, Edward Pearce, W. P. Rowe, H. J. Evans, M.

Stockman, Ickel Watters, G. F. Arbogast, M. J. Moore, T. C. Waltenspell, Rudolph Alf, E. Berryman, H. L. Stein, George Olsen, Albert Fisher, B. Rich, W. H. Stahl, C. P. Hutchinson, J. H. Kidd, Louis Strasburg, W. I. Harris, W. D. Gaby, Charles E. Street and B. D. Blackman.

A HUGE SUCCESS.

Athletic Entertainment at the University Scores a Big Hit.

The entertainment given by the Athletic association of the University last night was a success from start to finish. Although the evening was stormy, the attendance was large and the audience appreciative.

Worthy of special mention was the wrestling match between Bennion and Russell, the heavy weights of the football team. Both men weighed in at 192 pounds, and put up as pretty a struggle for two short bouts as was ever seen in any amateur show. Bennion took the first fall in five minutes, the second going to Russell. Lack of time prevented pulling off the third round.

A little mill of creditable proportions was put up by Leeh and Ledger. Three rounds of the "real thing" in boxing was enjoyed by many who had never seen anything approximating a real match before.

The stumbling stunt by Dale Pitt, A. Call, Spitko and Russell was also an eye-opener to the assembled guests, almost every twist known to professionals being put up by the boys. Carl Scott gave a monologue in which a number of the faculty were successfully "taken off." Joseph Barlow and C. Ferguson presented the melodrama, "Where the Lungs are the Heart is Close by." The barbers' club held a moot trial, in which a professor was placed on trial for petit larceny. A quartet composed of Harry Alley, A. Dyer, Lester Blackmer and A. Bennion sang a number of parodies on old songs. A. Evans astonished the natives with a correct imitation of high kicking. Another quartet composed of A. Peterson, J. R. Smith, C. Ashby and Mark Brown successfully held the boards for a number of songs. The "Medicos" presented a farce in which several local hits were made.

The final number was the sketch "A Multitude of Sins" by Alpha P. fraternity, in which the feature was a song about consolidation, the colors of the A. C. U. being red, white and blue, in the red, white and blue.

CONTINENTAL LIFE.

Secretary Tinney Finds It Sound—Election of Officers.

Secretary of state C. S. Tinney, in his capacity of ex-officio Commissioner of Insurance has examined the financial condition of the Continental Life Insurance and Investment company of this city, and declared that it is sound.

Rosy Cheeks Made by a good food.

A lady living in Acton, Wales, writes—

"It is with both pleasure and gratitude I write to tell you of the splendid results we have derived from Grape-Nuts. For years, almost since childhood, have I suffered from nerve troubles, neuralgia, etc. Some months ago my husband persuaded me to give Grape-Nuts food a trial. The first package I had I felt the benefit of, and since, needless to say, I have never been without it, using it in many of the delightful little receipts given with each package. These wonderful little receipts prevent the monotony felt so often with other foods. I sleep better, feeling refreshed in the morning, have gained both flesh and rosy cheeks, lost my neuralgia, and generally speaking, feel in the best of health. I feed my little girl with it also; she, like myself, suffered from anaemia, and was a constant worry and trouble to me, but now I am delighted to say she is the picture of health."

I strongly recommend all mothers to use Grape-Nuts, and they cannot fail in getting the happiest results for it is certainly the most palatable food I have ever tried for children, and they thrive wonderfully on it. Name given by Postum Co., Battle Creek, Mich.

Grape-Nuts food is a certain re-builder, for it contains the elements necessary to renew the nerve and brain tissues. The starch in the grains, from which it is made, is changed, in the manufacture, to a form of sugar, and this renders it easy of digestion to invalids and children, as well as those in the prime of health.

"There's a Reason" for

Grape-Nuts

DAUGHTERS OF THE REVOLUTION

Gathering of Brilliant Women at The Manitou Yesterday Afternoon.

DELICIOUS MENU DISCUSSED.

Washington's Birthday Celebrated With Speeches and Program of Patriotic Toasts.

In a hall resplendent with flags and other patriotic emblems in the bright colors of the nation and the colonies, a gathering of brilliant women, comprising the local chapter of the Daughters of the American Revolution, sat at a beautifully dressed table, at the Manitou, yesterday, and celebrated in their own tasteful and clever way the birthday anniversary of the nation's father. The delicious menu discussed, a half dozen of the representative women of the society gave a program of toasts under the able guidance of the toastmistress, Mrs. L. C. Miller, her opening greeting appealing vividly to the patriotic spirit aglow in the hearts of the assemblage and adding the right inspiration to the address of the speakers.

Mrs. Thomas Weir responded first, to the subject, "Our Emblem—What It Means to Us," with an original poem, as follows:

OUR EMBLEM.

Our emblem is a golden wheel,
Banded with deepest blue,
Each shining spoke tipped with a star—
The distaff showing through.
The only jewel in the world,
That money cannot buy,
Without such proof of ancestry,
As no one can deny.

It glows on many a bosom,
In silken garments dressed,
Or many a proud face glows,
More favored than the rest,
They gladly do it honor,
And give it place to shine,
In all its blue, gold beauty,
And simple, quaint design.

It shines on many a bosom
Of daughters, who each day,
Must toil and strive with hand and brain,
Upon life's weary way,
Untold the pride and pleasure,
And honor which they feel,
In wearing that which levels all—
The distaff and the wheel.

That emblem tells a story
Each one can understand,
The woman has descended
From the hero of our land,
From one of those who fought and bled
And died, perchance, that we
Should reap of his great sacrifice
A nation's liberty.

It tells of Washington and those
Whom he inspired on earth;
Of whom those patriots fought and died
To give our land its birth—
Starry shielded faith they pray:
Upon the land and sea,
The God of battle granted them
Triumphant victory.

And now our flag we love so well
In glorious battle waves
Over the land which holds and guards
So many patriot graves,
Their daughters bear the emblem,
And with steadfast faith they pray:
That for our nation's honor,
We be brave and true as they.

Mrs. C. S. Kinney and Mrs. H. C. Clement of Fort Douglas took for their subject "The Wheel" in the society emblem. Mrs. Kinney regarding it as representative both of industry and progress, and expressing the hope that it would forever be truly typical of the aim and career of the D. A. R.

Mrs. Clement's theme was "The Spoked" and she compared the revolution to the early struggles of the country and its persistent motion towards freedom and progress.

Mrs. Margaret Zane Wiltcher had "The Stars" and cleverly using them from the astrologer's standpoint, drew the horoscope of the nation from its birth to its glorious present. She referred to the original states as the "lucky thirteen" and proposed a toast to the 35 since added.

Great interest centered in the part of Mrs. Clarence T. Brown, who is here visiting, and who consented to be included in the program. Her theme was "The Distaff," and was the inspiration of a beautiful tribute to the home, without which, she said, no nation is truly great.

"The Flax" furnished Miss Margaret Connell with a picture of industry especially home industry, which the thought represented, its threads furnishing wool of wonderful fabrics and opportunities for patience, diligence and skill.

Mrs. H. C. Wallace responded to the closing toast, "The Unlucky Thirteen," showing that numbers nor signs stand against courage, patriotism and truth, but may be converted by them into good.

The event ended with the singing of "America." Miss Esther Allen accompanying on the violin.

CHILD'S LIFE SAVED BY CHAMBERLAIN'S COUGH REMEDY.

Mrs. John Englehardt, of Gera, Mich., tells of the anxious moments spent over her little two-year-old daughter, who had taken a hard cold resulting in croup. She says: "I am satisfied that it had not been for Chamberlain's Cough Remedy she would have choked to death. I gave this medicine every ten minutes and she soon began to throw up the phlegm. I can recommend it in the highest terms as I have another child that was cured in the same way." Sold by all druggists.

Wear a Dunlap hat and be dressed to date. Spring styles on sale. BROWN, TERRY & WOODRUFF CO., 166 Main St.

Salt Lake has long felt the need of a permanent exhibit of the state's resources and products. The Utah Chamber of Commerce, 55-58 west Third South, has supplied the want. Visit it. Free admission.

WARD ENTERTAINMENTS

Mill Creek—Under the auspices of the M. J. A. "Misfit Hall" will be given in the Mill Creek ward hall Friday evening, March 1. All are invited to attend in costume as the most entertaining and successful party of the season is anticipated.

BROWN'S BRONCHIAL TROCHES FOR COUGHS AND COLDS

Beneficial to elderly people who suffer from dryness of mouth and throat. In boxes only.

PERUNA EDITORIAL NO. 2.

In our last editorial on Peruna, after showing that this well-known family medicine is no longer a secret remedy, but prints on the label of the bottle the principal active ingredients, we made the statement that PERUNA IS AN EXCELLENT CATARRH REMEDY.

The question now arises whether we are claiming for Peruna more than the facts warrant. Have we abundant proof that Peruna is in reality a catarrh remedy? Have we proof of this fact so well established that even the critics of Peruna must admit the force of our evidence?

Our task will be an easy one to show what eminent authorities think of the ingredients which compose Peruna.

Take, for instance, the ingredient HYDRASTIS CANADENSIS, OR GOLDEN SEAL. The United States Dispensary says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women.

Another ingredient of Peruna, CORYDALIS FORMOSA, is classed in the United States Dispensary as a tonic.

CEDRON SEEDS is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. THE SEEDS ARE TO BE FOUND IN VERY FEW DRUG STORES. The United States Dispensary says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a SUBSTITUTE FOR QUININE.

OIL OF COPAIBA, another ingredient of Peruna, is classed by the United States Dispensary as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

THE EMINENT AUTHORITY ON THERAPEUTICS, BARTHOLOW, in speaking of these same ingredients of Peruna is even more enthusiastic as to their medicinal merit.

OF HYDRASTIS, HE SAYS it is applicable to stomatitis (catarrh of the mucous surfaces of the mouth), follicular pharyngitis (catarrh of the pharynx), chronic coryza (catarrh of the head). This writer classes hydrastis as a stomachic tonic, useful in atonic dyspepsia (chronic gastric catarrh), catarrh of the duodenum, catarrh of the gall duct, catarrh of the intestines, catarrh of the kidneys (chronic Bright's disease), catarrh of the bladder, and catarrh of other pelvic organs.

BARTHOLOW REGARDS COPAIBA as an excellent remedy for chronic catarrh of the bladder, chronic bronchitis (catarrh of the bronchial tubes).

BARTHOLOW STATES THAT CUBEBA, an ingredient of Peruna, promotes the appetite and digestion, increases the circulation of the blood. Useful in chronic nasal catarrh, follicular pharyngitis (catarrh of the pharynx), increasing the tonicity of the mucous membranes of the throat. It also relieves hoarseness. Useful in atonic dyspepsia (catarrh of the stomach), and in chronic catarrh of the colon and rectum, catarrh of the bladder, prostaticorrhea, and chronic bronchial affections.

MILLSAUGH, MEDICINAL PLANTS, one of the most authoritative works on medicinal herbs in the English language, in commenting upon COLLINSONIA CANADENSIS, says that it acts on the pneumogastric and vaso motor nerves. It increases the secretions of the mucous membranes in general. In the mountains of Virginia, Kentucky, Tennessee and Carolina, collinsonia canadensis is considered a panacea for many disorders, including headache, colic, cramp, dropsy and indigestion. DR. SCUDDER regards it highly as a remedy in chronic diseases of the lungs, heart disease and asthma.

These citations ought to be sufficient to show to any candid mind that Peruna is a catarrh remedy. Surely, such herbal remedies, that command the enthusiastic confidence of the highest authorities obtainable, brought together in proper combination, ought to make a catarrh remedy of the highest efficacy. This is exactly what we claim for Peruna. We claim no more than the best authorities willingly admit. It is useless for envious doctors or hostile critics to attempt to set aside such proof.

Some of these ingredients are not in common use. Some of them are difficult to obtain, and still more difficult to combine into a stable and palatable compound. They have been, therefore, neglected by the medical profession, largely, for remedies that are easier to obtain and more convenient to dispense.

Peruna is a catarrh remedy that has been in the field for many years. OTHER CATARRH REMEDIES HAVE COME AND GONE, but the reputation of Peruna has outlived them all.

Peruna is a combination of efficient herbal remedies that yields a powerful influence on all the mucous membranes of the body, and hence reaches catarrh wherever it is located.

This is our claim, and we are able to substantiate this claim by ample quotations from the HIGHEST MEDICAL AUTHORITIES IN THE WORLD.
