The efficers of the Church to-day were wanted for the selfname pur-pose as they were formerly, viz: for the perfecting of the Baints, for the perfecting of the Baints, for the work of the ministry, &c., until we come to the unity of the faith, though there were many cir-cumstances that Indicated consid-erable union among us already, for instance, the raising of a great amount of means to assist the poor from the old countries, the sending of 500 teams to the Missouri River to bring them over the Plains, and even the other evening, 300 men were reported as being ready to go down to St. George to work on the Temple, a distance of over 300 miles, in all of which labors a great amount of union is absolutely necessary to bring them about. We were engaged in a life long seterality, for the welfare of all who had lived, now lived, or would yet live. We were now living in very peculiar times, and under the ne-cessity of forming our associations (with a view of uniting our inter-tions tegether) so as to bring them in strict conformity to law.
