MONDAY EVENING, FEB. 28.

The entire program, consisting of twelve Nos., are compositions of the benificiary and mostly copied from MSS. for this occasion. The feature of the occasion will be three choruses from the ora-torio "Sigge of the Nephites," the first ever attempted with the Biok of Mormon as a theme. The music is high class, and compares favorably with the Bible oratorios of the great masters. There will also be a scone from an operatic work by the Professor presented for the first time at this concert.
