

The *Daily Chronicle's* correspondent at Constantinople says there is a general belief that war between Russia and Austria will not be long delayed. The Russian government is pressing the Porte to pay the indemnity due Russia.

A dispatch to the *News* from Salonica says the Russian agents are swarming all over Macedonia. The Russian newspapers urge Russia to intervene in Bulgaria unless Prince Alexander be speedily deposed by his own subjects.

The European newspapers regard Russia's action at Batoum as a reply to England's sympathy with Bulgaria.

The English Government will take no isolated action with regard to the closing of the port of Batoum by Russia, but will merely join the other powers in sending a diplomatic protest.

THE ELECTIONS.

London, 7.—A Cabinet Council will be held to decide on the course to be pursued in view of the result of the election.

The last hope of the Gladstonian vote in the counties has failed. The English counties are going Unionist. The counties of Somerset, Warwick, Hereford, Derby, Denbigh and Shropshire, in which centers the agricultural vote, have returned Conservatives. Scotland continues Gladstonian. Numerous county polls have not yet been taken, but it is impossible to reverse the defeat of the government. The Unionists are confident of an ultimate strength of 370 against 300. The Conservatives are certain with a compact phalanx of 300 members. Lord Salisbury will form a purely Conservative Ministry.

Returns from English counties show large gains for the Conservatives, who are winning some of the county divisions by sweeping majorities. Such is the case in North Cambridgeshire, North Shropshire, West Somersetshire and Northeast and Southwest Warwickshire, in all of which the Tories have won seats held by the Liberals in the last House. The Tories have also taken Carnarvon from the Liberals. The Gladstonians have captured Elgin from the Unionist candidate who represented the district in the last House. The Tories so far have gained 42 seats, the Unionists 2, the Gladstonians 18, and the Parnellites 1. The Tories at 3 o'clock had elected 235 candidates, the Gladstonians 164 and the Unionists 43.

The Liberal candidate, O. Williamson, carried Kilmarnock, Scotland, where, because of a split in the Liberal party, the Tories elected Provost Shurrock at the last election.

James Rankin, Conservative, won the Leominster division of Herefordshire by a majority of nearly 2,000. He was defeated by the Liberals in the same district (selection by a majority of 121). The Leominster returns were first published from the county elections to-day, and the result caused a profound excitement among the Tories all over England.

Mr. Waddick, Gladstonian, carried the Brigg division of Lincolnshire, but by a majority of over 2,000 less than that of the Liberals at the last election. This news, published alongside of the great Tory victory in Leominster put the Liberals in gloom.

The *Pall Mall Gazette* commenting in an early edition on the returns says: "The Liberal defeat is not degenerating into rout. Yesterday's defeats assumed the proportions of a catastrophe."

INCREASED TORY VOTES.

A Gladstonian has been re-elected at Clackmannan. The Gladstonians have gained Carmarthen, the member representing the district in the late Parliament having voted against the Home Rule bill.

Mr. T. L. Carew (Parnellite) in the north division of Kildare, and Mr. A. Blaine (Parnellite) in the south division of Armagh, have been elected without opposition.

McCartney (Conservative) has been elected in Antrim, the Nationalist candidate's nomination having been declared informal.

The Tories gained the north and south divisions of Westhamm and Arington, and the southport divisions of Lancashire. Every poll shows increased Tory votes.

MADRID, 7.—A severe shock of earthquake was felt at Malaga to-day.

The heat in this city was so overpowering to-day that the Cortes was compelled to adjourn before reaching a vote on the budget estimates.

BRUSSELS, 7.—The Great Hall and the entire right wing of the University of Brussels was burned to-day. A portion of the library was saved. Loss, \$200,000.

LONDON, 7.—The British Chambers of Commerce have agreed to favor the neutralization of all submarine telegraphic cables.

ROME, 7.—The cholera returns to-day are as follows: Venice, 2 new cases, 1 death; Brindisi, 189 new cases, 71 deaths; Lariano, 70 new cases, 20 deaths; Sanvito, 32 new cases, 4 deaths; Tortona, 76 new cases, 24 deaths.

LONDON, 7.—Advices received here say that on the 2d instant a body of Albanian Musulmans attacked and pillaged several Montenegrin villages, killing some of the inhabitants and capturing a number of Elders. The Montenegrins rallied and repulsed the Albanians, capturing and killing a number of them.

BRUSSELS, 7.—An anti-Semitic riot is reported in Dolgnoff in the government of Minsk, Russia. The governor, at the head of a military force finally succeeded in restoring order. During the disturbance 23 persons

were injured, 9 of which are in a critical condition.

Paris, 7.—Marsh & Bro.'s oil factory at Dunkerque has been burned. The loss is 3,000,000 francs. Five hundred persons are thrown out of work by the fire.

LOCAL NEWS.

FROM TUESDAY'S DAILY, JULY 6

Deaths from Diphtheria.—On Saturday afternoon two members of the family of Brother Chas. L. Rogers, in the Twenty-first Ward, were attacked with diphtheria of a very malignant type. The youngest, a boy between seven and eight years of age, succumbed to the dread disease on Sunday, and this morning the other, an estimable young lady in her sixteenth year, also passed from mortality. The sorrowing family have the sympathy of many friends in their affliction.

Independence Day.—Yesterday, the 5th, was generally observed as a holiday in the city. The various pleasure resorts were crowded with visitors, and everything passed off peaceably. The celebration exercises at Liberty Park, by the G. A. R., drew out a good attendance. At Lake Point and Garfield there was probably the largest crowd that has ever attended those bathing resorts. Beck's Hot Springs, Fuller's Hill and Calder's Gardens, were also busy during the day. The excursion trains to Ogden carried but few persons from this city to witness the celebration there, which was a complete success; the display of fireworks there in the evening was the grandest ever witnessed in Utah.

Crushed to Death.—On Saturday afternoon Wm. Doyle, a miner employed at the Antelope and Prince of Wales mine, at the head of Silver Fork, Big Cottonwood Canon, was working in the side of the mountain, and had dug a hole among the sand and boulders about six feet in. He went up to his work about 1 o'clock, and about 6:30 p. m. two men, John Wosley and Isaac Tegen, were passing the place where he was engaged, and discovered the unfortunate man covered by the earth, which had caved, almost to his neck. His shovel lay across his breast, broken by the fall of rocks and dirt. When they reached the body it was still warm, though life was extinct. From the appearance of the place Doyle had dug into the side of the mountain, and the ground being too loose to stand, had fallen in on him, crushing him to death. He was brought to this city, where an inquest was held, and a verdict rendered of accidental death. The deceased was from Newcastle-on-Tyne, and was about 58 years of age. He has no relatives that are known in this part of the country. The only property in his possession, was a Waltham watch worth about \$25.

Police Items.—In the police court to-day Justice Pyper considered the cases of quite a number who had been over-indulgent to themselves in celebrating the glorious Fourth.

H. Williams and Chas. Peterson pleaded guilty to the charge of fighting, and were each fined \$10. Williams plead with the court, representing certain mitigating circumstances, and his fine was reduced to \$10.

For stealing a ride on the Utah Central train on July 4th, Frank Wilson and Joe Coddie were fined \$15 each.

The following pleaded guilty to drunkenness and were each fined \$5: Samuel Davis, James Crawford, Ivins Conk and Peter Frederickson.

Edward McFadden and John Gallagher pleaded guilty to drunkenness and profanity, and were each assessed \$10.

For disturbing the peace James Brown paid \$10.

The following forfeited \$5 each on a charge of drunkenness: A. H. Kelley, James McDonald, James Donahue, Pete Kelley and Joe Johnson.

For being drunk and disorderly, George Jones forfeited \$10, and Hyrum Engrin \$7.50.

FROM WEDNESDAY'S DAILY, JULY 7

The Immigrants.—A private dispatch states that the coming company of immigrants arrived at New York at 7 o'clock this morning, and were to leave for the west this evening. They are in charge of Elder C. F. Olsen.

G. A. R. Tickets.—These special rate tickets for San Francisco are now on sale at the Union Ticket office in this city. They read from Salt Lake to Huntington, thence to Portland, Oregon, thence by steamer to San Francisco, thence back to Salt Lake by way of the C. P. R. R. The rate is \$49.50, a low figure for the great distance traveled.

Topeka Teachers' Meeting.—Teachers, superintendents, trustees, and members of their families can obtain certificates (whereby tickets can be bought) of I. Hase, Jr., Utah representative for the Topeka Teachers' meeting. He can be found at Parsons' book store, Salt Lake City. E. H. Anderson will attend to the same matter at Ogden.

District Court.—There was a short session of the Third District Court yesterday, during which brief proceedings were had in two or three civil cases, when the court adjourned until 10 a. m. to-morrow, Friday. The session of the District Court opened immediately after the adjournment of the Supreme Court. Judge Zane took a rest to-day.

Personal.—Mr. Hayden, of Buffalo, N. Y., connected with the Guarantee Company of North America, arrived from the east last evening. He was accompanied by his son.

C. Ingalls, Esq., of the General Office of the D. & R. G. left for Denver this morning.

W. H. Bentz, of San Francisco, started for Denver this morning.

A New Enterprise.—Jeremy & Co., of this city, have had built at Lake Shore a schooner of 100 tons burden, to carry salt from their works on Island Road Point to Lake Shore. It has made one trip, but was not as successful as they desired, as it took water badly. They have had some necessary improvements made, and the boat starts out on her second trip to-day. We wish the owners success in this venture, as it will be a great aid to their salt business.

Homicide and Lynching.—Two tragic occurrences are announced in the following special, received this afternoon and dated Silver City, Utah, July 7th:

Joseph S. Fisher, a miner from Copperopolis mine shot and killed a miner at Eureka named James Connor, yesterday about 10 a. m. Fisher was lynched at Eureka about 9 o'clock last night.

The terse language of the dispatch affords us all the information we have of the double tragedy, but it was probably one of those affairs that are altogether too common in mining camps.

Police Court.—This forenoon, in the police court, for being drunk, disturbing the peace and discharging his pistol, Charles Cox was fined \$15. He pleaded guilty to all of the foregoing charges.

F. T. Smith, for being drunk and profane and for disturbing the peace, was fined \$15. He made no defense, simply fying matters by pleading guilty as charged.

John Olsen, an ordinary drunk, was fined the traditional V.

Ole Hans Rossiter was served in the same manner for the same offense.

Parry's Literary Journal.—The number of this popular home magazine for July is out, the contents being worthy of special notice. The frontispiece is an excellent engraving of Lake Martha, in the Cottonwoods, the work of our local artist, Mr. John Held, from a painting by Mr. Alfred Lambourne, which is further described in a pen sketch; Apostle Moses Thatcher has one of his series of articles on the "Persecutions of the Early Christians;" Moroni L. Pratt tells about a journey "From Liverpool to Salt Lake City," a narrative of the trip of the last company of European Saints; "How I was Educated," "New York Newspaper Reporters," and other interesting matter combine in making a good number of this worthy publication.

Several Boys Hurt.—On Monday, a boy named Edler went to Fort Douglas and got a number of cartridges. It is not known how he managed to get them. He brought them to town and put them in a fire he had made and left them for a few moments. Several other boys came along and stirred up the fire, when the cartridges exploded. One of the boys was struck in the left eye, which was very badly injured and may have to be removed. The other boy was injured in the face; a missile cutting near the mouth lodged in his cheek. Both patients were taken to Dr. R. B. Pratt for treatment. Another boy was struck on the knee. There were four others injured, but not so seriously. The Edler boy had distributed some of the cartridges among several other boys.

Penitentiary School.—The report of the above institution for its first six months was read by the teacher, T. M. Johnson, on Friday last, and stated the following facts: The school was organized December 29th, 1885; the average daily attendance since that date has been 26%, and it has been attended by sixty-five pupils in all, several of whom have taken their first lessons in the "three R's" within the prison walls and are now able to read, write and cipher fairly. T. C. Kinney has acted as assistant teacher for two months, and has charge of the elementary classes. Lorenzo Snow lectures twice a week on grammar. The studies pursued are reading, writing, arithmetic, grammar, spelling, history and book-keeping. The attendance of the prisoners is purely voluntary in all instances.

Pardoned.—Yesterday Governor West extended executive clemency to Wilford Halliday, who had served three years and six months of a five years' term in the penitentiary, having been convicted of cattle stealing. His term would have expired in six months from now. The representations to the Governor were very strong, consisting of a petition from numerous solid citizens of Kanab, and an application from Zera Snow, who prosecuted the case. He was also recommended for pardon by ex-Marshall Ireland, Warden Dow and others. He has been a "trustworthy" and faithful worker at the "Pen" for a long time. We believe the action of the Governor to have been well grounded, and hope that Halliday will show his gratitude for the clemency shown him by pursuing a proper course of life in future.

Death of Bishop Crane.—With profound regret we learned, to-day, of the death of Bishop James Crane of Herriman, the sad event having taken

place at about half past one o'clock a. m. Tuesday.

Deceased had been a sufferer for about nine months, from a lingering disease. The immediate cause of death was dropsy, accompanied by symptoms of heart disease.

Bishop Crane was one of the most sterling men we ever knew. He was unfaltering in his fidelity to the highest convictions of his conscience, and faithful in the discharge of his duties as a bishop, husband, father, neighbor and citizen. When such men as he lay down their earthly labors and pass away the loss is great indeed to those who remain, and the members of his bereaved family and ward have our most sincere sympathy and condolence.

The funeral services were to take place in the meeting house at Herriman at noon to-day. We anticipate being furnished with fuller particulars of the life and labors of Brother Crane.

Caught.—"Nosey Banks," whose real name is J. C. Martin, and who escaped from the Penitentiary last Monday evening, did not long enjoy the sweets of liberty thus surreptitiously gained. During yesterday forenoon it was known in the Marshal's office that he had made his way to town during the night succeeding his escape, and that he had been seen and recognized on the street. Hence there was felt considerable confidence that he would be recaptured, especially in view of the \$500 reward offered for him by the Marshal. Late Monday night "Nosey" took a room at Whittemore's hotel near the Utah Central depot, remaining in it during the rest of the night and until late yesterday afternoon. The officers traced him to his hiding place, and Deputy Franks made a search of his room and of the premises, but "Nosey" eluded him, and Franks went away. A little later, however, Mr. Whittemore and his bartender discovered the fugitive, who seems not to have left the premises. The marshal's office was notified by telephone, and officers were sent in response, who took "Nosey" back to the Pen. He appeared to take his recapture quite cheerfully.

Letter from Apostle Snow.—On Sunday, June 27th, as we learn from a gentleman who was present, there was read in the Sabbath meeting, at Brigham City, a lengthy letter from Apostle Lorenzo Snow, a martyr to the truth now imprisoned in the Utah Penitentiary. The epistle was most interesting. It exhorted the Saints to be cheerful under their trials, and was a most admirable example of the exhortations on this subject which it contained, for it breathed a spirit of cheerfulness, and even of good humor and contentment, which proved the writer of it to be infused with a spirit of peace, beyond the power of wicked men to disturb or banish from him. Considering the circumstances under which it was written, this letter is both a marvel and model of patience in affliction, and of long-suffering. All who heard it were deeply impressed with the spirit of patience, love and cheerfulness displayed through its entire length.

It was mainly devoted to a description of the prison, and gave a detailed and quite humorous account of life therein, an account of some of the non-"Mormon" prisoners and the offenses for which they are being punished, etc., and stated some of the rules established for the government of the prison, etc. It was a great treat to the congregation to whom it was read.

Spanish Fork Items.—The municipal authorities of Spanish Fork City, have made five unsuccessful efforts to obtain flowing wells in the Court House grounds. Sinking to the depth of about 180 feet they would be unable to drive further, on account of striking some substance, through which they were unable to drive with a heavy spile driver.

About a week ago Mrs. Kate Davis met with a very serious accident. While in the act of getting out of a buggy, the horses started up, throwing her to the ground and severely injured her spinal column. Her injuries were attended to by Dr. Pike of Provo, and the lady is now on a fair way to recovery and is being congratulated by her many friends on her narrow escape from more severe injuries.

On Friday next there will be a test between two rival reaping machines on the farm of Mr. John Hopla.

Last Sunday evening and Monday morning, the fourth and fifth, the Spanish Fork Brass Band, under the able leadership of Rees James, entertained the citizens of that place by playing some very good selections.

The citizens of Spanish Fork are having trouble between themselves in relation to water, and some parties are threatening to take the case into the courts, while the more level-headed are willing to arbitrate the matter among themselves.

The notorious Craig women are still living here undisturbed, although their atrocities are still fresh in the minds of the people.

Utah Road.—The work on the wagon road extending from Price Station on the D. & R. G. in Castle Valley, Emery County, to a point of intersection with the real running through Strawberry Valley to Ashley, is completed. The new road intersects the Strawberry road near the Du Chesne river at a point about 30 miles from Price, and is about 80 miles long. It

has been constructed by private enterprise entirely and is a work of great importance and advantage to all the white settlements of Utah County and to the Ouray and Utah Indian Agencies, as it virtually places the whole of Utah Valley from 50 to 75 miles nearer a railroad station than it has been heretofore. The parties to whom credit is due for this important public benefit are Messrs. George Goss, R. C. Chambers, R. J. McIntosh, S. H. Gilson and their co-owners of the Gilsonite mine near Ashley.

The object in constructing this road was to open a way for the shipment of the product of that mine. As soon as the waters of the Du Chesne river have receded sufficiently, a bridge will be constructed across it, when the hauling of Gilsonite to Price station will commence. As soon as this bridge is built it is expected that this route will become almost if not quite the exclusive one between the Utah country and the outside world, as it is so much easier to travel, and so much shorter between Ashley and a railroad point than any other.

A man who steals \$18 is much more liable to bring up in state prison than the man who gets away with \$13,000.

The pig pen is always the best place to dispose of imperfect and small fruit and potatoes.
