

Officers Smith, Furster and Sperry quickly located the two Clarks and locked them in jail. The stolen money was found on "Shorty" and according to the police he admitted that Graham handed the money to him. Just before 11 o'clock this morning, Officers Furster and Sperry located Graham and placed him under arrest. He professed an air of injured innocence and swore that he knew nothing about the robbery. He was locked up, however, and the police say they have a clear case against all three of them. J. W. McLain and Edward Harrison were in the saloon at the time and saw the robbery committed.

Notorious Women Steal Twenty Dollars from a Chinaman.

Quong Hang, a Chinese gardener, was robbed of \$20 at the American rooming robbed of \$20 at the American rooming house early this morning by a couple of women of the town named Lizzie and Mabel Clark. The Chinaman was in a room with Mabel Clark when Lizzie en-tered and deftly extracted a \$20 gold plece from the Mongolian's purse. The Chinaman had five \$20 gold pleces, and when the Clark woman left the room he only had four. He lost no time in re-porting the matter to the police and porting the matter to the police and Sergeant Eddington and Officer Andrew Smith promptly landed the women in jail. They will be charged with grand larceny and will probably be arraigned before Judge Dichl tomorrow morning.

LANG SELLS RELICS. Those of Utah Cliff Dwellers Disposed Of to Colorado College.

C. B. Lang has sold his \$1.500 collcetion of cliff dwellers' relics to Colorado Springs. These curlosities are peculiar to Utah, and the disposal of them in another state occasions considerable regret in this city. Mr. Lang has left a second collection, valued at \$400, and unless it is corraled for Salt Lake the chances are it will go east. Spencer Clawson, in referring to the matter today, expressed great regret that the Legislature failed to comply with the reasonable request of the State Histori-cal society for \$10,000. With this money a site could have been procured for a building and a fine start made in securing collections that now may be forever lost to the state.

Mr. Van Duzer is enthusiastic over the great Nevada camp and predicts that it will have a population of 10,000 people before the close of the year, It has come to his knowledge as well as other Tonepah citizens that an at-

Mr. Van Duzen proposes to inves-tigate these concerns and show them up to the public in the true light. The people of the camp intend to prevent any "wild catting" of Nevada properties, the congressman says, if in their power to prevent.
