## COURT ENJOINS UTAH CON. MINE

Very Gratifying Reports Are Being Received from This Noted Producer.

### WALKER VISITS PROPERTY.

If Railway Supplies Cars This Year's Production Will Equal That Of Last Year.

It is gratifying to note the excellent reports that are being received from the Utah Consolidated mine in Bingham. A party who visited this property recently makes the statement that developments made there within the past 60 days have materially increased the ore reserves and, in fact, has prolonged the life of the property several years.

George L. Walker, the Boston copper authority and financial editor, was a guest of the management yesterday, and it is reported that he came out of the mine very well pleased, indeed, with its present condition.

Utah Consolidated has received some pretty hard knocks in the eastern stock markets and many shareholders have been frightened into sacrificing their holdings in the company before ascertaining what the actual conditions at the mine really were.

The only thing that stands in the way of Utah Consolidated pulling out at the end of the year with a record of production equal to that of last year in pounds of copper is the railroad service. If the railroad company furnishes the cars—and there is no set-back on account of coal shortage, the showing that the Utah Consolidated will make is very satisfactory every shareholder. This talk indulged in of late to the effect that the mine had seen its best days is all idle talk. It was never in a more promising condition than it is at this very moment, and no better evidence of this is needed than the assurance of the management that the plans for the building of the proposed new smelter will be carried out in the near future.

No mining company in Utah is in better shape to make improvements than the Utah Consolidated, for it has been learning from eastern smelters that the treasury contains something over \$3,000,000. With that much money on hand, with the mine producing right along, the company is in position to outlast any project it undertakes.

### ON MINING EXCHANGE.

Fair Business Done During Early Calls—Closing Quotations.

Business was fairly good on the floor of the mining exchange during the forenoon calls, but the session was quiet as compared with some of those held last week. May Day remained at about where it was yesterday, as did Uncle Sam Consolidated, Victor Consolidated, Yankee Consolidated and Beck Tunnel. Sioux Consolidated was slightly weaker, while Mountain Lake recorded a transfer at 74 cents. Some better news came in the United States stocks. Treasure Hill sold at 35 cents; West Quincy at 15 cents and one lot of Ohio Copper was released at \$4.80, closing with a bid of \$4.90. The closing sale and quotations were:

### SENSATIONALLY RICH ORE.

Has Been Taken from Goldfield Florence Lease—Reported Labor Troubles from Tonopah.

Tonopah, Nev., Aug. 20.—A long distance message from Goldfield says: "The Goldfield Florence Mining company, yesterday, enjoyed the Little Florence Leasing company from further work. The Little Florence is the lease which has been making sensational strikes and paying big dividends. It is claimed by the Goldfield Florence people that the lessee are not sticking to the terms of the lease, that they are careless in their work, endangering the timbers and floors and are getting their richest ores outside their ground. Today an underground survey will be made on the lease and possibly some arrangement will then be made for storing the ore until Judge Lamm, at present absent, returns and decides the case."

Another long distance message from Goldfield says the miners on the Mo-hawk are still out and there are reports to the effect that the men on Red Top and Combination mines may strike. There will be a meeting of the Western Federation of Miners, when the matter will be taken up and decided. The general impression is that the settlement will be satisfactory arranged.

### BLACKBIRD SUE.

Company in More Trouble Over Stock Ownership.

Suit has been filed in the district court by Charles W. Russell against James W. Russell, the Blackbird Copper-Gold Mining company, limited, and eight other defendants to recover \$24,819 shares of stock in said company, and to compel the defendants to return the stock to the company in the name of P. A. H. Franklin but that it was held by him in trust for plaintiff. It was afterwards transferred to Russell and now stands in his name. Plaintiff asks that his title to the stock be quieted and that it be transferred to him on the books of the company and that the defendants be enjoined from disposing of the stock pending the hearing of the case.

### WANTLAND WANTS SHARES.

Sues Pittsburg-Salt Lake Oil Co. to Recover Stock Valued at \$1,000,000.

Judge Ritchie has issued an order to show cause in the case of W. M. Wantland against the Pittsburg-Salt Lake Oil company and its incorporators, that they appear before Judge Ritchie on Aug. 31, and show why a restraining order should be issued to prevent them from disposing of their stock pending the hearing of the case. Wantland is suing to recover over a million shares of stock in the company which he claims the defendants have stolen from him by fraud. The company's stock is valued at \$1 per share.

### SUIT TO COLLECT WAGES.

An action has been filed in the district court by J. M. Wilkinson against the Laura May Gold, Silver & Copper company to collect \$198 alleged to be due plaintiff for services rendered, labor performed in the defendant's mine.
