CONGRESSIONAL.

SENATE.

Deficiency Appropriation Bill.

WASHINGTON, 26.—Ramsey introduced a bill to provide for the payment of postage on printed matter, &c., referred. It is the same bill as reported recently from the House postage committee.

The Senate resumed consideration of the deficiency appropriation bill, and on motion of Sargent an item was inserted, appropriating $200,000 for the expenses of the national bank note printing bureau for the present fiscal year; an amendment by Logan, appropriating $3,000 for a pedestal for a bronze statue to General Rawlings was agreed to; also an amendment appropriating $7,862 to reimburse Jas. L. Fisk, of Montana, in charge of the overland expedition, for a deficiency in the appropriation for that service. The bill was then reported to the Senate and all the amendments made in committee agreed to, including that striking out the section prohibiting that any officer of the government expending any money in excess of the appropriations made by Congress, or to involve the government in any contract for the future payment of money in excess of such appropriation. The bill was then read the third time and passed.

The House Centennial Exposition bill was then taken up in committee and the proviso, reported by the committee on appropriations, that the United States shall not be liable, directly or indirectly, for any expense attending such Exposition, or by reason of the same, was agreed to, and the bill was reported to the Senate.

Edmunds moved to strike out the proviso just adopted in committee of the whole. He said it placed the government in the attitude of inviting foreign nations to the Exposition, and making them pay the expenses; the motion was rejected, as also a motion by Hager, to strike out the words, "under the auspices of the U. S." The bill then passed, 25 to 17. Sargent and Hager, the only Pacific Coast Senators present, voted in the negative.

Windom, from the committee on appropriations, reported back the Indian appropriation bill, with various amendments. The most important one provides that all bidders for Indian contracts of over $5,000 dollars, must deposit a certified check of five per cent. of the amount of the contract as security for entering into and the execution of the same.

The confiscation bill was taken up.

A message was received from the President, transmitting the correspondence of the State Department in regard to the claim of Brazil, in connection with the case of the ship *Caroline*.

The Senate then proceeded to the House of Representatives to attend the obsequies of representative Mellish, and on returning the chamber adjourned.

HOUSE.

Internal Revenue—Funeral Ceremonies of Mellish.

WASHINGTON, 26.—Dawes opened the debate, and congratulated the House on the gradual extinction of the deficit of eleven millions, found at the opening of the session, and said that at the end of the fiscal year there would be from five to seven millions to be carried to the sinking fund. The pending bill made no material changes, and it disturbed values as little as possible.

Burchard moved to amend the proviso to the first section so as to provide that the act shall not apply to silken goods, which have, as a component material, ten per cent., or over, of wool or worsted, instead of twenty-five per cent. as provided by the bill. After debate he withdrew the amendment and offered another, to insert the words—"Cotton or flax" before "wool or worsted," in the proviso, which was agreed to. The motion to strike out the proviso was rejected.

The second section fixed the duty on still wines in casks at forty cents a gallon in bottles, and a dollar and a half in the case.

Foster, of Ohio, moved to make the rate in casks fifty cents a gallon.

Kasson opposed and Beck sustained the amendment. He said it would not decrease importation, and would add over a million dollars to the revenues.

Luttrell moved to make the tax sixty cents a gallon.

Dawes opposed any advance over forty cents, as tending to exclude cheap wines from the country, and leave the market entirely to Ohio and California.

Luttrell's amendment was rejected, and after further debate Foster's, making the rate fifty cents a gallon, was agreed to.

Cox moved to strike out the item taxing hops ten cents a pound; rejected, as was also the motion of Ward to reduce the duty to five cents; the present rate. The committee rose.

Butler, of Massachusetts introduced a resolution, providing that in the case of the death of a Congressman his compensation shall be paid his heirs up to the date of the election of his predecessor, whose pay shall then begin.

The House then took a recess for the preparation of the hall for the funeral of Representative Mellish. The obsequies were conducted by the chaplains of the two houses, in the presence of the Senators and Representatives, and the family of the deceased. At the close of the ceremonies the Senators returned to their chamber and the House adjourned.

EASTERN.

Appropriations for the Navy Yards, &c.

WASHINGTON, 26.—The committee on appropriations have agreed to recommend the following appropriations for the navy yards: Pensacola $250,000; League Island $300,000; Mare Island $250,000; Norfolk $50,000, and for each of the other yards half a million.

The committee on expenditures in the department of justice report accounts of the property kept, and most of the money properly kept and expended, but a portion of it has been improperly spent, as in the case in most other departments, in the unnecessary adornment of rooms, in the purchase of Christmas presents for subordinates or others, and recommend that the practice be discontinued. The committee are not agreed as to the propriety or legality of the government furnishing horses and carriages for the heads of the departments for official business, but agree that such horses and vehicles should be used only on official business, and that the expenditure of large sums should not be tolerated, and that the purchase of portraits out of the contingent fund should be stopped, and that as small as the sums involved are, they are evidences of extravagance and should not be tolerated when the people are so heavily burdened with taxation. They also recommend that supplies for the department of justice should be advertised for, and contracts given to the lowest bidder.

The President has appointed W. C. Howell, of Ashtabula, Ohio, consul at Quebec, and Abram G. Hoyt, receiver of public moneys at Santa Fe, N. M.

Delano to Succeed Richardson.

It is the impression in official circles that Secretary Delano will succeed Secretary Richardson, though the report has not positive authority.

BRUNSWICK, 26.—The faculty today, suspended one hundred students of Bowdoin, for refusing to drill.

The Wisconsin Railroad War.

MADISON, Wis., 26.—By request of Governor Taylor, Attorney General Sloan has prepared an opinion, which will be published to-morrow morning, on the constitutionality of the act regulating railroads. It is an elaborate document, and will present in an able manner the legal points involved in this controversy. He quotes largely from decisions of the State and federal courts. It will strengthen the determination of the people to enforce the law and to subjugate powerful monopolies. Still further suits have been brought and more will be brought against the railroads.

More Help Needed.

NEW ORLEANS, 26.—Mayor Wiltz, to-day, telegraphed to the mayors of the principal cities, urging the necessity of further contributions for the aid of the Louisiana sufferers, stating that the contributions of cash and provisions had been less than a hundred and eighty thousand, while a million was needed.

Mill River Investigation.

NORTHAMPTON, 26.—In the Mill River disaster investigation to-day, farther testimony was given to show the unsafe character of the dam.

ITALY.

Government Defeated—The Pope Recovered.

ROME, 26.—The Italian government met another defeat to-day in the chamber of deputies.

The Pope has nearly recovered from his recent illness.

TIDINESS.—Next in importance to the habit of self-help we would place that of personal tidiness. We do not care to guess how many American men and women sit down to breakfast every morning with their toilets half made, the men without collar and cravat, the women with unkempt hair, and the children resembling the parents in dress as much as in feature. "But you see there are so many things to do in the morning—stock to feed, cows to milk, fires to make, milk to skim, children to dress, breakfast to get—that one can't spend much time in fixing themselves up." All very true; but one doesn't go round barefooted in the morning, or without washing face and hands, because a habit the reverse of all that has been formed. "My hair is combed in the morning for all day before I leave my chamber," said an elegant housekeeper the other day, and she keeps no girl, and we couldn't help thinking the happiness her husband must have had, just in the one particular of seeing her every morning for twenty years with smoothly combed hair and neat linen collar opposite him at the breakfast table, and of the order and cleanliness in the household of which that one little item was an index. That "cleanliness is next to godliness" should be early and deeply impressed on every child, and it should be taught to shrink from uncleanness and untidiness as it shrinks from vice.—*N. Y. Tribune*.
