VESUVIUS WIPES OUT ITALIAN TOWN Before

People Compelled to Leave Bosco Trecaz, no Trace of Which Remains.

PANIC HAS SPREAD TO NAPLES

Breathing Becomes Momentarily More Difficult Because of Poisonous Fumes and Smoke,

Naples, April 8.-The hope that Mount Vesuvius was becoming calm was dissipated today, when the volcano became more active than ever.

The panic has spread to Naples. Two strong earthquake shocks which shattered windows and cracked the walls of buildings were experienced today. The

buildings were experienced today. The entire population rushed to the streets in terror, many persons crying "The Madonna has forsaken us; the end of the world has come."

No trace remains of Bosco Trecaz, a commune on the southern declivity of the mountain, where up to 48 hours 16,000 persons lived, and Torre Annunziata, on the shores of the Gulf of Naples, one mile to the southward, is almost surrounded by the invading lava and has been evacuated by its 30,000 d has been evacuated by its 30,000 abltants. The people were brought to Naples by trains, street cars, mili-tary carts and steamships. Similar means of transportation are being emloyed to bring away the people from forre del Creco. The police and carbiforce del creece.

The second of the standard of the second of the secon

of San Sebastians, a vinage hear the observatory on the northwest declivity of Vesuvius, says that lava is approaching rapidly, and that the people are terror-stricken. They have been for nights without sleep, he says, are stitute and beg assistance be given

The work of succor is hampered owmg to delays to the railway service, which is interrupted by red-hot stones thrown to a hight of 3,000 feet falling

As yet it is impossible to count the traters that have opened and from which streams of lava have flooded the beautiful and happy land lying on the toutheast shores of the Gulf of Naples. The atmosphere is heavily charged with electricity, and now and then the flashes of lightning are blinding, while the detonations from the volcano resolutions. emble those of terrible explosions. The churches of the city were open all

Saturday night and were crowded with panic-stricken people. Members of the clergy are doing their utmost to calm fears, but the arguments go al-for naught when renewed earthguake shocks are experienced.

With the danger and horror of the situation aside, Vesuvius presents ore of the most splendid sights imaginable. The mountain of fire, whose speech is by detonation and whose acts are deuction, seems like an enraged giant termined to make the pigmies of th feel the might of his wrath. Here and there on the mountainside stand the blasted trunks of pine trees, their bare branches outstretched as though protest against the devastation the

The Duchess of Aosta, who always is be found where misery exists, is not aring herself in her efforts to alle-

short article like this.

You Go

When about to travel, if subject to headache, nervousness, dizziness, or car-sickness, take one or two doses of Dr. Miles' Anti-Pain Pills before starting. They will insure you against an attack.

There are a great many who are sure to have headache, whenever they go to church or places of amusement, or where there is any excitement or op-pression. Take them with you, and on the first indication, take a tablet and see how quickly it will disappear. To such persons Dr. Miles' Anti-Pain Pills are a great blessing. They soothe the nerves and allay irritation and excitement. "We always keep Dr. Miles' Anti-Pain Pills in our home, and find them a remerkable remedy for the relief of headaches, nervousness, etc. Two tablets never fail to stop the most severe headache, but one is usually sufficient. By taking a Pain Pill before going out to places of amusement, we find we do not have those distressing headaches that formerly come with every little excitement."

Dr. Miles' Anti-Pain Pills are sold by your drugglat, who will guarantee that the first package will benefit. If it falls, he will return your money, 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind

viate distress. Today she took several children from their weary mothers and in her carriage conveyed them to the royal palace, where they will remain until the situation brightens. The observatory was destroyed and Signor Matteucci, the director, and the employes had narrow escapes. They passed last night in the darkness, save for the frequent flashes of lightning, as the gas works and electric lighting plant also were destroyed. The restaurant of the funiclar railroad, too, has been obliterated.

Prisoners in jails on the mountain

Prisoners in jails on the mountain side went mad with terror and mutined, and were only partially quieted by being brought here. But their fears have been communicated to the prisoners here, who may rebel at any moment. The situation is critical. Breathing is momentarily becoming more difficult because of the poisonous fumes and smoke, while the hot askes which are still falling tend to make life a burder.

Contrary to expectations, the sea has contrary to expectations, the see has not shown signs of being affected by the phenomena, but fears are entertained that tidal waves may yet come, and many craft have put to sea. Visitors to Naples are avoiding the hotels and sea front, and the people living there are beginning to leave for higher altitudes.

Though there is much misery, up to the present time there has been no fa-talities, except at Portici, where an old woman died, supposedly from fright.

PREVENTED A LYNCHING.

Meridian, Miss., April 8.—The coolness of Prof. J. W. Beeson of the Meridian female college prevented the lynching of a negro who shot Branscom Farmer, a streetcar conductor, last night. Farly this morning a mob located the ...egro

at the college where he had been employed and prepared to make an attack. Prof. Beeson secreted the negro and argued the mob into dispersing by promising to deliver the negro to the police on Monday. The shooting occurred over the refusal of the negro to pay fare for a 12-year-old boy who accompanied him on the car. The conductor, it is believed, will recover

UNITED STATES TRADE RELATIONS WITH CUBA.

Washington, April 8 .- A report is sued by the department of commerce and labor on the Cuban trade says; Cuba ranks second in importance in the trade relations of the United States with other American countries. The total trade of the United States with the principal countries. with the principal countries of Amelica in the calendar year of 1905 was:
With Canada, \$203,000,000; Cub \$125,000,000; with Brazil, \$111,000,000 with Mexico, \$92,000,000, and with Ar gentina, \$33,000,000. The value of merchandise imported into the Unite States from Cuba in the raiendar year 1905, according to figures prepared by the department of commerce and labor was 195,857,856, against \$67,228,221 b was 155,357,856, against on 127 or 1903, \$31,747,220 in 1900, and \$18,357,456 in 1897, in which year our imports from Cuba touched the lowest point in the last half century. The expects the last half century. The formathe in red States to Congated \$44,569,812 against \$23,504,417 in 1903, \$26,934,524 in 190), and \$7,296,613 in 1896, in which year they were smaller than in any

in both imports an' exports the figares of the year 1905 are larger than those of any earlier year in our trade

with Choa.

S war and molasses, native) the said for its are the principal articles to thing the imports that the Finned States from tuba. The value of sugar imports in 1905 was over \$72,900,900; molasses, \$1,057,153; leaf tobacco, \$11.879,938; cigars, \$3,855,820; fruits, \$1,236,028 (of which all but \$5,803, represented the value of bananas), and iron or \$1,537,890.

The exports to Cuba include flow

ore \$1,537,890.

The exports to Cuba include flour. \$3,443,048; cattle, \$1,983,152; bituminous coal, \$1,408,776; cotton cloth. \$1,212,329; boots and shoes, \$1,586,790; lard, \$2,231,650; lard compounds, \$1,005,215; bacon, \$412,672; hams, \$468,842; pork, \$480,938; milk \$647,926; lumber, \$2,001,214. The shipment of rice to Cuba is an entirely new feature in our export trade, the total value of the rice sent to that island in 1904 being rice sent to that island in 1904 being rice sent to that island in 1904 being but \$172,707; and in 1903 but \$15, while the total for 1905 was \$845,049. By far the larger group of articles in the exports to Cuba is that of iron and

steel manufacturers, of which the total fir 1905 was \$8,484,267. While taking the fiscal year as the basis for comparison with the other American countries the report gives only calendar figures in the separate items of imports and exports, saying by way of explanation that the reciprocity treaty between the United States and Cuba began its operation practically with the alendar year, that of 190

CATHOLIC YOUNG MEN.

Plan to Establish a National Association for Them on Y. M. C. A. Lines.

New York, April 9.—A plan to establish n this country a national association for latholic young men on the lines of the foung Men's Christian association has al-Young Men's Christian association has already taken definite shape, says today's Tribune, and has the approval of Cardinal Gibbons. Archbishops Ireland Farley and Ryan, and the leading Catholic laymen of the country. John D. Crimmins, Mayor Dunne of Chicago, W. Bourke Cockran, Justice McKenna of the United States supreme court; the Countess Leary, and other wealthy Catholics have offered their aid to the movement. A million dollar trust fund has been suggested as a foundation for the movement. The plans will be thoroughly discussed in Baltimore next month at the clese of the centennial celebration of the Baltimore cathedral and a national committee formed. The

idea has been indorsed by the leading Catholic weeklies.

There would, according to present plans be a national bedy with national head-quarters, having jurisdiction ever all the branches throughout the country. Present clubs and societies would be done away with or absorbed. The movement is discussed in the calendar of the Paulist fathers issued yesterday. idea has been indorsed by the feading

GREEKS CELEBRATE INDEPENDENCE DAY.

New York, April 2.—What might be called independence day ceisbration for the 10:000 Greeks in this city, took place yesterday. April 7, 121, saw me beginning of the agitation which resulted in the independence of Greece about nine years later. The New York Greek was too busy to celebrate on Suturday, so Sunday was set aside as the day when he should meet his fellows and hear again the story of his country's strugggle for freedom.

Webster Hall was packed with partriots. There was partiote singing and then colored pictures dealing with great events in the history of ancent Greece were shown by a stereoptican, while John P. Leotosakos told about them. The ultimate freedom of all the Greeks under Turkish rule was first in his mind as he talked of the past.

JEWISH FEDERATION MOVEMENT body was set on foot yesterday at a meeting of the newly organized federation of Jewish organizations of New York state Nearly 100 societies, with a combined membership of 15,000 were presented. A resolution was adopted to establish close relations between all Jewish organizations in New York and throughout the Units States and to strive for the bitterment of the physical, intellectual and social conditions.

Ma). Kaufman Mandel le chairman of the federation. Among the other prominent men who spoke were Nissum Behar of Jerusalem, Joseph Barondess, Dr. Neussatter and A. Kipp.

A delegation to attend the pairiotic meeting to be held by the federation of Jewish organizations of the state of Massachusetts on April 18, was appointed.

BUDDHIST CELEBRATION OF BIRTH OF GAUTAMA BUDDHA.

New York, April 9.-While Christian New Aork, April 9.—White this can be come the control of the Savior into Jerusalem before his crucifixion, priests of the Buddhist faith in a house, No. of the Buddhist faith in a house, No. 62 West street, in strange robes and weird chanting, were celebrating the birth of their Savier, Gautama Buddha, 2,450 years ago. In the little Buddhist temple there were no hymns, no prayers nor other of the religious forms of the Christian faith, but the sermons preached by the Christian clergymen and by the Buddhist priests differed

It was the same message of purity, peace and forgiveness.

Perhaps 100 persons were present at the Buddhist service. For the most part they were women. In one end of the large room a small altar had been arranged, where incense burned. Everywhere were flowers. They fes-

toond the altar, the walls, the chan-dellers. Those in the little congrega-tion were admitted by a card.

Back of the improvised altar was the name of Buddha, inscribed on fine silk. Beneath this burned the incense. The services began with the entrance of the high priest with two others, who, standing before the altar with clasped hands and closed eyes, intoned a chant

hands and closed eyes, intoned a chant in their own language.

This being over, addresses were made by Swam i Abekanenda, head of the Vedanta society in New York, and by other Buddhist priests. Right Rev. Soyen Shaku was then introduced and told briefly of his life's work and said he had just returned from Washington, where he had had an interview with President Roosevelt.

ith President Roosevelt. "According to Buddhism," he said, is a serious error to seek God out-of the life, outside of this universe. I living right among ourselves and directing the course of things, accord-ing to its innate destiny. What may be called the Buddhist metaphysical chase is to recognize the reality of the ultimate reason and the imminence of this reason in the universe. The Buddhist practical faith is, cease from wrong doing, promote goodness, en-lighten the ignorant.

"Buddhist ethics are the simplest things to practise in the world. Buddhism has nothing mysterious, nothing superstitious, nothing idola-frous, nothing supernatural. Stop dofrous, nothing supernatural. Stop do-ing what is wrong, which is against the reason of things; do what ever is good, which advances the course of reason in this life, and, finally, help those who are still behind and weary of life to realize enlightenment. This is Buddhlsm in a mushell."

FOUL PLAY SUSPECTED.

Spekane, Wash, April S.-Investigations made today by Sheriff H. B. Doak and Thos. Cole confirm the belief that N. W. Cole, for 20 years a rancher that N. W. Cole, for 20 years a rancher 12 miles from Spokane, who disappeared from his cabin March 28, has met with foul play, the motive for for which was robbery. Cole's horses have not been seen since, and tracks near the little Spokane river Indicate, the officers say, that Cole was probably thrown into the stream, which at the time of his disappearance, was high and that he is dead.

RIOT IN SAN FRANCISCO.

Followed a Meeting of Socialists Held In Sympathy With Moyer et al.

San Francisco, April 8 .- A riot took San Francisco, April 8,—A riot took place this evening following a meeting of Socialists held in sympathy with Moyer and Haywood, arrested in connection with the association of ex-Gov, Steumenberg of Idaho. The meeting was held in a hall and at its conclusion an impromptu parade was started toward the business center. At Market and Karnay treats a half was Market and Kearney streets a halt was made at Letta's fountain, and one of the paraders climbed to the pedestal and placed on top of it a red banner bearing the inscription. "The Constitu-tion be damned." Another Socialist stacted to harangue the crowd when a squad of police arrived and attempted to disperse the gathering. A fight fol-lowed and about 10 of the crowd were landed into the patrol wagon with wounded skulls, the police having freely used their lcubs. The crowd then dis-

ing described as a "falsehood worthy or Baron Munchausen."

HUGHES ON MORAL LESSONS OF INSURANCE INVESTIGATION

York, April 9 -- Charles E Hughes, counsel for the legislative insurance investigating committee, and former Mayor Low spoke yesterday before the Society of Ethical Culture on "The Moral Lessons of the Recent Insurance Inves-

Scelety of Ethical Culture on "The Moral Lessons of the Recent Insurance Investigation."

Mr. Hughes said that the most striking result of the investigation was its vindication of the sound moral sense of the people. Public sentiment, he said, had domanded the investigation and made imperative the reforms.

Mr. Hughes praised the careers of menlike Marshall Field and deplored the fact that success obtained by dishonesty and chicanery had its effect on young menlie declared that the responsibilities of trustees had been almost lost sight of, and that today men accepted such trusts as degrees from some commercial university. He asked how many insurance directors had taken any real interest in the expenditures of their corporations, or even asked or cared about the enormous sums charged as legal expenditures. In times of presperity they had supposed officers would do their duty and felt there was no occasion for close scrutiny. Had there been a little inquisitiveness, results which honest men would have felt bound to follow up would have been disclosed, and an investigation started.

Mr. Low said the use of corporate money to influence legislation would continue so long as men were elected to public office who demanded blackmall. He declared that there was no such thing as "honest graft."

ATTITUDE OF METHODIST CHURCH TOWARDS LABOR.

New York, April 2-in the couse of his sermon before the New York East conference in the New York Avenue M. E. Church, Brooklyn, yesterday, Rev. H. C. McCabe. D.D. the presiding bishop referred to the attitude of the Methodist

ferred to the attitude of the Methodist church toward labor.

Telling of the building of Solomon's temple by \$0.00 men, the bishop said that 3.-00 of these were overseers. They were the right kind of walking delegates, he said. These men werk walking delegates who saw that their companions did their proper share of the work. He would have it said that these walking delegates told the other 76,00 that if they did not join the union they dould have no hand in rearing the great temple.

"I received a letter this morning from a man who wanted to know whether the Methodist Episcopal church was a freind of labor. I want to answer that question fairly. We are the friends of labor; of every man and woman who earns his or her living by the sweat of their faqes, and anyone who is not a friend of loo per cent of the working people is not a friend of any of them. I say this for the church, because it has said nothing for itself."

Words of Praise Well-Merited

BY A WELL-KNOWN ARTICLE.

CO much has been written by the standard medical authorities, of all the several schools of practice, in praise of the native, or American, medicinal plants which enter into the composition of Dr. Pierce's Golden Medical Discovery, that in attempting to quote from the various works on Materia Medica one hardly knows where to commence, since they are so voluminous that only the briefest and most imperfect reference can be presented in a

Briefly then let us say that the "Golden Medical Discovery" was named from the sturdy little plant Golden Seal, the root of which enters largely into its composition. Besides this most valuable ingredient, it contains glyceric extracts of Stone root, Queen's root, Black Cherrybark, Bloodroot and Mandrake root.

Finley Ellingwood, M. D., an eminent practitioner of Chicago and Professor of Materia Medica in the Bennett Medical College of that city, in his recently published work on Therapeutics, says of Golden Seal root: "It is the most natural of stimulants to the normal functions of digestion. Its influence upon the mucous surfaces renders it most important in catarrhal gastritis (inflammation of stomach) and gastric (stomach) ulceration."

Many other authorities as well as Dr. Ellingwood extol the Hydrastis (Golden Seal), as a remedy for catarrhal diseases of the nasal passages, stomach, bronchia, gall ducts, kidneys, intestines and bladder. Among these, we may mention Prof. John King, M. D., author of the American Dispensatory; Prof. J. M. Scudder, M. D., in his "Specific Medication"; Dr. Hale of the Hahnemann Med. College of Chicago; Grover Coe, M. D., of New York, in his "Organic Medicines," Dr. Bartholow of Jefferson Med. College, Phila., and scores of other leading medical writers and teachers.

All the foregoing eminent authorities extol the curative virtues of Golden Seal in cases of stomach, liver and intestinal weakness, torpor and ulceration of bowels. Dr. Ellingwood recommends it most highly, "In those cases of atonic dyspepsia when the entire apparatus, including the liver, is stagnant and inoperative." He also extols it most highly in the many weaknesses and derangements peculiar to women and says, "It is a most important remedy in many disorders of the womb." Golden Seal root (Hydrastis), is an important ingredient of Dr. Pierce's Favorite Prescription for weak, nervous, "run-down" women.

But to return to the "Golden Medical Discovery" it may be said that its curative properties are not wholly dependent upon Golden Seal, valuable as it is, as other equally potant ingredients add greatly to its value and in fact are not less important than the Hydrastis, or Golden Seal.

In all bronchial, throat, lung and kindred ailments, Stone root, Black Cherrybark, Queen's root and Bloodroot, each plays as important a part in effecting the phenominal cures of "Golden Medical Discovery" as does Golden Seal. All these ingredients have the endorsement of prominent

practitioners of all schools of medicine for the cure of diseases of the bronchia, throat and lungs.

Of Queen's root, Prof. King says: "An alterative (blood - purifier) unsurpassed by few if any other of the known alteratives. Most successful in skin and scrofulous affections; beneficial in bronchial affections; permanently cures bronchitis; relieves irritations; an important cough remedy; coughs of years' standing being cured; aids in blood-making and nutrition and may be taken without harm for long periods."

Queen's root, Golden Seal root, Stone root, Black Cherrybark and Bloodroot, all articles extolled by leading practitioners of all the schools, as the very best of cough medicines, are made especially valuable when combined with chemically pure glycerine which greatly enhances the curative action of all these ingredients in all bronchial, throat and lung affections, severe coughs and kindred ailments.

Who can doubt the efficacy of such a compound, when scientifically made up, as in Dr. Pierce's Golden Medical Discovery? Who can doubt that it is a most effective remedy for the several diseases for which its ingredients are so highly recommended by the formost writers on Materia Medica ?

It is in the cure of the more chronic or lingering, persistent, and obstinate cases of bronchial, laryngial and lung affections, attended by hoarseness and severe cough, which if neglected or badly treated would generally have run into consumption, that "Golden Medical Discovery" has won the highest praise from all who have observed its marvelous control over these and kindred affections. It is no cheap compound made-up of trashy ingredients for free distribution, that curious people may experiment upon themselves as with the many fake nostrums so commonly sent out as "trial bottles." It has a forty year record, embracing many thousands of cures behind it, is sold at a reasonable price and may be found in all drug and medicine stores in this and many foreign countries.

It will be seen from the above brief extracts how well "Golden Medical Discovery" is adapted for the cure of all blood diseases, as, scrofulous and skin affections, eruptions, blotches, pimples and kindred ailments; also that it is equally good in all Catarrhal affections no matter where seated, and for all cases of indigestion, or dyspepsia, torpid liver, or biliousness and as a tonic and invigorator in all manner of weaknesses, and in nervous debility and prostration the above extracts amply show.

Much further information as to the properties and uses "Golden Medical Discovery" and Dr. Pierce's Favorite Prescription for weak women, will be found in a little booklet of extracts from standard medical books which will be mailed free to any address on request, by letter or postal card, sent to Dr. R. V. Pierce, Buffalo, N. Y.

All the several ingredients of Dr. Pierce's medicines will be found, from the reading of this little booklet, to have the strongest possible professional endorsements and recommendations for the cure of all the diseases for which these medicines are recommended. No other medicines for like purposes have any such endorsements. They are nonalcoholic, non-secret, safe and reliable.

A MOTHER'S LOVE.

WHAT IS MORE BEAUTIFUL THAN A MOTHER'S LOVE?

"Who ran to help me when I fell And would some pretty story tell, Or kiss the place to make it well,

MOTHER'S worries are many. She sometimes forgets her own bodily discomforts because of her overpowering love for the child. She becomes broken down, sleepless, nervous, irritable and feels tired from morning until night. Many mothers of experience can tell you that at such a time they have been relieved, benefited and strengthened and put into proper health by taking a prescription which their mothers had told them was the best woman's tonic and nervine to be taken at such times. Dr. Pierce's Favorite Prescription has enjoyed an enviable reputation for over a third of a century. In all that time it has sold more largely in the United States than any other tonic for woman's needs. Dr. Pierce made up this prescription from native medicinal roots without the use of a particle of alcohol and for the single purpose of curing those diseases peculiar to women and when there is a lack of womanly strength to bear the burdens of maternal duty. How few women come to this critical time with adequate strength. The reason why so many women sink under the strain of motherhood is because they are unprepared. Is preparation then required for motherhood? asks the young woman. And every experienced mother answers-"Yes." "I unhesitatingly advise expectant mothers to use Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, of Mila, Va. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Favorite Prescription." For one thing its use makes the baby's advent comparatively painless. It has in many cases reduced days of suffering to a brief few hours. It has changed the period of anxiety and struggle into a time of ease and comfort.

A DUTY WOMEN OWE THEMSELVES.

"Good actions speak louder than words," so, too does the testimony of many thousands of women during a third of a century speak louder than mere claims not backed by any such record of cures.

Miss Emma Petty, 1126 S. Olive Street, Indianapolis, Ind., Past Vice-President, Daughters of Pocahoutas, Minneola Council, also Organist, South Baptist Church, Indianapolis, writes: "For several years I suffered from female weakness, which was a serious drain on my vitality, sapping my strength and causing severe headaches, bearingdown pains and a general worn-out feeling, until I really had no desire to live. I had many medicines recommended to me and tried many, but did not get permanent relief

until I took Dr. Pierce's Favorite Prescription. In two months I was much better and stronger, and in four months I was well. Have had no more disagreeable discharge, no more pain; so I have every reason to praise 'Favorite Prescription.' I consider it without an equal for ills of women."

All the ingredients entering into Dr. Pierce's Favorite Prescription are printed in plain English on each bottle wrapper. Dr. Pierce thereby shows that he is not afraid to tell his patients just what this medicine is made of. This is not true of any other medicine especially designed for the cure of woman's peculiar ailments. The "Prescription" is also the only woman's medicine sold through druggists that does not contain a large percentage of alcohol; it contains not a drop.

As an indication of the high esteem in which the medical profession are coming to regard the several ingredients of which Dr. Pierce's Favorite Prescription, for weak and ailing women is composed, we have room here to insert only the following:

Dr. John Fyfe, of Saugatuck, Conn., Editor of the Department of Therapeutics in THE ECLECTIC REVIEW says of Unicorn root (Helonias Dioica) one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

"In Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent.'

"The following are among the leading indications for Helonias: Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys: menorrhagia ("flooding"), due to a weakened condition of the reproductive system; amenorrhoea, arising from or accompanying an abnormal condition of the digestive organs and an anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias.

MEN AND WOMEN

should have a medical book handy, for knowledge is power. They should know about anatomy and physiology. They should have a book that treats of the sexological relations of both sexes out of and in wedlock, as well as how and when to advise son and daughter. Has unequaled endorsement of the press, ministry, legal and medical professions. The main cause of unhappiness, ill-health, sickly children, and divorce is admitted by physicians and shown by court records to be the violation of the laws of self and sex. A standard work is the People's Common Sense Medical Adviser, by R. V. Pierce, M. D. Send 31 one-cent stamps for the cloth-bound book, or 21 stamps for the paper-covered volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
