lanager Montgomery Will Test the Question of Pool Selling.

Testerday's Meet Was Not Altogether An Unqualified Success - The Races and Winners.

The opening day of the Agricultural Dark races was not an unqualified success. In the first place the weather was streaky and then the police declined to allow any pool selling on the grounds. Manager Montgomery in consequence asnounced that today's and tomorrow's

The crowd that assembled yesterday afternoon was not a large one and the combined efforts of Old Jupiter Pluvius and Capt Burbidge caused quite a pall of gloom to overhang the brows of the sports assembled. There was a bluff made by the bookles to start operations after having been warned by the police present, but after considerable wrangling they decided not to submit them-selves to arrest and accordingly they took down their blackboards.

Then followed the spectacle of a horse race minus the usual adjunct-a bet. The first event was witnessed by all. After that glimpses of the riders were caught at stated intervals through the blinding dust that was raised by the wind. The hurdle race was not ridden, because by the time it was called the track was wet and slippery, a state of affairs not conducive to good hurdling.

Three starters lined up for the first event, Calegula, Remark and Madam Bishop. The finish was a warm one. Remark and the Madam came down the home stretch neck to neck. The race was eventually won by Madam Bishop by a nose with Calegula half a length behind the two leaders. behind the two leaders.

The second event was pulled of in a cloud of dust. Owen was the first to emerge near the grandstand, and he had no difficulty in holding his place to

There were three starters in the girls' race. Despite the smashing rain the girls rode a good clip. All were dressed in gay bloomers, and rode astride. Elsie Thurber, dressed in yellow, was the winner, bringing in Babe several lengths ahead of Mildred Miller on Sammy, Mary McPherson fanned her mount from the word "go" but Bobby plugged along with a look on his face that said plainly 'quit it; somebody has to be last, you know. There is al-

mas to be last, you know. There is al-ways a tallender in every race."
The five-eighths mile event was the star feature of the meet. Despite the heavy mud and stiff gale Gray Dolly won the race from Pilot by two lengths after some clever jockeying and a long sprint for the wire. The little filly ran the race without whip or spur.

THE SUMMARY. First race, five and a half furlongs-Remark second.

Calegula third. The Covenanter was scratched, Time, 1:0912.
Second race, one-half mile—Barney Owen won, Aurora B second, Nellie May third. The Commodore was scratched.
Pat I. and Sinner also ran. Time, 1:51.
Third race, three-eights mile pony race-Babe won, Sammy second, Bobby third. Miss Elsie Thurber rode the win-ner. Time, 1:10.

SHAMROCK III AGAIN WINS. Fasily Runs Ahead of Her Trial Horse Shamrock I.

Horse Shamrock 1.

Atlantic Highlands, N. J., July 16.—After a 49-mile beeward and windward race off Sandy Hook lightship today. Shamrock all led her trial horse to the finish line by six minutes and 30 seconds, and won by only 15 seconds less. In the first half of the race, the cup-seeker dropped Shamrock I at the rate of 65 seconds and more to the mile, but during the run to the outer mark the older boat was the first to catch a new broeze, which sent her off at a pace that sliced nearly three minutes off the challenger's lead. It was a clear fluke, which, as usual in a run before the wind, favored the stern boat. Shamrock III had beaten the other by nearly two minutes in the first run to lee, ward, so that the challenger must have lost about five minutes by the fluke. In all, she covered 20 miles of windward work siven minutes and it seconds faster than the erstwhile challenger. From a nine-knot breeze at the start, the wind dropped to three-knots at the finish, but held west-northwest all day.

SUMMARY. Shamrock III-Start, 11:20:18; finish, 4:33:34; clapsed time, 5:32:46. Shamrock I-Start, 11:20:33; finish, 4:59:34; clapsed time, 5:39:01.

AT THE SAUCER TONIGHT. Two New Riders Coming - Probably Gussie Lawson - Motor Arrives.

Gussic Lawson — Motor Arrives.

The races at the saucer tonight as announced by Manager Schefski will include a mile handicap, amateur; mile invitation, amateur; two-mile professional, handicap; 10-mile motor-paced race between Flopper and Samueison.

Bargett and Wilhams, the two Buffaloriders, have written Manager Schefski, saying they will be here in time to participate in the races next Tuesday.

Johnnie Chapman has received his new single, four-horse-power motor and expects to set up new records with it.

Guszie Lawson has become disgusted with the game in the cast. He says its dead, and in a letter to Manager Schefski he says he will either go to Europe or come to Salt Lake, he would decide which way in a few days.

Barney Makes New Record. Jackson, Mich., July 16.—Barney Old-field clipped two-fifths of a second from his world's automobile record for a mile on a half-mile track here today, going in 1:15 flat on half-mile course. The record was made against time.

RAIN STOPPED A GOOD CAME

Score, 3 to Nothing in Favor of Locals When Downpour Started.

BOOKIES ARE DISGRUNTLED HOW "SLATS" CAME HOME

Spectators Were Sonked, but Waited For Rain to Stop- When It Didn't Stop They Came Home.

The rain descended onto the Walker field yesterday afternoon out of sympathy with the Angels, as we believe. The game was called in the second inning with Sait Lake bugging closely her good ly lead of three runs, to the Angels' nothing. The home boys got started out right and were playing the game fast enough races were off pending the outcome of to keep their opponents from touching a suit he had instituted to find out the first bag. Donahue was the first whether or not pools could be sold on | man up and he went out at first. Bradley struck out, then "Slats" Davis lined i out in right field, enabling him to reach first safe and sound. He took advantage first safe and sound. He took advantage of an error and journeyed on to third base. Parrott was put out at second and while that was going on "Slats" came home. In the second inning the home beys made two runs, the ones doing the long run around being Tom Kelly and Shea. At this most interesting point of the game the rain starfed. The spectators walted nearly a half an hour in the hope that the rain would quit in time to resume the game, but it kept it up.

One of he most conspicuous men in yesterday's game was little "Chickens" Fisher, the shortstop. He was conspicuous for his absence. Donahue was playing short with Shea in his place and everyone was enquiring for "Chickens." Well, the little fellow voluntarily quit yesterday until some financial differences between him and the club he was formerly with, are fixed up.

HAD A MERRY TIME. Experience of a Doctor and a Nurse on The Salt Lake.

Dr. J. Carroll Landenberger of St Mark's hospital and Miss Mary L. Miles, a nurse at the same institution, have just passed through an experience that they would not repeat again for anything. For six hours they were tossed about on the lake in a small boat to be finally beached on Antelope island. Then they walked to White's ranch, where they were given shelter and were driven into Salt Lake to arrive home about 10:30 last night. In all, the couple to all intents and purposes, were lost for

They went to Saltair Wednesday afternoon and about 9 o'clock they went for a row on the lake with the intention of paddling around until the last train. Hardly had they fairly started when the wind commenced to blow. It was impossible to make any headway against it so Dr. Landenberger concen-trated his energies in keeping her head straight and letting the boat drift be-fore the wind. In this manner they were blown across to Antelope Island, arriving there, as near as can be guessed, at 3 a. m. It was pitch dark and the couple stumbled along over the rocks and sagebrush in an endeavor to find a habitation. For 11 long hours they walked until they eventually reached the White ranch, where they were takn in and made as comfortable as posssible. They were in a bad plight as they were footsore and had been without food, water and sleep since they left Saltair the day before. Here they waited a few hours and rested and then a team was hitched up and they were driven over to the mainland and

The prolonged absence of the couple created considerable alarm. Early yesterday Dr. S. H. Pinkerton, who is a close friend of Dr. Landenberger, took up the matter of a search party for the missing couple. In the afternoon Messrs. Kessler and Davis. were dispatched in a boat to get tidings of the wanderers. Arrangements were made for them to signal the pavillon should they discover any trace of the missing couple. The searchers were out all last night looking for the doctor and the nurse, who were by that time making the most of a well earned rest at home

SHEEP BURIED ALIVE. Cave in at Sandy Smelter the Cause Of It.

Several days ago a cave-in of slag n the big dump at the smelter at Sandy buried about 30 sheep alive. It was impossible at the time, owing to the heated condition of the slag, to dig the sheep out, but within the past two days the stench arising therefrom has become so unbearable that a force of men was put to work removing the sheep. About 15 of them were taken out yesterday. The work is rather slow

as the men cannot bear the stench but a very few minutes at a time. It seems that slag was being bauled away from the bottom of the dump and the excavation formed somewhat of a cave. A band of sheep bappened along there and camped over night and a number of them took refuge in the temporary cave. Before morning the slag caves in and buried them alive. It was im possible to remove them then, but they are now being taken out.
