CASTING COPPER 15 1/2

Business was somewhat improved on the exchange. The number of stocks traded in was larger than usual, but the trading was not heavy. Ajax for some reason sold down to \$5, while Daly West, on news of improved conditions on the 1,400 level, advanced to \$17.40.

Daly was active at 1 1/2. Four Aces was handed out at 1/4, and Northern Light sold at 1/2, but closed weaker. Eagle and Blue Bell was stronger, selling at 7 1/2, while Grand Central, which has stood at better than \$6.50 for some time past, was allowed to go at \$5.75. Mammoth was stronger, selling up to \$2.05. It closed a little weaker, however, at \$2.00.

May Day showed slight advances, 180 shares being released today at 7 1/2. Lower Mammoth hung between 49 and 50, and Sacramento was practically unchanged at 25 1/2. Galena of Fish Springs sold up to 3, and Valco was allowed to go at prices ranging from 22 to 20.

August Flower.

"It is a surprising fact," says Prof. Houston, "that in my travels in all parts of the world, for the last 10 years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I had for tourists and salesmen or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion. Sample bottle free at A. C. Smith's Drug Store.

Sold by dealers in all civilized countries.

ALASKAN GOLD
IMPORTATION.

Seems to Promise Easy Money for
Wall Street Borrowers.

IT WILL TOTAL \$24,000,000.

The Dalton & Lark-Fritz Helepan's
Claims—Notes from Granite, Ore
—R. G. W. Group.

The New York Herald this morning, August 2nd, says: Wall street borrowers are now enjoying an easy money market and it is believed that they are likely to enjoy it for some time. If the importation of gold from the Alaskan fields is any criterion. The banks which bring this gold to the metropolis report an extraordinarily good output, and this evidence is amply supported elsewhere.

The fact that the pick-axes and cradles of Klondike miners have recently been adding in generous fashion to the world's store of gold has only been developing in recent weeks. Such sources of the precious metal as British Columbia send their gold through its destinations at all seasons of the year, and the bank of Montreal has already imported into this city about half a million of British Columbia gold this year. But the gold that comes from the frozen north, where snow blocks the roads and ice locks the rivers, through the winter months, must wait for transportation until the thaw arrives. Navigation then becomes practicable and the output of the mines starts on its way.

Movement of the gold from the Yukon and Klondike fields really gets well under way in June. Last year the product of Alaskan gold amounted to about \$20,000,000. This year it will amount to at least \$24,000,000, according to the best estimates.

The two institutions which import this gold into New York City are both Canadian—the Bank of British North America and the Canadian Bank of Commerce. Between them they have already brought, or now have on the way, to this city, nearly \$5,000,000 of this virgin gold, and are likely to more than double the figure before the year is out.

"We shall certainly bring on more Alaskan gold this year than last," said W. Dawson, New York agent of the Bank of British North America. "The Alaskan output will be that of an extra good year and should cause a continuation of monetary ease here. We have imported \$2,500,000 of Alaskan gold in the last few weeks and have \$500,000 more on the way now."

Alexander Laird, New York agent of the Canadian Bank of Commerce, said that about two-thirds of the Alaskan output of \$24,000,000 gold should be expected to reach this city through his institution and the Bank of British North America. "We have already imported \$1,500,000 of the Alaskan gold in the last week or so," he said, "and have another million on the way, making \$4,500,000 in all. We may our gold at Dawson City, or we may bring it brought it to Seattle for official assay. A large part of the Alaskan gold which does not come to this city is taken by the North American Transportation company, represented by the firm of P. B. Weare & Co., Chicago, and the Alaskan Transportation Co."

The amount of gross gold in the treasury at Washington reached \$40,176,764 August 1st, according to the report of the department.

At the sub-treasury in this city the first payments on account of Pacific coast gold deposits to be transferred to New York, by checks drawn on the sub-treasury at San Francisco were made yesterday. They were in two items, aggregating \$249,000. This helped to increase the sub-treasury's debt balance at the clearing house, which amounted to \$1,534,000. The Western deposits of bullion are expected to increase materially the reserves of local banks.

The Kaiser Friedrich, sailing for Hamburg, will take out one ounce of silver, shipped by the United Metals Selling Co.

FISHER CREEK CANYON.

F. Mayer Tells of What is Going On
in That Promising District.

F. Mayer, who is conducting work on a number of claims in the Clear Creek mountains, Boxelder county, is in town for a few days. Associated with Mr. Mayer is Fritz Rippon of this city, and the district where he has been laboring presents some excellent looking prospects. Of course there is not a great deal of work done in the new district. An incline shaft, 90 feet deep, has been developed at a point where a 100-foot tunnel on another group of claims, is all the work that has been done. The incline shaft is said to show an 18-foot vein of copper, and has been found in the east drift with three inches of high grade. The whole mass is at present being placed on the dump and will later be milled.

Conditions are unchanged at the Ben Butler of Bingham. About three feet of conglomerate has been found in the east drift with three inches of high grade. The whole mass is at present being placed on the dump and will later be milled.

Noise Statesman: A rich strike has been made in the Little Giant mine at Warren, Idaho, owned by the Idaho Little Giant Mining company, limited.

The strike was made along the old adit level, just east of the main working shaft, where the miners are taking out a black block of ore that was left by the former owners. In breaking into the ore, there was disclosed a 6-inch strake of blue and green ore, rich in free gold. The strike occurred several days ago, and this streak is still in the face.

TRADING WAS VERY DULL.

Price Changes Were Erratic and Generally Lower.

Variations Were but Slight—Wool Market Hopeful—Live Stock Strong—Produce Quiet.

New York, Aug. 2.—On expectation of the dividend action today B. & O. opened at an advance of a point. Trading was very dull. A raid on continental tobacco put uncovered stop loss orders which carried it down 1/4 to 75 1/2. The common stock and American tobacco yielded a point in sympathy. B. & O. gave way below 76 and the list generally became easier. Sugar and Brooklyn Transit then pushed up to a point. The wool market group was irregular. Tennessee coal, Anaconda mining and steel and wire rose a point each, but pressed steel and republic steel issues were weak. Toward 11 o'clock the market gave a little more. B. & O. ruled 1/4 under yesterday's close. Sugar lost all of its rise, but subsequently rallied strongly. Prices of active bonds showed slight changes either way.

ST. LOUIS WOL MARKET.

St. Louis, Aug. 2.—Wool steady and unchanged.

REVIEW OF WOOL MARKET.

Boston, Aug. 1.—The American Wool and Cotton Reporter will say tomorrow of the wool trade: "The wool market has continued to show increased activity, and the sales of the past week are the largest recorded for a long time. There would have been a much larger business transacted if holders of wool had accepted the bids made by manufacturers. Holders of wool are firmer than they were two weeks ago, and in some cases, more especially on certain lines of pulled wools, have actually advanced their asking prices. Generally speaking, however, we see no reason as yet for raising wool quotations, and the great bulk of the sales made have been within the range of the figures as previously given. The opening of the light-weights, which occurred this week, was at a slight advance over last week, but the extent of the buying has not as yet been very encouraging. It may improve, of course, as time goes on. If there is anything like a normal business a good demand for wool is expected, as the large consumers, with possibly one or two exceptions, are lightly stocked."

DAIRY AND POULTRY.

THE VERY BEST MUSH.

TWIN BROS. HAS NO EQUAL.

There is no breakfast food so nourishing and beneficial as Twin Brothers' Mush. It is manufactured by H. R. Robbins, 12 Hallett street, San Francisco, Cal., and distributed in Utah by Zion's Cooperative Mercantile Institution. During the fruit season the best way to eat mush is with a little jelly or sliced fresh fruit, and the nearest mush to be eaten is Twin Brothers', the kind with the pictures of the twin brothers on each package. It is the best food for the baby as well as for grown folks; sets well on the stomach, is easily digested and very strengthening. The purest of all pure foods. Try it. Watch the advertising.

TOILET WATERS.

AN EXCELLENT BATH REQUISITE.

Take a bath in plain water. Then take another with a few drops of Toilet Water thrown in. Note the difference.

We venture you'll never be without toilet water afterwards.

But of course toilet waters have got to be good.

They have got to be made with the same care as the better and stronger extracts.

Those are the kinds you get here.

We select the best odor of the best makers.

And oh-so many to choose from.

That's one reason why so many people come here for their favorite odor.
