Brokers Were More Interested in The Circus Parade.

A HALF DOZEN TRADERS.

Participated in the Sales of the PH- Aggregated Less Than \$15000-Closing Quotations.

The Ringling circus parade seemed to have its effect on the proceeding of the forenoon calls of the mining exchange. Brokers were more interested in the long string of gilded wagons, big elephants, bands and other things connected with a display of this sort than they were in buying or selling stocks.

SOME LARGE ENTERPRISES

Are Being Launched in the Region Frequently Called the "Cripple Creek of Utah."

Special Correspondence. Marysvale, Utah, Aug. 4.—As predicted, Marysvale, with the four large surrounding mining districts, is enjoying unvented activity.

The most important transactions this season is the organization of the Gold Vein Mining Company. This corporation is composed of prominent Salt Lake capitalists; the famous Wedge property, situated in the Horse Heaven district, and which has produced such phenomenally rich gold ore, has been bonded and leased by this company.
