Bryan Men for Him-After Meeting Convention Will Adjourn First Day Out of Respect for Cleveland.

Wilmington, Del., July 1.-In reply to a question from a representative of the Associated Press, Judge Gray this morning stated that he had just sent a telegram to the New York Evening Journal, as follows:

"I have your telegram saying that it is stated positively that I will accept the vice presidential nomination and askng whether the is true. As I have repeatedly said, I would not consent to being placed in nomination as a candidate for the presidency, I now say with equal emphasis that I will under no circumstances consent to a nomination for the vice presidency.

"GEORGE GRAY." (Signed.) WHAT GRAY'S MANAGER SAYS.

Denver, July 1.-When shown a copy of Judge Gray's telegram from Wilmington, declaring that he would not consent to "being placed in nomination as a candidate for the presidency," Mr. Marvel, the Gray campaign manager said:

"There is nothing new in that telegram. It repeats exactly what Judge Gray said in his letter to the Delaware convention. He never has given hipermission to being placed in nomination before the convention, but his friends who relaize how well qualified he is to be president of the United States, have taken the matter into their own hands. It is our affair and not

DENVER CONVENTION. DENVER CONVENTION.

Denver, July 1.—After meeting and perfecting a temporary organization next Tuesday, the Democratic convention will adjourn for the day out of respect to the memory of former President Cleveland, if the present plans of the committee on arrangements are carried into effect. The committee has not reached the point of making a definite announcement, but the question has been recently discussed, and the expression generally favors this course. It is believed that the adjournment can be taken in this way without interfering with the progress without interfering with the progress of the proceedings of the convention and at the same time enable the conand at the same time enable the convention to pay the proper degree of respect for the ex-president. The committees will be announced so that they can proceed with their business. The program looks to the completion of the work of the convention within three

days, No arrivals of political importance were registered early today at one of the leading hotels. Not a single dele-gation has, as yet, put in an appear-ance and individual delegates are but slightly more numerous than the dele

gations.

The headquarters booms were under a temporary eclipse throughout the day The Johnson men were not expected before night, when their rooms at the Albany hotei will be thrown open. The Gray headquarters were not opened until after noon because of the illness of Josiah Marvel, who is in charge of them in company with R. J. Beamish of Philadelphia.

RUMORS ABOUT GRAY.

The same rumors regarding Judge Gray and the vice presidency were in active circulation today and both Mr. Marvel and Mr. Beamish were busily denying that the Delaware man is to considered, for a single moment, connection with that position, Many the supporters of Brasilion, Many of the supporters of Bryan, however, persist in considering Judge Gray as rost acceptable vice presidential tim-

Among many of Mr. Bryan's friends it is believed that valuable political capital could be made by having the notification take place in some large city, preferably New York. It is arsued that the natural entousiasm of such an occasion should be made the most of as a campaign asset.

Mr. Bryan rose early today and with his secretary, Robert F. Rose, renewed his attack on an immense pile of correspondence.

CAMPAIGN WORK

First of All Signed Several Thousand Letters in Response to Congratulatory Telegrams.

As Yet He Has Made No Choice for Chairman of the Republican National Committee.

take the duties and responsibilities of a candidate for the presidency.

Mr. Taft's final duty at the war department was the deputation of his successor, Luke E. Wright. He said he regarded it as not merely a duty, but a pleasure to induct Gen. Wright into his new office and to start him on the way he should go.

His routine campaign work began today. It was commonplace enough in a way as it consisted of signing several thousands of letters which he had written in response to congratulatory messages received by mail and by telegraph. These came not only from every part of this country, but substantially from every part of the civilized world. In most of the important countries of the world, Mr. Taft has warm personal friends who took delight in sending him felicitations and good wishes. It is doubtful whether any man nominated for public office in recent years received so many messages of congratulation as has Mr. Taft They are con-

nated for public office in recent years received so many messages of congratulation as has Mr. Taft. They are contained in several large boxes and constitute a veritable library.

Despite rumors and conjectures regarding the selection of a chairman of the Republican national committee, assurance is given that the choice of Mr. Taft as yet has fallen definitely upon no man. Tentatively, at least, two decisions have been reached since the subcommittee of the national committee conferred with Mr. Taft in Cincinnati June 20, but in both instances the decision practically had to be abandoncision practically had to be abandon

ed.

Mr. Taft expects to have a ence on the subject late this afternoon with Arthur I. Voreys, the Ohio manager of his preliminary campaign. It is reasonably certain that Mr. Vorys himself will not be selected, although he is likely to be identified with the campaign in an important position

Mining and Railroad men's Visit Re vives Story of Agreement Between Gould and Guggenheims.

Railroad and mining circles in this city are today wondering what the unheralded visit of President S. W. Ec cles of the Nevada Northern and of numerous other big corporations with numerous other big corporations with A. S. Hughes, manager of the Rio Grande, means. The speculation is as to whether the visit means something or nothing. Indications point to its meaning something, and this would be an agreement between the Gould and Guggenheim forces, or more directly, between the Western Pacific and Nevada Northern lines, The Western Pacific has been contemplating the building of a branch from Shafter down to Ely; the Nevada Northern crosses the Western Pacific near Shafter on the Ely; the Nevada Northern crosses the Western Pacific near Shafter on the why to Ely. It is predicted that the old story that the Western Pacific would reach an agreement with the Nevada Northern to obtain an entrance into Ely is to be fulfilled at last. Nevada Northern to obtain an entrance into Ely is to be fulfilled at last.

Mr. Hughes as general manager of the Rio Grande stands high in Gould's list of lieutenants. Mr. Eccles is not only president of the Nevada Northern but of the American Smelting & Refining company; the Steptoe Valley Smelting & Mining company; the Nevada Consolidated Copper company, and he is also an officer and director of numerous other Guggenheim corporations. His coming here and joinorations. His coming here and joining Mr. Hughes in a trip out over the Western Pacific is believed to mear something, the something described S. V. cles, Mr. Hughes and the others were in this city only a few hours, going out over the Western Pacific almost as quickly as a train could be made up for them.

It is pointed out by believers in the future agreement that the Western Pacific is not going to build a long branch when it can reach an agreement with a company holding a piece of track which will serve the purpose splendidity. The mystery attempted in the visit and departure for the west lend additional reason for credence in the traffic agreement rumor.

TWO DESPERADOES KIDNAP LITTLE GIRL

Awakened by Sound of Firing of **Guns Went Out of House** To Face Rifles.

House Searched, No Money Found-Took Daughter-Pursued by Posse, Overtaken and Captured.

Fresno, Cal., July 1 .- Using the body of the girl he had kidnapped from her father's house, as a shield for his own body, Cleveland Rogers, held the posse that had run him down, at bay for half an hour yesterday before finally surrendering himself and the girl. The girl, Edna Domengine, 16 years old, daughter of a wealthy stockman of Coalinga, has

been returned to her parents. Awakened from a sound sleep by the sound of firing of a dozen rifle shots in the yard of her ranch home

shots in the yard of her ranch home in the foothills of the Coast range, she stumbled out into the night to find herself staring into the muzzles of two threatening rifes held in the hands of a pair of desperadoes.

Her father and mother had preceded her, and they stood with hands up. The whole scene was lighted by the glare of a burning barn, which the bandits had fired.

Clad only in her night dress, the young girl stood terrified, staring at the grotesque scene that met her eyes. As she watched before she had time to realize what was happening, two of her father's ranch hands came running to the spot. Instantly one of the bandits ordered them to throw up their hands. Tony Loveall, the leader of the pair, broke in on the gaze of the party. In the name of his pal and himself this man demanded \$5,000 from Domengine. mengine.

Domengine declared there was no money in the house. Rogers thereupon forced the young girl to guide him through her home, pointing out the places where the family kept their plate and other valuables.

When the search revealed nothing the rufflans dragged her into the yard once more, and harnessing one of the rigs belonging to Domengine, bundled Edna into the buggy and drove off into the night.

Edna into the buggy and drove on into the night.

Domengine made his way to Coalinga and spread the alarm. Immediately several posses started and at 4:30 yesterday afternoon Rogers was overtaken at Jack's Springs. He fired two shots, but seeing the armed oil men and officers swarming in, he gave up. He and the girl were brought to town in an automobile. A big crowd gathered and would have lynched Rogers had not Sheriff Chittenden pleaded with them not to take the law into their own hands.

Loveall managed to escape. Miss Domengine said the men offered no affront to her. the night.

BONDS FOR NELSON NORMAN C. HOPPER ARE FILED TODAY

TRUTH AND LIBERTY

This Action Ends Official Interest In Case Until October Term of Court.

Its Report of Indictment Proceedings Meets With An Indignant Reception on Every Side.

Col. A. B. Irvine, attorney for many business concerns in which Joseph Nelson is interested, today filed with Jerrold R. Letcher, clerk of the United States court, the documents covering the bond of A. W. Nelson, indicted yesterday by the grand jury. The men on the bond are J. E. Langford, manager of Saltair, and P. W. Madsen of the Madsen Furniture company. The sureties were approved last night at 10 o'clock by Judge Marshall at the Alta

o'clock by Judge Marshall at the Alta club, and young Nelson was released from custody without the necessity of actually going behind prison bars.

Shortly after filing the bond Col: Irvine left for Ogden. When asked whether he intended to defend young Nelson, Col. Irvine stated that this matter had not in any way been discussed, and that he did not think he would, as he was attorney for the Utah National bank, and should he take up Nelson's defense, he certainly would resign his present connection with the bank.

bank.

With this matter of bail disposed of, official interest in the bank robbery, except so far as it may be carried on by the Pinkertons, and the United States attorney, will lapse until the October term of the United States court, when William Nelson must be ready to stand trial.

Discussion of the robbery has been general today, and the most frequently expressed opinion is surprise that there were not more indictments, coupled with opinion that if a guilty man has been found he had accomplices and instigators.

TRIBUNE CONDEMNED.

The Tribune's issue this morning is being discussed and condemned, and if all the "Mormon" sentiment is eliminated from consideration, there still remains a universal expression of condemnation.

who oppose it, expressed himself as totally disgusted.

"It is a shame," he said "that we have to tolerate such a wicked, lying sheet in our community. I shall never again allow it in my home."

The personal respects of Frank I. Sefrit who was made to show color before the grand jury, were paid this morning to the same jury, as the personal pique of the articles clearly was demonstrated. The review of the case showed bad disposition, expressing itself in a slice of comment against the jury, another against President Mo-Cornick, still another against the Pinkerton investigation, and yet another against the men examined who were not indicted. The net result was lively condemnation, without a saving expression of praise. sion of praise.

WHERE IS THE MONEY.

One large question of today is concerning what has become of the money, and what the bank's chances are of recovering it. So far no trace of any has been found. Many close to the investigation figure that if the indictment foreshadows absolute proof of guilt, then the money has been buried, and not put to use in investments, at least in any that have been located.

PRAISE FOR BANK.

The Utah National bank is today the The Utah National bank is today the subject of much commendation in that the faith of the people in its stability has been maintained and that through the position formerly held by Rodney T. Badger n the banking world, it has been able to come out of the long spell of cloudy weather with colors flying and a financial statement showing it to be as sound as a rock. For the present splendid condition of the bank, Cashier Badger is being much praised.

Another question is concerning what will happen to Teller Alvin Strong. After every phase of his personal life had been investigated, he emerged from the ordeal with the good will and praise of every man on the jury, and with a record bare before it that any one of them would have been proud to claim as his own. Strong is a young man, depending for his support on his salary. In the investigation his name was entirely cleared. When it started, he with all others of those holding prominent positions. Another question is concerning wha of those holding prominent positions, left the bank, his leave being in the form of a 90-day furlough. This will be up July 8.

W. F. Adams is still a director of the state o

bank. He refused to go out under fire, demanding a right to remain until his name was cleared, and this left the othname was cleared, and this left the other bank directors powerless to act, although his resignation was requested. When asked today whether he now had made up his mind concerning what was to be his future course, he replied that he had not given the matter much thought, directly, and was not prepared to give out a statement.

BINGHAM JUNCTION BANK.

At Bingham Junction the Jordan State bank this morning was entirely quiet, there being no indication of a run or nervousness over accounts. The last examination by State Bank Examiner Glazier was made on May II, this year, and he found "the bank in a generally satisfactory condition." The quarterly report, filed June 16, shows the bank's condition to be excellent. A son of President Fitzgerald of this bank has been A. W. Nelson's assist-ant as cashier, and it is possible that he will carry on the business, although nent on this matter has

Mr. Williams was for many years a valued member of the police department. He left the department seven months ago to take a position under Warden Pratt but finding conditions not suitable to him he concluded to resign. Williams has not decided yet what he will do but there is a probability that he will make application for a position in the police department.

AND WIFE ARE LOW

Plucky Rider's Injury Causes Heart Failure for Tender Companion.

Word from Hospital is That Recovery Is Doubtful-Many Queries Over the Telephone.

When told that Monday evening her husband Norman C. Hopper, bicycle rider par excellence and the most popular little fellow in the racing world, had suffered an accident that might cost him his life, Mrs. Hopper was seized with heart trouble. From St. Marks hospital, where both sufferers were taken, the report comes that husband and wife may quit this life together; both are low and their recovery is announced as extremely doubtful. At Both had a rather peaceful evening; there is no change in either's condition, but the attending physicians and nurses still refuse to give out a statemen which might be cause for hope.'

MANY INQUIRIES MADE. So popular is Norman C. Hopper that hundreds of telephone inquiries have been made at the hospital every few hours since Monday evening. So constant was the ringing of all bells that those in charge of the institution made arrangements with the information bureaus of both telephone companies to keep them posted so they, in turn can keep the public posted on the bican keep the public posted on the bicycle rider's condition. Attaches of the hospital report that all day and all night inquiries have been keeping them sitting at the telephone desks. Never has there been greater worry exhibited over the condition of an inmate of the hospital. All are watching Hopper's battle for life and hoping that the plucky little rider may pull through. The physicians say grit is the only thing that can lend aid. The riders who knew Hopper feel there is yet a ray of hope, even though faint, that the grit that carried "Hop" over the tape for more than one winning, will carry him through his present struggle with death.

INJURIES ARE TERRIBLE. Hopper's injuries were terrible; the long splinter pierced his abdomen and cut his intestines in six or seven places. Peritonitis, internal blood poisoning, is what is most feared. Hopper spent a peaceful night last night, but was lower. This morning his condition saw no change.

At 8:30 he was in the office telephoning to the authorities at Eureka, Goshen and Lehi, and shortly afterwards his son came running by spreading the alarm that the prisoners had escaped. Investigation showed that the men had climbed to the top of the cell house and ripped off a section of the corrugated fron celling. Council Committee Plans Another Grab at the Taxpayers' Purse-"Americans" Need Money.

The "Americans" need the money and it is probable an increase in the water rates of the city will be made by the water department, such a step having been practically decided upon by the waterworks committee of the city council, which held a meeting yesterday afternoon in the office of Supt. Hobday. Mr. Hobday recommended that the meter rate be raised from 3½ cents to 10 cents, and this will probably be adopted. Any increase made at this date, however, cannot go into effect until July 1, 1909, as the rate for the present year has been fixed and these will not be changed. The claim is made that the money realized from the present rate is not sufficient to conduct the water department and that the increase is necessary. having been practically decided upon
