Governor Chamberlain.
WASHINGTON, 24.—A telegram has been received from Governor Chamberlain saying that he will be in Washington on Tuesday in compliance with the President's invitation.

Arranged for Murder.
In the police court, to-day, Geo. C. Ellison, engineer of the House of Representatives, was arraigned on a charge of murdering David Small. Pleading not guilty, the defendant's counsel filed a plea claiming that his client ought not now to be charged with murder, having already been tried and convicted of assault and battery for the same transaction. The court overruled the plea, and committed Ellison to await the action of the grand jury.

Severe Snow Storm.
CHICAGO, 24.—A terrific snow storm has prevailed here and throughout the central portion of the State during the past twenty-four hours. The weather is very cold.

The Southern Commission—The Withdrawal of the Troops.
The Tribune's Washington special says that a satisfactory southern commission can be found in a day or two, and the appointment does not stop refusing, the plan may be wholly abandoned and a conference at Washington be invited. The President, however, has given the commission will be organized in a week, and then the purpose for which it is created will be immediately published and made known to the public.

It is intended to have the party reach the field by the 15th of May.
Each division of the survey will cover an area of about 10,000 square miles. Of the entire territory to be surveyed, about one-third, but little is known geographically, and it is expected the results of this season's work will add much to our geographical knowledge of the Rocky Mountain Region.

Written Pledge from Hayes to Democratic Senators.
There is much conversation here about written pledges, said to have been given by President Hayes to his closest friends and advisers, during the progress of the election, to certain democrats. The following are the facts: When the filibustering in the House was at its height, several democratic senators, who were in the minority, were called into council by some of the southern republicans, who felt it to be their duty to vote against all dilatory motions and to stand by the election bill. In good faith Senator Gordon stated he had no responsibility as to the count, inasmuch as he was not a member of the House, but he did feel the responsibility of supporting the bill, as he could, the government of Hampton and the people of South Carolina, as he had been specially called on to do so, and he would, therefore, go to Foster, of Ohio, and others, and know in advance of the completion of the count what was to be the fate of South Carolina and Louisiana. Governor Gordon did go, with John Young Brown, of Kentucky, and demand a written pledge, in his capacity as a friend of the Hampton and the Nicholls governments, that the Reconstruction bill would not be disturbed, whatever might be the result of the count.

A Curious Coincidence.
By a singular coincidence a letter written by John D. Lee since his conviction, and addressed to one of his numerous wives reached the post office department on the day the Chinese immigration question was being discussed in the House.

The Chinese Immigration Question.
The Times' Washington special says Senator Morton, who left Washington last night for his home, took with him the report and evidence of the joint commission of Congress appointed to investigate the Chinese immigration to the Pacific States, in order to prepare a minority report. The testimony taken by the joint committee is in the form of a printed report, and will be presented to Congress at its next session. The majority recommends that measures be taken to restrict the immigration, and that Congress legislate to restrict the influx of Chinese into this country.

The Trial of Governor.
COLUMBIA, S. C., 25.—It is reported that Governor Chamberlain leaves here at midnight for Washington.

Governor Hampton has not yet decided whether he will visit the late massacre of the Chinese. It is understood that he is awaiting advice from parties expected to arrive here tomorrow morning.

No Trace of Ex-Mayor Hall.
NEW YORK, 25.—Hall's disappearance still agitates the public mind, but no trace can be discovered as to his whereabouts. The popular theory, and the one most generally accepted, is that he fled to Europe to avoid the threatened disclosure of his associates in the ring.

About the Capture of the "Montana."

Senator Sargent has received letters from San Francisco giving an account of the capture of the "Montana," at Mazatlan, and has laid the matter before the Secretary of State, who promises immediate and active exertion to secure the release of the vessel and cargo. He also laid the matter before the President in order that the other departments of the government might be kept advised of the necessary steps to secure American interests in this connection.

Prof. Hayden's Geological Survey.
The plans for the coming season's exploration by Prof. Hayden's geological survey, have been arranged, except in the minute details. The work will be conducted the coming year north of the Union Pacific Railroad, commencing along the fortieth parallel explored by Clarence King, and continued north to the fortieth parallel, and thence to Idaho, Wyoming, and Montana. The corps will be arranged in five divisions.

The first of the triangulating party will be under the direction of A. D. Wilson, who will carry forward the system of primary triangles in the same manner as they were employed in Colorado. All the higher peaks will be located in this way.

The western topographical division will be in charge of Henry Garrett, who will explore the region under the direction of the survey from Ogden east and northward.

The eastern division will be directed by George B. Chittenden. This party will explore the country along the Sweetwater and Wind Rivers.

The northern division will be under the charge of G. B. Becker, and will occupy the country about the Snake River, and along the borders of the Yellowstone National Park.

It is intended to have the party reach the field by the 15th of May, and to complete the survey in five months. Each division of the survey will cover an area of about 10,000 square miles. Of the entire territory to be surveyed, about one-third, but little is known geographically, and it is expected the results of this season's work will add much to our geographical knowledge of the Rocky Mountain Region.
