FORMAL OPENING OF S. L. & OGDEN RY.

Two Hundred Prominent People
Banqueted—Senator Bam-
berger Congratulated.

WEBER STAKE EXCURSION.

D. A. Smith Auto Goes Over Embank-
ment—Solos Acquitted—Wed-
ding Bells—News Briefs.

Ogden, Aug. 5.—The Salt Lake & Ogden railroad line between the two cities was opened yesterday under the auspices of the Ogden Press club. Although the attendance was not what was expected, those who attended spent a most enjoyable day at the ever popular resort.

The first trains of the morning leaving Ogden were not very heavily loaded, but the 2 and 6 o'clock trains carried large crowds. The roadbed was in good condition and the schedule was maintained throughout the day. When the ballasting and proper lining up of the roadbed is completed a fast schedule will be maintained.

The road between Ogden and the Lagoon was decided upon about a year ago. The first opinion was that the road at that time he has prosecuted work vigorously. Although he has struck many obstacles in entering Ogden, the plucky senator has persevered and finally won out. The first opinion was that the road at that time he has prosecuted work vigorously. Although he has struck many obstacles in entering Ogden, the plucky senator has persevered and finally won out.

Through the road is completed to Ogden the improvements will not cease. The roadbed will be widened, concrete girders will take the place of wooden ones, a number of grades will be cut down and within a year the line will be electrified. At Ogden and Salt Lake will be erected shops.

A rate of 50 cents will be established between Ogden and Salt Lake, and on excursion dates the rate will be \$1 for the round trip. Between Ogden and the Lagoon the rate will be 50 cents for adults and 25 cents for children for the round trip. A special excursion rate of \$1.50 for the trip from Salt Lake City to the resorts in Ogden canyon has been fixed. This includes street car transportation in Ogden and the auto line in Ogden canyon.

The honor of opening the road was given to the city and county officials of Ogden as well as the newspapermen and ladies. Plates were laid for 200 and the menu was the best that could be procured. Following the banquet dance, which was the chief attraction, while the other features of the resort were liberally patronized.

OGDEN OFFICE:

Residence phone... 1811 Bell
Office open from 8:30 to 10:30 a. m., and 4 to 6:30 p. m.
Patrons are requested to make immediate complaints regarding unsatisfactory delivery.

Around the many tables which taxed the capacity of the cafe were grouped the leaders in business, society and political life in the Junction city. Including several of the pioneers of Utah, conspicuous among these were Lorin Farr, first mayor of Ogden, and the builder of the first house in that city, and a man who has taken a leading part in railroad building in Utah. Despite his 84 years, Mr. Farr was active and alert, and enjoyed the banquet as keenly as the youngest man there. Mr. Farr's presence at the banquet was not only a tribute to his achievements in early-day railroad building, but an admission that no celebration of the opening of a railroad in Utah would be complete without him. He has been to all of the celebrations, beginning with the first. Mr. Farr was associated with the Brigham Young building of the Utah Central railroad.

Sitting at his side was Joseph Parry, another pioneer. When Mr. Farr decided to erect the first house in Ogden, Mr. Parry was the carpenter he employed to do the work. These sturdy old pioneers, who had seen every stage of Ogden's development, were the objects of many attentions from the younger persons present.

Among the other guests at the banquet were Mayor and Mrs. A. L. Brower, President A. R. Heyward of the Weber club and Mrs. Heyward, President S. H. Brower of the Chamber of Commerce and Mrs. Brower, Rev. John E. Carver of the First Presbyterian church and Mrs. Carver, President John S. Lewis of the Ogden Lodge, Mr. and Mrs. Lewis, Judge and Mrs. H. R. Rolapp, Mr. and Mrs. David Eccles, Jr., Mr. and Mrs. D. C. Eccles, Mr. and Mrs. A. T. Wright, Prest. L. W. Shurtliff, Mr. and Mrs. C. F. Middleton, Mr. and Mrs. T. B. Evans, Supt. E. C. Manson of the Southern Pacific and Mrs. Manson, D. J. Malone, master mechanic of the Oregon Short Line and Mrs. Malone, A. T. Campbell, assistant engineer of the Oregon Short Line; Elder David O. McKay and Mrs. McKay, Judge J. A. Howell, Mr. and Mrs. M. F. Cunningham, Mr. and Mrs. J. Fred Rosner, District Attorney George Halverson and Mrs. Halverson, County Attorney N. J. Harris and Mrs. Harris, County Commissioners O. B. Madison, Frank Moore and David McKay, and Mesdames Madison, Moore and McKay; Dr. E. M. Conroy, former mayor of Ogden and Mrs. Conroy; Judge and Mrs. J. E. Bagley, Mr. and Mrs. W. G. Wilson, City Attorney J. H. Devine and Mrs. Devine, Councilmen Joseph Dana, Sam Thomas, George Wilson, John W. Austin, Dr. H. J. Powers, Dr. G. A. Dixon and Chris Flygare, and Mesdames Dana, Thomas, Wilson, Austin, Powers, Dixon and Flygare; Mr. and Mrs. Arthur Kuhn, Superintendent J. W. Bailey of the Ogden street railway and Mrs. Bailey, Sheriff R. B. Wilson and Mrs. Wilson, Thomas E. McKay, superintendent of the county schools and Mrs. McKay, William Allison, superintendent of the city schools, and Mrs. Allison; Dr. and Mrs. Condon, Mrs. Reynolds, secretary of the Weber club.

Senator Bamberger was heartily congratulated by the banqueters on the success of his indomitable perseverance in completing the Salt Lake & Ogden road in the face of the many obstacles he had to meet.

Trains on the Bamberger line leave Salt Lake at 5:45, 8:30 and 11 a. m.

and 2, 4, 6, and 8 p. m., and will arrive in Ogden at 8:15 and 10 a. m., and 12:30, 5:40, 8:45 and 11:25 p. m. From Ogden the hours of departure are: 6:30, 8:30 and 11 a. m., and 2, 4, 6, 8, 9 p. m., and the hours of arrival in Salt Lake City are 8 and 10 a. m., and 12:35, 8:35, 9:35 and 11:05 p. m.

SOLOS ACQUITTED.

The jury in the case of the city against Harry Solos charged with petit larceny which was tried before Judge Murphy yesterday afternoon, returned a verdict of not guilty, and the defendant was discharged from custody. Solos was charged with stealing a pair of pants from the lives store.

OLD WEBER STAKE EXCURSION.

Tomorrow the last general outing of the old Weber stake takes place at the Lagoon resort over the Bamberger road. The account of the fact that the Weber stake is divided into three stakes and as the stakes will probably run separate excursions after this it is expected that it will be the largest excursion ever run from Ogden to the Lagoon.

AUTO IN RIVER.

While coming down the Ogden canyon Monday afternoon at a good speed the steering shaft on the automobile of D. A. Smith broke, sending the car over the embankment into the river. At the time the accident there were in the car: Walter Smith, James Pierce and two young ladies, but all escaped serious injury. The loss to the machine will not exceed \$150.

WEDDING BELLS.

Marriage licenses were issued yesterday afternoon to the following couples: John W. Wintle and Daisy L. Stone, both of Ogden.

INCREASE IN ARMY SUPPLIES.

Major L. A. Humphrey, the United States quartermaster agent at Ogden, says that by the recent increase in the supplies that about 2,500,000 pounds per month will represent the receipts and shipments.

SMALL BLAZE.

No. 2 fire station was called out yesterday morning to 2358, Monroe avenue, where a small barn was afire. The flames were quickly extinguished. The damage will not exceed \$5.

Do it today, take a bath at Saltair.

GO TO SEATTLE.

August 5th and 6th, with the Eagles. H. S. McCann, independent phone 3002 or Bell 4083 will book reservations and furnish further particulars.

LOGAN.

CACHE COUNTY SCHOOLS.

Taft Republican Club Excursion to Saltair August 18.

SPECIAL CORRESPONDENCE.

Logan, Aug. 4.—The Cache county board of education met yesterday for a few days. The board was organized. It was decided to advertise for 500 single desks for the county schools. Janitors will be hired at the next meeting.

The Providence, Wheeler and Hyrum school districts turned over their school property to the board.

Hyrum will have 10 schools this winter. An excellent school will be at Providence and Smithfield, also Millville and Clarkston.

EXCURSION TO SALT AIR.

The Taft Republican club of Cache county met last evening and decided to run an excursion to Saltair, Aug. 18, 1908. There hasn't been an excursion this season and a record breaking crowd is expected to go from Cache valley.

Hose that throws the water on your lawn and not on your clothes at the Salt Lake Hardware Co.

MURRAY.

CAHOON FAMILY REUNION.

About 100 Participate in Banquet and Social Ball.

Special Correspondence.
Murray, Salt Lake Co., Aug. 5.—A very enjoyable reunion of the Cahoon family was held here yesterday in the First ward assembly room in which about 100 persons participated, many of them coming from outside towns. A sumptuous banquet was served which was followed by a social and dance. John P. Cahoon of this place was the prime mover of the happy occasion.

COALVILLE.

DEATH OF MRS. SAXTON.

Old Time Closes Eventful Career at 80—Stake Conference.

Special Correspondence.
Coalville, Summit Co., Aug. 3.—This place was visited by some very heavy electrical storms last week; much hay has been spoiled.

July 30 at Coalville Mrs. Matilda Dexter Saxton died of old age and general debility. She was born in England, Feb. 5, 1828, baptized March 11, 1847, came to the United States in 1858 and to Utah in 1861. She is the mother of 10 children, of whom five survive her, also 42 grandchildren and four great-grandchildren. She was a faithful Latter-day Saint. Her remains were taken to her old home in Upton, for burial, where also the funeral services were held. The speakers were Patriarch Thomas Copley, Bishop Frank Croft and President George W. Young.

STAKE CONFERENCE.

Stake conference was held here Saturday and Sunday, Aug. 1 and 2, and the meetings were fairly well attended considering the busy season. Elder Hyrum Smith, Bishop O. P. Miller and Elder B. P. Grant were present and spoke at all the sessions of the conference. Most excellent instructions were given and the meetings were greatly enjoyed by all who attended.

A conjoint meeting of the W. M. and Y. L. M. I. A. was held Sunday evening; a nice program was rendered and the visitors spoke encouraging words to the young people.

SPANISH FORK.

GOVERNMENT POWER PLANT.

Will Be Completed in Two Months—Threshing Commenced.

Special Correspondence.
Spanish Fork, Utah Co., Aug. 3.—On Aug. 1, the pleasant hum and whirr of the steam thrasher was heard for the first time this season in this section.

In this precinct there were nine births and one death during July.

RECLAMATION PROJECT.

The power plant of the government reclamation project is located about one mile from the mouth of Spanish Fork canyon, on the west side. It occupies fully one acre of ground. There are 250 hands employed some from Payson, Salem, Springfield, Spanish Fork, and adjacent settlements, a

To have a clear skin:

mile and a half up the canyon the concrete dam is built. It is 70 feet long; from the bed rock it is 36 feet high, 15 feet thick at the base, tapering to two feet at the apex. The water from this dam flows into a canal about 800 feet, then into a tunnel 800 feet, emerging out into an open canal again for about one mile, then into another tunnel 800 feet, thence in an open ditch to the power plant. The canal has a fall of 500 feet. The tunnels are nine feet high, eight wide, with one-inch to one foot slope. All tunnels are lined with concrete. The plant will be in operation in six weeks or two months, at the most.

ROBINSON.

Accident at Grand Central—Boy Loses Part of Hand.

Robinson, Juab Co., Aug. 4.—Through an accident which occurred in the shaft of the Grand Central mine last night the work will stop for a few days to make repairs.

LOSES PART OF HAND.

Harrell Young, the 7-year-old son of Mr. and Mrs. William Young, yesterday cut a giant cap and exploded it with a rock, with the result that the thumb and four fingers of his left hand were blown off. He was taken to the Thirteenth hospital and his hand dressed, and if blood poison does not set in the youngster will recover.

PINTO.

Fierce Storm of Rain and Hail in Dixie.

SPECIAL CORRESPONDENCE.

Pinto, Washington Co., Aug. 3.—One of the heaviest rain and hail storms seen here for 30 years struck the town at 5 p. m. yesterday and lasted one hour, depositing 1.44 inches of rain. The continuous loud claps of thunder and fierce flashes of lightning were awe inspiring. No doubt some damage has been done up and down the canyon in washing out dams, etc.

There has been rain every day since July 24. Previous to that date, no moisture of any account fell here since April.

The celebration of the Twenty-fourth of July was a pleasant affair.

HENEFER.

Corner Stone of New Meetinghouse is Laid With Impressive Ceremony.

SPECIAL CORRESPONDENCE.

Henefer, Summit Co., Aug. 3.—The 3rd of August will long be remembered by the people of Henefer when dedication of ground and laying of corner stones for a new meeting occurred. The continuous loud claps of thunder and fierce flashes of lightning were awe inspiring. No doubt some damage has been done up and down the canyon in washing out dams, etc.

building, when constructed, will be at lumber, is 58 by 72, outside measurement, including the wings, and will have five rooms in all for class work in Sunday school.

IMBLER, ORE.

Death of Mrs. W. R. Dredge—Splendid Crop Outlook.

Special Correspondence.
Imbler, Ore., Aug. 3.—The Imbler ward has lost one of its noblest sisters in the death of Mrs. W. R. Dredge. She was taken ill about two weeks ago and was treated for liver troubles. Last Wednesday it was discovered that she was suffering from appendicitis and was taken to the hospital at La Grande, where she was operated upon. No hope was entertained by the physicians. She passed away peacefully on the night of July 31. The remains were shipped to her old home in Preston, Idaho. Memorial services were held here last Sunday in honor of the deceased, who was loved for her loving character and her faithfulness as a Latter-day Saint. She is survived by her husband and two children.

CROP OUTLOOK.

Notwithstanding the drought of the past few months, the crops have matured very satisfactorily and promise a very fair yield. The fruit crop is unusually large, much of the fall grain has been harvested and threshing has begun in earnest.

Imbler is still forging ahead, several modern residences are under way of construction. The population has been increased by the arrival of a number of families from the Teton basin recently.

Hose—Hose—Hose—the kind that lasts and don't leak or kink, at the Salt Lake Hardware Co.

SCIENTIFIC MISCELLANY.

In his new method of operating on the organs of the chest, Prof. Ernest Sauerbrunn, of the University of Marburg, encloses part of the body in a cabinet from which the air has been partially withdrawn. By operating in a partial vacuum, added pressure is avoided. The patient breathes the outer air as usual, and there is no disturbance of the ordinary balance between internal and external pressure. The new plan has been very successful in the 12 cases in which it has been tried.

Magnetization proves to have a measurable effect on weight. The influence has been tested at a number of stations in the United States and Canada. The magnet, being placed in various directions, and the special balance used being free from magnetic material. When the south pole of the magnet was to the north, the weight was about one part in 1,000,000 more than when the position was reversed. In regions of magnetic disturbance the difference was greater, and exceeded one part in 100,000. The increase in weight on magnetization is a small second of the order of one part in 1,000,000.

The alpha particle of radioactive matter travels about three inches, according to Prof. Rutherford, its average speed being 6,000 miles a second. Its path is marked by extraordinary violence, and about 100,000 molecules are broken up giving rise to much heat, and producing positively and negatively charged ions in the process.

The largest static electric machine ever built is owned by a New York physician, and is six feet high over all, seven feet long and four feet wide, weighing 450 pounds. It has 40 glass discs, each 40 inches in diameter, of which 20 revolve while the others remain stationary. It is driven by an electric motor of one-quarter horsepower, being first excited by a small auxiliary hand machine, and at full speed may yield a spark 30 inches long and three-quarters of an inch in diameter. To fully excite the huge machine requires from five to 10 minutes, and, however, being retained for as much as 12 to 15 hours.

The new sterilizing oven of M. Berthel, a Frenchman, is designed for treating books and other easily damaged articles that do not admit of baking in an ordinary oven for destroying disease germs. It has a device for the evaporation of aldehydes, and at atmospheric pressure and below boiling point, it completely sterilizes such objects as closed books, without the least effect upon the paper or covers. Delicate bindings may be protected by a wrapper. A volume of 1,200 pages had been soiled with pus and

focal matter as far as the inner margin, but it was completely sterilized in two hours at a temperature of less than 200 degrees F.

Red lights have been proven to be visible to a greater distance than green. In recent tests on a clear dark night, a red light of one candle power was clearly discernible at one mile; one of three candlepower, at two miles; 10 candlepower, through a binocular, at four miles; and 35 candlepower, at five miles. On an exceptionally clear

night, a white light of 3.3 candlepower could be distinguished at three miles; 17.2 candlepower, at five miles.

A healthy, regularly formed brain of 22 ounces, scarcely half of the normal average, seems to have been the smallest ever recorded for an adult. It was recently found in Daniel Ryan, a New York coachman who died suddenly at the age of 46.

Saltair Bicycle Races tonight, 10c.

THE RUSSIAN BEAR IS MUSICAL.

Professor Leopold Auer, the Russian court violinist, one of the most famous of musicians, has been telling how fond the czar and zarina are of music. "In St. Petersburg," says the professor, "we have great musical activity, thanks to the interest taken by the czar in all matters of art. His majesty is extremely fond of music and specially delights in hearing playing the balalaika, which is a species of guitar with only three strings. The czarina is also a talented musician. She sings well and is a very gifted pianist. Indeed, her majesty plays the pianoforte so well that if she were in another sphere of life and became a professional she would, beyond doubt, win great fame in the world of music."

KINDNESS REWARDED.

The bishop of Norwich, one of the most genial of English prelates, delights to tell the following story against himself: Walking one day in a quiet suburb, he heard the thin, piping voice of a child crying, "Oh, please, sir, would you mind opening this gate for me?" Delighted to assist, the good bishop opened and held back the gate for the child. The latter, however, upon a closer examination, proved to be older than he had at first thought, which made him pleasantly ask why she herself could not open the gate. "Well, you see, sir," she said, with an arch smile, "the paint is wet, and I should have got it all on my hands." An examination of his own hands amply confirmed the truth of her statement.

WOMAN'S NIGHTMARE

No woman can be happy without children; it is her nature to love them as much so as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of Mother's Friend prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

Book containing information of value to all expectant mothers mailed free.
