AN UNSTEADY

Business Brisk at the Beginning. But Dropped Off.

SALES REACHED \$176,390.15.

A Total of 280,391 Shares Transfer red - Today's Transactions on Floor of Stock Exchange.

This has been an unsteady market week for mining shares. Business startcd off briskly, but during the past two days there has been a marked failing off in the volume of trading done. This of course, has effected prices, and as a rule they are not as satisfactory as they were a week ago.
Considerable Daly stock was sold, at

a sliding scale of prices, however, it closed only to cents under Monday forencon's lowest quotation. Daly-West, while it has been rather slumpish ended stronger. Daly-Judge remains practically unchanged. Creole, one of the promising Park City bonanzas exhibited slight activity one day and was purchased at 60 cents and a fraction. Consolidated Mercur opened at \$1.69% on Monday; closed at that figure today. United States recorded a sale on Wednesday; this was the first transaction since the stock was listed on the exchange, Wabash has been tumbling for sev

e.al days; the stock has declined near-ly one-third; towards the close of last week it was sent up to a point above and as the day for the delinquent sale approached, which is today, it kept

Cee to the toboggan.

There was quite a heavy demand for speculative stocks during the week and some lively trading was done in them. The friends of Martha Washington, of Tintic, undertook to create attention to that stock; they succeeded in raising and were heard to say that it would go above 10 cents before this time; but their prediction failed to materialize; the stock closed lower, notwithstand ing that a shipment of ore was market ed bringing good returns. During ope scemed to participate freely. Several snares of Majestic were also exchanged around \$3.35 per share.

It is expected that a new feature

will be introduced on the exchange next week. Heretofore mining stocks, only have been listed, but it has been decided to add industrial and bank stocks These will probably be taken up on Tuesday.

Monday being a legal holiday, Wash ington's birthday, no calls will be held 280,201 shares, which brought \$176,390.75.

Trading was light today, during both the regular and open board calls. Wa-lash gained a few points; New York kept about even, while the Daly stocks did likewise, excepting Daly-Judge which sold up to \$10.30.

AMALGAMATION OF LAKE COPPERS MARKET WEEK

> Authentic Information About Proposed Merger.

CAPITAL OF \$155,000,000.

Companies to be Represented in Combine-Calumet and Hecla Not In the Deal.

Butte, Mont., Feb. 20,-From amalgamated interests is obtained the posiive information that the proposed merger of the Lake Superior copper properties will go through.

According to those on the inside a lake copper company will be organized under the laws of the state of New Jersey, with a capital of \$155,000,000 which will not as a heading company for the Coppr Range, Tamarack, Osceola, Tri-Mountain and the Centennial mines. The exchange of the Tri-Mountain stock will be on the basis of 11/2 shares of new for one of the old stock; Copper Range is slated to go in

It is reported that the controlling interests in the Copper Range consolidated have already assented to the plan, which represents \$125 per share for their present holdings. Mohawk may eventually be brought into the fold. The new lake copper company will be received in the control of the Amal. nominally independent of the Amal amated Copper company, but later vill be merged with it. & Hecla is not included in the proposed merger. The amalgamated peo pie will not have a strong representation on the directorate of the new com-

AT THE DALY MINE. Manager Rood Says Drift Will

Pushed on 50-foot Level. Last night Charles L. Rood, manager of the Ontario and Daiy mines, re-turned from Park City, where he went on an inspection trip. Of the Daly Mr. Rood states that preparations are un. der way for the continuance of the drift from the 50-foot level in Mazppa claim. This work is to be pushed rapidly. The shaft will also likely be continued. The vein, Mr. Rood states, contains considerable low grade with occasional spots of high grade ore.

A horse whim has been installed at the Mazeppa shaft.

ORE AND BULLION. Settlements Made for \$5,000 Worth Of Gold Bars.

The ore bullion receipts reported during the fiscal week ending yesterday af-ternoon, by McCornick & Co., sums up to \$332,600. The receipts were some

SACRAMENTO PAYS MARCH

Dividend of \$5,000 Declared by Directors Today.

BOOKS CLOSE ON TUESDAY

Against Transfer - Company Has Already Paid \$10,000 This Year.

The stockholders of the Sacramento Gold Mining company were made happy today. The directors of the company met and declared the regular monthly dividend of \$5,000. The date of distribution is fixed for Sunday, March 1, and the books of the company will close against transfer on Tuesday the 24th inst. This is the third distribution of the year, and will make total of \$15,000 divided among the shareholders of the corporation since the first of the year. Secretary R. E. feConaugh returned last evening from Illinois, and is again at his desk in the

ORE PRODUCERS MEET. Steps Being Taken to Form a State Organization.

There was a good representation of mine owners present at the adjourned session of the Tintic ore producers, held at the Commercial club last evening. The committee appointed at the preoad and smelting charge propositions. submitted its report. It was the sens of the committee that there was little hope of getting the railroads to "con-ceed" anything, unless the smelling companies also showed a disposition to n order to get at the matter in a prop er manner the committee recommended in its report that a permanent organ-ization of the ore producers of the state

perfected. After much discussion and prelim inary talk pointing out the importance of thorough organization, the following committees were appointed and in-structed to report to a meeting to be held a week from tonight. The com-

mittees are: Organization-P. J. Daly, Frank B. Cooke and L. A. Copeland. Railroads—C. E. Loose, Jacob Moritz

RIGHT FROM CALIFORNIA. J. J. Burke and P. J. Donahue Came

From the Red Cross.

J. J. Burke, the well known contractor, returned home this morning from Callfornia, accompanied by P. J. Donahue, of the Western Exploration Co. Both gentlemen left the city several weeks ago to be present at the start-ing of the Red Cross mill, at Nevada City, which property belongs to the Western company.

Mr. Burke stated that the machinery of the plant behaved nicely right from the turn loose, and when he left not a fault could be found anywhere. During his absence Mr. Burke's office and contents were consumed in the At-las block fire. He is now hustling about to find new quarters, in which he is experiencing much difficulty.

COPPER UNCHANGED, Condition of Silver Market for Past Six Days.

The copper market has ruled steady during the past week, the local quotations being each day at 12% cents per pound. Silver started off at 48% cents, Tuesday it dropped an eighth of a cent; Wednesday it fell to 47%; Thursday it was found up to 48% again, yesterday it advanced to 48%, and today it is quoted at 48 flat. Lead, of course, remains the same,

POINT OF VIEW

Utah Business Outlook is Very Just as Railway Congestion Had Bright, Says Cashier Burton.

LIVE STOCK LOSSES LIGHT.

Regarded in Connection With the Big Snow Storms They Are Not At All Heavy.

In a talk today on local commercial conditions, Cashier C. S. Burton of the State Bank of Utah, spoke very hopefully. He stated he had just returned from the coast, after an absence of a couple of weeks, and so was not as freshly in touch with the local status as he otherwise would have been. But at the same time, Gen. Burton felt warranted in remarking. "The business outlook for both city and state during the current year is very favorable from a banker's standpoint. We find from a banker's standpoint. We have collections to be very good, and on account of the recent fail of snow the country is assured of excellent crops for the season of 1903, and good ranges in for sheep and cattle. As to losses in livestock during the recent storms that have swept over the intermountain country we have received reports from Wyoming, Idaho and Utah ranges, and the losses reported so far are small in view of the extreme weather. "The demand for money is good, and rates of interest unchanged, Loans are being made by local banks for all classes of good investments, and all kinds of good mercantile paper are being readily handled. We never were n better shape than we are today, and oans never were in a more satisfac-tory condition. The volume of business about the same as last year, ailroad outlook is particularly gratilying, and as far as I have been in-ormed by railroad men, I should say that the outlook in this direction for the city and state was never better,"

BUSINESS NOTES.

There is an excellent feeling in all departments of trade largely due to the fact that an ample water supply for this year's crops is an assured fact, Local banks report an active demand for money with a slightly increasing tendency to advance rates of interest. The features of the local stock market during the week were the active advances in sugar stocks, dealings in common having been specially heavy. The Ashton Brokerage company report numerous transfers of this stock at prices ranging from \$3.60 to \$3.67. They alt Lake City railroad bonds of the Provo Woolen Mills company stock

Rates Advanced on Account of Increased Cost of Operations-Dry

New York, Feb. 20 .- R. G. Dun's

Just as the railway congestion began to give way before the vigorous efforts came further complicated by the worst snowstorm of the season and the movement of merchandise was again interrupted. Latest figures of gross earnings show the usual gains, February thus far surpassing by 17.6 per cent last year, when unusual delay was caused by severe storms, and 1901 by 17.6 per cent. Increased cost of operations, however, necessitated further advances in rates. Trade was interrupted to a considerable extent by the inclement weather, except in certain seasonable lines, notably heavy wearing apparel. Wholesale houses dealing staples have liberal orders, and nuch forward business has been placed, Jobbers urge quicker shipments on old orders, while travelers send in many contracts. Manufacturers of paper, straw goods and clothing report conditions fully as satisfactory as a year ago, aside from some interruption by labor controversies. Conditions in the silk industry are shown by no imports of raw material, and one large manufactuer has recently rejected orders sufficient to occupy his plant for two years. Bids are invited for extensive building operations, giving strength and activity to materials and supplies.

output of pig iron decreases because fuel cannot be secured. Quiter conditions prevail in the mar-kets for dry goods, although mills are
