

[illegible]

LYON'S KATHARON.
Lyon's Katharon is an invigorating tonic vegetable preparation positively free from any mineral or deleterious substance. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Katharon properly.

EVENING NEWS
Wednesday, March 14, 1877.

PRICE OF GOLD.
Extracted daily by Denver National Bank.
SALT LAKE CITY, MARCH 14, 1877.
Buying at \$1.0375; Selling at \$1.05.

Local and Other Matters.

THERMOMETER 70 degrees F. in shade at 1 p. m. to-day. Fine, few clouds.

Write Only On One Side.—In writing for the press, write on one side of the paper only. It is very convenient to the printer to have copy "written on both sides of the paper." Write legibly, especially names and dates.

Get Them.—A bunch of keys knocked up near this office.

From Cache.—Bishop William B. Eaton, of Cache Valley, is in the city, on his way to Conference.

Immigrants.—A party of three emigrants, from the branch of the Church at Canton, Illinois, arrived in the City on Saturday evening.

Burial.—The funeral services of George Pratt, who was killed by a snowslide in Little Cottonwood cañon, were conducted to-day at his residence of the parents of the deceased, in the 19th Ward.

Hubbard Nokes.—We state, for the benefit of the gentleman who has made inquiries some time since regarding the whereabouts of Mr. Hubbard Nokes, that he resides in Springville, Utah County.

Going To-morrow.—Besides the other Church authorities heretofore mentioned as about to leave for St. George, Elders John Taylor, Orson Pratt, Lorenzo Snow and Joseph Smith will start south to-morrow morning.

A Home Product.—Matthews & Co. are manufacturing an article of pouring soap for cleaning wood-work, cutlery, copper and tinware; it is an amalgamation of soapy substances with a very fine native brick material.

Gone South.—This morning a squad of soldiers, of the Fourteenth Infantry, left the City for Camp Cameron, near Beaver, having been ordered there, to be present at the execution of John D. Lee, which has been fixed to take place in the 23rd inst.

Home Again.—Hon. George Q. Cannon, Utah's Delegate to Congress, arrived home from Washington last night. He was met and entertained by a party of friends and relatives, by whom he was escorted to his city. The many friends of the honorable gentleman will be pleased to learn that he is in excellent health.

Postponement of Meeting.—The meeting appointed to be held at the ceiling of Front, Brigham Young, on Wednesday evening, March 14th, is postponed for the present. Due notice will be given of the next meeting.

DANIEL H. WELLS, Chairman.
D. MCKENZIE, Sec'y.

Death of Madame Le Vert.—Our readers will read with regret the notice of the death of Madame Le Vert. The lady, with her daughter, it will be recollected, passed through this city a year or two ago and the Madame gave a lecture in this city. As a brilliant society and literary lady of years ago, Madame Le Vert was widely known in both hemispheres.

Painful Operation.—About noon to-day, a difficult and delicate operation was performed on Mr. Horatio Hancock's little son, about two and a half years old. Being afflicted with cancer in his left eye, the organ had to be removed. Dr. Stanley, of Salt Lake, performed the operation, assisted by Dr. Conant, of Ogden. It was accomplished skillfully and successfully, the little fellow enduring the operation with great fortitude. He is in good condition, and has excellent prospects for recovery.—*Ogden Journal*, March 13.

The Lecture.—The lecture on "Language," by Prof. T. B. Lewis, under the auspices of the Harvard Institute, last evening, was well attended, and listened to with great interest by the audience. Bro. Lewis is a good speaker, and his effort last evening was gratifying success. The lecture was a history of the English language, from its origin to the present time, and the lecturer's description of its powers and the influence of those who can wield it so happily was clear and forcible, and was greeted with applause. A unanimous vote of thanks was tendered him at the close.

P. O. S.—“Fair Play” writes:—
“In regard to the tobacco nuisance at the Post Office, clerks do not monopolize the blame. It cannot be very pleasant to them who, as inveterate smokers, coming to enquire for letters, poke their noses into the inquiry window and find a clerk in the room with the strong perfume they emit from their mouths.”

Benefit Entertainment.—The entertainment given at the Seventh Ward School-house, last evening, for the benefit of the family of Miles Williams, was numerously attended by the many friends of Mr. Williams, who were very liberal in their appreciation of the programme of songs, recitation, instrumental solos, and a comedy.

“Naval Engagements,” presented by Mesdames B. Carrington and Camilla Cobb, Misses Helen Kinnell, Kittie Heywood and Minnie Horne; and Messrs. D. McKenzies, John C. Graham, B. B. Young, J. Carrington, H. A. Heywood, J. B. Emery, J. T. Caine, Jr., H. B. Wells and H. G. Whitney, and Union Glee Club.

Returned Missionary.—This afternoon we were pleased to receive a call from Elder William McLauchlan, who returned home yesterday from a mission to New Zealand. He left for that portion of the globe on the 3rd of November, 1875, in company with several other Elders. He commenced his labors at Canterbury, in company with Elders John Rich, F. W. Hurst and C. C. Hurst, and also Thomas Steed, who had preceded them to New Zealand, and whom they met on their arrival. While there twenty-three were added to the Church by baptism, but a general indifference prevails throughout the Island to the principles of the gospel, or any other religion in fact.

Elder Job Welling, who had been laboring in Australia, and Elder Thomas Steed both returned yesterday also.

Elder McLauchlan, who is in excellent health, states that the prospects for further increase to the Church in New Zealand are much improved, and that he enjoyed his mission very much.

City Council.—The Council met last evening, Alderman Spiers in the chair.

Petition of Louis Eohn, bankrupt, asking a reduction in the amount of his City taxes from \$38 to \$75; referred to the committee on claims.

Petition of W. J. Hooper and others, asking that Third East Street, between Second and Third South Street, be placed under repairs; referred to the committee on streets and alleys.

A remonstrance from residents of the 15th Ward against the granting of the petition of the Continental Oil and Transportation Company, who have asked for the privilege of establishing an oil depot immediately south of the railroad depot. The remonstrance was read and referred to the committee on streets and alleys.

The committee on public grounds to whom was referred the petition of F. J. P. Pascoe, asking for a dedication to a certain tract of land north of the Warm Springs, recommended that the petitioner have the privilege of quarrying rock from a portion of said land during the pleasure of the Council, at an annual rental of \$5, provided it did not obstruct, interfere with or blast within five feet of a road fifteen feet wide, to be surveyed across said land, east of the present quarry. The recommendation was adopted.

The committee on streets and alleys reported adversely upon the petition of the Continental Oil and Transportation Company, against the granting of which the residents in the locality remonstrated, as stated above; report adopted.

The auditor's report for the quarter ending February 28th was read and referred to the committee on finance.

Report of the supervisor for the quarter ending February 28th, referred to the committee on claims.

Bill of W. Hyde, for boarding City prisoners during February, \$257.70; allowed.

On motion, the annual rental required from Morris & Evans, for the privilege of quarrying rock north of the Warm Springs, was reduced from \$25 to \$5.

The committee on streets and alleys were instructed to take into consideration whether it is advisable to grade Second West Street.

The Council adjourned till next Tuesday evening, at 7 o'clock.

Correspondence.

Blue Glass vs. Rays of the Sun.
SALT LAKE CITY,
March 13th, 1876.
Editor Deseret News:

As a therapeutical remedy for diseases, Gen. Pleasanton and Commodore Goldsborough, eminent scientists, have made some very interesting demonstrations of the effect of the blue rays of the sun as a stimulant, tonic and appetizer.

While these eminent men have been pushing their experiments and demonstrations of the effect of the blue rays, other great men have been examining other rays. Dr. Poncey, an eminent Italian physician, and the celebrated astronomer, Father Secchi, have also demonstrated the effects of the sun's rays acting very energetically upon the brain according to the color of the ray brought to bear upon the head and body.

“In a room lighted with blue and the walls painted of the same color, a lunatic was confined, afflicted with the utmost depression. At the end of three hours he was found sitting and smiling. In another room with blue rays and walls, another lunatic, of a most obstreperous nature, recovered his calmness in the space of an hour. A third lunatic, who had passed a day in a violent colored chamber, was pronounced so well that he was allowed to leave the asylum, and continue perfectly rational.

“In a room lighted with the sun's rays men not idle. They have demonstrated the effects of the yellow rays of the sun. A patient was placed in a yellow room or chamber, and after a short time, under the influence of the yellow rays of the sun, suffering from a very confident small-pox. After being placed in this room a few

housely suffered but little inconvenience from that dreadful disease, and was not so much as marked or pitted.

From the above facts and demonstrations it will be perceived that the different parts of the sun produce varied physiological effects upon the human system; therefore they should be used with as much wisdom and judgment as any other therapeutic treatment. The blue rays, as it appears, act as a stimulant and tonic; the red and violet rays act more especially as a nerve and an abster of inflammation and fever, and the yellow rays act as a general healer.

Again, photographers have demonstrated the effects of the rays of the sun passing through varied colored glass, that their pictures will print, but thoroughly under the influence of the blue rays as they will under the white, but under the influence of the yellow rays nitrate of silver will scarcely change for a great length of time.

Finally, for the benefit of the poor and persons at a distance removed from places where they can procure colored glass, let me say it has been demonstrated that the rays of the sun can be as perfectly divided by pasting over windows colored paper that has been saturated with the nitrate of silver transparent; or if they prefer they may use transparent paint or any concentrated water color mixed with glycerine, with the same effect as colored glass.

D. M. CROCKWELL, M.D.

For the benefit of the public, will other papers please copy!

Sickness—Spring—School, etc.

NEWCOM, Cache County,
March 9, 1877.

Editor Deseret News:

There have been several cases of sickness lately, mostly among children.

A wedding has also just taken place between Mr. D. Nelson and Miss E. Parsons.

Our worthy Bishop is to be opening before us, but some are suspicious that she will play the coquette with hoary-headed Winter.

Our worthy Bishop and President, Bro. Wm. F. Littlewood, is as personable and unclouded as ever, and we feel that that we have such men as Bros. Brigham Young, Jr., Wm. E. Preston, and Bishop Littlewood to rally around.

Our Sunday School, day school, and Y. M. M. I. are successfully operating.

I believe the papers, including the *Deseret*, are published as usual, some regularly to hand, and in these important and exciting times are hailed as friends, whose presence could ill be spared.

Respectfully, "ITEM."

Hard Times—Weather—Health—Schools—Literary Association—Ladies' Societies.

MINNEVILLE, March 6, 1877.

Editor Deseret News:

Although surrounded with mining camps, money is very scarce. The hard times seem felt here some, though we have no one in distress for want of food, for which we feel thankful.

The farmers are sowing their grain. Though we have very little snow in the mountains, and we are in the tail end of the creek, the late steady rains have encouraged us some.

The hard dry winter has brought us a share of coughs and colds, which the present fine weather is making.

The health of the people is generally good.

We have had two day schools in operation this winter, which have been attended by 100 pupils. The school, under the presidency of Elias H. Blackburn, is also well attended. There is some talk of building a new school-house, which is much needed. Our meetings are well attended, and in this winter, being now seated, also an addition to our stand of a rostrum, besides a fine new chandelier.

We organized a Young People's Literary Association on the 15th of January, 1876, with the following officers—President, Solomon Walker, Vice-President, W. Goodman, Secretary, John T. Casper, and number some fifty members of both sexes.

We had a pleasant visit from Bros. Young and Hardy, April 30th, and gave us some good words of advice and encouragement. Our worthy Bishop, James McKnight, and his counsel give us their aid in good counsel and encouragement, and a very marked interest in our midst.

A Ladies' Relief Society under the presidency of Sister Zabrackie, and also a Young Ladies' Benevolent Society, under the presidency of Sister M. Lee, both, do a deal of good, and are a great help to the Saints of this place.

From your brother in the gospel,
JOHN T. LAZENBY.

An economist tells how to make bread from wood fire. It is said to be easy enough to make the bread, but the trouble comes when you begin to eat it.

HIGHEST HONORS

AT THE
UNITED STATES
Centennial Exposition
World Exhibition,
1876.

CABINET ORGANS & PIANOS

Unanimously assigned the
"FIRST RANK"

IN THE
SEVERAL REQUISITES
of such instruments

The MASON & HAMLIN ORGAN CO. have the honor to announce that the Organs of their manufacture have been unanimously assigned "the FIRST RANK" in the SEVERAL REQUISITES of instruments at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY CABINET INSTRUMENTS OF THIS GENUS AWARDED THE FIRST RANK. This is after the severest competition of the world makes before one of the most competent juries ever assembled.

They have also received the MEDALS, both as first known and second class makers, and have been awarded all articles deemed worthy of recognition by this it will be easy for many makers to advertise that they have received "first medals."

The difference in cost of materials and their comparative excellence, as recognized in the Reports of the Jury from which the following is an extract:

"THE MASON & HAMLIN ORGAN CO.'S cabinet Organ and Harmonium shows instruments of the FIRST RANK IN THE SEVERAL REQUISITES OF SUCH INSTRUMENTS. Its tone is sweet, smoothness and equal distribution of tones, scope of expression, resources and variety of quality, freedom and quickness in action keys and bellows, with thoroughness of workmanship, combined with simplicity of construction."
(Signed by all the Judges.)

The Mason and Hamlin Organs are thus declared to rank first, not in one or two particulars only, but in the SEVERAL REQUISITES of such instruments, and are therefore the ONLY ones assigned this rank. The Organs of no other maker were mentioned by the jury as being so good as those of the Mason & Hamlin Cabinet Organs. They have formerly been awarded the highest honors of every kind, and have been repeatedly and severely criticised in hundreds of newspapers, combined with similar honors and prizes.

FIRST MEDALS
PARIS, 1867; VIENNA, 1873; SANTIAGO, 1876;
PHILADELPHIA, 1876;

and have thus been awarded highest honours at

Every World's Exposition

at which they have been exhibited; being the ONLY American Organs which have ever obtained ANY Award at any exposition with best of merit, and are the ONLY European World's Exposition.

These Organs are elegant, well adapted to all styles of music, and are exhibited at the CENTENNIAL; elegant no cases in great variety. Prices very low compared with best material and workmanship. Organs sold for cash on installment, and by instrument, and they are always warranted to give entire satisfaction to every reasonable purchaser or rent money.

Calder & Careless,
General Agents,
Salt Lake City.

Mark These Facts!

The Testimony of the Whole World.

"I had no appetite; Holloway's Pills gave me a hearty one."
"Your Pills are marvellous."
"I want another box, and keep them in the house."
"Dr. Holloway has cured my headache."
"I gave one of your Pills to my babe for cholera morbus, and she was cured in half a day."
"Your box of Holloway's Ointment cured me of nodes in the head. I rubbed some of your Ointment behind the ears, and the nodes have left."
"Send me two boxes; I want one for myself, and one for my wife."
"I enclose one dollar; your price is ten cents per box, and send me three boxes for five dollars."
"Let me have five boxes of your Pills."
"Let me have three boxes of your Pills by return mail, for Chills and Fever."
I have over 100 such testimonials, but what want of space compels me to conclude.

For Catarrhs, Discharges, and eruptions of the skin, this Ointment is more valuable. It does not kill external diseases alone, but penetrates with the cream secreted by the pores of the skin, and cures internal diseases.

HOLLOWAY'S PILLS invariably cure the following disorders of the Kidneys.—In a disease affecting these organs, whether they secrete too much or too little water, or on the action, become consumptive, inflamed, or gravel, or with nephos and pains settled in the loins over the regions of the kidneys, these Pills will cure, and do so according to printed directions, and the Ointment should be well rubbed into the neck and back at bed time. This treatment will give almost instantaneous relief in all other maladies where failure has failed.

For Stomachs Out of Order.—No medicine will so effectually improve the action of the stomach as these Pills; they remove all acidity occasioned either by its too full or too empty state, soothe the inflammation of the liver and reduce it to a healthy action, and give food and nourishment to the system, in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases: Ague, Anemia, Bilious Complaints, Bile, Dropsy, Dysentery, Erysipelas, Female Inflammation, Gout, Gravel, Hemorrhoids, Headache, Indigestion, Intermittent Fevers, Liver Complaint, Measles, Nephritis, Pleurisy, Rheumatism, Retention of Urine, Scrophulous or Polypus of the Neck, Stone in the Bladder, Stricture, Syphilis, Typhoid Fever, Worms of all kinds, Weakness, Skin eruptions, etc., etc.

Beware of Counterfeits.—None are genuine unless the signature of J. H. HADDOCK, agent for the United States, surrounding the name of Dr. J. C. HADDOCK, is present. No reward will be given to any one who reports a counterfeit, unless he can prove the detection of any party or parties counterfeiting the medicines or sending the same under false names to be returned.

"Sold at the manufacturing of Professors and Dispensaries, and at all respectable druggists and dealers in medicine throughout the civilized world, and at prices so moderate as every body can afford to take."

There is considerable saving by taking the large bottles.

R. K. HADDOCK, for the purchase of patients in every disorder are addressed to send him, 115 Liberty St., New York.

BY BUYING A BOTTLE, the best means of obtaining the cheap and reliable medicine prepared by Robinson and Co. have saved the nation for thirty-five years, and every patient takes the life-saving medicine.
