NEWS OF THE WEST.

Switchman Caught Under a Train and Cut to Pieces.

BOY'S HEAD CUT OFF BY A CAR.

Woman's Jaw Dislocated by Gaping—Boy Arrested in Clay Kills Another.

Margaret Brown, 28 years old, who lived with her husband in San Francisco, was severely injured Feb. 23th by the careless catching fire from the grate while Welch was under the influence of liquor. She is now in the county hospital.

Edward B. Adams, a Southern Pacific trainman, was killed at Ogden Friday night. At Hunter's saloon, Ogden, while switching cars. It is still undecided whether he was drunk or sober. The cars were moving slowly just as the train was about to pull out, and found the body lying across the track terribly mangled. The wheels passed over Hartman's right leg and the point of the left shoulder to the right hip.

In San Francisco a boy's reputation for courage was increased because his father says he was born a girl. He was found in a box in the janitor's house on Hannah, Feb. 25, a newborn boy, Clinton Davis, like a boy except 3 years, and is a manly, stout fellow, a native boy. The parents did not want even pin to a proper party, nor it took our days of the house to settle anything to pay the funeral expenses.

Claude Mills, the twelve-year-old son of George Mills, an agent for a Baltimore tobacco house, died Friday night in the city hospital. He was dead and resented the day before while watching a previous game at the Little school, San Francisco. Ray Bittle, one of the players, became angry at a failure and threw the ball wildly, striking Mills on the temple. The wound produced a concussion of the brain and the boy was thrown into a state of unconsciousness, from which he never recovered. The ball was a wood sliver, and on the temple was a swelling as big as an egg. Several physicians were unavailing, and death followed yesterday morning. The parents are prostrated with grief.

Friday Miss Alice Johnson of Salt Lake City was the victim of a most peculiar accident. In yawning she dislocated both articulations of her jaws. The lower half of her face dropped into place. Miss Johnson was hurried to the resulting hospital, where Prime Surgeon Weil adjusted her features. When the young woman was rested into the hospital the incidents were all first of the idea that she has been disturbed by a surgeon and had not yet recovered from her fright. For a couple of hours during this minor, for the information of her friends, momentarily quarried her at the office of Dr. Weil said that it was not necessary for a party of incidents on jaw wide gaping, but in certain cases that both articulations were thrown out of place by such accident.

Willie Wines, aged 6 years, son of Mrs. Mary Wines, of Alameda, Cal., suffered a shocking death Friday afternoon under the wheels of one of the narrow gauge dummy steam cars for Fruitvale, where the boy lived. The little fellow was playing near the track with a companion named Murphy, when the southern reported. He saw the 2 o'clock train from Park street running toward the main approaching Willow street at full speed and ran out to watch it pass. "I guess I'll jump on it," he cried laughingly to his playmate, and as the cars were passing he went near enough to get first engine to touch it with his hand. His hand have slipped, for he was immediately drawn under the the second car. The wheels caught him and he fell directly in front of the side of the train with closing of his head cut off. The Murphy boy ran screaming to Mrs. Wines and there is a frantic rush to the scene. She rushed into the street and saw the cruelly mangled body of her little son.

PROVO, UTAH, - Mar. 8, 1897.

Root Cutter.

The season has arrived when on hundreds of farms the crop of beets, turnips, carrots, etc., will begin to be fed out, and on many of these farms the roots will be generated for this cattle by inferior root cutters. This is a mistake. Nothing is better than a good root cutter. Those who have used the Ohio Root Cutter will not be without it. It is the best in the market. Call at the store of Z. C. M. I. and examine it.

This is what happens. One foot injures the other, when it should be shoeing, the other gets into the habit of kicking. Both horses will learn of the Calkin-Shod and

Shearing Process

In which the fibres of metal are separated and not cut, thus be good apart with the sharp edges of the nail, and not cut as by a compact, flat nail that causes split, sliver or break and is

Absolutely Safe.

Putnam nails are the only nails made in the United States by a process that makes them Hot-Forged and Hammer-Pointed, thereby giving the nail the finest and toughest head made, and the point a diamond shape, which prevents the splitting of the fibres of the wood, as a compact, flat nail that causes split, sliver or break and is

Absolutely Safe.

Putnam nails, cannot be made in the old way, by cutting from a sheet, as the process destroys the fibre of the iron, and makes the nail brittle.

Makes long, tacked shanks, needed on concrete and iron, in addition to the Putnam Nail.
