They Again Swept the Boards Clean -5,000 Persons Attended the Races And Were Pleased.

To quote an expression of a horseman, it "was duck soup for the Salt Lake horses at Blackfoot yesterday." It may be said that such has been the case at each race meet pulled off in that town this week. Salt Lake horses seemed to have about everything their own way, and the results yesterday proved no exception to the rule.

Tom McCoy's Kangaroo was entered in the free-for-all. Other animals were also entered, but they may as well not have done so for McCoy's horse ran away from the others and took first money. The animal proved too fast for Manue S. and Julia A. The heats were closely contested and the event was balled as the feature of the day. were about 5,000 persons on hand to witness the events. Excursions had been run from Pocatello, St. An-thesy and Idaho Falls. Yesterday's ness ended the meeting of the fair, and some of the Salt Lake horses will waken to Boise. The summary ()]-

In Judge Tanner's court yesterday afternon William Belding was tried on the charge of assaulting a boy named Orson Thompson. It was set forth in the complaint that Belding, the defendant, "did then and there with a potato which he then and there held, and had in his hand, an assault did make upon the person of Orson Thompson, contrary to the ordinance in such cases nade and provided. Asst.-City-Atty. Schulder made an oquent plea for the conviction of the

defendant, in which he said: "Your honor, in approaching the con-clusion of this remarkable case, I feel

the responsibility resting upon leeply me. It is a case wherein a great question must be settled. We have proved in this case that the defendant did make an assault with a potato. Now I ask your honor, if this defendant is allowed to go, is it not likely to establish a most dangerous precedent, one in all probability, which would cause disaster and ruin of widespread proportions. It is generally conceded that potatoes were intended by the Creator as a means of sustenance for the humane family. It is not and never was in-tended as an instrument of war. If a otato can fracture a man's skull, and if this defendant is permitted to from this courtroom free of punishment, is it not very probable that other deadly vegetables will be used as a means of attack. Anyone of us may, while walking along the streets, receive a death blow from a potato, a carrot, or an onlon. We might be stabbed in the back with a carrot. It is sharp-pointed and who knows what its deadly effects may cause. A cabbage thrown with sufficient force against a man's head, would cause instant death, "In view of all these facts I have

#### ENFORCE THE CURFEW. Ladies' Literary Association Moves for

## Law and Order.

The Ladies' Literary club, at its meeting yesterday afternoon, took important action towards securing the enforcement of the curfew ordinance, which has been allowed by the police department of this city to becomme a thing of the past. Members of the club have visited the police department to find out why the ordinance has not been enforced, but received no satisfactory an-swer to their inquries, so they propose to call the city council's attention to the matter and ask that the chief of olice see that the ordinance is obeyed. Mrs. Nelden brought the matter up at the club meeting yesterday. She said that boys and girls of tender ages were allowed to run around on the streets late at night and no effort was being made by the officers to stop it. Some of the police officers were wholly adifferent about the matter and others did not know that there was such an

ordinance. Some gave the excuse that they could not enforce the ordinance because the curfw bli was broken and they had no bell to ring. She suggested to one of the officers that the power company might blow its whistle as a warning to the children, but he had nothing to say as to that suggestion. Mrs. Nelden said she interviewed Chief Paul on the subject and was in formed that with his small torce of 32 men he was unable to enforce the or dinance because his men were too busy with other matters to pay any attention to the children.

The president of the club, Mrs. H. C. Wallace, said that the policeman, whose beat is between Seventh and Eighth East on First South street, makes it his business every week to stop four boys who attend choir practice and have permits from their parents to be out afte 9 o'clock, and curse them because are out late, while at the same time gang of hoodlums who follow thos the instructions to the letter,"-(Rev.) Until within a rew months of her death the woman was in complete con-trol of her senses, and told many stories of men and women distinguished in the earlier days of Virginia and Kentucky.

# WE TREAT AND CURE.

able dress designer, has been a suf-

ferer from Catarrh and Stomach trou-

others she has found relief under Drs.

Shores' treatment. Read her story: "I

have suffered a long time with a ter-

rible case of Catarrh, which finally af-

would suffer from indigestion, palpita-

tion of the heart and many other dis-

tressing symptoms, and my head and

nose gave me considerable trouble.

Nothing helped me until I went to Drs.

Shores, and I must say that these

doctors have done wonders for me. To-

day I am feeling like myself again,

and the relief has been so wonderful

that I feel it a duty to other suffering

women to say to them. 'Go to Drs.

Shores. They certainly understand
