Work upon the putting in of 101 new steel bridges on the Rio Grande Western system is proceeding apace and gangs are spread out at various points along the line preparing the concrete and masenry preparatory to putting in the steel girders. The work will take the entire summer, and when completed will be a vast improvement that will permit of the fast running of heavy trains with absolute safety.

In all a quarter of a million dollars is to be expended in this direction this season, and until the pending consolidation negotiations are settled it will be the only work of any magnitude that will be in operation on the West-

THE CHANGE OF LIFE

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. Those hot flashes are just so many calls from nature for help. The nerves are cry-

CURED BY FOOD.

Nature's Way to Get Well and Keep Well. People who do not know how to select the right kind of food to sustain them become ill, and some sort of dis-ease will show forth. It is worth one's while to know of these facts. A young woman at Grindstone City, Mich., Mrs. A. P. Sage, began to run down while she was at school. She fi-nally broke down completely and was taken seriously ill with a number of different troubles. The stomach trouble was the most serious one. Her heart also troubled her so she had to sit up

as high in bed as possible. This was caused, however, by her stomach. be so weak I could hardly move. I was kept on the simplest foods, principally liquids. After some months I seemed to get a little better, then I got worse so that I finally was brought to the point of death from non-assimilation

The suit is for \$85,000 and costs, and that defendant be barred from assuming any equity in the "Red Wing" vein or any of the other mines of the Red Wing company.

Trial was commenced yesterday afternoon before Judge Hall in the case of George Allgood vs the Peruvian Con-solidated Mining company. Plaintiff solidated Mining company. Plainting holds a lien against the mining company of \$222 for work done by him, and is suing for this amount with 8 per cent interest, \$11.90 costs of lien and \$25 attorney's fees. The defendance mines are known as the Peruvian group, and are located in the Little Cattonwood. Plaintiff are located in the Little Cottonwood mining district. Allgood claims that his work was done between April 11th and October 3rd last year; and that he only received \$46 on account of his wages. The plaintiff is represented by Stephens & Smith and the desired by Stephens & Smith and the desired by

STORM ADVENTURE.

W. E. Vigus and Col. Nebeker Sustains Frostbites in the Blizzard.

Manager W. E. Vigus of the Associated Press in Utah and W. G. Nebeker have returned to Salt Lake after experiencing a series of adventures while en route to the Park mine near Marysvale last Monday. The gentlemen were out in the severe storm that was raging and felt it at its worst. Starting from Marysvale in a wagon accompanied by J. F. Gibbs, the manager of the mine, they attempted to drive to their destination through the blinding snow. The party progressed very slow-ly until the divide was reached, when it was impossible to force the jaded rses another step through the drifts. The wagon was accordingly abandoned and the party proceeded to stagger through the snow and piercing wind for the remaining mile. When the blackthe remaining mile. When the black-smith shop was reached a fire was has-tily kindled and the party was ulti-mately thawed out. When they came to compare notes it was found that Mr. Vigus had sustained a frost-bitten face and two frozen hands, while Col. Nebeker had not escaped unscathed. The gentlemen returned to town yesterday and expect to sustain no lasting evil effects from the Mount Baldy ad-

TOURNAMENT

Trap Shooters Have to Contend With the Wind.

SHOOTING IS IRREGULAR.

Squabble Over the Referee's Decision Score of Three Events This Morning.

The second day's tournament of trap shooters began at 10 o'clock this morning under most unfavorable conditions. The wind blew so flercely that the blue rocks were sent flying in every direction. During the shooting of one squad the wind blew in five different directions and the result was that the shooting was very irregular. Considerable delay was occasioned once over a squabble which arose of some of the shooters questioning the decision of the referee. J. F. Sharp shot at a bird and the gun wadding was mistaken for a shattered blue rock. Finally it was decided to allow the referee to settle all such disputes.

Following is the results of three

FIRST DAY'S SHOOTING.

Twelve Events and a Swepstakes -Capt. Callison Secures First Place. The shooting at the gun club tournament at the State street grounds yesterday was not concluded until 6 p. m. Fully 7,000 blue rocks were shot at by the shooters and some very remarkable work was accomplished considering the work was accomplished considering the unfavorable conditions to contend with. Shortly before 3 o'clock the 12 events were concluded, which was followed by a sweepstakes at \$1 per man, and most of the crackshooters participated.

First place in the day's shooting was captured by Capt. Callison of the home club. He killed 186 birds out of a possible 200. Bigelow of Ogden came second with 182, followed by M. S. Browning, 180, Beard of Fruita, 180, and Becker of Ogden with 179.

J. F. Sharp was not so successful.

The above appeared as a news item in the Mountain Echo and was unsolicited. The editor was so well pleased with Figprune that he wanted all his fellow townspeople to try it.

As Figprune is the most nutritious and nourishing of any of the cereal coffees it is but natural that the general public should welcome the new breakfast beverage.

NEW RULE OF LABOR UNION. Some Think It Will Not Affect Present Conditions Much.

The rule adopted by the Building Trades council, to the effect that none but union workmen can be employed on buildings when the contract for any part of the work is in the hands of union workmen, will go into effect on April 1st. The effect of this rule will be watched with interest. A bill was introduced into the Legislature for the purpose of preventing any such rule, but it was never reported on by the committee. How far reaching it will be in its effect is impossib to say, some thinking that it will not disturb present conditions very much, as either union men or non-union men

are employed exclusively on buildings, in almost every case.

The union men, however, are satisfied with the rule and have all confidence that it will have a salutary effect on the union.

NEW CAR TAX LAW. Turns Revenue From That Source Into the State Treasury.

The benefit the State gets out of the new car tax law passed by the last Legislature is the placing of the \$5,000 revenue thus raised into the State treasury. According to this act the collection of the car taxes in the State is taken from the county assessors and placed in the hands of the secretary of the state board of equalization. J. J. Thomas, the secretary, is sending out blanks to the various railroad companies and other car owners for them

to make returns, The tax applies only to the cars not owned by the railroad companies. The latter are assessed under another sec-tion of the law. This embraces fruit cars, refrigerator cars and others of a similar nature that are in the State. The countles to be visited and the members of the board who will visit them is as follows:
