## MINING, BUSINESS AND STOCKS

## NEW YORK BON. ON DOWN GRADE.

Park City Stock Has Dropped Twenty-five Per Cent Within The Past Week.

#### MAY DAY REMAINED STEADY.

Uncle Sam Cou., Butler-Liberal and Little Chief on Active List-Closing Quotations and Sales.

Those who bought New York last week and still hold it are not wearing very broad smiles today. The reason can readily be seen by a glance at the quotation sheet of today's early calls of the mining exchange. Indeed, the outlook is far from encouraging and the opinion is gradually gaining ground that before the managers of the Park City property can open a mine that can be depended on they will have to go deeper for it.

The quotations today show a drop of more than a quarter of a dollar in a week. May Day held its own very well; ro did Uncle Sam Consolidated, Butler-Liberal and Little Chief, Consolidated Mercur remained firm, as did the Daly stocks, but none of thom were in demand. The open board trading was light.

The closing quotations and sales were poste das follows:

#### SALT LAKERS STRIKE IT.

some Rich Gold Rock Uncovered in Tule Canyon, Nevada.

Canyon, Nevada.

(Special to the "News.")

Goldfield, Nevs. May 1.—Not a little interest is being manifested here over the recent discoveries on the property of Red Dog Mining company, located in Tule canyon, Esmeralda county, George E. Blair of Salt Lake City, who cause in from camp today, and who is interested in the property, has brought hyformation which leads to the opinion that it is one of the richest strikes ever made in this region. Surface ores show values of from \$20 to \$2,000 to the ton, and at 30 feet depth the vein is said to show a 26-inch streak, Funning 20 cuinces in gold. The property also constains some good looking placer ground. Frank H. Lathrap, formerly of Salt Lake, and Denver and Philadelphia parties, with Mr. Blair are owners of the property.

#### the property. WILL BUILD HELLO LINE. D. H. Peery Forming a Telephone Com-

H. Peery is forming a telephone D. H. Peery is forming a telephone and telegraph company to operate from Las Vegas, Nev, to Rhyolite, and Rhyolite to Goldfield, with a paid up capis tal of \$25,000, says the Goldfield Sun. Ten thousand deliars was subscribed in Rhyolite today in a very short time; \$10,000 has been taken by Sait Lake people, and Mr. Peery has taken the balance of \$5,000, T. E. Edwards, one of the' original owners of the Montgomery-Shoshone property, has been instructed to order poles for the entire line. Work will start at once and the line will be finished in 30 days.

the Utah Copper syndicate had deposited a large sum of money to the credit of the Goldfield Great. Bend Mining company of Goldfield in accordance with an agreement entered into with officers of the company and that from now on will be actively identified with the management of the proposition. In the reorganization of the company, Clarence Edsail will be vice president; Frank E. Gillespie, treasurer, and Fred L. Sherwin, director, all of Colorado Springs, Frank B. Cook, John A. Kirby and William M. Bradley have retired from the board to make room for the new members, the Utah Copper syndicate had depos-

#### COPPER NEAR CHEYENNE. Important Discovery Has Been Made at Silver Crown Camp.

Special Correspondence, Cheyenne, Wyo., May 1.—What is believed to be a very important strike, and one that establishes the camp as a paying one, has just been made in the mine of the Hecla Copper Mining company, in the Silver Crown camp, 24 miles west of Cheyenne. This company is made up of Denver and Colorado Springs men, headed by J. C. Swartz of Denver. The strike was made a week ago, but the matter has been kept quiet. At a depth of about 120 feet a large vell that averages 40 per cent copper and from seven to nine ounces of platinum per ton was encountered. The mine is located four miles from the main line of the Union Pacific. New machinery has been ordered and a large force of men will be put to work to develop the strike. A mill is also being talked of. This strike is bound to stimulate interest in the Silver Crown district, and Cheyenne will be benefited vastly thereby. Cheyenne, Wyo., May 1 -- What Is be-

#### ADDIE ANNUAL MEET.

Salt Lake Interests Now Control as Idaho Gold Mine.

Idaho Gold Mine.

The annual meeting of the stockholders of the Addie Mining & Milling company, was held as per advertised call, at Silver City, Tuesday, April 25, says the Silver City (Ida.) Nuggett. The board of directors chosen for the ensuing year is David Yorndorf, Chicago; F. M. Orem, Salt Lake; and S. D. McLain, Archie J. Orem, and L. L. Turner, Silver City. The new board of directors held a meeting and elected the following named officers, to-wit.

F. M. Orem, president; Archie J. Orem, vice president; S. D. McLain, secretary and treasurer.

The stockholders voted the abolition of the former bylaws of the company and adopted new ones in their stead. They also voted to levy an assessment of Leen, per share on the capital stead.

of I cent per share on the capital stock of the company, to clean up all out standing indebtedness.

#### Idaho Gold Discovery.

A Denver dispatch says: Gold dis-A Denver dispatch says: Gold discoveries near the headwaters of the Salmon river in Idaho presage the opening of a new mining district, which may rival any heretofore discovered. Specimens of extremely rich ore, said to have been found in this region, have been brought to this city by T. M. Howell, a former Denver newspaper man, one of the ploneeers of the Cripple Creek district and a well known prospector. One piece of float, sawed in twain, revealed a streak of almost pure gold haif an inch thick, and assayed twain, revealed a stresk of almost pure gold half an inch thick, and assayed at the rate of 3.645 ounces a ton. The ore is a rusty sugar quartz, mixed with iron, that looks more like coal cinders than obenomentally rich rock.

Mr. Howell said that the ore was found near Yellow Jacket creek, one of the tributaries of the Salmon river, along which many mitlions of dollars worth of placer gold has been found. The district is 125 miles from the near-est railroad station, Red Rock, Mont., over which hundreds of persons passed going to Thunder mountain.

"I believe that the find," said Mr. Howell, "goes a long way toward solv-

"I believe that the find," said Mr. Howell, "goes a long way toward solving the problem of the source of the placer gold of the Idaho streams,

"Idaho produced aver \$200,000,000 of placer gold, yet there has been comparatively little gold quartz mining in that country. This ore is remarkably free milling, and while entirely different from the white quartz which abounds throughout the monutains of Idaho, is clearly associated with these veins.

## Today's Metal Quotations: | FORTUNA MINES OF BINGHAM

Manager Sidney Bamberger Has Decided to Install Machine Drills Soon.

#### OPENING OF KEYSTONE LEDGE.

The Winnebago Vein to be Explored Mine Now Shipping Thirty Tons Daily.

At the Fortuna mines in Bingham the campaign of development is being carled steadily forward by Manager Sidney Bamberger and the results being obtained are of a very gratifying character, so much so that it has been decided to justail a complement of machine drills. Negotiations have been spened with the management of the Bingham Consolidated company for the surchase of air from the Dalton & Lark compressor plant. There is little doubt but that an arangement of this find will be made with the Bingham Con., thus removing the necessity of the Fortuna company going to the expense of installing its own plant.

Manager Sidney Bamberger came in from camp last night, and to a "News" representative today stated that the drift being run on the Keystone vein has been more than satisfactory

vein has been more than satisfactory and that it contains a nice showing of six per cent copper ore. Shipments are now being made at the rate of 30 tons of ore per day.

For some time Manager Bamberger has had a desire to open the Winnebago vein at depth. This vein shows some very encouraging values near the surface, and Mr. Bamberger expresses the confidence that in opening it lower down shipping ore will be encountered. This is to be done by means of a crosscut from the Keystone workings, which will give a stoping back of anywhere from 800 to 1,000 feet.

#### UNCLE SAM MEETING.

Shareholders Will Gathet in Annnal Session June 5.

Sion June 5.

The annual meeting of the Uncle Sam Consolidated Mining company has been called for the company's offices in this city on Menday, June 5, at which time a board of directors will be chosen to serve during the coming year. That the management of the company will be prepared to make a good showing to the stockholders there is not the slightest doubt. The physical condition of the mine is reported to be quite gratifying, while the financial statement will make a good showing.

#### U. S. MINING CHANGES. Manager Fitch is Making Room for Men Of His Own Selection.

There has been a rearrangement of

There has been a rearrangement of forces in the offices of the United States Minig company. Yesterday Chief Clerk O. E. Carey and his asistant, James E. Lynch, retired, and their places have been filled by Thomas Carmichael and Ambrose Nord, respectively. It is rumored that other heads have been delegated to fall and that there will be a general cleaning up and men installed who will come into the United States household through Manager Fitch's own selection. Messrs, Carmichael and Nord came to this state about 60 days ago from the Michigan copper country where they had state about 60 days ago from the Michigan copper country where they had previously been associated with Mr. Fitch, who served one of the big copper companies there as its manager.

To the credit of Messrs, Carey and Lynch it can be said that the; have both served the United States company faithfully and well. Their competency has never been questioned and in testimony of this, Manager Fitch paid them a fitting compilment upon their timony of this, Manager Fitch paid them a fitting compliment upon their retirement. But they were victims of those circumstances brought about of-tentimes through the transfer of man-

#### THE BUTLER-LIBERAL Installation of New Machinery in Pro-

gress at Bingham Mine.

At the Butler-Liberal mine in Bing-ham, the work of installing the new compressor and hoisting plants, ordered compressor and holsting plants, ordered some time ago, is in progress.

Owing to the company having no ground of its own for a waste dump at the mouth of the tunnel, Manager Jacobs found it necessary to hoist all waste to the ton of the shaft, while the ore mined will be taken out through the tunnel. When the new equipment is all installed the Butler-Liberal will be in excellent shape to carry on operations in the future.

#### Appointed Acting Manager.

R. W. Foster, who has served the Sevier Consolidated Mitting company in Plute county, as superintendent, has been appointed acting manager during the sickness of Manager H. C. Law-

#### Garden City Officials.

Special Correspondence. Prove, May 2.—The Garden City Min-leg company held its annual stockhold-ors' meeting here yesterday, and the following officers and directors were tollowing officers and directors were chosen: Jonathan Buckley, president; B. H. Buckley, vice president; J. W. Buckley, secretary and treasurer; A. C. Hatch, E. J. Ward, Jos. A. Bean and George Buckley. The empany owns the properties generally known as the Bickley mine in Rock canyon.

#### CONCENTRATES.

Frank B. Cook expects to leave tomerrow for Goldfield.

The Uncle Sam Con, has two cars of crude ore in the market today. Manager Bradley of the local Allis-Chaimers house is in Buigham today, Manager Louis S. Cates of the Bos-ton Consolidated mines is in the city

William Ochs has returned from a trip cast, where he has been on mining

H. M. Crowther, manager of the Con. Alta mines, is in the Little Cottonwood district today,

Messrs. Hanchett and Bettles of the Newhouse staff returned from Beaver county this morning. J. B. Mahoney and Mark Hopkins of the Potosi mines at Gold Springs, Nav., have arrived in the city from camp.

Victor C. Heikes, in charge of the lo-cal offices of the United States geologi-cal survey, has returned from a trip into Idaho.

The ore and buillon settlements reported late yesterday by McCornick & Co., were as follows: Crude ore and concentrates, \$28,200; base buillon, \$38,-700

Work has been started up on the property recently acquired by Messrs. Miller and Scott, consisting of five mines situated about one-half rile southeast erly from town.- Ploche Record.

The \$15,000-a-ton Shoshone ore, which is arriving from Builfrog is being stored in tents near the ice plant, where it will be under guard until enough has arrived to fill two ears, when it will be forwarded to the Murray smelter at Salt Lake—Las Vegas Age.

A report comes from St. Mark's hos-pital telling of the critical condition of Captain Henry C. Lawrence, manager of the Sevier Consolidated mine in Piute county , who has been a patient in that institution for several weeks. The attending physician, it is said, gives out little hope for his recovery.

Manager Henry Catrow of the Ohlo Copper company operating in Bingham, was in camp yesterday and brought back the news that the showing in the drift being run on the 400 level shows better values than ever. Within a few days a cross-cut will be started from the main working tunnel to the west to open up o sulphide Vein.

Engineer James J. Burke returned this morning from a trip to Lander, Wyoming, where he succeeded in landing a contract for the construction of a 300 K. W. power and lighting plant which is not only intended to supply the town of Lander with light but will also furnish power and light to the mines of the South Pass ming district.

The O'Meara-Lynch company recently purchased the group of four claims composing the holdings of the Tonopan composing the holdings of the Tonopan Comstock Mining company, and will organize a new company, to be known as the Tonopah Common Mining company, to operate the property in connection with the seven claims embraced in the Table Mountain group, belonging to the O'Meara-Lynch company. It is understood that the Tonopah Comstock received \$60,000 for its holdings.—Tonopah Miner. Tonopah Miner.

The Jim Butier Mining company has been compelled to cease work in the west drift on the Valley View vein from the Valley View shaft on account of bad air, but the east drift on the 440 level to the Stone Cabin is still being pushed and is in good shipping ors. A crossout has also been started north from the Wandering Boy shaft to strike the vein from which the old Fraction company extracted some high grade ore. Tonopah Miner.

Drifting on the big Midway ledge on the 435 level continues in both directions, the drift to the west being out 100 feet and the drift to the east being out 150 feet. The values are being maintuined in both faces. Work is progressing in the upraise 50 feet west of the crosscut and also in the winze in the east drift, 75 feet from the crosscut. About 100 tons of high-grade ore is being sacked weekly, and it is all being taken out in the course of development, iso stoping having been done as yet.—Tonopah Miner.

The ore shipments over the Tonopah railroad this week aggregated 2,226 tons, of which 123 tons came from Goldfield, says the Miner. The shipments are divided as follows: From Tonopah, Tonopah company, 1,258 tons; Tonopah Extension, 275 tons; Montana-Tonopah, 298 tons; Midway, 18 tons; Beimont, 170 tons. From Goldfield, Goldfield Ore Sampling company, 121 tons; Connor & Steinheimer, two tons.—Tonopah Miner.

Steinheimer, two tons. Tonopan Miner.
Senator George S. Nixon, D. H. Peery
and George Wingfield have purchased
the Denver Annex claim that adjoins
the Denver at Rhyolite. This property
carries the continuation of the Denver
ledge. The claim has two strong flasure veins. The consideration for the sure veins. The consideration for the purchase was \$100,000. The property pans gold from one end to the other. For the past four days the gentlemen have had prospectors on the entire claim. They sampled and assayed it thoroughly on the croppings. The good showing was the reason that led to the purchase. They believe they have as good a property as the Denver.—Gold-field Sun.

PRODUCE. CHICAGO.

CHICAGO.

Chicago, May 2.—Despite higher prices at Liverpool sentimer! in the wheat pit here today was rather bearish. Predictions of rain through the greater part of the wheat belt formed the principal source of weakness. July opened 4 to 8c higher at 834 to 834, but sold off later to 814,0824. Minneapolis, Duluth and Chicago reported receipts of 168 cars against 168 a year ago.

Higher cables and smaller receipts than estimated created a firm tone in the corn market. July opened 4 to 8c higher, at 464 to 464. The price settled back to 464.

July oats opened unchanged at 12,074, lard was up 24 at 7.25 and ribs were up 10 to 124c, at 7.15 to 7.174.

Wheat No. 2 red. 86765; No. 3 red. 856 21; No. 1 northern, 25767; No. 2 northern, 25677; No. 2 northern, 2568 21, No. 3, sept. 866, No. 2, Spring, 88785.

Corn—No. 2, 49; No. 3, 487484.

Oats—No. 2, 207,304; No. 3, 258,230.

Later July advanced to 84 closing % higher at 834.

Corn—July advanced to 474 and closed at 454, a net advance of 16c.

Bankers Are Gathering.

New York, May 2 .- Bankers from va-

New York, May 2.—Bankers from various parts of the country are gathering here to attend the annual meeting of the executive council of the American Bankers' association at which a place for the next convention of the association will be chosen. It is stated that Washington will be the selection. The sessions will begin tomorrow.

F. G. Bigelow's name appears on the printed lists of members of the executive council. One of the members stated, however, that the former Milwaukee banker is no longer a member of the association.
