New York, 29.

Secretary McCulloch's letter to the Boston merchants says it must not be expected that the monthly statement in the early part of the next fiscal year will be as satisfactory as for many months past; the general failure of the wheat crop and the partial failure of corn last year, and the slow progress in the restoration of the southern States, with reduced taxes and other causes, very considerably affect the revenue. This combination of circumstances may retard the return to specie payments, and the large issue of bonds to the Pacific railroad prevents, for a season, a reduction of the public debt, and may even render a temporary increase unavoidable. He considers that this check to our progress will lead to improvement in the revenue laws, hasten the representation of the southern States and secure greater economy in all branches of the public service.

New York, 30.

The official statement shows the arrival of 82,000 emigrants during the present year.

It is reported that all the hostile bands of Indians are on their way to Fort Laramie, to meet the U. S. Commissioners; it is expected that the difficulties in that section will be settled.

Augur's staff passed Fort Sedgewick yesterday, enroute to Fort Phil. Kearney. Detachments of infantry are camped on the north side of the Platte opposite Fort Sedgewick; they will leave for Phil. Kearney in a day or two. Other detachments are stationed at different places on the route.

An Omaha dispatch says a train of nine wagons, which left North Platte on Tuesday, was attacked between Beauvais and Julesburg, and all the stock stolen. Another train on the south side of the river was attacked about the same time, and all the stock captured. No lives were lost nor freight disturbed.

A Fort Sanders dispatch, 20th, mentions the murder of three whites near Big Laramie station, on the 18th. The Indians had stolen 150 head of cattle, and 100 were retaken by a party of ranchmen.

The reports of Gen. Pope and Col. Shepard, concerning the Mobile riot, are published; Gen. Pope declares that the Mayor took no steps to prevent the riot, nor the Chief of Police either; that men in sympathy with the rioters are unfit for their offices, and he removed them for criminal misconduct. He emphatically affirmed that another riot will not occur while his successor holds the office. Col. Shepard was present at the meeting and says that Judge Kelly's speech was dignified and patriotic; he fully acquits him of projecting any disturbance.

A Montreal special says the rumors of a Fenian invasion create no excitement here; the people laugh at the reports, and look upon them as a very transparent attempt to hoax the Canadians and cheat us out of the custom duties.

The new dominion of Canada will be organized with Mr. Belleau Lt. Governor, and Campbell, McDonald, McDougall, Howland, Cartier, Galt, McGee and Langvin Ministers of State.

The Herald's Annapolis, Md., special says the adoption of a substitute by the convention, for the 24th article of the bill of rights, as originally reported by committee on the bill of rights, by the large majority of 52, fairly and clearly defines the position of that body on the question. The substitute reads: slavery shall not be re-established in this State, but, it having been abolished under the policy and authority of the United States, compensation and the consideration thereof is due from the United States. The original article simply declares that slavery shall not be permitted in the State.
