TO INCREASE TEACHERS' PAY.

School Year to be Lengthened—To Investigate Irregularities in
Bridewell's Pay Rolls.

The board of education approved the estimates presented by the committee of teachers and school work last night for the coming school year. The amount required to conduct the schools is \$738,000 which is an increase of \$87,000 over last year. This will give the teachers a small increase in salary and the school term will probably be increased another week. In this amount is also figured the sum necessary to pay interest accruing on the bond issue and to establish a sinking fund which was not figured in any previous estimate. The amount is made up as follows:

For support and maintenance of schools \$623,000
For payment of interest on bonds 42,000
For sinking fund necessary to be collected 15,000
For purchase of school sites and erection of school buildings 58,000

Total \$738,000

Last year the appropriation for teachers was \$300,000 so that an increase of \$40,000 will be distributed among them. The teachers' contracts will cover a period of 34 weeks this year to be divided into two semesters of 19 weeks each. A method has been established to make an equitable division of salary into 10 equal installments. It was decided to allow regular compensation for holidays only that fall on school holidays. This will cut out Christmas and New Years. The superintendent was authorized to secure a suitable place to hold the high school commencement exercises. June 4 was set apart as Field day for the public schools.

Matheson Thomas introduced a resolution to investigate the irregular payrolls of George M. Bridewell, superintendent of buildings. The resolution was passed and will be taken up at an early date.

COLORADO SENIORS COMING.

Thirty-seven students of the senior class of the Colorado state school of mines of Golden, Colorado, are expected to reach Salt Lake City in a few days, in company with their professors. They have already started on a trip under the direction of the mining camps of Utah and Montana. They will also inspect the leading smelters of the state. While here they will be entertained by the mining and engineering students of the Utah university.

UNIVERSITY NEWS

Editor George Roberts of the junior number of the Chronicle, has selected the following staff: Arthur Taylor, Robert Goodwin, Emma Pondleton, Dave Varner, Roy Grosebeck, Nora Schuckels, James Allen, Frank Johnson, Bryan Tontz and Dennis Raybould. The issue is expected to be out May 10, and editing of all the matter will be done by the staff named above.

Prof. Reynolds' talk at the meeting of the Scribblers' club last evening was very much enjoyed by the members and a number of friends who were present. His subject was "The Irish spirit in modern English literature." A number of readings from "Tales and Legends" by Hyde also formed part of the evening's entertainment.

Announcement is made that the girls of "The Order of the Glean" will give a theatrical performance entitled "In Hades," next month. The "pure food law" is designed by the Government to protect the public from injurious ingredients in both foods and drugs. It is beneficial both to the public and the conscientious manufacturer. EDY'S Cream Balm, a successful remedy for cold in the head, nasal catarrh, hay fever, etc., containing no injurious drugs, meets fully the requirements of the new law, and that fact is prominently stated on every package. It contains none of the injurious drugs which are required by the law to be mentioned on the label. Hence you can use it safely.

SOCIAL AND PERSONAL

The largest affair of yesterday was the dancing party given by Mr. and Mrs. Wellington E. Lake at their new home, about 150 being present. The rooms were beautifully decorated, the reception hall in white and green, carnations being about the room in vases, and ferns and amulix festooning chandeliers, pictures and mantels. The library was in red, carnations being used with red shaded lights, and the diningroom in yellow, with daffodils for the flowers. The Hawaiian Troubadours furnished a program of vocal and instrumental music, and a feature of the evening was a theatrical supper.

Uncalled-for Suits

\$12.50 to \$20.00 for Uncalled Tailor Suits.

Daniel's Daily Talk: No. 215

The spring rush is on. We are making more suits than any two other tailoring houses in Salt Lake. We have a large number of out-of-town trade.

We have a large number of uncalled-for suits which are bargains. They are well made. Probably your size is in the lot.

These extremely low prices will run for ten days.

I make suits to order. My customers are not only in Salt Lake, but many well-to-do men in small towns and cities in neighboring states depend upon me for their tailoring.

This week I am making fine all-wool tailored suits to order at \$25 and \$30.

WITNESSES TELL ABOUT HARRIMAN

Government's Suit to Dissolve
Merger Brings Out Spicy
Testimony.

BABCOCK IS A REAL SPORT.

So Says Mr. Severance of the Department of Justice—Eccles on Lumber Rates.

The examination of Stephen M. Babcock, commissioner of traffic of the Commercial club traffic bureau, was concluded before Special Examiner S. G. Williams in the hearing of the suit of the government in the alleged merger of Harriman lines at the United States court room yesterday afternoon. Mr. Babcock told of the rate competition formerly existing in the territory and of complaints received by the officials of the Denver & Rio Grande regarding rate cutting. These complaints, the witness said, came from J. C. Stubbs, a Harriman traffic official, who at the time was located in California, and who, the witness said, "was no saint on the question of rates." Mr. Babcock, in answer to a question, said it would have done no good to make complaint of the cutting of rates by the Union Pacific. Considerable amusement was created in court by the designation of the witness by Mr. Severance as "a real sport" regarding the complaint question.

DAVID ECCLES CALLED.

David Eccles, president of the Summit Valley and Hood River Railroad companies in Oregon and the Utah Construction company in Utah, was the last witness called. Mr. Eccles told the court something to regard to lumber rates, and how the Harriman interests had increased the rate from a point 65 miles east of Portland to Nevada points from 40 to 45 cents per 100 pounds. The 5 cents extra was arbitrary from Hood River to Portland. In answer to a question as to why the rate was raised and the route changed from over the Short Line to the Southern Pacific or Shasta route, Mr. Eccles said he supposed it was for the reason that the Southern Pacific wanted the long haul. Formerly the route was over the O. R. & N. the Oregon Short Line and west to Nevada, over the Southern Pacific, and then the rate was only 40 cents.

TELLS OF RATE WAR.

In connection with the Shasta route, Mr. Eccles told of a rate war between that line and the O. R. & N. A summer rate of \$5 between Portland and San Francisco by water was given by the O. R. & N. steamship lines, the rate including berths and meals. The Shasta route put on a rate of \$5 by rail from the same point to San Francisco, including a tourist berth.

Mr. Eccles told of the building of the Utah Pacific road by himself and A. W. McCune. The road extended 66 miles between Milford and Udena, and was built on a grade originally made by the Oregon Short Line with steel and rolling stock purchased from the same road. After the road had been in operation for two years, and an agent of the Clark road approached Mr. Eccles with a proposition to buy the Utah Pacific, the Oregon Short Line took up an option it held on the purchase of the road and took it over. This was in 1901.

The hearing then adjourned until 10:30 this morning.

DELANO FOR PRESIDENT.

Rumor That Walsh Man May be Placed at Head of Western Pacific.

Chicago, April 27.—Reports from Kansas City are that F. A. Delano is to be elected president of the Western Pacific. This is in line with Mr. Delano's resignation as president

of the Pittsburg Terminal company. The Western Pacific will be opened from Salt Lake to San Francisco September 1. Mr. Delano is now president of the Wabash, with headquarters in Chicago. He is one of the best known operating railroad men in the country and was for many years vice-president of the Burlington.

USING JAPANESE TIES.
Western Railroads Importing White Oak from Forests of Japan.

San Francisco, April 28.—The growing scarcity of American timber suitable for railroad use has induced one of the largest Japanese importing companies to introduce Japanese white oak as a desirable foreign species to take the place of the American oak for railroad purposes. Several of the western roads have already purchased a large quantity of the Japanese white oak to be used in replacing worn out ties along their lines of way.

The increasing cost of all railroad ties has naturally led the railroad companies to desire to prolong the life of the species of wood used, by preservative methods, and only recently an application was made to the United States forest service to conduct experiments at their Berkeley timber testing station to determine the value and life of the Japanese oak timber when properly treated.

This application brought up the interesting point as to whether or not the forest service would be allowed to undertake experiments with foreign species of timber, inasmuch as the act under which these experiments are carried on specifically requires that only American grown timbers shall be treated. The forest service has found it necessary, owing to pressure of other work, to decline to undertake this experiment, and therefore this point was not considered. It is estimated that there is a large supply of this white oak in Japan and should its use for railroad purposes prove satisfactory, it is probable that a large market will be created for it in this country.

AMUSEMENTS

Orpheum—Jolly Fanny Rice is the headliner on this week's bill at the Orpheum while "In the Subway" and other features contribute towards a good evening's entertainment.

Colonial—The Burgomaster, went to another big house at the Colonial last evening. Next week Daniel Sullivan of "The Parish Priest" fame appears in his new play "The Matchmaker."

Hungarles—Mary Hall and a splendid company of players are making a strong and palpable hit in "Charm" at the Hungarles this week.

Grand—Another big audience greeted McQueen at the Grand last night and from the applause and laughter which greeted the performance all apparently got their money's worth.

Lyric—The Lyric closes its doors Friday night as the lease expires May 1. In the meantime one of the best bills yet presented there is drawing the crowds.

"Students Not Allowed To Drink Coffee—"

Coffee—

"A few cents will buy a very fair lunch at the 'New Tech. High,' Cleveland.

"But Students are not allowed to drink coffee without a doctor's prescription."

Good evidence that thinking people—educators and others—know coffee is a thing to be used with some risk.

Well posted people now understand why coffee-drinkings should be regulated by the doctor. It contains a drug—caffeine—which is the cause of numerous ails, little and big, some becoming serious.

Postum is right for "School Lunch-Rooms," as it contains no coffee or other harmful substance.

Postum is made of clean, hard wheat, skillfully roasted—including the bran-coat wherein Nature has grown the valuable phosphate of potash. This organic, "vital" salt is necessary to rebuild wasted brain and nerve cells.

School children use up an enormous amount of brain and nerve cells—they're growing fast.

Let School children have Postum with good cream or milk. They like it when properly brewed and a week's time will tell a tale of good nourishment.
