DESERET EVENING NEWS: SATURDAY, DECEMBER 3, 1904,

White Sulphur Springs, Mont., Dec. 2-Homer E. Ward, a young ranchman aged about 23, living about 24 miles northeast of here, was found order by President Pro Tem Frye in the dead in his cabin today. His body was partly burned and there was a bullet the head. A hole, evidently a bullet, through a window ated that he had been shot from behind as he was seated at his table cating. The body had then been taid upon the bed, covered with bed hald upon clothing saturated with kerosene and a match applied. The act of incen-diarism, however, had failed. HEATEN'S AIRSHIP.

Initial Flight Was Perfectly Satisfaction.

Alameda, Cat., Dec. 3.-George E. Heaten's airship "California Messen-ger" had its initial fleht this afternoon and behaved in a satisfactory manner. Heaten's airship is 76 feet long, 24 feet in diameter when fully expanded and is shaped like a cigar. The vessel is driven by a double cylinder gasoline engine weighing 68 pounds and it is stated capable of developing 15 horse power. Attached to the en-Ja horse power. Attached to the en-gins are two fans with a surface of eight square feet. These fans are screw-shaped and not only do they propel the vessel, but the current they generate acts on the rudder and steers the ship,

senate and by Speaker Cannon in the house The president's message is received and read the first day, but may go over until Tuesday, as the senate is almost sure to adjourn as a tribute of respect to the late Senator Hoar and the late Senator Quay.

After the opening day, when the message of the president is read, the regu-las business of the session will begin and the legislative wheels will grind steadily until March 4, 1905. The cal-endars of both houses are loaded with bil's of all kinds, but in the three nonthe Congress probably will do little nore than pass the regular annual appropriation bills. There has been some talk of a pos-

sible extra session. The result of the November election was scarcely known before this talk began. The only reason for such a session is a demand in cer tain quarters for a revision of the tariff. but many of the incoming congressment have made it plain that they do not want tariff revision, and, further, that they do not want an extra session.

MORE REVENUE NEEDED. There is one feature of the tariff re-

vision talk that has some substance More revenue must be had or there be a curtailment of expenditures With the increasing annual appropriations, a river and harbor bill, increase of the navy, the Panama canal and other features of extraordinary dis-HEADQUARTERS FOR HOLIDAY GOODS bursement, there will be need of more money than present customs and me-ternal revenues provide. Coupled with tariff legislation discus-sion is the subject of reciprocity. A

number of proposed reciprocity treaties have been and still are reposing in the $p_{\rm bio}$ bases of the senate. During the coming three months there may be some talk about these treatles, but they

will not be seriously considered. Revenue legislation of any kind is sure to create considerable talk in the senate ureau to be known as the informa-on exchange has been organized, J. and that means delay. Any half-dozen

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Buite, Mont., boughi a bettle of New-bro's Herpicide, April 6, '99, and began to use it for entire baidness. The bai follicies in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery-destroy the cause and you remove the effect. Herpleide de-stroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Another bill for the Philippines urged by Secy. Taft and the president, provides for a material reduction of the uty on sugar and tobacco, as well as other Philippine products. Free entry of these products has been recommended. The sugar and tobacco interests were strong enough in the past to de-feat any substantial reduction.

Another measure which received the attention of the house last session, but not in the senate, is the statehood measure, which provides for two states, doubling up the territories of Oklahoma and Indian Territory as one and Arizo-na and New Mexico as another.

Should the house decide to impeach Judge Charles Swayne of Florida, the business conditions of the senate would be complicated. After an investigation majority of the house committee on judiciary recommended impeachment Consideration was postponed until Dec. 13, the beginning of the second week of the short session. Meanwhile, the ju-diciary committee was instructed to take further testimony, a task it began two weeks ago. Present indications are that the house will not authorize an im-

peachment. SENATOR SMOOT'S CASE.

It is somewhat doubtful if the vote will be reached in the senate in the case of Senator Reed Smoot of Utah. This case attracted a great deal of attention last session when, the committee on privileges and elections summoned the heads of the "Mormon" Church to tell heads of the Mormon' Church to ten what had been going on of a polyga. mous character in Utah, and thousands of persons petitioned daily to have Smoot ejected from the senate. A score or more of witnesses are yet to be examined, and the defense has not was been best the senate has not

even begun, so that it is evident that before a report is made to the senate, the session will be so far spent that no serious attempt will be made to reach a vote upon Senator Smoot's title. Some question has arisen as to whether the case lapses with the end of the present Congress. It was the opinion of the late Senator Hoar that the proceedings ould end with the Congress and an entire new case would have to be begun if it was found desirable to continue the

case against Mr. Smoot. The last session passed a bill provid-ng for a commission to investigate and report a measure is restoring the mer-chant marine of the United States. The mmission was instructed to report on the first day of the coming session, and hts will be done.

Some doubt exists among the meni-bers of both houses as to whether additional Chinese exclusion legislation is necessary. It has been held that the law would expire this month as it was founded upon a treaty which also expires. A new treaty is being nego-tlated and an exclusion law to meet its terms may be necessary.

IMMIGRATION LAW Senator Dillingham has reported from the committee on immigration a amending the iminigration laws, and it is his intention to push for its consid-

eration. The principal feature of the bill is a provision for an agent of the United States, accompanied by a surseon, to be stationed at important Eu-ropean immigrant ports to inspect allens seeking admission to the United States. It also provides for a head tax of \$2 an immigrant. Reduced representation in Southern

states, which have by one form or an-other, disfranchised negroes, will be a theme of discussion, but not action, during the winter. The Republican
