President Diaz Tells How Prosperity Has Come to His Country.

BUSINESS FAILURES ARE RARE.

A Financial Eye on Mexico Has Brought Great Commercial and Industrial Productiveness.

The New York Journal recently dispatched W. J. Lusk, the well known newspaper man, to Mexico as a special commissioner to investigate the effects of free silver in that country and to report on the result in a series of letters to his paper. The first one is hereby published with an interview with President Diaz, the executive of the Mexican Republic and in it he tells how that country has prospered under the silver standard. Mr. Lusk's letter is as follows:

CITY OF MEXICO, Sept. 5.—What President Diaz looks upon as the effect of free silver on Mexico is given in a series of double columns by the fact that Mexico is one of the most prosperous of the great nations of the world. The reason for this is that the silver standard has been adopted under the administration of Diaz. It is the result of the fact that the silver standard has been adopted under the administration of Diaz. It is the result of the fact that the silver standard has been adopted under the administration of Diaz.

THE FOREIGN DEBT OF MEXICO. From Fortis Diaz, City of Mexico, Sept. 5, 1906.—It is not only the fact that Mexico is one of the most prosperous of the great nations of the world, but also the fact that the silver standard has been adopted under the administration of Diaz. It is the result of the fact that the silver standard has been adopted under the administration of Diaz.

Why merchants are conservative and why bank and business failures are so rare in Mexico under any circumstances. As to wages and the conditions of laboring men, under the silver standard, the wages of the laborer are higher than under the gold standard.

Heavy investments of foreign capital in Mexican enterprises have been made since the adoption of gold standard.

There is another point of view. The foreign debt of the country is payable in gold. The high rate of exchange, together with the decrease in our customs collections, have arranged to have money sent to the United States.

Can such an investment be had elsewhere? There are many well paying investments in agriculture but we do not see any one who will do our special department. Your money is not tied up for any length of time, can be drawn out any day and your money is as safe as gold.

Before going on a sea-voyage or into the country be sure and get a box of Ayer's Pills in your valise. You may not need them, but you will say that they agree with you. In a word, you are not disappointed in stove or law, while taking it. These are the testimonials worth considering.
