MINING, BUSINESS AND STOCKS.

AMONG THE STOCK BROKERS

Daly Was Active During This Morning's Call.

HIGHER PRICES BID FOR IT.

Daly-West Did Not Participate in Regular Sales—The Trading Done Among Other Stars.

Daly was again the attraction of this morning's call of the mining exchange. It seemed to be in demand and the pit contained buyers who were willing to bid up for it. The stock opened active and strong. The first sale was registered at 3.32½, at which price a board lot was taken; another lot was offered at the same price, seller 30, and promptly snapped up. The bidders then jumped up to meet an offering at $3.42½, which was followed by other leaps which landed the stock at $3.60. The bidders then relaxed and the close registered $3.51 bid and $3.57 asked. May Day was taken at 16⅞. Daly-West did not participate in the sales of the regular call; but 12 shares were transferred at $39.90 on the open board. The stock was offered at $40 at the close with $39.35 bid. Wabash hung around 28 cents. 3,200 shares exchanging. California remained unchanged, while Century did likewise and sold at 90 cents.

The closing quotations and sales posted were as follows:

EDITOR LYNCH HERE.

Speaks About Conditions at Ely, Nevada.

Editor J. M. Lynch of the Ely, Nev., Miner, is in the city today. He was in the camp at the time of the recent tragedy, but states that the excitement has subsided. The New York and Nevada Copper company's mines are still closed down on account of the labor troubles. Work is being pushed along vigorously, however, at the company's new smelter at Keystone. Supt. Traylor and J. K. Gaskell, who are alleged to have done the shooting on the day that the Miners' union men made the attack upon them, were released upon bonds of $5,000 and $2,000 respectively. Traylor and Gaskell were both in Salt Lake last evening on their way east.

Of the recent strike in the Sapho mine, Mr. Lynch speaks very enthusiastically. A 3½ foot rein of gold ore was encountered which, it is claimed, will run close to $40 to the ton. Aside from this a copper vein has been opened which runs well up in values.

Strike in the Galena.

Manager Harry Joseph stated this morning that he had received word from the Galena mine of Fish Springs that the miners had encountered a new ore body on the 700-foot level of the mine. He has not been advised of particulars.

Mr. Turner Returning.

A cablegram has been received in the city that Manager G. B. C. Turner of the J. I. C. mine of Park City, is now upon the Atlantic on his way home. He has been in Scotland since the early part of December.

Ad Concentrates.

VISITED THE MIZPAH LEDGE

Salt Lakers Come Home Greatly Pleased With Tonopah.

THEY WILL RETURN SOON.

J. W. Langley and E. H. Mead Get Interested in District—Both Enthusiastic Over Future of Country.

Among the arrivals from the west this morning were J. W. Langley and E. H. Mead, who have been making an exhaustive examination of the mines of Tonopah and the surrounding districts. Both gentlemen came home greatly delighted with their observations; so much so, that they are likely to return to the bonanza camp almost any day and clinch some bargains in mining property which seem particularly inviting to them.

Mr. Langley said soon after he reached his Second South street office this morning:

"We visited Toonpah and the surrounding camps of Gold Mountain, Lone Mountain and Ray, and I must say that it is the greatest mineralized country that I ever saw. It is simply astonishing; and some of the assays we got fairly make a person dizzy. Yes, it is a wonderful country, and I expect to go back again."

Mr. Langley brought back a fine specimen of ore from a property which he investigated. It carries very high values in silver.

In the Gold Mountain district, Mr. Langley states, several properties are about to commence shipping.

The recent strike in the Montana-Tonopah, he stated, is looked upon as being one of the most important events of recent date.

JIM BUTLER INTERVIEWED.

Discoverer of Tonopah Displays His Characteristics at Carson.

Jim Butler, the discoverer of Tonopah, is a very common place man. He detests stylishness. Ordinarily he would have little to do with a person coming before him donned in the height of fashion. He likes to wear plain clothes, typical of the early day westerner, and he also likes to see others do the same.

Butler's every-day-in-the-week suit, is good enough for him on Sunday and when he attends any important social function, or takes a trip over to San Francisco, which he does not infrequently, he can be seen with that same every-day suit of clothes, and his head covered with a familiar white hat.

Last week Butler was in Carson City, having been summoned there to attend court, as a witness in the case in which the Salt Lake-Tonopah and the Tonopah company, were the principals.

Butler was interviewed by a reporter of one of the papers while there. Those who know him well, can read what he had to say with considerable satisfaction. He said:

"Tonopah is the leading camp of the state today, but every mining camp is coming to the front. Nevada has a way of dealing with people that makes friends that never want to leave it. Today Neveda is the only free state in the union. Let a stranger come to Nevada and he receives decent treatment. If he shows up in overalls he is as welcome as if he wore a boiled shirt. Take California today, and unless a man comes with recommendations and fancy clothes he is not wanted. In this state every man is on an equality, and if he gets down in his luck, he can always find some one who will help him over the fence and see that he gets a square meal.

"I put in some time in Los Angeles. It's a town of graft. For six months the town lives on the tourists and the other six months the people live on each other. Nevada don't do business that way. She is grafted on by other states and never gets tired of the game. Nevada is all right. Her mines are now attracting the attention of the world and more people are looking for a chance to get in that at any time in her history. Every mine that is developed helps the state as well as the district where the work is performed. Tonopah proves this theory."

DEEDS ON THE WAY.

The Montreal Will Soon be an Important Copper Producer.

The Montreal group of mines, located adjoining the Old Hickory, near Milford, will probably soon become the property of the Majestic Copper company. Word has been received in Salt Lake by cablegram that the deeds to the property have been executed at the offices of the Glasgow & Western Exploration companyin Scotland, and that they will be forwarded on the first steamer sailing towards this side of the Atlantic. They are made out subject to the orders of President A. B. Lewis, of the Majestic company.

The territory includes about 300 acres all told. The consideration will reach a sum approximating $200,000 for the property.

The Montreal will make an important producer of the Beaver copper belt.

TONOPAH'S FIRST MILL.

Experimental Run Proves to be a Splendid Success.

That the problem of milling the low grade ores of Tonopah will soon be overcome there is no longer any room for doubt. The operators of the camp have been doing some experimenting in the past few months, and there are no longer any obstacles in the way as far as water is concerned. The sinking of wells in the valley below the town, it is claimed, will develop a supply sufficient for all needs.

It is gratifying to note what the Tonopah Miner has to say about the experimental run made at the Osborn mill, the first built in the camp. It says:

"The recent experimental run of ore at the new mill is said to have resulted successfully and has so encouraged its projector, Walter Osborn, that he has decided to put three shifts at work, and keep the mill in steady operation. The first clean-up will be made in a day or two, and the product, a big gold and silver brick will be put on exhibition in one of the Main street stores.

To Examine the Manhattan.

Manager W. A. Parish of the Majestic Copper company left Milford this morning for Pioche, where he will conduct an examination of the Manhattan properties.

MINES IN OLD CAMP OF ALTA.

Greater Activity Anticipated in District This Year.

COLUMBUS CONCENTRATOR.

Preparations to Build it Will Soon Be Under Way—Some Splendid Assays—Other Mines.

As development work progresses in Alta, the indications for greater activity in that camp in the spring becomes more apparent. In every part of the old district where the mines are being explored an improvement is shown.

Within a very short time the Columbus Consolidated company will begin preparations for the construction of a concentrating mill and before the year closes, it is not at all improbable that others will follow.

The Columbus mine is opening up into a bonanza of no small importance, consequently the future for that property seems very bright.

Manager Tony Jacobson, who returned from one of his regular inspection trips a few days ago states that developments made recently in the main tunnel are of a very encouraging nature. A five-foot vein has been penetrated by this tunnel; the vein contains principally low grade ores, but it is mixed with stratas of a higher grade product. The tunnel has not yet reached the objective point, however. It is figured that it will have to be driven full 180 feet further to intercept the main fissue, where the big ore reserves are located. Assays taken from the five-foot vein gave returns of 21.7 per cent copper, 110 ounces silver and $4.13 in gold. Ore taken from the winze being sunk on another fissue cross-cut by the tunnel, gave assay returns of 6.5 per cent copper 41.1 per cent lead, 81.40 ounce silver and .83 gold.

The Columbus company is operating with a force of 22 men.

Among other properties in which development work is being energetically pushed, are the Oxford, in Peruvian Gulch; the City Rocks, in Albion; Black Bess, and Kennebec. That the latter will do some extensive exporatory work this year there is no reason to doubt. This company has the largest territory of any of the operating company's in the district, its ground extending over the mountain well into Big Cottonwood canyon.

WATER NEAR MILFORD.

An Abundance Found at Depth of 237 Feet.

The sinking of an artesian well for water near Milford by the Majestic Copper company, has demonstrated that water is not a lacking quantity in that section.

At a depth of 237 feet, a flow equal to 540 barrels per day has been struck.

The well is to be continued to the depth of 500 feet. A six inch pipe was used to the present, but hereafter a 4-inch pipe will be used.

Censure for Machinery Men.

At a meeting of the directors of the New York Bonanza, held yesterday afternoon, the members took occasion to cast a vote of censure upon the machinery house, which contracted to equip the mine with a hoisting plant. The equipment was to have been delivered, Manager Wilson states, by the first of the present month.

The board took an adjournment until the 28th inst.

Improvement at the York.

The management of the York mine of Bingham reports a decided improvement in the condition of the west drift in that property. It is now penetrating a highly mineralized lime formation, indicating it is said, the near approach to an ore body.

MINING CONCENTRATES.

R. G. Legg is in the city today.

Three cars of Tonopah ores are in the local market today.

Taylor & Brunton reported the arrival of 15 cars of ore this morning.

The ore and bullion settlements made yesterday afternoon amounted to $80,100.

The Ben Butler mine of Bingham has been closed down pending a settlement of litigation.

Frank Ish has been appointed general manager of the Tonopah North Star mine at Tonopah.

The arrivals by stage in the camp of Tonopah last week numbered 108 and the departures were 66.

The annual stockholders' meeting of the Blackbird Copper company will be held on the 27th inst.

The Longfellow mine in Red canyon district, Nev., has been sold to Cleveland, O., parties for $3,000.

Concentrates from Senator Clark's Ophir-Hill mine are coming quite regularly. Eight cars are in today.

A bank has been established at Silver City, Ida., which speaks something of the growing condition of that camp.

A few more men have been put on at the Addie mine and some fine ore is being taken out.—Silver City Nugget.

Fred Butler, formerly foreman of the Chainman mine of Ely, Nev., has arrived in the city with his family and expects to make their future home here.

Manager C. J. Rader and Treasurer Ball of the Annie Laurie Mining company, accompanied by W. F. Snyder of the Western Exploration company, departed this morning for Kimberly.

W. S. Srown, accompanied by his son Arthur H. Brown, the latter of the Con. Mercur mine, have returned from a trip toCherry Creek, Nev., where they went to look over conditions at the North Mountain property.

On account of the rapid growth of the camp, a seven day a week mail service has been inaugurated into Tonopah. The Carson and Colorado Railroad has also improved its train service.

Joseph Holland has given an option on his Joseph mine, on the northeast point of Florida mountain, to parties who promise to make the first payment on the property Feb. 1. The price named for the propery and the names of the parties have not been made public.—Silver City (Ida.) Nugget.

Charles E. Maunder returned Friday night from San Francisco, where he had been for a couple of weeks negotiating with a syndicate of San Franciscians for the sale of a group of claims in the Liberty district. The deal was closed last week, and the purchasers will organize a company.—Tonopah Miner.

WARLIKE NEWS DEPRESSED STOCKS

Venezuelan Situation Had Bad Effect on Market.

DEALINGS ON SMALL SCALE.

Traders Offered Everything Because Of Feeble Demand—Much Hesitancy in Selling Movement.

New York, Jan. 22.—Wall Street: The Venezuelan situation was the cause of weakness in London, which was reflected at the opening here. Declines ran to ½ in some of the leading active stocks and in Manhattan and Brooklyn Transit there were losses of a point. The dealings were on a small scale. Selling became more urgent. Traders were prompted to offer stocks down on account of a feeble demand. Colorado Fuel lost 2¾ and recessions ran from 1 to 1½ in leading members of the principal groups, including the trunk lines, coalers, Grangers, Pacifics, Southern and specialties.

There was as much hesitancy in pursuing the selling movement as the buying and there were indifferent rallies before noon.

Bonds were irregular.

Prices made some further recoveries but dealings were of insignificant proportions. St. Louis & San Francisco moved up 2¼ and Commercial Cable fell 1¾.

MONEY AND BONDS.

Money on call, steady at 4¼ per cent. Prime mercantile paper, 5@5½ per cent.

Sterling exchange, steady with actual business in bankers' bills at 4.86¾@4.87¼ for demand, and at 4.83¾@4.84 for 60 days. Posted rates, 4.84½ and 4.87½@4.88; commercial bills, 4.82@4.84.

Mexican dolairs—37½.

Government bonds, steady; refunding 2s regular, 109; refunding 2s coupon, 109; 3s regular, 107; 3s coupon, 107¾; new 4s regular, 134½; new 4s coupon, 136½; old 4s regular, 110; old 4s coupon, 110; 5s regular, 103; 5s coupon, 104¼.

Bar silver—47.

LIVE STOCK.

Faster than any other route. "THE OVERLAND LIMITED," equipped with Palace Sleeping Cars, Buffet Smoking and Library Cars (with barber) and Dining Cars, meals "a la carte." LEAVES SALT LAKE CITY AT 12:50 p. m. DAILY. The Limited Fast Mail leaves Salt Lake every evening at 6:00. First class equipment, including Free Reclining Chair Cars. The Chicago Special leaves at 7:00 a. m. For tickets and reservations apply to ticket agents, or address C. A. Walker, Gen'l Agent Chicago & Northwestern Ry., 206 S. Main St., Salt Lake City.

TO THE BIG HORN

That's the place to go this spring—The Big Horn Basin of Wyoming—contains thousands of acres of land just open for settlement. Irrigation is successfully carried on, and splendid crops assured.

A copy of our Big Horn Basin folder free on request.

Burlington Route

R. F. NESLEN, General Agent,
79 West Second South St.,
SALT LAKE CITY.

Saponifier.

Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household uses. Beware of counterfeits. The success of this article has induced unprincipled parties to imitate it. None genuine unless Pennsylvania Salt Manufacturing Co., Philadelphia, is stamped on the lid.

Ask your grocer for it and take no other.

TAKE The Overland Limited VIA UNION PACIFIC OVERLAND ROUTE WORLD'S PICTORIAL LINE

Wives of great men
All remind them,
E'er they leave for morning's goal,
The important task assigned them,
Is to order "That Good Coal."

BAMBERGER,

The Man on Meighn St.
