THE EVENING NEWS.

Tuesday, - - - - December 20, 1870

LOCAL AND OTHER MATTERS.

THEATRICAL.—The audience was not large last night. Probably the extreme cold prevented some from attending. Those who were there seemed to enjoy the performance of "Lochinvar" and the farce of "The Fitz-smyths." We think the characters taken by them in the former piece, do not give Mr. and Mrs. Langrishe scope enough for the display of their dramatic abilities and seemed to be somewhat out of their line. In such characters as John Unit and Mrs. Apex, in "Self," they appear to much greater advantage. Those who have seen Mr. and Mrs. Langrishe play here on former occasions will be surprised at the progress that has been made by them, in their profession since their last visit to this city.

"Lochinvar" will be repeated this evening and, to those who like that class of plays, it will prove really entertaining.

BENEFIT.—To-morrow night is a benefit night at the Theatre, and being for the benefit of the clever, genial and gentlemanly head of the Langrishe Dramatic Troupe, Mr. J. S. Langrishe, we hope that he will find it beneficial. The bill for the occasion is most excellent, comprising Coleman's fine comedy of "The Poor Gentleman," followed by the farce "The Irish Lion."

THE BAZAAR.—We took a look through the Z. C. M. I. Bazaar last evening. We expected there would be a fine display, but we were not prepared for so delightful a picture as was presented to our gaze. The Eagle Emporium had been metamorphosed into what appeared almost like a fairy scene. Mr. Candland had evidently brought all his artistic taste into exercise in arranging the goods. Chinese hanging lamps, nicely ornamented with wreaths of flowers, were suspended, and other fancy lamps were placed to the best advantage. Opposite and between the two front entrances the fancy jewelry was arranged. The display of this class of goods was exceedingly fine and included a cabinet in which all the articles were "price one dollar." Next in order were the Japanese goods. This department was so elaborate that it would be difficult to describe it. It consisted mainly of ladies' work-boxes, jewel, glove and other cases; music boxes, one of which discoursed several tunes while we were present; escritoires, miniature cabinets and a host of other things too numerous to mention, all of beautiful and intricate workmanship. We must not omit to mention a fine ottoman cover of black velvet exquisitely ornamented with flower work, the ornamentation having been done by hand, in this city. Next, and last, we came to the dress goods department, where there were silks, satins, moire antiques and millinery goods sufficient to satisfy the taste of the most fastidious lady connoisseurs. The Emporium was thronged with admiring visitors who had come to gratify their eyes with the fine sight and purchase christmas gifts. Brother David Candland superintends the Bazaar, and much is due to his good taste and management for its brilliancy.

TYROLEAN TROUPE.—On Thursday night Professor Gschwandner's Tyrolean troupe of vocalists will make their first appearance at the Theatre, and will give their performances for three nights.

This entertainment has been highly spoken of by the press eastward, and some of the choicest vocalization ever heard in this city may be expected. The Tyrol is famous for beautiful music, and the members of this troupe are natives of that romantic portion of the earth; and being professors of the art divine, correct renderings of Tyrolean music, glees, hunting songs, duets, &c., &c., will be a delightful novelty. The entertainment will be varied with solos on native instruments,—the Zither, &c. Remember everybody, that Professor Gschwandner and his troupe appear on Thursday night; and go and patronize them.

SLEDS.—Mr. D. W. Parkhurst has, at his lumber yard, a car load of large bob-sleds, which he has just received from California. They are of different sizes, varying in hauling capacity from three to ten tons. The largest were used in hauling iron over the Sierras for the construction of the Central Pacific Railroad. An excellent opportunity is here presented to those engaged in freighting, who may want such articles, as Mr. Parkhurst has them on sale.

PETRIFACTION.—A FACT FOR THE SCIENTISTS.—The prevailing notion in the scientific world is that the process of petrifaction, except in certain springs, possessing rare and very peculiar properties, requires an indefinite period of time for its accomplishment. But this theory, which has had some opponents, is at length finally exploded by a circumstance which has taken place in this office—namely, the petrifaction of a potato in the course of a year. In the fall of last year several pieces of potato were accidentally thrown under the imposing stone in the typo's office, where they have remained ever since. No notice was taken of them until to-day, when it was found that the process of petrifaction was going on, being so perfect in some of the pieces that they had more the appearance of dark flint rock than anything else, and required a smart blow from a hammer to break them. This is a brief but truthful statement of facts. If any feel disposed to doubt they can try the experiment for themselves.

A DANGEROUS CHARACTER.—A man named William Killingly was brought before Justice Clinton yesterday afternoon for examination, on two separate charges, which were as follows: For having, on the night of Saturday last, entered the sitting room of the Omaha House, firing off his pistol there and using abusive language to the inmates, and otherwise disturbing the peace. The second charge was for, immediately after leaving the upper part of the hotel, entering the saloon in the basement of the Omaha House, where he called for liquor, and when informed that it was not kept on the premises, he threatened the bar keeper. A man named McKinnon who was in the saloon at the time, remonstrated with him, whereupon he beat him over the head with his pistol, inflicting five wounds, some of which are so severe that Dr. Davis, who was called in to attend him, thinks his case critical, and that it will require close attention to enable him to recover. Augustus Johnson, who was also in the saloon, endeavored to induce the prisoner to desist, when he also was set upon and severely beaten. The case was adjourned from yesterday afternoon till to-day and was in progress this afternoon when our reporter left the court room. It is more than probable that Killingly, on the second charge at least, will be handed over to the jurisdiction of the District Court. The first charge was stated as a breach of the peace and the second, as assault and battery with intent to do bodily injury.

THE DANFORTH

NON-EXPLOSIVE

PETROLEUM FLUID!

THE terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it.

Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light,

Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion

can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by R. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success.

For the Danforth Non-Explosive Petroleum Fluid it is claimed:

1st. That it is Non-Explosive and perfectly safe in whatever form used.

2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or tints.

3d. That it is entirely free from all disagreeable odor.

4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light.

5th. That it is (except daylight) the cheapest light ever discovered.

Surely, if the fluid is as above represented, kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.

The FLUID 75c. per gal

The Fluid, Burners, Chimneys, etc., in large or small quantities, can be procured of

REID'S

RICHARD V. MORRIS,

LATE U. S. ASSISTANT ASSESSOR, HAS been appointed Special Agent of the Globe Mutual Life Insurance Company, of New York, for Utah Territory. This Company commenced business, June 1st, 1864, with a cash capital of $100,000. In the character and large amount of business done, it has been surpassed by no other company of the same age on the globe. It has issued more than 20,000 policies, and its cash assets, January 1st, 1870, amounted to more than two and a quarter millions of dollars! It has already paid to the representatives of deceased policy-holders, $650,000, and its Cash Dividends to Policy-holders, for 1870, alone, amount to the sum of $160,000!! All kinds of Life and Endowment Policies are issued, and all, nonforfeitable —(see rate book, page 8,)—Registered Policies issued, if desired, secured by the State of New York (see rate book, page 9). After two years from date of policy, an increasing annual cash dividend will be paid to each policy-holder. This dividend may be used in reduction of premium, or, in the purchase of additions to the original policy, thus securing a decreasing premium, or, an increasing policy.

Branch office for Pacific Coast, 6 Montgomery St., San Francisco, Cal., MERVIN TABOR, Manager. d252:3m-p65:2&w33:4
