CAREFUL EXPERIMENTS. "Dr. Ebaugh, who has represented ins committee throughout all of this ligation, has conducted a series of most careful experiments as to the curse of damage from smelter smoke. which experiments have extended over the past three years, and we are of the opinion that his approval of the plans contemplated is sufficient guaran-tee that they will accomplish the ob-ject intended. In addition to this, due to the familiarity of the committee with his entire situation since the question fast arose, we do not believe that there is any possibility of an error in judg-ment having been made in making this settlement. There seems to be no ques-tion but the operations of the American Smelting & Refining company will be conducted in a manner which American Smeling & Refining company will be conducted in a manner which will result in no damage to the farm-res from that plant, and this being the case, we are of the opinion that is settlement of the character made will be of great benefit to the farmers. The value of an industrial enterprise of this character located in our midst is and always has been fully appreciated, and when that operation can be con-used without injury to the surround-ing farms, we believe it should, by all beams, be retained." Close upon the death of the wife of Juror Bolton came the announcement today of the death last night of Michael Downey, who for months has been Thaw's night keeper

last night of Michael Downey, who for months has been Thaw's night keeper upon the second tier of cells, which is known as "murderers' row." Downey had been a keeper in the Tombs for more than 28 years. When Harry Thaw first came to the Tombs Downey did not look with favor upon the new prisoner. But during the long watches of the night when Thaw paced up and down the narrow confines of his cell, a warm friendship sprang up be-tween the two. When Downey is burled tomorrow, a wreath bearing Thaw's card will rest upon the casket. Thaw sent the order for the flowers to Warden Flynn soon after he heard of the keeper's death.

STORY OF COLD FEET.

from him.

STORY OF COLD FEET. Mr. Nelson caused a sensation in court when he explained the reason for leaving his wife in bed alone and go-ing to another room to sleep. He stated that he had gone to bed and got the bed warm while his wife attended to some duties in the kitchen. When she came to bed her feet were very cold and she put them on his back to warm them, whereupon he simply removed them. She then made the remark that any man who would not let his wife warm her feet on his back to be strung up. Witness then told his wife that if that was the way she felt about it he would go some other place to sleep. He then went into another room and took the covers with him. The explanation of this affair caused Mrs. Nelson to bury her face in her hands and the spectators present to nearly collapse, Soon after this incident the court took a recess until 2 o'clock when Mt.
