LABOR UNIONS
SHOW STRENGTH

A Magnificent Demonstration—
Great Enthusiasm Displayed.

BELIEVED TO HAVE JUMPED BOND

Mrs. Sarah Hobbs Has Disappeared
With Her Husband—Train Hold-
up—Murder Suspected.

That the labor unions of this city are growing rapidly and are becoming a power was shown yesterday when they gathered and marched in line. The parade being nearly a mile in length. Organizations of all kinds of labor were formed in the parade with their banners floating on the air. The men themselves were more than pleased with the results of the parade and the elegant floats that were in line. The whole day's entertainment was a success.

After the parade yesterday, the program arranged was carried out at Lester park. The pavilion was entirely inadequate to accommodate the immense crowds that gathered to listen to the rendition of the program. On the stage were seated the city officials and the labor organization leaders.

L. C. Williamson called the immense assemblage together and expressed on behalf of the labor organizations his hearty appreciation of the parade. He then introduced Hon. George B. Estes, president of the United Brotherhood of Railway employees, he delivered a very strong and forcible address on the origin and establishment of labor unions, the necessity of laboring men holding firmly together so that they may better themselves as to hours they shall work and the pay they shall receive. The speaker stated that there are over 2,000,000 labor union men in the United States, and that they have no use for the "scab" laborer. The speaker was many times interrupted in his talk by prolonged applause. The exercises were concluded with a solo by Miss Ada Barrett. McQuarrie.

That is about the way The Mutual Life Insurance Company of New York issues policies in these days of varied requirements in business and family life.
The postscript to a letter written by Mr. Elmer Walter of Clarksville, Del., enforces this thought.
"The action of the dividend of 1927, making my policy worth more than I paid for it, is the best thing that has happened to me in my life."
What Mr. Walter did take was a dividend check for \$196.93 on the paid-up policy of \$1,000, which cost him all told \$448.02. He says:
"The feature which I particularly like about my policy is that I can get the money I want when I want it, and I can get it in any form I like."
In writing for terms for a policy of this kind, state what you would like to receive in cash at the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.

That is about the way The Mutual Life Insurance Company of New York issues policies in these days of varied requirements in business and family life.
The postscript to a letter written by Mr. Elmer Walter of Clarksville, Del., enforces this thought.
"The action of the dividend of 1927, making my policy worth more than I paid for it, is the best thing that has happened to me in my life."
What Mr. Walter did take was a dividend check for \$196.93 on the paid-up policy of \$1,000, which cost him all told \$448.02. He says:
"The feature which I particularly like about my policy is that I can get the money I want when I want it, and I can get it in any form I like."
In writing for terms for a policy of this kind, state what you would like to receive in cash at the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.
