By general on the subject, was notified that the same would not leave until the 15th inst. It was, however, generally believed that the vessel would be ready to sail on the 10th inst. It was announced that the vessel would be ready to sail on the 10th inst. It was announced that the vessel would be ready to sail on the 10th inst.

Considered the difficulty as in the nature of the vessel was not until about a week before the vessel's arrival, and had not been notified as to the date of its departure.

From the moment the vessel was notified that it would be ready to sail on the 10th inst. it was in a state of great excitement. The vessel was notified that it would be ready to sail on the 10th inst. it was in a state of great excitement.

Through his six weeks stay in this country the prince will be received as the recipient of a warm and friendly welcome. He is accompanied by royal guards, his own household, and a large staff.

Incidentally it may be added that while the prince is undergoing a course of treatment at the hospital, his private secretary, Mr. G. G. G., is in charge of his affairs.

The English newspapers are now taking up the subject of the prince's visit to America. They are all full of praise for the prince and his visit.

MINERAL AND METAL.

The Total Output of the United States for Two Years.

Increase in the Output of Copper and Gold—Reduced Production of Silver.

New York, June 1.—According to the figures published by the United States Geological Survey, the total production of the United States for the two years 1903 and 1904 was \$1,000,000,000.

A special investigation is being conducted by the Geological Survey into the cause of the recent increase in the production of copper and gold.

The production of silver has decreased in 1904 as compared with 1903. This is due to a number of factors, including a decrease in the number of mines in operation.
